INCIDENT ACTION PLAN EAST CASTLE ZONE

Sequoia NF / Inyo NF / Sequoia-Kings Canyon NP / Tule River Tribe

Values

Firefighter and Public Safety

Communities: Ponderosa, Camp Nelson, Pyles Boys Camp, Rogers Camp, Sequoia Crest, Cedar Slope, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Pierpoint, Doyle Springs, Camp Wishon, Mahogany and Coy Flats

Significant Natural Features: Tule River Municipal Watershed

Infrastructure & Physical Assets: Osa, Beach, Casa Vieja, USGS Seismic Station, Blackrock RS, Quinn RS, Kern RS, roads, bridges, utilities, other agency structures, private inholdings, dispersed/developed recreation sites

Cultural Sites: *Monache Mountain, Monache Meadow, and other archaeological* & cultural sites

Sequoia Groves: Freeman Giant Grove, and other groves

TES Habitat: Pacific Fisher, Little Kern Golden Trout, Mtn Yellow Legged Frog, CA Spotted Owl, Goshawk, Sierra Nevada Bighorn Sheep

OPERATIONAL PERIOD

Monday, September 21, 2020 Tuesday, September 22, 2020 0600 to 0600

INCIDENT OBJECTIVES

1. Incident Name
EAST CASTLE ZONE SQF COMPLEX

2. Date Prepared 9/20/2020

3. Time Prepared 1630

4. Operational Period

September 21, 2020 to September 22, 2020 0600 - 0600 DAY AND NIGHT SHIFT

5. General Control Objectives for the Incident

- Provide point protection of values at risk within communities and associated infrastructure to prevent loss of structures, utilities, and developed sites and facilities including:
 - o The communities of Camp Nelson, Pyles Boys Camp, Rogers Camp, Cedar Slope, Sequoia Crest, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Ponderosa, Pierpoint, Doyle Springs, Camp Wishon, Mahogany and Coy Flats;
 - o Tule River Municipal Watershed significant natural feature;
 - o Infrastructure at Blackrock, Kern, and Quinn Ranger Stations; Osa, Beach, and Casa Vieja Meadows; private inholdings; roads, bridges, utilities, trailheads, and developed and dispersed recreation sites;
 - o Monache Mountain, Monache Meadow and other archaeological and cultural sites; and
 - o Freeman Giant Sequoia Grove and other sequoia groves.
- Continue to hold and establish control lines that are safe for firefighters and provide a high probability of success to keep the fire north of Durr Wood Camp and west of Toowa Range to King Fisher Ridge to 22S05 Road.
- Monitor the spread/growth of the Shotgun Fire using air operation assets.
- Coordinate with Duty Officers from the Sequoia and Inyo NFs, Sequoia and Kings Canyon NPs, and the Tule River Indian Reservation on support to any new initial attack.

6. Management Objectives

- Establish and implement common objectives and strategies under unified command with Cal Fire Team 6.
- Implement suppression actions that have a high potential for success, carefully weighing risk exposure to firefighters.
- Provide for the safety of firefighters, aviation and public through clear communication. Ensure an understanding of strategies and tactics, including a clearly defined and obtainable end state, in order to facilitate sound risk mitigation decision making.
- Implement social distancing and adhere to the "module of one" concept to reduce physical exposure and transmission of COVID-19, to provide for the health and safety of all incident personnel.
- Minimize to the extent feasible smoke exposure to firefighters, communities and other affected areas to reduce susceptibility to the consequences from COVID-19 exposure.
- Maintain and strengthen relationships with partner agencies, stakeholders, cooperators, community leaders, and local agencies utilizing most effective platforms available.
- Minimize adverse effects from suppression actions on riparian areas, wetlands, Little Kern Golden Trout, Mountain Yellow Legged Frog, California Spotted Owl, Pacific Fisher, and Sierra Nevada Bighorn Sheep habitats.
- Minimize impacts to Wilderness areas; use minimum impact suppression tactics (MIST) by utilizing trails, streams, ridges and natural barriers when possible for control lines.

