# EAST CASTLE ZONE SQF COMPLEX INCIDENT ACTION PLAN

CA-SQF-002541 P5NG2P (0513)

Sequoia National Forest / Inyo National Forest Sequoia Kings Canyon National Park

## **OPERATIONAL PERIOD**

her n

Wednesday, September 16, 2020 Thursday, September 17, 2020 0600 to 0600

# **Values**

#### **Firefighters and Public Safety**

**Communities:** Ponderosa, Camp Nelson, Pyles Boys Camp, Rogers Camp, Sequoia Crest, Cedar Slope, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Pierpoint, Coy Flat

**Infrastructure & Physical Assets:** Osa, Beach, Casa Vieja and Beck Meadows, USGS Seismic Station, Blackrock RS, Quinn RS, Kern RS, Tule River Municipal Watershed, roads, bridges, utilities, other agency structures, private inholdings, dispersed and developed recreation sites

**Cultural Sites:** Monache Mountain, Monache Meadow, and other archaeological & cultural sites

Sequoia Groves: Freeman Giant Sequoia Grove, Dillonwood Grove, and other groves

**TES Habitat:** Pacific Fisher, Little Kern Golden Trout, Mountain Yellow Legged Frog, CA Spotted Owl, Goshawk, Sierra Nevada Bighorn Sheep

#### **INCIDENT OBJECTIVES**

1. Incident Name

**EAST CASTLE ZONE SQF COMPLEX** 

2. Date Prepared 9/15/2020

3. Time Prepared 1930

#### 4. Operational Period

September 16 to September 17, 2020 0600 - 0600 DAY AND NIGHT SHIFT

#### 5. General Control Objectives for the Incident

- Provide point protection of values at risk within communities and associated infrastructure to prevent loss of structures, utilities, and developed sites and facilities including:
  - The communities of Camp Nelson, Pyles Boys Camp, Rogers Camp, Cedar Slope, Sequoia Crest, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Ponderosa, Pierpoint, and Coy Flat,
  - Infrastructure at Freeman Giant Sequoia Grove, Dillonwood Grove, and other groves; Blackrock, Kern, and Quinn Ranger Stations; Osa, Beach, Casa Vieja, and Beck Meadows; Tule River Municipal Watershed; private inholdings; roads, bridges, utilities; and developed and dispersed recreation sites.
  - Monache Mountain, Monache Meadow and other archaeological and cultural sites.
- Continue to hold and establish control lines that are safe for firefighters and provide a high probability of success to keep the fire north of Durr Wood Camp and west of Toowa Range to King Fisher Ridge to 22S05 Road.
- Monitor the spread/growth of the Shotgun Fire using air operation assets.
- Coordinate with Duty Officers from the Sequoia and Inyo NFs, Sequoia and Kings Canyon NPs, and the Tule River Indian Reservation on support to any new initial attack.

#### 6. Management Objectives

- Establish and implement common objectives and strategies under unified command with Cal Fire Team 6.
- Implement suppression actions that have a high potential for success, carefully weighing risk exposure to firefighters.
- Provide for the safety of firefighters, aviation and public through clear communication. Ensure an understanding of strategies
  and tactics, including a clearly defined and obtainable end state, in order to facilitate sound risk mitigation decision making.
- Implement social distancing and adhere to the "module of one" concept to reduce physical exposure and transmission of COVID-19, to provide for the health and safety of all incident personnel.
- Minimize to the extent feasible smoke exposure to firefighters, communities and other affected areas to reduce susceptibility to the consequences from COVID-19 exposure.
- Maintain and strengthen relationships with partner agencies, stakeholders, cooperators, community leaders, and local agencies utilizing most effective platforms available.
- Minimize adverse effects from suppression actions on riparian areas, wetlands, Little Kern Golden Trout, Mountain Yellow Legged Frog, California Spotted Owl, Pacific Fisher, and Sierra Nevada Bighorn Sheep habitats.
- Minimize impacts to Wilderness areas; use minimum impact suppression tactics (MIST) by utilizing trails, streams, ridges and natural barriers when possible for control lines.

