INCIDENT ACTION PLAN SQF COMPLEX

CA-SQF-002541

P5NG2P (0513)

Sequoia NF / Inyo NF / Sequoia-Kings Canyon NP / Tule River Tribe

OPERATIONAL PERIOD

SATURDAY 10/3/2020 – SUNDAY 10/4/2020 0700 to 0700

INCIDENT OBJECTIVES (ICS 202)

1. INCIDENT NAME SQF Complex 2. **DATE** 10/2/2020

3. TIME 2200

4. OPERATIONAL PERIOD (DATE/TIME)

10/3/2020 - 10/4/20 0700-0700

SQF COMPLEX - INCIDENT OBJECTIVES

Strategic Framework

Implement a full suppression strategy on the Castle and Shotgun Fires. Values at risk include human safety, private property and residences, infrastructure, utilities, developed sites, facilities, Giant Sequoia groves and archaeological and cultural sites. Apply tactics that offer the highest probability of success.

Leaders Intent

Provide the highest level of customer service to all involved with, or impacted by, the Castle and Shotgun Fires. Ensure transparent, timely and accurate communication at all levels of the incident. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct and timely/effective communications.
- Personal safety and the safety of others, includes driving slowly, safely and defensively.
- Fatigue management by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing and practicing module of one concept.
- Effective management of incident costs by planning strategies and tactics toward a high probability of success in meeting incident objectives.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Reduce the threat to private property, residences and infrastructure through the application of effective suppression tactics.
- Reduce the impacts to Wilderness values by ensuring minimum impact suppression tactics (MIST) are applied. Utilize historic fire control lines, trails, streams, ridges and natural barriers when possible for control lines.
- Coordinate suppression activities with assigned incident resource advisors to minimize adverse effects to natural
 and cultural resources, on riparian areas, watersheds, Spotted Owl and Goshawk PACs, Fisher, Little Kern
 Golden Trout, Mountain Yellow Legged Frog, and Sierra Nevada Bighorn Sheep Habitats.
- Mop up as safety allows to reduce the threat of fire spread outside of containment lines.
- Conduct suppression repair activities to prevent long term damage to resources.
- Utilize suppression resources in the removal of fuel hazards in support of community repopulation.

Control Objectives

To prevent the fires from spreading to private property, surrounding communities, and values at risk, keep the fire:

- North of Durrwood Camp and the Tule River Reservation to protect communities and infrastructure along the Kern River and within the Reservation.
- West of Toowa Range to Kingfisher Ridge to 22S05 Road to protect recreational and administrative infrastructure.
- South Hwy 198 to Lost Canyon to Whitney Meadow to limit fire growth to the north.
- East of Springville to Blue Ridge to South Fork to protect communities west of the fire.

FIRE WEATHER FORECAST

FORECAST NO: 41

PREDICTION FOR: Oct 3-4, 2020 0700-0700

INCIDENT NAME: SQF Complex

UNIT: CA-SQF

SIGNED: Phil Manuel

TIME AND DATE

FORECAST ISSUED: Fri, Oct 2 @ 1800 hours

Incident Meteorologist - Phil Manuel

Above Normal Temperatures **WEATHER DISCUSSION:**

Unseasonably warm weather is expected through Sunday with temperatures 10 degrees above the seasonal norm...highs ranging from the lower 90s along the lower slopes between 3000-5000 feet in elevation to the mid 70s near 8000 feet. This above normal warmth will be coupled with very low humidity, minimums near 10 percent, and little or no recovery at night. Transport winds aloft are extremely light, favoring higher concentrations of smoke. However, daytime instability favors deeper mixing which supports greater column growth where there is active fire.

SKY/WEATHER TODAY SATURDAY): Mostly Sunny. Valley inversion lifting between 1000-1100, but expect a subsidence inversion aloft to maintain smoky conditions in Branch II and III.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

3000 FT:

87 to 92 degrees (Unchanged) / 12 to 18% (Little Change)

5000 FT: 7000 FT:

84 to 89 degrees (Unchanged) / 10 to 15% (Little Change) 73 to 78 degrees (Unchanged) / 8 to 12% (Little Change)

20-FT WINDS:

Slope/Valley:

Winds upslope/upvalley 4 to 8 mph gust up to 15 mph in the afternoon.