7. Commander's Intent

- Safety: Address fire fighter, public, and aviation safety through hazard/exposure mitigation.
- Communication: We will keep the Agency Administrators informed of significant accomplishments and issues.
- **Risk Management:** We will use a robust risk assessment process to mitigate unnecessary risk to fire fighters and update and/or revise decisions as necessary.
- **Human Resources**: We will ensure that all incident personnel be treated with dignity and respect. We have a zero tolerance for harassment, alcohol, or illegal drug use.
- Operations: We will make informed tactical decisions engaging the fire in the right locations with the appropriate resources.
- **Public Information**: We will provide timely and accurate information through the press, meetings, trap lines, briefings, and social media.
- **Stakeholders:** We will coordinate with the delegating agencies to identify key partners and keep them effectively informed of progress and to use their local knowledge.
- Finance: We will establish and monitor cost effective methods for accomplishing incident objectives.

COVID Safety message

Your incident command is asking that you regularly practice some simple but important mitigations to keep us ALL safe. When we all practice these mitigations by regular habit or routine, you protect not only yourself but the others you interact with on the fire, in camp as well as at home.

To establish a protective, COVID-free bubble, we must all regularly practice these mitigations including maintaining your module, masking, hand hygiene & sanitation, and physical distancing. Physical distancing includes having minimal essential personnel gather at morning briefings – spread out and wear your mask at briefings and breakouts.

Each person should also go through the daily symptom self-check and report to medical and your supervisor if you show signs of COVID. (see list of symptoms below)

Failing to practice your mitigations is a <u>risk to safety</u>, just like not wearing PPE or failing to carry your fire shelter, except that refusing to protect yourself from COVID endangers both your personal health and also the health of all those around you.

Keep our team healthy, safe and ready to fight fire!

This week the CDC published new guidelines stating that ALL contacts of a known COVID patient should be tested, even if you have NO symptoms. Not keeping yourself and others safe from even potential COVID exposure risks public health officials having to pull excessive numbers of persons off the line for testing.

Regardless of your personal beliefs about this pandemic, we ask you to respect your fellow team members and the importance of this firefighting mission.

Please act responsibly to defend us all.

Dr. Harry Sibold Emergency Physician and COVID Specialist NR Team 1 COVID Hotline 949-330-9973

COVID Symptom List:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

FIRE WEATHER FORECAST

FORECAST NO: 29

PREDICTION FOR: Sept 21-22, 2020 0600-0600

UNIT: CA-SQF

SIGNED: Phil Manuel

TIME AND DATE

FORECAST ISSUED: Sun, Sep 20 @ 2000 hours Incident Meteorologist – Phil Manuel

WEATHER DISCUSSION: A weak trough will move across the area from the southwest today into Tuesday. This will result in gusty ridgetop winds. Winds along the slopes and valleys will continue to be terrain driven with upslope/upcanyon during the day and downslope/downcanyon at night. Expect another day of low humidity, Rh values in the teens. Temperatures, although seasonal for the time of year, will trend slightly warmer. Aside from heavy smoke in the valleys, skies are expected to be clear with no clouds.

SKY/WEATHER TODAY (MONDAY): Mostly sunny. Slightly warmer. Expect the surface inversion to break by 1100-1200 outside of heavy smoke.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

5000 FT: 78 to 84 degrees (Up 2) / 12 to 16 (Unchanged) 7000 FT: 73 to 77 degrees (Up 2) / 16 to 22 (Unchanged)

20-FT WINDS:

Slope/Valley: Morning drainage winds will become South to southwest after 1000-1100 with speeds 6

to 10, gusts to 15 mph. Stronger winds in south to north aligned drainages and canyons.

Ridges: Northeast 3 to 5 mph until 1000. After 1000, southwest 6 to 10 G17 mph.

