# INCIDENT ACTION PLAN

## SQF COMPLEX

CA-SQF-002541

P5NG2P (0513)

Sequoia NF / Inyo NF / Sequoia-Kings Canyon NP / Tule River Tribe

**SATURDAY**

## OPERATIONAL PERIOD

SATURDAY 10/3/2020 – SUNDAY 10/4/2020

0700 to 0700

<b>INCIDENT OBJECTIVES (ICS 202)</b>	<b>1. INCIDENT NAME</b> SQF Complex	<b>2. DATE</b> 10/2/2020	<b>3. TIME</b> 2200
--------------------------------------	----------------------------------------	-----------------------------	------------------------

**4. OPERATIONAL PERIOD (DATE/TIME)** 10/3/2020 - 10/4/20 0700-0700

**SQF COMPLEX - INCIDENT OBJECTIVES**

**Strategic Framework**

Implement a full suppression strategy on the Castle and Shotgun Fires. Values at risk include human safety, private property and residences, infrastructure, utilities, developed sites, facilities, Giant Sequoia groves and archaeological and cultural sites. Apply tactics that offer the highest probability of success.

**Leaders Intent**

Provide the highest level of customer service to all involved with, or impacted by, the Castle and Shotgun Fires. Ensure transparent, timely and accurate communication at all levels of the incident. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct and timely/effective communications.
- Personal safety and the safety of others, includes driving slowly, safely and defensively.
- Fatigue management by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing and practicing module of one concept.
- Effective management of incident costs by planning strategies and tactics toward a high probability of success in meeting incident objectives.

**Management Objectives**

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Reduce the threat to private property, residences and infrastructure through the application of effective suppression tactics.
- Reduce the impacts to Wilderness values by ensuring minimum impact suppression tactics (MIST) are applied. Utilize historic fire control lines, trails, streams, ridges and natural barriers when possible for control lines.
- Coordinate suppression activities with assigned incident resource advisors to minimize adverse effects to natural and cultural resources, on riparian areas, watersheds, Spotted Owl and Goshawk PACs, Fisher, Little Kern Golden Trout, Mountain Yellow Legged Frog, and Sierra Nevada Bighorn Sheep Habitats.
- Mop up as safety allows to reduce the threat of fire spread outside of containment lines.
- Conduct suppression repair activities to prevent long term damage to resources.
- Utilize suppression resources in the removal of fuel hazards in support of community repopulation.

**Control Objectives**

To prevent the fires from spreading to private property, surrounding communities, and values at risk, keep the fire:

- North of Durwood Camp and the Tule River Reservation to protect communities and infrastructure along the Kern River and within the Reservation.
- West of Toowa Range to Kingfisher Ridge to 22S05 Road to protect recreational and administrative infrastructure.
- South Hwy 198 to Lost Canyon to Whitney Meadow to limit fire growth to the north.
- East of Springville to Blue Ridge to South Fork to protect communities west of the fire.

Site Safety Plan Required  Yes  No Approved Site Safety Plan Located at: \_\_\_\_\_

# FIRE WEATHER FORECAST

**FORECAST NO:** 41  
**PREDICTION FOR:** Oct 3-4, 2020 0700-0700

**INCIDENT NAME:** SQF Complex

**UNIT:** CA-SQF  
**SIGNED:** *Phil Manuel*

**TIME AND DATE**

**FORECAST ISSUED:** Fri, Oct 2 @ 1800 hours      **Incident Meteorologist –** Phil Manuel

**WEATHER DISCUSSION:**

**\*\*\*Above Normal Temperatures\*\*\***

Unseasonably warm weather is expected through Sunday with temperatures 10 degrees above the seasonal norm...highs ranging from the lower 90s along the lower slopes between 3000-5000 feet in elevation to the mid 70s near 8000 feet. This above normal warmth will be coupled with very low humidity, minimums near 10 percent, and little or no recovery at night. Transport winds aloft are extremely light, favoring higher concentrations of smoke. However, daytime instability favors deeper mixing which supports greater column growth where there is active fire.

