

# INCIDENT ACTION PLAN EAST CASTLE ZONE - SQF COMPLEX

CA-SQF-002541 P5NG2P (0513)

Sequoia NF / Inyo NF / Sequoia-Kings Canyon NP / Tule River Tribe

IN MEMORY OF
SQUAD BOSS
CHARLES MORTON
08/07/1981 = 09/17/2020

Memorial service Live on YouTube Date: Friday, September 25, 2020 Time: 11:00 a.m. PST

#### OPERATIONAL PERIOD

Friday, September 25, 2020 Saturday, September 26, 2020 0600 to 0600

### INCIDENT ACTION PLAN

EAST CASILIZONE - SOF CONPLEX

make a marked by the first of the market of the first of the control of the contr

#### **INCIDENT OBJECTIVES (ICS 202)**

1. INCIDENT NAME SQF Complex

2. **DATE** 9/24/2020

3. TIME 2200

4. OPERATIONAL PERIOD (DATE/TIME)

9/25/2020 - 9/26/2020, 0600-0600

#### SEQUOIA COMPLEX - EAST ZONE INCIDENT OBJECTIVES

#### Strategic Framework

Implement a full suppression strategy on the Castle and Shotgun Fires. Values at risk include human safety, private property and residences, infrastructure, utilities, developed sites, facilities, Giant Sequoia groves and archaeological and cultural sites. Apply tactics that offer the highest probability of success.

Leaders Intent

Provide the highest level of customer service to all involved with, or impacted by, the Castle and Shotgun Fires. Ensure transparent, timely and accurate communication at all levels of the incident. All incident assigned personnel should be prepared to take the appropriate actions regarding:

Professional behavior, conduct and timely/effective communications.

Personal safety and the safety of others, includes driving slowly, safely and defensively.

Fatigue management by taking breaks and maintaining work/rest cycles.

 Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing and practicing module of one concept.

Effective management of incident costs by planning strategies and tactics toward a high probability of success in meeting incident objectives.

#### **Management Objectives**

 Provide for firefighter and public safety through hazard recognition and application of the risk management process.

Reduce the threat to private property, residences and infrastructure through the application of effective

suppression tactics.

- Reduce the impacts to the Golden Trout Wilderness values by ensuring minimum impact suppression tactics (MIST) are applied. Utilize historic fire control lines, trails, streams, ridges and natural barriers when possible for control lines.
- Coordinate suppression activities with assigned incident resource advisors to minimize adverse
  effects natural and cultural resources, on riparian areas, watersheds, Spotted Owl and Goshawk PACs,
  Fisher, Little Kern Golden Trout, Mountain Yellow Legged Frog, and Sierra Nevada Bighorn Sheep
  Habitats.
- Mop up as safety allows to reduce the threat of fire spread outside of containment lines.

Conduct suppression repair activities to prevent long term damage to resources.

#### Control Objectives

To prevent the fires from spreading to private property, surrounding communities, and values at risk, keep the fire:

North of Durrwood Camp to protect communities and infrastructure along the Kern River.

- West of Toowa Range to Kingfisher Ridge to 22S05 Road to protect recreational and administrative infrastructure.
- South of East Castle Fire containment lines to limit fire growth to the north.

East of Tule River Reservation.

Within perimeter of Shotgun fire to limit fire growth.

#### FIRE WEATHER FORECAST

FORECAST NO: 33

PREDICTION FOR: Sept 25-26, 2020 0600-0600

INCIDENT NAME: East Castle Zone SQF Complex

UNIT: CA-SQF

SIGNED: Phil Manuel

TIME AND DATE

FORECAST ISSUED: Thu, Sep 24 @ 2000 hours

Incident Meteorologist - Phil Manuel

WEATHER DISCUSSION: High pressure will build across the area into the weekend resulting in a strong subsidence inversion. Stable conditions will result in light transport winds, poor ventilation and high smoke concentrations. Expect poor visibility in addition to relatively cool temperatures due to smoke shading the sun. The persistent dry conditions, lack of rainfall and low humidity are also a concern. The wind will continue to reflect the normal topographically influenced wind flow patterns with up-slope up-canyon during the day and down slope down canyon at night. After Saturday, a change in general wind direction is expected, with easterly flow developing allowing for much warmer temperatures and very low humidity for next week, the wind flow coming from the desert side of the Sierra Nevada Mtns.