MIXING HEIGHT...9,000 FT AGL VENTILATION... Excellent

TRANSPORT WIND... South-Southwest 10 mph. CWR (0.10")....0% LAL....1 **HAINES....**5

SKY/WEATHER TONIGHT (MONDAY NIGHT): Mostly Clear with heavy smoke in the Kern River Valley. Moderate humidity recoveries.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

45 to 50 degrees (Up 2) / 45 to 60% (Up 10%) 5000 FT: 7000 FT: 47 to 52 degrees (Up 2) / 40 to 50% (Up 10%)

20-FT WINDS:

Slope/Valley: North to northeast 3 to 5 mph.

Ridaes: West 4 to 9 G17 mph becoming northeast 3 to 5 mph after 2200.

CWR (0.10")....0% **LAL....**1

TUESDAY: Inversion lifting by 1100-1200 outside of heavy smoke. Mostly Sunny and smoky.

Max Temps: 70 to 80. Min RH: 18 to 26%. Winds: Slope/Valley: Morning drainage winds becoming South to southwest 5-10 G15 mph in the afternoon. Stronger winds in South to North drainages and canyons.

Ridge: West-Southwest 8-12 G15-20 mph.

LAL: 1 CWR (0.10"): 0% MIXING HEIGHT: 8,000 FT AGL HAINES: 5

OUTLOOK for WEDNESDAY Through FRIDAY:

WEDNESDAY: Mostly sunny. High Temp: 70-82. Min RH: 15. Ridge Wind: WSW 4-8 G12 mph. THURSDAY: Mostly sunny. High Temp: 72-84. Min RH: 15. Ridge Wind: WSW 5-8 G15 mph.

FRIDAY: Mostly sunny. High Temp: 72-84. Min RH: 20. Ridge Wind: W 6-10 G18 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 31 Day	TYPE OF FIRE: Wildland					
FIRE NAME: East Castle Zone SQF Complex	OPERATIONAL PERIOD: 9/21/2020 0600-2000					
DATE ISSUED: September 20, 2020	TIME ISSUED: 2000					
UNIT: CA-Sequoia National Forest	SIGNED: /s/ David Greathouse					

WEATHER

Mostly Sunny, Slightly Warmer, Slightly Lower Humidity Today

(See Weather forecast for details)

Weather thresholds for large fire growth: Temps greater than 83°, RH's less than 20%, 20ft winds greater than 7mph

Rule of Thumb - To figure 20' winds, divide the observed eye level winds by .4

FUELS

<u>Fuels-</u> There are three primary fuels in the fire area. In the higher elevations above 5000' mixed conifer fuel types with a heavy load of dead and down dominate the fire area. At the mid elevations the fuels transition into more of a brush type. This will include most burn scars in the area. At the lower elevations, grass is the dominate fuel. There is a heavy component of beetle killed timber in the grey stage throughout the fire area. These pockets could lead to increased dead fuel loads in these areas. The fuels are critically dry for this time of year. The ERC-G is currently setting historical maximums and the 100-hr and 1000-hr fuel moistures are at historical lows. These indices indicate all dead fuels are available to contribute to fire intensity.

<u>Topography-</u> Topography in the fire area is dominated by two features. The Kern river valley runs north/south and bisects the fire can produce diurnal up/down slope winds that can be strong enough to overpower the prevailing winds. The Tule River Canyon on the west side of the fire runs from the San Joaquín valley to east to about Ponderosa. This canyon can affect the winds and associated fire spread, especially at night.

FIRE BEHAVIOR

<u>All Divisions:</u> Another day of warm temperatures and dry relative humidity means active fire behavior. Surface fire with occasional torching will be observed. Any rollouts have the potential for short duration crown runs. Downwind spotting is likely the probability of ignition is 80%-100%. Except under heavy smoke, expect fire activity to increase when the inversion lifts, around 1100, peak out around 1600-1700 before moderating after dark. Watch the smoke, clear skies can bring a dramatic shift in fire behavior and vice versa.