**SKY/WEATHER TODAY SATURDAY:** Mostly Sunny. Valley inversion lifting between 1000-1100, but expect a subsidence inversion aloft to maintain smoky conditions in Branch II and III.

**MAX TEMPERATURES / MIN RELATIVE HUMIDITY:**

<b>3000 FT:</b>	87 to 92 degrees (Unchanged) / 12 to 18% (Little Change)
<b>5000 FT:</b>	84 to 89 degrees (Unchanged) / 10 to 15% (Little Change)
<b>7000 FT:</b>	73 to 78 degrees (Unchanged) / 8 to 12% (Little Change)

**20-FT WINDS:**

<b><u>Slope/Valley:</u></b>	Winds upslope/upvalley 4 to 8 mph gust up to 15 mph in the afternoon.
<b><u>Ridges:</u></b>	Northeast 3 to 6 mph until 1000. South 5 to 10 mph 1000-1400. West 6 to 12 mph with gusts 15 mph after 1400.

**MIXING HEIGHT...9,500 FT AGL VENTILATION...** Poor in the morning, Good in the afternoon.

**TRANSPORT WIND...** South 5 mph.

**CWR (0.10")....0%    LAL....1    HAINES....5**

**SKY/WEATHER TONIGHT (SATURDAY NIGHT):** Smoky. Poor humidity recovery. Thermal belt near 6000 ft. Expect temperatures in this layer to be warmer and dryer.

**MIN TEMPERATURES / MAX RELATIVE HUMIDITY**

<b>3000 FT:</b>	63 to 68 degrees (Unchanged) / 30 to 40% (Unchanged)
<b>5000 FT:</b>	45 to 50 degrees (Unchanged) / 25 to 35% (Unchanged)
<b>7000 FT:</b>	55 to 62 degrees (Unchanged) / 15 to 20% (Unchanged)

**20-FT WINDS:**

<b><u>Slope/Valley:</u></b>	Downslope/Down canyon 3 to 6 mph. Gusts 10 mph in the deeper canyons.
<b><u>Ridges:</u></b>	North-northeast 3 to 6 mph.

**CWR (0.10")....0%    LAL....1**

**SUNDAY:** Mostly sunny. Continued smoky, unseasonably warm and dry.

**Max Temps:** 72 to 88. **Min RH:** 10 to 15%. **Winds:** **Slope/Valley:** Upslope/upcanyon 5 to 10 mph, gusts 15 mph.

**Ridge:** Northeast 3 to 6 mph until 1000. South-southwest 5 to 10 mph 1000-1400. West 6-12 mph after 1400.

**LAL: 1    CWR (0.10"):** 0% **MIXING HEIGHT:** 9,000 FT AGL **HAINES:** 5

**OUTLOOK for MONDAY Through WEDNESDAY:** Moderating temperatures and humidity, but continued dry.

**MONDAY:** Partly Cloudy. **High Temp:** 68 to 83. **Min RH:** 12-18. **Ridge Wind:** NE morning, SW afternoon 8-14 mph.

**TUESDAY:** Mostly Sunny. **High Temp:** 70 to 85. **Min RH:** 14-20. **Ridge Wind:** NE morning, SW afternoon 8-14 mph.

**WEDNESDAY:** Sunny. **High Temp:** 69 to 84. **Min RH:** 16-22. **Ridge Wind:** NE morning, SW afternoon 10-15 mph.

**\*\*Weather Observations would be greatly appreciated\*\***  
**Please text an image of your daily weather log to 540-239-8961**

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 43	TYPE OF FIRE: Wildfire
FIRE NAME: SQF COMPLEX	OPERATIONAL PERIOD: 24 HR, October 3, 2020
DATE ISSUED: October 2, 2020	TIME ISSUED: 2130
UNIT: CA-SQF 002541	SIGNED: /s/ Dennis K Burns

## INPUTS

**WEATHER SUMMARY** Continued Warm Dry and Unstable  
.Temps: Day 73-92 depending on elevation Night 45-68  
RH: Day 8-18% Night 20-40%  
20 FOOT WINDS: Day Slope/Valley - Variable 1-3 mph becoming upslope/up canyon 4-8 mph in the afternoon, gusts 15. Ridge winds S 5-10 mph gusts 15mph becoming W 6-12 after 1400hrs.  
  