Ridges:

Northeast 3 to 6 mph until 1000. South 5 to 10 mph 1000-1400. West 6 to 12 mph with

gusts 15 mph after 1400.

MIXING HEIGHT...9,500 FT AGL VENTILATION... Poor in the morning, Good in the afternoon.

TRANSPORT WIND... South 5 mph.

CWR (0.10")....0%

LAL....1

HAINES....5

SKY/WEATHER TONIGHT (SATURDAY NIGHT): Smoky. Poor humidity recovery. Thermal belt near 6000 ft. Expect temperatures in this layer to be warmer and dryer.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

3000 FT:

63 to 68 degrees (Unchanged) / 30 to 40% (Unchanged)

5000 FT:

45 to 50 degrees (Unchanged) / 25 to 35% (Unchanged)

7000 FT:

55 to 62 degrees (Unchanged) / 15 to 20% (Unchanged)

20-FT WINDS:

Slope/Valley:

Downslope/Down canyon 3 to 6 mph. Gusts 10 mph in the deeper canyons.

Ridges:

North-northeast 3 to 6 mph.

CWR (0.10")....0% **LAL....**1

SUNDAY: Mostly sunny. Continued smoky, unseasonably warm and dry.

Max Temps: 72 to 88. Min RH: 10 to 15%. Winds: Slope/Valley: Upslope/upcanyon 5 to 10 mph, gusts 15 mph. Ridge: Northeast 3 to 6 mph until 1000. South-southwest 5 to 10 mph 1000-1400. West 6-12 mph after 1400.

CWR (0.10"): 0% MIXING HEIGHT: 9,000 FT AGL HAINES: 5

OUTLOOK for MONDAY Through WEDNESDAY: Moderating temperatures and humidity, but continued dry. MONDAY: Partly Cloudy. High Temp: 68 to 83. Min RH: 12-18. Ridge Wind: NE morning, SW afternoon 8-14 mph. TUESDAY: Mostly Sunny, High Temp: 70 to 85. Min RH: 14-20, Ridge Wind: NE morning, SW afternoon 8-14 mph. WEDNESDAY: Sunny. High Temp: 69 to 84. Min RH: 16-22. Ridge Wind: NE morning, SW afternoon 10-15 mph.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 43 TYPE OF FIRE: Wildfire FIRE NAME: SQF COMPLEX OPERATIONAL PERIOD: 24 HR, October 3, 2020 TIME ISSUED: October 2, 2020 UNIT: CA-SQF 002541 SIGNED: /s/ Dennis K Burns INPUTS

WEATHER SUMMARY

Continued Warm Dry and Unstable

.Temps: Day 73-92 depending on elevation Night 45-68

RH: Day 8-18% Night 20-40%

20 FOOT WINDS: Day Slope/Valley - Variable 1-3 mph becoming upslope/up canyon 4-8 mph in the afternoon, gusts 15.

Ridge winds S 5-10 mph gusts 15mph becoming W 6-12 after 1400hrs.

Night Ridge winds N-NE 3-6mph

POI 80-90% unshaded

ERC 79 Above 97th percentile

FIRE BEHAVIOR

GENERAL: With warm and dry conditions, expect continued active smoldering and visible flames on heavier fuels. No forward fire progression is expected and any spot fires should be easily handled by direct attack. Most of the fire continues to be in a backing alignment. All fuels are available to burn and will be receptive to spotting. Expect single and group tree torching in the denser stands of timber and brush fields in the interior. Spotting distances will be mid range 200 to 300 feet. Rates of spread on slopes will be 8-12 chains per hour with 4-8 foot flame lengths in the timber. Backing fire, multiple forward rate of spread by .3. If you see clear skies expect the fire behavior to increase as the smoke has been moderating the fire behavior.

Branch I: No forward fire progression expect mainly smoldering and creeping in the interior. Interior pockets of heat and snags have the potential to throw spots over established lines. Still a good amount of jackpots of heavy fuels burning interior at the Branch I II break.