SKY/WEATHER TODAY (FRIDAY): Heavy smoke with poor visibility. Expect impacts to air operations.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

5000 FT:

75 to 81 degrees (Unchanged) / 16 to 22 (Unchanged) 68 to 74 degrees (Unchanged) / 18 to 26 (Unchanged)

7000 FT: 20-FT WINDS:

Slope/Valley:

Morning drainage winds will become upslope/upvalley between 1100-1200 with

speeds 4 to 7, gusts to 15 mph.

Ridges:

West-southwest 5 to 9 mph with gusts up to 15 mph.

MIXING HEIGHT...1500-2500 FT AGL VENTILATION... Poor.

FRANSPORT WIND... Northwest, less than 10 mph.

CWR (0.10")....0%

LAL....1

HAINES....4

SKY/WEATHER TONIGHT (FRIDAY NIGHT): Heavy smoke. Moderate humidity recovery.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

5000 FT:

40 to 45 degrees (Unchanged) / 50 to 65% (Unchanged) 47 to 53 degrees (Unchanged) / 35 to 50% (Unchanged)

7000 FT:

0-FT WINDS:

AL: 1

Slope/Valley:

Downslope/Down canyon 2 to 5 mph. Gusts 10 mph in the deeper canyons.

Ridges: Northwest-North 3 to 6 mph.

WR (0.10")....0%

LAL....1

ATURDAY: Subsidence inversion persists. Expect poor visibility.

lax Temps: 72 to 82. Min RH: 15 to 20%. Winds: Slope/Valley: Upslope/upcanyon 4 to 7 mph during the day, and ownslope/down canyon at night.

idge: Light northeast in the morning, then South-Southwest 5-10 mph after 1100. CWR (0.10"): 0% MIXING HEIGHT: 2,500 - 4,000 FT AGL HAINES: 4

UTLOOK for SUNDAY Through TUESDAY: Above normal temperatures return. Low humidity day and night.

UNDAY: Mostly sunny. High Temp: 78 to 90. Min RH: 10-15. Ridge Wind: Southeast 3 to 6 G12 mph. ONDAY: Mostly sunny. High Temp: 78 to 90. Min RH: 8-12. Ridge Wind: East 3 to 6 G12 mph.

UESDAY: Mostly sunny. High Temp: 78 to 90. Min RH: 6-12. Ridge Wind: East 3 to 6 G12 mph.

# FIRE BEHAVIOR FORECAST FORECAST NUMBER: 35 TYPE OF FIRE: Wildfire FIRE NAME: East Castle Zone SQF Cmplx DATE ISSUED: September 24, 2020 TIME ISSUED: 2130

Night Ridge winds NW-N 3-6mph

POI 80-90%

ERC 78.4 Above the 97th percentile

#### FIRE BEHAVIOR

GENERAL; No significant changes to the forecast, as there are no changes in our weather. Smoke and continued higher RH will moderate fire behavior today and tonight. Main fire progression will continue to the south-south east and remain fuels driven. Most of the fire is in a backing alignment and will continue so through the burn period. However, there is the potential for the fire to hook and run back up slope with head fire. Spotting will be the primary driver for fire spread. All fuels are available to burn and will be receptive to spotting. Spots from roll out will continue to be problematic. Expect single and group tree torching in the denser stands of timber and brush fields. Spotting distances have been up to ¼ mile are expected to remain through the burn period. There are large pockets of bug kill in the fires path and trees that still have needles will be a significant source for torching and spotting. Rates of spread on slopes will be 8-12 chains per hour with 5-8 foot flame lengths.

**Division Y:** Expect the fire to continue to flank above Coy Flat Rd. It will have the potential to make slope runs towards Nelson Peak. From DP7 west towards the Little Kern drainage expect mainly smoldering and creeping. Interior pockets of heat have the potential to throw spots over established lines.

**Division Z:** The fire is holding on the Needle Peak Rd but there is still a lot of heat any fire established over the road will have a slow rate of spread. Burning snags will be a source for spotting in the area of the slop over. Identify areas where rollout can cause slope reversals. Spotting across the Kern River will continue to be an issue with the winds that eddy through the canyon. If air support is available it will be effective in reducing spread in the brush.