Night Ridge winds N-NE 3-6mph  
  
POI 80-90% unshaded ERC 79 Above 97<sup>th</sup> percentile

## FIRE BEHAVIOR

**GENERAL:** With warm and dry conditions, expect continued active smoldering and visible flames on heavier fuels. No forward fire progression is expected and any spot fires should be easily handled by direct attack. Most of the fire continues to be in a backing alignment. All fuels are available to burn and will be receptive to spotting. Expect single and group tree torching in the denser stands of timber and brush fields in the interior. Spotting distances will be mid range 200 to 300 feet. Rates of spread on slopes will be 8-12 chains per hour with 4-8 foot flame lengths in the timber. Backing fire, multiple forward rate of spread by .3. If you see clear skies expect the fire behavior to increase as the smoke has been moderating the fire behavior.

**Branch I:** No forward fire progression expect mainly smoldering and creeping in the interior. Interior pockets of heat and snags have the potential to throw spots over established lines. Still a good amount of jackpots of heavy fuels burning interior at the Branch I II break.

**Branch II:** Most of the Branch is in a backing alignment. No forward fire progression is expected. In Div D there is some heat near the line above Camp Nelson there is a potential for rollout and the fire to burn back at itself. Div. T keep a head s up for holdover spot fires, any spots will have a slow rate of spread. Also, there is a potential for reburn in areas that weren't completely consumed during burn ops.

**Branch III:** The fire has backed down to and spotted across the South Fork of Kaweah. As of 1700 yesterday the spot was approx. 4 acres. Div. U should expect the potential that the fire will make a slope aligned run towards Homers Nose. Rock screens will slow fire spread however there is a significant amount of bug kill timber on the upper third of the slope which will increase spotting and the potential for crown runs. Expect smoke to limit air operations.

**Night:** Expect the fire to remain active in thermal belts or until the RH recovers above 25-30%. In Branch II expect the RH to drop after midnight and fire behavior to increase in the interior. No forward fire progression expected on any division.

## AIR OPERATIONS

Inversion layer with smoke will be present until at least the 1000-1100hr time period  
Do not base your plan on air they might not be able to get there.

## SAFETY

\*\*\*Fire will become active at RH% below 25% and clear skies. Slope and heavy fuels will enhance fire intensity.\*\*\*

Remember tragedies often occur on quite sections of line.

**3. REMARKS** (Safety Notes, Hazards, Air Operations Special Equipment, etc.):

1. Smoky conditions can hamper our aviation operations adhere to visibility limitations, and DO NOT be pressured into accepting a mission that you know or feel is unsafe!

2. Ensure visibility and winds are adequate to safely conduct flight operations.

3. Ensure safe vertical & horizontal separation between aircraft in smoky conditions.

4. Utilize check points and call in and out of the dips.

5. If you see a UAS on your division report it up the chain of command to Air Operations. it may or may not be a friendly!

6. Assess mission complexity and the Benefit vs Risk of the mission.

*(Terminate air operations at sunset...use last 1/2 hour for RTB. (exceptions allowed—communicate intent)*

"In the beginning of a change, the patriot is a scarce man; brave, hated, and scorned. But when his cause succeeds, however, the timid join him, for then it costs nothing to be a patriot."  
-Mark Twain

# **SQF COMPLEX**

## **Safety Message**

10/03/2020 - 10/04/2020 Day/Night Shift

### **DRIVE LIKE YOUR LIFE DEPENDS ON IT**

#### **Driving hazards that have been identified on this incident include:**

- Two-way traffic on narrow roads
- Increased traffic on Hwy 107 and 190 this weekend w/ repopulation
  - stay in your lane
  - drive slow so you have more time to react to their bad driving
- Possible ATV/UTV's, pedestrians in repopulated communities
- Excessive speed
- Variable road surfaces
- Driver fatigue
- Backing without spotters
- Driving while talking on the cell phone