Branch II: Most of the Branch is in a backing alignment. No forward fire progression is expected. In Div D there is some heat near the line above Camp Nelson there is a potential for rollout and the fire to burn back at itself. Div. Tkeep a head s up for holdover spot fires, any spots will have a slow rate of spread. Also, there is a potential for reburn in areas that weren't completely consumed during burn ops.

Branch III: The fire has backed down to and spotted across the South Fork of Kaweah. As of 1700 yesterday the spot was approx. 4 acres. Div. U should expect the potential that the fire will make a slope aligned run towards Homers Nose. Rock screes will slow fire spread however there is a significant amount of bug kill timber on the upper third of the slope which will increase spotting and the potential for crown runs. Expect smoke to limit air operations.

Night: Expect the fire to remain active in thermal belts or until the RH recovers above 25-30%. In Branch II expect the RH to drop after midnight and fire behavior to increase in the interior. No forward fire progression expected on any division.

AIR OPERATIONS

Inversion layer with smoke will be present until at least the 1000-1100hr time period Do not base your plan on air they might not be able to get there.

SAFETY

Fire will become active at RH% below 25% and clear skies. Slope and heavy fuels will enhance fire intensity.

Remember tragedies often occur on quite sections of line.

Task: Monitor all unstaffed locations by air. Complete wilderness backhaul mission.

Purpose: Return back country cabins to pre-fire condition. End State: Threat to wilderness values and property abated.

7. Special Instructions:

- · Personnel to notify DIVS of potentially sensitive cultural materials.
- · Identify and track suppression repair needs.
- Be prepared to provide needs to future Suppression Repair Group Supervisor.
- · Backhaul excess equipment and supplies.
- DIVS will answer to DIV ZULU

6. Control Operations/Work Assignments:

Task: Secure existing line. Initiate suppression repair.

Purpose: Stop fire spread to the south. Protect the municipal water shed and other important tribal values.

End State: The fire edge in the division is controlled. Secondary threats to values are minimized.

7. Special Instructions:

- Personnel to notify DIVS of potentially sensitive cultural materials.
- · Identify and track suppression repairs needs and accomplishments. Backhaul excess equipment and trash.

6. Control Operations/Work Assignments:

Task: Seek opportunities to contain the fire.

Purpose: Minimize fire spread to the north and west... End State: Values at risk north of the fire are protected.

7. Special Instructions:

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Backhaul excess equipment and trash
- Ensure resources have CALFIRE frequencies programed
 Division supervisors works directly for OSC1.

"In the beginning of a change, the patriot is a scarce man; brave, hated, and scorned. But when his cause succeeds, however, the timid join him, for then it costs nothing to be a patriot."
-Mark Twain

SQF COMPLEX Safety Message

10/03/2020 - 10/04/2020 Day/Night Shift

DRIVE LIKE YOUR LIFE DEPENDS ON IT

Driving hazards that have been identified on this incident include:

- Two-way traffic on narrow roads
- Increased traffic on Hwy 107 and 190 this weekend w/ repopulation
 - stay in your lane
 - o drive slow so you have more time to react to their bad driving
- Possible ATV/UTV's, pedestrians in repopulated communities
- Excessive speed
- Variable road surfaces
- Driver fatigue
- Backing without spotters
- Driving while talking on the cell phone

Steep slopes, Rocky terrain, Heavy fuel loads

- > Be concerned with footing and cross country travel.
- > Know your escape route

Slips/Trips/Falls

- Watch for loose clothing, loose line gear, untied straps
- Improperly carried tools
- Hose lays from pumps and engines, walk escape route, familiarize yourself with obstacles
- Exposed roots, loose soil, rock slides, wet/slick surfaces
- Spacing between crew, especially in brush or loose/rolling surfaces
- Hillsides use a zig zag crossing rather than a straight descent down steep slopes
- Stepping over rocks, logs...look what's behind the obstacle
- On descents, don't hyper extend legs, don't rush or slide, slow down
- Don't fight the fall, instead look where you land

Thought for the Day: It is better to get out five minutes too soon then five seconds too late!