**Division L:** No forward fire progression is expected. Keep a heads up for sources of spotting near the lines. Most of the Division will be very smoky with limited visibility. A large interior pocket burned off yesterday, since we can't get eyes on this area expect that it could happen again today.

Night: Expect the fire to remain active in thermal belts or until the RH recovers above 25-30%.

#### AIR OPERATIONS

Inversion layer with smoke will be present most likely all shift. Do not base your plan on air they might not be able to get there.

#### SAFETY

\*\*\*Fire will become active at RH% below 25% and clear skies. Slope and heavy fuels will enhance fire intensity.\*\*\*

#### 6. Control Operations/Work Assignments:

Task: Prep the Crawford Road east to the 107 Road. Continue to improve indirect line from the 94 Road West to the zone break.

Purpose: Protect the municipal water shed and other important tribal values from high intensity fire.

End State: Values at risk are not negatively impacted by high severity fire or heavy handed suppression.

#### 7. Special Instructions:

Personnel to notify DIVS of potentially sensitive cultural materials.

Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at the Blackrock Ranger Station. REMS available to all divisions.

The Slate Mountain Area is located in Sections 13, 18,19 and 24 in Division W around Slate Mountain. Division to work with Resource Advisors to minimize impacts to botanical resources within the botanical area.

### Day/Night Safety Message

September 25, 2020

### COVID

The COVID mitigations developed for your health and protection are simple but important. They not only protect you but protect your team, and the others you interact with on the fire and in camp. This keeps the entire firefighting mission safe from the potential impact of COVID.

To gain the maximum protections, we must all practice these mitigations including:

- · maintaining your module,
- masking,
- sanitation & hand hygiene,
- social distancing.

You need to follow the self-assessment guide and report to medical and your supervisor if you show signs of COVID.

Failing to practice your mitigations <u>compromises safety</u>, just like not wearing PPE or failing to carry your fire shelter. Wearing our PPE has become second nature because we think about it, talk about it, and do something about it. I encourage you to make the COVID mitigations second nature.

Not keeping yourself and others healthy and protected from COVID exposure puts every one of us at risk. Your crew or others can become unfit for work because of an outbreak.

#### Review the COVID Reminder in the IAP.

"Mind your thoughts for they become your words. Mind your words for they become your actions. Mind your actions for they become your character. Mind your character for it becomes your destiny."

#### **COVID-19 Reminders**

#### Make prevention part of your routine!

#### WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24hrs, have you had any of the following symptoms?

#### Symptoms:

Cough?

Shortness of breath or difficulty breathing?

Fever? Chills?

Muscle pain, outside that expected for your level of exertion?

Sore throat?

New loss of taste or smell?

Excessive fatigue?

Headache?

Congestion or runny nose?

Nausea or vomiting?

Diarrhea?

\*Take temperature with no-touch thermometer, if available\*

### What to do if you are experiencing COVID-19 symptoms?

- Put on a mask if not already wearing one.
- Notify your supervisor and selfisolate from others immediately.
- Notify Line Medic or Medical Unit to evaluate symptoms.
- Document contacts you had the two days before your symptoms began.
- Wait for further instructions from the Medical Unit and COVID Team.

# How do I know if I am a 'close contact' of a person who is presumptive positive or has tested positive for COVID-19?

For COVID-19, a close contact is anyone who was within 6 feet of an infected person for at least 15 minutes. An infected person can spread COVID-19 starting from 48 hours (or 2 days) before the person had any symptoms or tested positive for COVID-19.

\*Approximately 40-50% of people with COVID-19 will not show any symptoms. It's important to utilize preventative strategies (masks, spacing, hand hygiene) prior to someone displaying symptoms.

## Do your part to minimize the spread of COVID-19 and reduce your risk of exposure.

- Maintain 6 ft or greater spacing between you and others.
- Wear a mask, especially when unable to maintain social distancing, anytime indoors, in public settings, including briefings.
- Frequently wash your hands with soap and water or a hand sanitizer that is at least 60% alcohol.
- Wash/sanitize frequently touched surfaces.