#### 7. Commander's Intent

- Safety: Address fire fighter, public, and aviation safety through hazard/exposure mitigation.
- Communication: We will keep the Agency Administrators informed of significant accomplishments and issues.
- **Risk Management:** We will use a robust risk assessment process to mitigate unnecessary risk to fire fighters and update and/or revise decisions as necessary.
- **Human Resources**: We will ensure that all incident personnel be treated with dignity and respect. We have a zero tolerance for harassment, alcohol, or illegal drug use.
- Operations: We will make informed tactical decisions engaging the fire in the right locations with the appropriate resources.
- **Public Information**: We will provide timely and accurate information through the press, meetings, trap lines, briefings, and social media.
- **Stakeholders:** We will coordinate with the delegating agencies to identify key partners and keep them effectively informed of progress and to use their local knowledge.
- Finance: We will establish and monitor cost effective methods for accomplishing incident objectives.

## SAFETY MESSAGE Wildland/Urban Interface Considerations

The wildland/urban interface is more than a geographic area or zone where structures meet or intermingle with wildland fuels. It is a set of conditions where flammable structures exist within the reach of ignition sources, primarily firebrands, from burning wildland and structural fuels. Often, as severe wildland fires meet structural developments, vegetation ceases to burn but catastrophic fire continues, sustained by structures igniting and perpetuating these events even a mile or more from wildland fuels. The potential exists in areas of wildland/urban interface conditions for extremely dangerous and complex fire conditions which can pose a tremendous threat to public and firefighter safety.

#### WILDLAND-URBAN WATCHOUTS BULLET CHECKLIST

- WOODEN CONSTRUCTION
- POOR ACCESS
- LACK OF WATER
- FUELS < 30' FROM STRUCTURES
- EXTREME FIRE BEHAVIOR
- STRONG WINDS
- EVACUATION OF THE PUBLIC
- IN CHIMNEYS, SADDLES, NARROW CANYONS
- BRIDGE LOAD LIMITS

When in Doubt, dismount, take time to do a thoughtful assessment, and use all available resources to make decisions regarding engagement.

\*Also reference pages 12-16 in IRPG

Dan Cassidy SOF1 NR Team 1

#### FIRE WEATHER FORECAST

FORECAST NO: 24 INCIDENT NAME: Sequoia Complex

**PREDICTION FOR:** Sept 16-17, 2020 0600-0600

UNIT: CA-SQF SIGNED: Dan Byrd

TIME AND DATE

FORECAST ISSUED: Tue, Sep 15 @ 2000 hours Incident Meteorologist – Dan Byrd

<u>WEATHER DISCUSSION:</u> Wednesday will bring another day of the hot and dry conditions with mostly sunny skies, but there will be continued smoke over the area. High temperatures will be consistent from yesterday, with min RH's in the upper single digits to mid-teens. The winds at the ridges will be out of the south today becoming more southwesterly tonight. Clear skies will prevail once again tonight, with very poor RH recoveries. An upper trough will begin to effect the area on Thursday, with slightly cooler temperatures and southwest winds. An upper trough will move across the region on Friday, with gusty west-southwest winds. A shower a thunderstorms cannot be ruled out Friday afternoon or evening.

**SKY/WEATHER TODAY (WEDNESDAY):** Mostly sunny, hot and dry with high level smoke from surrounding fires. Expect the weak inversion to break by 0900-1000.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

**5000 FT:** 85 to 91 degrees (Down 1) / 7 to 12 (Down 2-4%) **7000 FT:** 76 to 82 degrees (Down 1) / 10 to 15 (Down 2-4%)

**EYE LEVEL WINDS:** 

**Slope/Valley:** Morning drainage winds will become south to southwest after 1000-1100 with speeds 8

to 12 gusts to 18 mph. Stronger winds in aligned drainages and canyons. The winds will

become westerly 4-6 G10 after 1600-1700.