8. MEDICAL EMERGENCY PROCEDURES

LINE "MEDICAL-EMERGENCY" PLAN:

- **Crew Supervisor** to contact Division Supervisor/Operations with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 1/Red & 2/Yellow Patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Castle Communications:
 - Division Supervisor or POC* will run "Medical –Emergency" on the Command frequency.
 - Division Supervisor or POC* to use "Medical Incident Report" in the IAP or back of IRPG.
 - Castle Communication contacts Medical Unit Leader on the Command frequency or cell phone (949) 330-9973 (Medical Emergencies Only).

POC* (Point of Contact) and/or Operations

LINE "NON-EMERGENCY INCIDENT" PLAN:

- Crew Supervisor to contact Division Supervisor with:
 - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 3/Green Patients <u>do not</u> trigger Incident within Incident (IWI).
- Division Supervisor contacts Castle Communications:
 - Division Supervisor or POC* will run "Non-Emergency Incident" on the Command frequency.
 - Division Supervisor or POC* will use "Medical Incident Report" worksheet in the IAP or back of IRPG.
 - Castle Communications contacts Medical Unit Leader on the Command frequency or cell phone (949) 330-9973 (For medical related incidents only).

IN-CAMP - 24 HOUR MEDICAL

- Contact 911 and Medical Unit (949) 330-9973 with:
 - Patient Complaint, Condition and Location

INCIDENT MESSAGE BOARD

Human Resource Message

Thought for the Day

FATIGUE

Fatigue affects your physical and emotional state! It can have a negative impact on your concentration, your conduct, and speech. This can have all sorts of consequences so please make an effort to rest up and get back to your normal productive self!

"In matters of style, swim with the current; in matters of principle, stand like a rock." - Thomas Jefferson

Juan Silva, HRSP 626-391-2347 or juan.silva@usda.gov

Communications

The Communications
Shop has a new phone
number! Keep in
touch!

949-330-9979

If you are from a state that requires a COVID test prior to re-entry please call the COVID information line (949-769-0466), or email Nathan.sill@usda.gov at least 48 hours prior to demob.

The **Demob Process** includes turning in all of your checked-out equipment (including anything from Supply and Communications), getting inspected at Ground Support (if needed according to your resource type and agency affiliation), completing a finance package, and completing the travel information on the Demob Form QR code. *If you skip a step, you will not be released from the incident!* For more instructions, see the pages related to Finance and Demob in this IAP.

Training Specialist Message

The Incident Training Specialist will be performing duties remotely.

ATTENTION: If you registered with the TNSP before CIIMT2 arrived (9/23), you need to re-register. Sorry for the inconvenience.

To ensure proper documentation for your assignment:

- Scan the incident QR Code
- Go to the Training Folder
- Complete the Trainee Registration
 Form

At the end of your assignment:

- Trainee: Complete the exit interview found in the Training Folder. Use the incident QR code to access the document.
- 2. *Trainer:* Fill in the Position Task Book as completely as possible for this incident.
- 3. Trainer: Complete the ICS-225
 Performance Evaluation and discuss
 with your Trainee. Make sure it is
 signed by both the Trainer and the
 Trainee. Take a picture/copy of the ICS225 and email it to

imt2training@gmail.com

The Training Specialist will send the training documents to the email address you provided.

For training-related questions, call/text Dominic Panno (TNSP) at 530-913-8251 or email to imt2training@gmail.com.

COVID-19 Reminders

Make prevention part of your routine!

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24hrs, have you had any of the following symptoms?

Symptoms:

Cough?

Shortness of breath or difficulty breathing?

Fever? Chills?

Muscle pain, outside that expected for your level of exertion?

Sore throat?

New loss of taste or smell?

Excessive fatigue?

Headache?

Congestion or runny nose?

Nausea or vomiting?

Diarrhea?

Take temperature with no-touch thermometer, if available

What to do if you are experiencing COVID-19 symptoms?