Expect head fire surface rates of spread in the timber fuel to be around 8-12 ch/hr and 5'-6' flame lengths on 30% slope. Remember, these rates of spread are for surface fire only. Crown fire and spotting will increase the overall rate of spread. A good rule of thumb to use in determining ROS and FL on the flanks is to cut the head fire ROS and FL in half. Backing fire will be about 3-4 ch/hr with 2'4' flame lengths

- **Div B** Continue to watch for rollouts along the division. If this occurs, short uphill runs can be expected. These runs could throw spots across Coy creek creating a potential uphill run towards Camp rogers and Mountain Aire
- **Div Y** The fire will continue to back down from Slate mountain today. If any rollout occurs uphill runs are likely. However, the forecasted winds are in your favor, so spotting should not be a problem.
- **Div Z** Expect another active day of flanking and backing fire all along the division today. As the lower end of the fire moves If burnouts occur during the day tomorrow, pay attention to the wind, it may become unfavorable in the early afternoon. **Pay Attention! Spotting is likely across the Kern River is likely.**

Ponderosa Structure – The forecasted winds may push smoke from any planned burnout along 190 and the active fire in Div Z into Ponderosa today. If this happens, be heads up for spot fires, especially in the hand piles. These piles are critically dry and will ignite easy.

AIR OPERATIONS

Heavy smoke is likely to linger in drainages due to light winds, potentially causing issues with aviation.

SAFETY

Fires rarely just go from small fires to major "blow ups." There are indicators that, if monitored, will show when a fire is starting to transition from problem fire behavior to extreme fire behavior. Review these indicators on page 3 & 4 in the IRPG.

Task: Assess opportunities and implement point source protection to values in the Ponderosa, Quaking Aspen and Peppermint work center areas where feasible and safe to engage. Continue to utilize aircraft to limit fire spread around values. Implement firing operations as directed by Branch 1. Coordinate suppression actions with DIV Y/Z.

Purpose: Minimize fire impacts to values within the mountain communities located within the DIV.

End State: Limit fire spread into additional values at risk to protect communities and infrastructure.

Special Instructions

Personnel to notify DIVS of potentially sensitive cultural materials.

- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
 discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions
 would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the
 IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
 discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions
 would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the
 IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignments										

Task: Implement point source protection to values in Ponderosa, Pyles Camp, Lloyd Meadows. Scout for direct and indirect containment opportunities along the southern edge. Coordinate with DIV A - Ponderosa Structure Group.

Purpose: Minimize impacts to values and limit fire spread to the southwest.

End State: Fire impacts to private property and infrastructure is minimized to the extent possible, natural resource impacts are limited, and there are no accidents or injuries to firefighters or the public.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Crews be prepared to spike.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Task: Prep the Crawford Road east to the 107 Road. Develop a firing plan focused on limiting fire effects and be prepared to implement to prevent the negative impacts of high intensity fire. Coordinate with Tule River Fire personnel on any line construction on reservation ground. Coordinate with DD to connect the Black Mtn Ridge with the Cow Mountain FCR.

Purpose: Protect the municipal water shed and other important tribal values from high intensity fire.

End State: Values at risk are not negatively impacted by high intensity fire or heavy handed suppression action.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.

Work Assignments		•	•	•						

Task: Maintain readiness and structure protection in: Bonita Meadow, West Meadow, Beach Meadow and Blackrock Work Center. Recon and develop a structure protection plan for Monache. Continue to go direct with crews and equipment on eastern finger of fire north of Beach Meadows. Monitor division X-Ray from the air and utilize air resources as needed to keep green islands from impacting control lines. Assist with point protection as needed.

Purpose: Limit impact to values at risk.

End State: Values at risk are not impacted by fire. A plan to protect values at risk is developed for the Monache area. The spread of fire to the south and east is limited in divisions L/X.

- A/G Tac for Branch Five: RX169.200, TX 169.200. This needs to be hand programmed.
- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at the Blackrock Ranger Station. Castle REMS 2 available to all branch divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the
 DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a
 significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions
 will be coordinated with and approved by the OSC whenever possible.

- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS.
 Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Task: Support divisions/groups assigned to night shift as directed by night operations. Implement firing as needed to protect values and secure any spots if safe to do so. Prepare for firing to protect values at risk and for perimeter control.

Purpose: To protect values at risk and provide perimeter control to impacted communities.