**Ridges:** South to south-southwest 8 to 12 G15 mph.

MIXING HEIGHT...8,000 FT AGL VENTILATION... Excellent

TRANSPORT WIND... South 8-12 mph.

CWR (0.10")....0% LAL....1 HAINES....5

SKY/WEATHER TONIGHT (WEDNESDAY NIGHT): Mostly clear with heavy smoke in the Kern River Valley.

Overnight RH recoveries will be very poor.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

**5000 FT:** 57 to 62 degrees (Steady) / 15 to 20% (Down 5-10%) **7000 FT:** 55 to 60 degrees (Steady) / 10 to 15% (Down 5-10%)

**EYE LEVEL WINDS:** 

**Slope/Valley:** The drainage winds will become gusty out of the northeast in the Tule River drainage

overnight. North to northeast 3 to 6 mph elsewhere.

Ridges: South to Southwest 8 to 12 mph.

**CWR (0.10")....**0% **LAL....**1

**THURSDAY:** Inversion lifting by 0900-1000. Partly cloudy. Smoke aloft from surrounding fires.

Max Temps: 73 to 89. Min RH: 8 to 18%. Winds: Slope/Valley: Morning drainage winds becoming south to

southwest 6-10 G18 mph in the afternoon. **Ridge:** Southwest 5 to 10 G18 mph in the afternoon.

LAL: 1 CWR (0.10"): 0% MIXING HEIGHT: 7,000 FT AGL HAINES: 4

**OUTLOOK for FRIDAY Through SUNDAY:** 

FRIDAY: Partly Cloudy to Mostly cloudy. Slight chance of a shower or thunderstorm. High Temp: 71-85. Min RH: 20.

Ridge Wind: WSW 10-15 G25 mph.

**SATURDAY**: Partly Cloudy. **High Temp:** 69-83. **Min RH:** 19. **Ridge Wind:** WSW 6-10 G18 mph. **SUNDAY**: Mostly sunny. **High Temp:** 71-85. **Min RH:** 15. **Ridge Wind:** S-SW 6-10 G18 mph.

#### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 26 Day	TYPE OF FIRE: Wildland						
FIRE NAME: Sequoia Complex	OPERATIONAL PERIOD: 9/16/2020 0600-2000						
DATE ISSUED: September 15, 2020	TIME ISSUED: 0600						
UNIT: CA-Sequoia National Forest	SIGNED: /s/ Brian Anderson FBAN						

#### WEATHER

\*\*Worsening humidity recoveries and increasing fire behavior\*\*

(See Weather forecast for details)

Weather thresholds for large fire growth: Temps greater than 83°, RH's less than 20%, 20ft winds greater than 7mph

Rule of Thumb - To figure 20' winds, divide the observed eye level winds by .4

#### **FUELS**

<u>Fuels-</u> There are three primary fuels in the fire area. In the higher elevations above 5000' mixed conifer fuel types with a heavy load of dead and down dominate the fire area. At the mid elevations the fuels transition into more of a brush type. This will include most burn scars in the area. At the lower elevations, grass is the dominate fuel. There is a heavy component of beetle killed timber in the grey stage throughout the fire area. These pockets could lead to increased dead fuel loads in these areas. The fuels are very dry for this time of year. The ERC's are currently near the 97th. The 100-hr and 1000-hr fuels are at 6% and 7%. These indices indicate that all dead fuel will contribute to fire intensity.

<u>Topography-</u> Topography in the fire area is dominated by two features. The Kern river valley runs north/south and bisects the fire can produce diurnal up/down slope winds that can be strong enough to overpower the prevailing winds. The Tule River Canyon on the west side of the fire runs from the San Joaquín valley to east to about Ponderosa. This canyon can affect the winds and associated fire spread, especially at night.