The best way to prevent illness and continue to fight fire is to avoid being exposed to this virus.

COVID questions or concerns?

Call the COVID Information Line
949-330-9973

#### LINE "MEDICAL-EMERGENCY" PLAN:

- Crew Supervisor to contact Division Supervisor/Operations with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 1/Red & 2/Yellow Patients trigger Incident within Incident (IWI).
- Division Supervisor/Operation contacts Castle Communications:
  - Division Supervisor or POC\* will run "Medical –Emergency" on the Command frequency.
  - Division Supervisor of POC\* to use "Medical Incident Report" worksheet on back of this page or back of IRPG.
  - Castle Communication contacts Medical Unit Leader on the Command frequency or cell phone (949) 330-9973 (Medical Emergencies Only).

POC\* (Point of Contact) and/or Operations

#### **LINE "NON-EMERGENCY INCIDENT" PLAN:**

- Crew Supervisor to contact Division Supervisor with:
  - Patient Complaint, Condition and Location via Tactical or Command frequency. Priority 3/Green Patients do not trigger Incident within Incident (IWI).
- Division Supervisor contacts Dolan Communications:
  - Division Supervisor or POC\* will run "Non-Emergency Incident" on the Command frequency.
  - Division Supervisor or POC\* will use "Medical Incident Report" worksheet on the back of this page or back of IRPG.
  - Castle Communications contacts Medical Unit Leader on the Command frequency or cell phone (949) 330-9973 (For medical related incidents only).

#### IN-CAMP - 24 HOUR MEDICAL

- Contact 911 and Medical Unit (949) 330-9973 with:
  - Patient Complaint, Condition and Location

#### Finance Documents Needed (If Not Already Submitted):

Overhead:	Cooperator:					
<ul> <li>Resource Order</li> <li>AD Hire Form (If an AD)</li> <li>CTR's</li> </ul>	<ul> <li>Inspection</li> <li>Resource Order</li> <li>Cooperative Agreement</li> <li>Shift Ticket</li> </ul>					

### <u>Please send in your CTR or Shift Ticket daily, If you would like to get paid. You can submit your time using one of the following methods:</u>

- Fillable PDF CTR/Shift Tickets: QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.
- 2) Hard Copy CTR/Shift Tickets: Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it, is legible and includes the supervisors' signature at the bottom! Please make sure to include your phone number in the Remarks in case we have questions.
- 3) OR you may turn in your actual hard copy as usual at Whitsett Spike Camp &Troy Meadow.
- 4) If possible, please be consistent with the method in which you submit your docs.
- 5) A justification in remarks is required for federal employees claiming hazard pay or environmental on ctrs for example, "working on an uncontrolled fire line."

#### You can download fillable CTR and Shift Tickets with this QR Code:

#### \*\*\*REMINDER \*\*\*

- BE SURE TO CALL Finance <u>1 day</u> prior to your scheduled DMOB to ensure time is complete at <u>949-591-4123</u>.
- Only 1 representative per resource should go to Finance at ICP to Officially close out time.

### **Remote Demob Instructions**

We are doing a remote demob of resources; you will implement all steps over your smart phone and through email. There will be no ICS-221 for you to obtain physical signatures; this will all be done by the team in a virtual environment. Please follow instructions below.

After your supervisor makes you available for demob:

<u>Step 1:</u> On the date you are scheduled to demob, fill out the Demob Form using the QR Code below. If you skip this step and go straight to Finance, you will continue to be attached to this fire and subsequently unavailable for future fires. You MUST start with this step!

<u>Step 2:</u> Email your remaining CTRs and shift tickets, including the travel day CTR and shift ticket, to <u>2020.castle.finance@firenet.gov</u>. See Finance Message (next page) for more information. Please be prompt in approving your final finance package; you will not be released from the incident until you get the final documentation and Finance notifies Demob.

<u>Step 3:</u> Turn in your checked-out supplies and equipment. Email all non-finance documentation to <u>2020.castle.plans@firenet.gov</u> (Unit Logs, ICS-213s, etc.). Take a picture and attach to email.

<u>Step 4:</u> When you have completed your finance package and turned in all of your equipment and supplies, you are free to travel!