#### **Steep slopes, Rocky terrain, Heavy fuel loads**

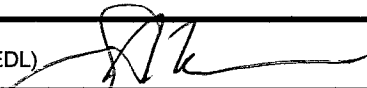

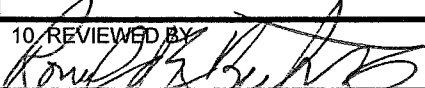

- Be concerned with footing and cross country travel.
- **Know your escape route**

#### **Slips/Trips/Falls**

- Watch for loose clothing, loose line gear, untied straps
- Improperly carried tools
- Hose lays from pumps and engines, walk escape route, familiarize yourself with obstacles
- Exposed roots, loose soil, rock slides, wet/slick surfaces
- Spacing between crew, especially in brush or loose/rolling surfaces
- Hillsides use a zig zag crossing rather than a straight descent down steep slopes
- Stepping over rocks, logs...look what's behind the obstacle
- On descents, don't hyper extend legs, don't rush or slide, slow down
- Don't fight the fall, instead look where you land

**Thought for the Day: It is better to get out five minutes too soon than five seconds too late!**

**CIIMT2**  
**Safety Team**

# INCIDENT MESSAGE BOARD

Human Resource Message

*Thought for the Day*

**FATIGUE**

Fatigue affects your physical and emotional state! It can have a negative impact on your concentration, your conduct, and speech. This can have all sorts of consequences so please make an effort to rest up and get back to your normal productive self!

*"In matters of style, swim with the current; in matters of principle, stand like a rock." - Thomas Jefferson*

Juan Silva, HRSP  
626-391-2347 or [juan.silva@usda.gov](mailto:juan.silva@usda.gov)

## *Communications*

The Communications Shop has a new phone number! Keep in touch!

**949-330-9979**

If you are from a state that requires a COVID test prior to re-entry please call the COVID information line (**949-769-0466**), or email [Nathan.sill@usda.gov](mailto:Nathan.sill@usda.gov) at least 48 hours prior to demob.

The **Demob Process** includes turning in all of your checked-out equipment (including anything from Supply and Communications), getting inspected at Ground Support (if needed according to your resource type and agency affiliation), completing a finance package, and completing the travel information on the Demob Form QR code. **If you skip a step, you will not be released from the incident!** For more instructions, see the pages related to Finance and Demob in this IAP.

## Training Specialist Message

The Incident Training Specialist will be performing duties remotely.

**ATTENTION: If you registered with the TNSP before CIIMT2 arrived (9/23), you need to re-register. Sorry for the inconvenience.**

To ensure proper documentation for your assignment:

- Scan the incident QR Code
- Go to the Training Folder
- Complete the Trainee Registration Form

At the end of your assignment:

1. *Trainee:* Complete the exit interview found in the Training Folder. Use the incident QR code to access the document.
2. *Trainer:* Fill in the Position Task Book as completely as possible for this incident.
3. *Trainer:* Complete the ICS-225 Performance Evaluation and discuss with your Trainee. Make sure it is signed by both the Trainer and the Trainee. Take a picture/copy of the ICS-225 and email it to [imt2training@gmail.com](mailto:imt2training@gmail.com)

The Training Specialist will send the training documents to the email address you provided.

For training-related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or email to [imt2training@gmail.com](mailto:imt2training@gmail.com).

## COVID-19 Reminders

*Make prevention part of your routine!*

### WILDLAND FIRE COVID-19 SCREENING TOOL

*Today or in the past 24hrs, have you had any of the following symptoms?*

#### Symptoms:

- Cough?
- Shortness of breath or difficulty breathing?
- Fever? Chills?
- Muscle pain, outside that expected for your level of exertion?
- Sore throat?
- New loss of taste or smell?
- Excessive fatigue?
- Headache?
- Congestion or runny nose?
- Nausea or vomiting?
- Diarrhea?

*\*Take temperature with no-touch thermometer, if available\**

### What to do if you are experiencing COVID-19 symptoms?

- Put on a mask if not already wearing one.
- Notify your supervisor and self-isolate from others immediately.
- Notify Line Medic or Medical Unit to evaluate symptoms.
- Document contacts you had the two days before your symptoms began.
- Wait for further instructions from the Medical Unit and COVID Team.