#### **FIRE BEHAVIOR**

Tonight's maximum fire potential (Head Fire, 2%-4% fine dead fuel moisture)

REMEMBER: These are rates of spread for surface fire only, crown fire and spotting will increase the overall rates of spread

	Tim	ıber	
	0% Slope	30% Slope	60% Slope
Rate of Spread	10-12 ch/hr	14-18 ch/hr	19-21 ch/hr
Flame Lengths	4-7'	6-8'	8-10'
	Bru	ısh	
	0% Slope	30% Slope	60% Slope
Rate of Spread	3-5 ch/hr	5-7 ch/hr	10-12 ch hr
Flame Lengths	3-4'	4-6'	6-8'

Rule of Thumb: Cut head fire flame lengths and rate of spread in half for flanking fire, backing fire 2'-4 flame lengths with rates of spread of 3-4 ch/hr

<u>All Divisions:</u> Humidity recoveries are expected to be poor this morning, leading to an early start to the burn period. Active burning will occur again today with mainly surface fire, moderate to high rates of spread, especially in the timber fuel types. As the day heats up, single tree and / or group tree torching is probable. Watch for downwind spotting today (up to  $\frac{1}{2}$  mile) as the probability for ignition is 80%-100%. As fire becomes established in the Tule Canyon, pay attention to the canyon winds as they can highly influence fire behavior day or night.

**DIVS A/B/Y/Z–** Fire will continue to be heavily influenced by winds and terrain. With relatively light general winds, terrain winds will dominate direction of spread and can be completely different than the forcasted direction. If a spot becomes established in the bottom of Peppermint creek, winds are likely to line up with topography and increased spread rates to the north.

#### **AIR OPERATIONS**

Early morning inversions may affect aviation operations.

#### SAFETY

As weather and fuel conditions change, watch for the cumulative effect. Small changes in winds, RH, and atmospheric instability may be small by themselves, but cumulatively they can add up to significant fire behavior changes.

**Task:** Assess opportunities and implement point source protection to values in the Ponderosa, Quaking Aspen and Peppermint work center areas where feasible and safe to engage. Continue to utilize aircraft to limit fire spread around values. Implement firing operations as directed by Branch 1. Coordinate suppression actions with DIV B, DIV Y/Z and Ponderosa Structure Group.

Purpose: Minimize fire impacts to values within the mountain communities located within the DIV.

End State: Limit fire spread into additional values at risk to protect communities and infrastructure.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
  discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions
  would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the
  IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

**Task:** Implement point source protection around values in Pierpoint, Camp Nelson and Alpine Village where feasible. Utilize aerial resources to limit fire spread around values at risk. Utilize direct and indirect tactics to work toward containing spread and evaluate opportunities for indirect containment lines farther to the south. Coordinate with division A to ensure an integrated strategy. Coordinate all actions with incoming Cal Fire Team 6.

Purpose: Minimize impacts to surrounding communities and limit fire spread to the south and west.

**End State:** Impacts to local communities and infrastructure was kept to a minimum.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station.
   Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at
  the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's
  IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above
  that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the
  OSC whenever possible.

**Task:** Implement point source protection to values in Ponderosa, Pyles Camp, Lloyd Meadows and Freeman Grove. Scout for direct and indirect containment opportunities along the southern edge and continue to improve existing indirect containment lines. Monitor and manage fire effects to the extent possible in the Freeman Grove. Coordinate with DIV A, Ponderosa Structure Group and Lloyd Structure Group.

Purpose: Minimize impacts to values and limit fire spread to the southwest.

**End State:** Fire impacts to private property and infrastructure is minimized to the extent possible, natural resource impacts are limited, and there are no accidents or injuries to firefighters or the public.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- · Crews be prepared to spike.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Task: Recon the area to the west of the current perimeter and develop a fire suppression strategy focusing on firefighter safety, protecting values and probability of success.

Purpose: Protect values at risk from spreading fire by limiting fire spread to the west.