- Put on a mask if not already wearing one.
- Notify your supervisor and selfisolate from others immediately.
- Notify Line Medic or Medical Unit to evaluate symptoms.
- Document contacts you had the two days before your symptoms began.
- Wait for further instructions from the Medical Unit and COVID Team.

How do I know if I am a 'close contact' of a person who is presumptive positive or has tested positive for COVID-19?

For COVID-19, a **close contact** is anyone who was within 6 feet of an infected person for at least 15 minutes. An infected person can spread COVID-19 starting from 48 hours (or 2 days) before the person had any symptoms or tested positive for COVID-19.

*Approximately 40-50% of people with COVID-19 will not show any symptoms. It's important to utilize preventative strategies (masks, spacing, hand hygiene) prior to someone displaying symptoms.

Do your part to minimize the spread of COVID-19 and reduce your risk of exposure.

- Maintain 6 ft or greater spacing between you and others.
- Wear a mask, especially when unable to maintain social distancing, anytime indoors, in public settings, including briefings.
- Frequently wash your hands with soap and water or a hand sanitizer that is at least 60% alcohol.
- Wash/sanitize frequently touched surfaces.

The best way to prevent illness and continue to fight fire is to avoid being exposed to this virus.

COVID questions or concerns?

Call the COVID Information Line
949-769-0466

Federal Interagency and Tribal Lands Suppression Repair Guidelines

Scan QR code for detailed Suppression Repair Plan

Fire Line

- Restore natural contour.
- To prevent erosion: construct waterbars, pull back vegetation with excavator, use straw bale, etc.

- De-compact fire line, pull back vegetation with excavator.
- Attempt to conceal or hide the entrance & exit using the landscape & available materials.
- To prevent access to Off Highway Vehicles (OHV) where fire lines intersect roads or trails, block intersections with large rocks, large trees, or walls of brush.
- Concentrations of slash along commonly used areas such as roadways, developed recreation areas, & structures should be chipped & dispersed.

Heli-spots, Drop Zones, Sling & Medi-vac Sites

 Use standards like fire line repair to repair these activity areas. If available, use cleared vegetative material for soil cover. Place waterbars where appropriate.

Line in or through Watercourses

 Restore preexisting streamflow & remove any deposited debris not present before suppression.

Water Drafting Sites

 Restore water sources used or developed as draft sites to original condition. Remove any dams, dikes, or other impoundments created for fire suppression activities. Backhaul any trash.

Concentrations of Slash

 Concentrations of slash created by fire suppression activities along commonly used areas such as roadways, developed recreation areas, & structures should be chipped & spread across the landscape. Chip piles should not exceed six inches in depth. Lop & scatter concentrations of slash not to exceed 18 inches in height.

Roads

- Road repair should follow the existing design of the road prism. Repair damage to pavement, gates, cattle guards, & culverts.
 Remove soil pushed into cattle guards.
- Remove all slash & debris created by fire suppression from culvert inlets and outlets.
- Clean & grade ditch lines, rolling dips, & lead off ditches to repair function.

- Physically close off all unauthorized routes/roads opened during suppression
- Place rocks / logs to disguise the entrance to prevent unauthorized OHV.

Litter, Trash, and Flagging Removal

 Remove all litter, trash, & flagging from all suppression areas; this includes micro-trash.

Wilderness & Wilderness Study Areas (WSA)

- Areas of fire suppression in wilderness will follow many of the General Repair Guidelines previously discussed, but with an emphasis on restoring wilderness aesthetics & characteristics. One way to think of this is to "make it look like we were never there."
- The use of mechanized equipment may require special authorizations to repair the area. <u>Verify</u> <u>with the appropriate land manager</u> before use of equipment in wilderness or WSA's.