### How do I know if I am a 'close contact' of a person who is presumptive positive or has tested positive for COVID-19?

For COVID-19, a **close contact** is anyone who was within 6 feet of an infected person for at least 15 minutes. An infected person can spread COVID-19 starting from 48 hours (or 2 days) before the person had any symptoms or tested positive for COVID-19.

\*Approximately 40-50% of people with COVID-19 will not show any symptoms. It's important to utilize preventative strategies (masks, spacing, hand hygiene) prior to someone displaying symptoms.

### Do your part to minimize the spread of COVID-19 and reduce your risk of exposure.

- Maintain 6 ft or greater spacing between you and others.
- Wear a mask, especially when unable to maintain social distancing, anytime indoors, in public settings, including briefings.
- Frequently wash your hands with soap and water or a hand sanitizer that is at least 60% alcohol.
- Wash/sanitize frequently touched surfaces.

**The best way to prevent illness and continue to fight fire is to avoid being exposed to this virus.**

**COVID questions or concerns?  
Call the COVID Information Line  
949-769-0466**

# Federal Interagency and Tribal Lands Suppression Repair Guidelines

Scan QR code for detailed Suppression Repair Plan

## Fire Line

- Restore natural contour.
- To prevent erosion: construct waterbars, pull back vegetation with excavator, use straw bale, etc.
- De-compact fire line, pull back vegetation with excavator.
- Attempt to conceal or hide the entrance & exit using the landscape & available materials.
- To prevent access to Off Highway Vehicles (OHV) where fire lines intersect roads or trails, block intersections with large rocks, large trees, or walls of brush.
- Concentrations of slash along commonly used areas such as roadways, developed recreation areas, & structures should be chipped & dispersed.

## Heli-spots, Drop Zones, Sling & Medi-vac Sites

- Use standards like fire line repair to repair these activity areas. If available, use cleared vegetative material for soil cover. Place waterbars where appropriate.

## Line in or through Watercourses

- Restore preexisting streamflow & remove any deposited debris not present before suppression.

## Water Drafting Sites

- Restore water sources used or developed as draft sites to original condition. Remove any dams, dikes, or other impoundments created for fire suppression activities. Backhaul any trash.

## Concentrations of Slash

- Concentrations of slash created by fire suppression activities along commonly used areas such as roadways, developed recreation areas, & structures should be chipped & spread across the landscape. Chip piles should not exceed six inches in depth. Lop & scatter concentrations of slash not to exceed 18 inches in height.

## Roads

- Road repair should follow the existing design of the road prism. Repair damage to pavement, gates, cattle guards, & culverts. Remove soil pushed into cattle guards.
- Remove all slash & debris created by fire suppression from culvert inlets and outlets.
- Clean & grade ditch lines, rolling dips, & lead off ditches to repair function.

- Physically close off all unauthorized routes/roads opened during suppression
- Place rocks / logs to disguise the entrance to prevent unauthorized OHV.

## Litter, Trash, and Flagging Removal

- Remove all litter, trash, & flagging from all suppression areas; this includes micro-trash.

## Wilderness & Wilderness Study Areas (WSA)

- Areas of fire suppression in wilderness will follow many of the *General Repair Guidelines* previously discussed, but with an emphasis on restoring wilderness aesthetics & characteristics. One way to think of this is to “make it look like we were never there.”
- The use of mechanized equipment may require special authorizations to repair the area. Verify with the appropriate land manager before use of equipment in wilderness or WSA’s.

## Tree Disposal from Dozer-lines & Roadside Hazard Mitigation

- Reduce fuel loadings along access roads, accessible dozer-lines & cleared areas following suppression.
- Fallen trees will be yarded & decked.
- Do not stockpile fuels against standing live or dead trees.
- Locate decks in disturbed areas where trees can be safely processed.
- Use low impact machinery on improved surfaces.
- Locations for roadside hazard tree & fire line tree disposal will be determined by assigned Resource Advisors or agency personnel.
- The locations will be recorded on the Suppression Repair Map, which will be provided to the assigned Equipment Managers & equipment operators completing this work.
- Do not enter known archeological sites with heavy equipment or skid logs across arch sites.
- Felled trees within archaeological sites must be left in place unless they can be removed without skidding (i.e. full suspension).
- Where it is feasible, equipment can reach into an arch site and pluck the tree (or portion of a tree) up without skidding.
- If it is necessary for equipment to pass through a known site, raise the blade or other attachments while within the site boundaries.