End State: Values at risk are not impacted by fire. A plan to protect values at risk is developed and the spread of fire to the west is limited.

**Task:** Maintain readiness and structure protection in: Bonita Meadow, West Meadow, Beach Meadows and Blackrock Work Center. Recon and develop a structure protection plan for Monache. Continue to go direct with crews and equipment on eastern finger of fire north of Beach Meadows. Monitor division X-Ray from the air and utilize air resources as needed to keep green islands from impacting control lines west of H-4. Assist with point protection as needed.

Purpose: Limit impact to values at risk.

**End State:** Values at risk are not impacted by fire. A plan to protect values at risk is developed for the Monache area. The spread of fire to the south and east is limited in divisions L/X

- A/G Tac for Branch Five: RX169.200, TX 169.200. This needs to be hand programmed.
- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at the Blackrock Ranger Station. Castle REMS 2 available to all branch divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the
  DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a
  significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions
  will be coordinated with and approved by the OSC whenever possible.

**Task:** Support line divisions with fireline perimeter control as instructed by Branch Director or Operations Section Chief. Reinforce structure protection plans with hose lays, static water supply and hazard mitigation as instructed by Group Supervisor for values at risk in Camp Nelson, Cedar Slope, Apline Village, Sequoia Crest and Pierpoint. Assist Ponderosa Structure Group as requested by Operations Section Chief or Branch Director.

**Purpose:** Protect values at risk from wildfire impacts with emphasis on supporting fireline perimeter control well in advance of direct threats to communities and improvements.

**End State:** Values at risk and communities are able to operate in pre-fire condition accounting for public safety.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Black Rock Ranger station. Medic Team 1 available to all structure divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS.
   Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

**Task:** Implement structure defense plans for Ponderosa and adjoining communities. Support Nelson Structure Group as requested by Operations Section Chief or Branch Director.

**Purpose:** Protect values at risk from the impacts of wildfire emphasizing perimeter control as a primary plan.

End State: Values at risk and communities are able to operate in pre-fire condition accounting for public safety.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station.
   Medic Team 1 available to all structure divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
  discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These
  actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated
  at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever
  possible.

**Task:** Evaluate opportunities to pick up the fire direct if fire behavior allows. Implement firing as needed to protect values and secure any spots if safe to do so.

Purpose: To protect values at risk and provide perimeter control to impacted communities.

**End State:** Impacts to values at risk have been minimized and critical missions have been successfully implemented safely.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station.
   Castle REMS1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
  discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These
  actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated

#### Work Assignments

**DIVISION ASSIGNMENT LIST** 

**Task:** Provide perimeter control support and structure defense for the community of Ponderosa when conditions allow. Provide mitigation and reasonable protection for nationally significant natural resources to the extent possible while maintaining firefighter safety. Assist other Night Divisions as directed by Night Operations.

**Purpose:** Minimize fire spread to protect values at risk by supporting perimeter control operations.

**End State:** Values at risk and communities are defended to the extent possible while maintaning firefighter safety as our highest priority.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Castle REMS 1 available to all structure divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
  discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These
  actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at
  the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

AIR OPERATIONS SUMMARY 220	Prepared By: <b>Dennis A. Morton</b>	Prepared: 09/15	/2020	Prepared Time:	2000 hrs.
1. INCIDENT NAME: SQF COMPLEX	<b>2. OPERATIONAL PERIOD</b> 09/16/2020	<b>START TIME:</b> 0800	<b>END TIME:</b> 2000	<b>SUNRISE</b> : 0640	<b>SUNSET:</b> 1901

- 3. REMARKS (Safety Notes, Hazards, Air Operations Special Equipment, etc.).
- 1. Assess mission complexity and the Benefit vs Risk of the mission.
- 2. Ensure visibility and winds are adequate to safely conduct flight operations.
- 3. Ensure safe vertical & horizontal separation between aircraft in smoky conditions.
- 4. Utilize check points and call in and out of the dips.
- 5. If you see a UAS on your division report it up the chain of command to Air Operations, it may or may not be a friendly!
- 6. Smoky conditions can hamper our aviation operations adhere to visibility limitations, and DO NOT be pressured into accepting a mission that you know or feel is unsafe!