End State: Impacts to values at risk have been minimized and critical missions have been successfully implemented safely.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station.
 Castle REMS1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
 discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These
 actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated
 at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever
 possible.

Task: Provide perimeter control support and structure defense for the community of Ponderosa when conditions allow. Provide mitigation and reasonable protection for nationally significant natural resources to the extent possible while maintaining firefighter safety. Assist other Night Divisions as directed by Night Operations.

Purpose: Minimize fire spread to protect values at risk by supporting perimeter control operations.

End State: Values at risk and communities are defended to the extent possible while maintaning firefighter safety as our highest priority.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Castle REMS 1 available to all structure divisions.

AIR OPERATIONS SUMMARY 220	Prepared By: Dennis A. Morton	Prepared: 09/20/	/2020	Prepared Time: 2000 hrs.		
1. INCIDENT NAME: SQF COMPLEX	2. OPERATIONAL PERIOD 09/21/2020	START TIME: 0800	END TIME: 2000	SUNRISE : 0643	SUNSET : 1853	

- 3. REMARKS (Safety Notes, Hazards, Air Operations Special Equipment, etc.).
- 1. Smoky conditions can hamper our aviation operations adhere to visibility limitations, and DO NOT be pressured into accepting a mission that you know or feel is unsafe!
- 2. Ensure visibility and winds are adequate to safely conduct flight operations.
- 3. Ensure safe vertical & horizontal separation between aircraft in smoky conditions.
- 4. Utilize check points and call in and out of the dips.
- 5. If you see a UAS on your division report it up the chain of command to Air Operations, it may or may not be a friendly!
- 6. Assess mission complexity and the Benefit vs Risk of the mission.

(Terminate air operations at sunset...use last ½ hour for RTB. (exceptions allowed—communicate intent)

4. READY ALERT AIRCRAFT: H-407

Hoist Day/Night Capable Located in Visalia, CA Sharing with the Creek Fire Order through Communications/Air Attack

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

ASSIGNMENT-SPECIFIC MEDICAL EMERGENCY ACTION PLAN

Pre-Planning for today's assignment – See Page 2 IRPG

What are the likely l What kind of severe	hazards that could cause injuries? injuries?	
Who is the likely in-charge DIVS or overhead for an emergency in your assigned area today? (i.e. "Division Zulu")		
Who are the Medica What are their capab	al personnel assigned to your part of the incident?	
Other Emergency R	esponders: fire dept, crash rescue, ambulance?	
Communications: Command channel, Air to Ground, Medical helicopters, local rescue/medical?		
Transportation methods available	Ground vehicle, drop point, coordinates, travel route?	
	Aircraft I.D, helispot names, coordinates? Hoist capable, internal transport	
	Other available methods - contingency	
Most likely workforce for evacuation		

Response checklist

Who takes charge?

- DIVS or designated Overhead manages the overall scene and evacuation process.
- Medical personnel and emergency responders manage patients and conduct rescues.
- OPS and IC make command decisions so the emergency can be given full attention and management. They continue to manage ongoing incident operations.

Response sequence:

- First, secure the scene and protect responders and patients from further injury.
- Clear the Command channel for "Emergency Traffic only" if this is a critical emergency. If <u>not</u>, inform Communications of non-critical-emergency status and use normal communications.
- Contact closest Medical personnel and DIVS or designated Overhead for response.
- Notify Communications to initiate Accident Action Plan response.

Information for Communications: (See Medical Incident Report, page 108, IRPG)

- Type and extent of injuries?
- Airway or breathing problems? Serious bleeding?
- Is an EMT present or needed? Are Paramedics (Advanced Life Support) needed?
- Specific location of patients (Lat/Long, access route, DP#, helicopter Landing Zone)?
- What type of transport is needed? Helicopter medevac, hoist, ambulance or ground transport?
- Name of contact person in charge of the scene.
- Do not use names of patients at any time.
- Medical Emergency Responders confer with Medical Unit Leader and DIVS or designated Overhead to determine if this is a critical emergency and what type of transport is needed.

HUMAN RESOURCE MESSAGE

There is zero tolerance for drugs and alcohol on this fire incident.