Tree Disposal from Dozer-lines & Roadside Hazard Mitigation

- Reduce fuel loadings along access roads, accessible dozer-lines & cleared areas following suppression.
- Fallen trees will be yarded & decked.
- Do not stockpile fuels against standing live or dead trees
- Locate decks in disturbed areas where trees can be safely processed.
- Use low impact machinery on improved surfaces.
- Locations for roadside hazard tree & fire line tree disposal will be determined by assigned Resource Advisors or agency personnel.
- The locations will be recorded on the Suppression Repair Map, which will be provided to the assigned Equipment Managers & equipment operators completing this work.
- Do not enter known archeological sites with heavy equipment or skid logs across arch sites.
- Felled trees within archaeological sites must be left in place unless they can be removed without skidding (i.e. full suspension).
- Where it is feasible, equipment can reach into an arch site and pluck the tree (or portion of a tree) up without skidding.
- If it is necessary for equipment to pass through a known site, raise the blade or other attachments while within the site boundaries.

Contact Agency Personnel or Resource Advisors with any questions or for additional solutions.

SQF COMPLEX REMOTE DEMOB PROCEDURES

We are doing a remote demob of resources; please complete all steps below on your smart phone/tablet and through email. There will be no ICS-221 for you to obtain physical signatures; the ICS-221 will be completed in a virtual environment.

<u>After</u> your supervisor makes you available for demob:

<u>Step 1:</u> On the date you are scheduled to demob, ensure all supplies and equipment are returned to **SUPPLY** and **COMMS**, as appropriate.

<u>Step 2:</u> Email your remaining CTRs and shift tickets to **FINANCE**, including the travel day CTR and shift ticket, to <u>2020.castle.finance@firenet.gov</u>.

Please be prompt in submitting your final finance package; you will not be released from the incident until you get the final documentation and Finance notifies Demob.

<u>Step 3 (Only applies if you are at Porterville-ICP):</u> Proceed to **GROUND SUPPORT** for vehicle inspection. AFTER inspection, proceed to **WEED WASH** (adjacent to Ground Support). Additionally, visit **FINANCE** to close your financial package.

<u>Step 4:</u> Scan the QR Code below, click on "Demob Folder" and enter your DEMOB travel information in the form provided.

Failure to follow all of these steps will keep you attached to this fire and subsequently unavailable for future fires.

<u>Note:</u> Email all non-finance documentation to <u>2020.castle.plans@firenet.gov</u> (Unit Logs, ICS-213s, etc.). Take a picture and attach to email.

Questions? Contact DEMOB at 951-235-1568.

Finance Email: 2020. Castle. finance @firenet.gov

Finance Documents Needed (If Not Already Submitted):

Overhead:	Cooperator:		
Resource Order	Inspection		
AD Hire Form (If an AD)	Resource Order		
• CTR's	Cooperative Agreement		
	Shift Ticket		

<u>Please send in your CTR or Shift Ticket daily, Time is of the essence please submit your time using one of the following methods:</u>