(Terminate air operations at sunset...use last ½ hour for RTB. (exceptions allowed—communicate intent)

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

#### **MEDICAL PLAN (ICS 206 WF)**

Controlled Unclassified Information//Basic

#### ASSIGNMENT-SPECIFIC MEDICAL EMERGENCY ACTION PLAN

Pre-Planning for today's assignment – See Page 2 IRPG

What are the likely l What kind of severe	hazards that could cause injuries? injuries?	
	-charge DIVS or overhead for an emergency in oday? (i.e. "Division Zulu")	
Who are the Medica What are their capab	al personnel assigned to your part of the incident?	
Other Emergency R	esponders: fire dept, crash rescue, ambulance?	
Communications: C helicopters, local res	ommand channel, Air to Ground, Medical scue/medical?	
	Ground vehicle, drop point, coordinates, travel route?	
Transportation methods available	Aircraft I.D, helispot names, coordinates? Hoist capable, internal transport	
	Other available methods - contingency	
Most likely workfor	ce for evacuation	

#### Response checklist

#### Who takes charge?

- DIVS or designated Overhead manages the overall scene and evacuation process.
- Medical personnel and emergency responders manage patients and conduct rescues.
- OPS and IC make command decisions so the emergency can be given full attention and management. They continue to manage ongoing incident operations.

#### **Response sequence:**

- First, secure the scene and protect responders and patients from further injury.
- Clear the Command channel for "Emergency Traffic only" if this is a critical emergency. If <u>not</u>, inform Communications of non-critical-emergency status and use normal communications.
- Contact closest Medical personnel and DIVS or designated Overhead for response.
- Notify Communications to initiate Accident Action Plan response.

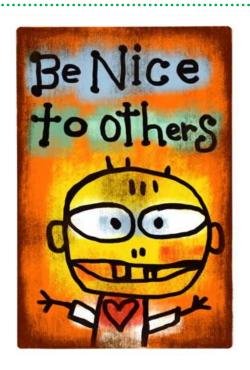

#### Information for Communications: (See Medical Incident Report, page 108, IRPG)

- Type and extent of injuries?
- Airway or breathing problems? Serious bleeding?
- Is an EMT present or needed? Are Paramedics (Advanced Life Support) needed?
- Specific location of patients (Lat/Long, access route, DP#, helicopter Landing Zone)?
- What type of transport is needed? Helicopter medevac, hoist, ambulance or ground transport?
- Name of contact person in charge of the scene.
- Do not use names of patients at any time.
- Medical Emergency Responders confer with Medical Unit Leader and DIVS or designated Overhead to determine if this is a critical emergency and what type of transport is needed.

# **HUMAN RESOURCE MESSAGE**

There is zero tolerance for drugs or alcohol on this fire incident.

Being nice to someone might not mean that much to you, but it can mean the world to them.

No matter what, always make the choice to be nice!

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

Debby Hassel, HRSP (406) 274-7985 hrspfire@gmail.com

#### **COVID-19 Reminders**

#### Make prevention part of your routine!

#### WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24hrs, have you had any of the following symptoms?

#### Symptoms:

Cough?

Shortness of breath or difficulty breathing?

Fever? Chills?

Muscle pain, outside that expected for your level of exertion?

Sore throat?

New loss of taste or smell?

Excessive fatigue?

Headache?

Congestion or runny nose?

Nausea or vomiting

Diarrhea?