You are always responsible for how you act and what you say...no matter how you feel.

Incident Personnel Responsibilities:

Incident personnel have the responsibility to conduct themselves in a manner that supports a discrimination and harassment-free work environment.

Incident Personnel Rights:

Incident personnel have the right to work in a harassmentfree environment where they are treated with dignity and respect.

It is the obligation of all incident personnel to practice mutual respect for other personnel.

Debby Hassel, HRSP (406) 274-7985

hrspfire@gmail.com

DEMOBILIZATION IS NOW REMOTE!!

Demobilization Steps:

- 1. ALL accountable property checked-out from the incident must be returned (i.e. communications, supply). Items may be returned at Whitsett Base Camp or ICP.
- 2. Submit all finance documentation (time must be projected for travel home).
 - a. Abide by scheduled DMOB time or call Finance for an unscheduled DMOB.
 - b. Government agency resources that would like to close out their time 100% remotely should call **949-591-4123** when they are close to their DMOB date and make necessary arrangements to complete the process.
- 3. Scan the QR code on the front of the IAP to complete the DMOB process and start your travel home. DO NOT LEAVE the incident until you have confirmed with Demobilization Unit Leader at 951-235-1568. If you have questions, please call!

EXTENSIONS & RR

- Extensions or RR's <u>MUST be requested by your incident supervisor</u> and approved by your home unit supervisor prior to being processed.
- Extensions forms can be obtained from DMOB or the plans representative onsite at Camp Whitsett.

Are You a TRAINEE?

1. Scan these codes to access the fillable *trainee* information forms. Send photo of qualification cards and task book cover to: 2020.Castle.Plans@firenet.gov

Registration

Check-out

2. Call Rob at 850-688-7623 or Robin at 406-360-5936 from 0600 - 2100 daily.

FINANCE MESSAGE

OPTIONS FOR SUBMITTING TIME:

1. <u>Fillable PDF CTR/Shift Ticket:</u> QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.

- **2.** <u>Hard Copy CTR/Shift Ticket:</u> Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom! Please make sure to include your phone number in the **Remarks** in case we have questions.
- **3.** OR you may turn in your actual hard copy as usual at Whitsett Spike Camp & Troy Meadow.
- Please try to submit time at least every other day
- H-Pay justifications are still required on your CTRs "H = Hazard Pay" is not sufficient

CONTRACTED EQUIPMENT PLEASE CONTACT FINANCE IF YOU WANT TO START THE PROCESS OF AN INTERIM PAYMENT

2020.castle.finance@firenet.gov

Finance Main Line: 949-591-4123

TIP:

**In order to use fillable pdf forms, you must have some version of Adobe Acrobat downloaded on your device. If you have any issues opening the documents call finance for assistance. **

REMINDER

- BE SURE to call Finance <u>1 day</u> prior to your scheduled DMOB to ensure time is complete at <u>949-591-4123</u>
- Only 1 representative per resource should go to Finance at ICP to officially close out time.

<u>FINANCE</u>

S# PROCESS

FEDERAL RESOURCES ONLY

- PROPERTY LOSS-REPAIR-REPLACE OF NON-NATIONAL FIRE EQUIPMENT SYSTEM (NFES) OR NON-STANDARD CACHE ITEMS
 - > CAN IT BE REPLACED AT SUPPLY?
- 1. General message is needed (ICS 213) with contact information NAME/PHONE #/EMAIL/RESOURCE ORDER # send to Supply at 2020.castle.ordering@firenet.gov
 - ➤ IF YOU NEED AN S# FOR REPLACEMENT BECAUSE SUPPLY DOES NOT HAVE IT PLEASE DO THE FOLLOWING
- 2. General message is needed (ICS 213) with contact information NAME/PHONE #/EMAIL/RESOURCE ORDER #. A description of property damage or loss needs to be documented and pictures of damaged items. Please send to finance at 2020.castle.finance@firenet.gov
- 3. We have Comp/Claims on site! Please reach out to us with any questions at 406-363-8956 or 406-366-3724.