**Contact Agency Personnel or Resource Advisors with any questions or for additional solutions.**

# SQF COMPLEX

## REMOTE DEMOB PROCEDURES

We are doing a remote demob of resources; **please complete all steps below on your smart phone/tablet and through email.** There will be no ICS-221 for you to obtain physical signatures; the ICS-221 will be completed in a virtual environment.

**After** your supervisor makes you available for demob:

**Step 1:** On the date you are scheduled to demob, ensure all supplies and equipment are returned to **SUPPLY** and **COMMS**, as appropriate.

**Step 2:** Email your remaining CTRs and shift tickets to **FINANCE**, including the travel day CTR and shift ticket, to [2020.castle.finance@firenet.gov](mailto:2020.castle.finance@firenet.gov). Please be prompt in submitting your final finance package; you will not be released from the incident until you get the final documentation and Finance notifies Demob.

**Step 3 (Only applies if you are at Porterville-ICP):** Proceed to **GROUND SUPPORT** for vehicle inspection. AFTER inspection, proceed to **WEED WASH** (adjacent to Ground Support). Additionally, visit **FINANCE** to close your financial package.

**Step 4:** Scan the QR Code below, click on "Demob Folder" and enter your DEMOB travel information in the form provided.

*Failure to follow all of these steps will keep you attached to this fire and subsequently unavailable for future fires.*

**Note:** Email all non-finance documentation to [2020.castle.plans@firenet.gov](mailto:2020.castle.plans@firenet.gov) (Unit Logs, ICS-213s, etc.). Take a picture and attach to email.

**Questions? Contact DEMOB at 951-235-1568.**

**Fire Number:** CA-SQF-002541/ P5NG2P (0513)

**Finance Email:** [2020.Castle.finance@firenet.gov](mailto:2020.Castle.finance@firenet.gov)

**Finance Documents Needed (If Not Already Submitted):**

<p><b>Overhead:</b></p> <ul style="list-style-type: none"> <li>• Resource Order</li> <li>• AD Hire Form (If an AD)</li> <li>• CTR's</li> </ul>	<p><b>Cooperator:</b></p> <ul style="list-style-type: none"> <li>• Inspection</li> <li>• Resource Order</li> <li>• Cooperative Agreement</li> <li>• Shift Ticket</li> </ul>
------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Please send in your CTR or Shift Ticket daily, Time is of the essence please submit your time using one of the following methods:**

- 1) **Fillable PDF CTR/Shift Tickets:** QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.
- 2) **Hard Copy CTR/Shift Tickets:** Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it, is legible and includes the supervisors' signature at the bottom! Please make sure to include your phone number in the **Remarks** in case we have questions.
- 3) OR you may turn in your actual hard copy as usual at Whitsett Spike Camp or Base Camp.
- 4) If possible, please be consistent with the method in which you submit your docs.
- 5) A justification in remarks is required for federal employees claiming hazard pay or environmental on ctrs – for example, "working on an uncontrolled fire line."

**You can download fillable CTR and Shift Tickets with this QR Code:**

**\*\*\* REMINDER \*\*\***

- BE SURE TO CALL Finance 1 day prior to your scheduled DMOB to ensure time is complete at **949-591-4123**.
- Only 1 representative per resource should go to Finance at ICP to Officially close out time.
- If you are going on R&R, please submit a CTR or shift ticket with your two R&R days identified.
- If you are going to extend, you will need to complete an extension from signed by your home unit.

**Medical Incident Report**

FOR A **NON-EMERGENCY INCIDENT**: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A **MEDICAL EMERGENCY**: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

**Use the following items to communicate situation to communications/dispatch.**

- 1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)  
*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*
- 2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.  
*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.)  
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency AND Transport Priority (priority 1, 2, 3)	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>	
	<input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i>	
	<input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location &amp; Lat. / Long. (WGS84)</i>