\*Take temperature with no-touch thermometer, if available\*

# What to do if you are experiencing COVID-19 symptoms?

- Put on a mask if not already wearing one.
- Notify your supervisor and selfisolate from others immediately.
- Notify Line Medic or Medical Unit to evaluate symptoms.
- Document contacts you had the two days before your symptoms began.
- Wait for further instructions from the Medical Unit and COVID Team.

# How do I know if I am a 'close contact' of a person who is presumptive positive or has tested positive for COVID-19?

For COVID-19, a **close contact** is anyone who was withing 6 feet of an infected person for at least 15 minutes. An infected person can spread COVID-19 starting from 48 hours (or 2 days) before the person had any symptoms or tested positive for COVID-19.

\*Approximately 40-50% of people with COVID-19 will not show any symptoms. It's important to utilize preventative strategies (masks, spacing, hand hygiene) prior to someone displaying symptoms.

# Do your part to minimize the spread of COVID-19 and reduce your risk of exposure.

- Maintain 6 ft or greater spacing between you and others.
- Wear a mask, especially when unable to maintain social distancing, in public settings, including briefings.
- Frequently wash your hands with soap and water or a hand sanitizer that is at least 60% alcohol.
- Wash/sanitize frequently touched surfaces.

The best way to prevent illness and continue to fight fire is to avoid being exposed to this virus.

# FINANCE MESSAGE

#### **OPTIONS FOR SUBMITTING TIME:**

1. <u>Fillable PDF CTR/Shift Ticket:</u> QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.

- **2.** <u>Hard Copy CTR/Shift Ticket:</u> Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom! Please make sure to include your phone number in the **Remarks** in case we have questions.
- **3.** OR you may turn in your actual hard copy as usual at Whitsett Spike Camp & Troy Meadow.
- Please try to submit time at least every other day
- H-Pay justifications are still required on your CTRs "H = Hazard Pay" is not sufficient

# \*\*CONTRACTED EQUIPMENT PLEASE CONTACT FINANCE IF YOU WANT TO START THE PROCESS OF AN INTERIM PAYMENT\*\*

#### 2020.castle.finance@firenet.gov

Finance Main Line: 949-591-4123

#### TIP:

\*\*In order to use fillable pdf forms, you must have some version of Adobe Acrobat downloaded on your device. If you have any issues opening the documents call finance for assistance. \*\*

#### \*\*\*REMINDER\*\*\*

- BE SURE to call Finance <u>1 day</u> prior to your scheduled DMOB to ensure time is complete at <u>949-591-4123</u>
- Only 1 representative per resource should go to Finance at ICP to officially close out time.

#### **DEMOBILIZATION IS NOW REMOTE!!**

#### Demobilization Steps:

- 1. ALL accountable property checked-out from the incident must be returned (i.e. communications, supply). Items may be returned at Whitsett Base Camp or ICP.
- 2. Submit all finance documentation (time must be projected for travel home).
  - a. Abide by scheduled DMOB time or call Finance for an unscheduled DMOB.
  - b. Government agency resources that would like to close out their time 100% remotely should call **949-591-4123** when they are close to their DMOB date and make necessary arrangements to complete the process.
- 3. Scan the QR code on the front of the IAP to complete the DMOB process and start your travel home. DO NOT LEAVE the incident until you have confirmed with Demobilization Unit Leader at 951-235-1568. If you have questions, please call!

#### **EXTENSIONS & RR**

- Extensions or RR's <u>MUST be requested by your incident supervisor</u> and approved by your home unit supervisor prior to being processed.
- Extensions forms can be obtained from DMOB or the plans representative onsite at Camp Whitsett.

#### Are You a TRAINEE?

1. Scan these codes to access the fillable *trainee* information forms. Send photo of qualification cards and task book cover to: <a href="mailto:matthew.boss@usda.gov">matthew.boss@usda.gov</a>

Registration

Check-out

**Exit Interview** 

2. Call Incident Training Specialist 951-314-1427 (Matt) with questions from 0600 - 2100 daily.

# <u>FINANCE</u>

# S# PROCESS