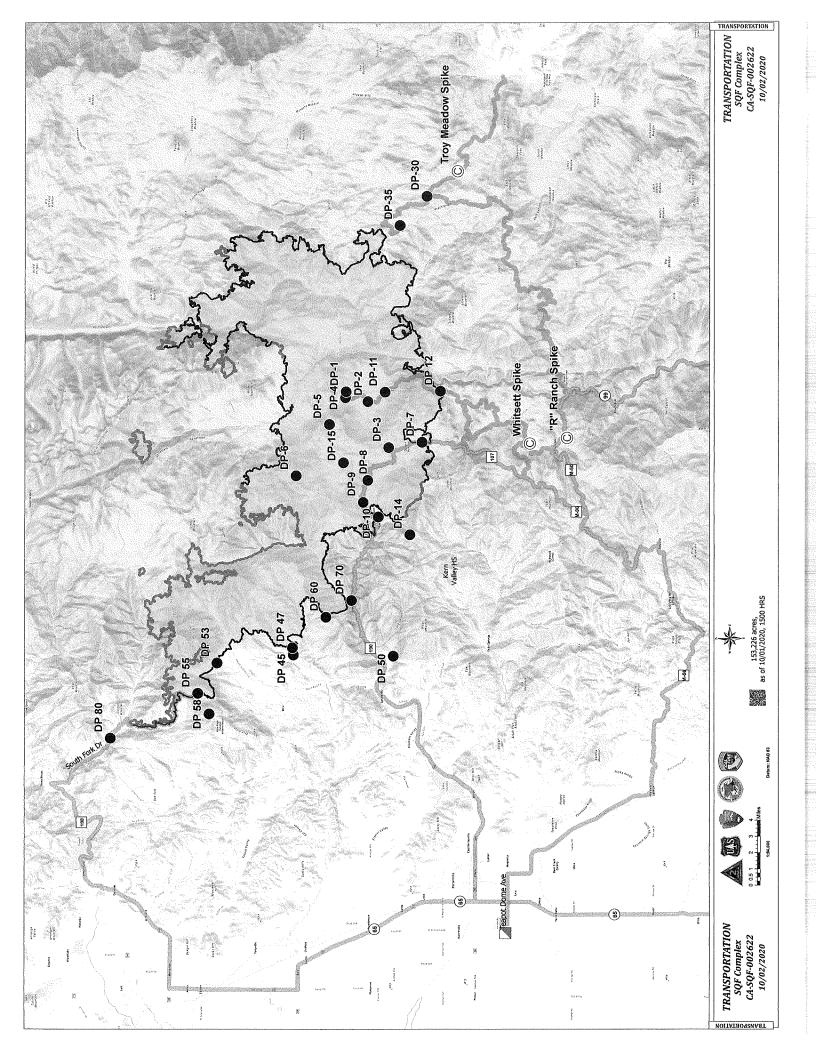

- 1) **Fillable PDF CTR/Shift Tickets:** QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.
- 2) Hard Copy CTR/Shift Tickets: Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it, is legible and includes the supervisors' signature at the bottom! Please make sure to include your phone number in the Remarks in case we have questions.
- 3) OR you may turn in your actual hard copy as usual at Whitsett Spike Camp or Base Camp.
- 4) If possible, please be consistent with the method in which you submit your docs.
- 5) A justification in remarks is required for federal employees claiming hazard pay or environmental on ctrs for example, "working on an uncontrolled fire line."

You can download fillable CTR and Shift Tickets with this QR Code:

***REMINDER ***

- BE SURE TO CALL Finance 1 day prior to your scheduled DMOB to ensure time is complete at 949-591-4123.
- Only 1 representative per resource should go to Finance at ICP to Officially close out time.
- If you are going on R&R, please submit a CTR or shift ticket with your two R&R days identified.
- If you are going to extend, you will need to complete an extension from signed by your home unit.

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT: WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM COMMUNICATIONS

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree.

Requesting air ambulance to Forest Road 1 at (Lat./Long.)
"This will be the Trout Meadow Medical Incident, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.						
AND YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.						
Transport Priority (priority 1, 2, 3)	Transport Priority (priority 1, 2, 3) Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. Comparison of the part o					
		x: Sprains, strains, minor l	heat-related illness.			
Nature of Injury or Illness & Mechanism of Injury Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)						
Transport Request Air Ambulance / Short Haul/Hoist Ground Ambulance / Other						
Patient Location Descriptive Location & Lat. / Long. (WGS84)						
Incident Name	Incident Name Geographic Name + "Medical" (Ex: Trout Meadow Medical)					
On-Scene Incident Comm	On-Scene Incident Commander Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)					
Crew Patient Care Name of Care Provider (Ex: EMT Smith)						
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)						
Agency Affiliation: (NO PATIENT NAMES) Federal Contractor Local Government						
Patient Assessment: Age: Weight: Chief Complaint:						
(If pertinent to Injury) Skin Signs: (color/moisture/temp) Level of Consciousness: BP: HR: Respirations:						
Treatment:						
4. TRANSPORT PLAN:						
Evacuation Location (drop point, intersection, helispot, Lat. / Long, hazards) Patient's ETA to Location:						
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:						
Paramedic / EMT - Crews - Immobilization Devices - AED - Oxygen - Trauma Bag - IV/Fluid(s) - Splints - Rope rescue - Wheeled litter - HAZMAT - Extrication						
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable						
Function Channel	Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *	
COMMAND						
AIR-TO-GRND	31					
TACTICAL						
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.						

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training Be Alert - Keep Calm - Think Clearly - Act Decisively

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

*** Follow up with MEDL upon return to ICP ***
