EAST CASTLE ZONE SQF COMPLEX INCIDENT ACTION PLAN

OPERATIONAL PERIOD

Sunday, September 20, 2020 Monday, September 21, 2020 0600 to 0600 CA-SQF-002541 P5NG2P (0513)

<u>Values</u>

Firefighters and Public Safety

Communities: Ponderosa, Camp Nelson, Pyles Boys Camp, Rogers Camp, Sequoia Crest, Cedar Slope, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Pierpoint, Doyle Springs, Mahogany and Coy Flats

Infrastructure & Physical Assets: Tule River Municipal Watershed, Osa, Beach, Casa Vieja and Beck Meadows, USGS Seismic Station, Blackrock RS, Quinn RS, Kern RS, roads, bridges, utilities, other agency structures, private inholdings, dispersed/developed recreation sites

Cultural Sites: Monache Mountain, Monache Meadow, and other archaeological & cultural sites

Sequoia Groves: Freeman Giant Sequoia Grove, and other groves

TES Habitat: Pacific Fisher, Little Kern Golden Trout, Mtn Yellow Legged Frog, CA Spotted Owl, Goshawk, Sierra Nevada Bighorn Sheep

Sequoia National Forest Inyo National Forest Sequoia Kings Canyon National Park

4. Operational Period

September 20 to September 21, 2020 0600 - 0600 DAY AND NIGHT SHIFT

5. General Control Objectives for the Incident

- Provide point protection of values at risk within communities and associated infrastructure to prevent loss of structures, utilities, and developed sites and facilities including:
 - The communities of Camp Nelson, Pyles Boys Camp, Rogers Camp, Cedar Slope, Sequoia Crest, Alpine Village, Redwood Drive, Lloyd Meadows, Mountain Aire, Ponderosa, Pierpoint, Doyle Springs, Mahogany and Coy Flat.
 - Infrastructure at Freeman Giant Sequoia Grove and other groves; Blackrock, Kern, and Quinn Ranger Stations; Osa, Beach, Casa Vieja, and Beck Meadows; Tule River Municipal Watershed; private inholdings; roads, bridges, utilities; and developed and dispersed recreation sites.
 - Monache Mountain, Monache Meadow and other archaeological and cultural sites.
- Continue to hold and establish control lines that are safe for firefighters and provide a high probability of success to keep the fire north of Durr Wood Camp and west of Toowa Range to King Fisher Ridge to 22S05 Road.
- Monitor the spread/growth of the Shotgun Fire using air operation assets.
- Coordinate with Duty Officers from the Sequoia and Inyo NFs, Sequoia and Kings Canyon NPs, and the Tule River Indian Reservation on support to any new initial attack.

6. Management Objectives

- Establish and implement common objectives and strategies under unified command with Cal Fire Team 6.
- Implement suppression actions that have a high potential for success, carefully weighing risk exposure to firefighters.
- Provide for the safety of firefighters, aviation and public through clear communication. Ensure an understanding of strategies
 and tactics, including a clearly defined and obtainable end state, in order to facilitate sound risk mitigation decision making.
- Implement social distancing and adhere to the "module of one" concept to reduce physical exposure and transmission of COVID-19, to provide for the health and safety of all incident personnel.
- Minimize to the extent feasible smoke exposure to firefighters, communities and other affected areas to reduce susceptibility to the consequences from COVID-19 exposure.
- Maintain and strengthen relationships with partner agencies, stakeholders, cooperators, community leaders, and local agencies utilizing most effective platforms available.
- Minimize adverse effects from suppression actions on riparian areas, wetlands, Little Kern Golden Trout, Mountain Yellow Legged Frog, Goshawk, California Spotted Owl, Pacific Fisher, and Sierra Nevada Bighorn Sheep habitats.
- Minimize impacts to Wilderness areas; use minimum impact suppression tactics (MIST) by utilizing trails, streams, ridges and natural barriers when possible for control lines.

7. Commander's Intent

- Safety: Address fire fighter, public, and aviation safety through hazard/exposure mitigation.
- **Communication:** We will keep the Agency Administrators informed of significant accomplishments and issues.
- **Risk Management:** We will use a robust risk assessment process to mitigate unnecessary risk to fire fighters and update and/or revise decisions as necessary.
- Human Resources: We will ensure that all incident personnel be treated with dignity and respect. We have a zero tolerance for harassment, alcohol, or illegal drug use.
- **Operations**: We will make informed tactical decisions engaging the fire in the right locations with the appropriate resources.
- **Public Information**: We will provide timely and accurate information through the press, meetings, trap lines, briefings, and social media.
- Stakeholders: We will coordinate with the delegating agencies to identify key partners and keep them effectively informed of progress and to use their local knowledge.
- Finance: We will establish and monitor cost effective methods for accomplishing incident objectives.

Safety Message

Firing Operations

Firing operations are often necessary when controlling wildland fire. When planned and executed appropriately, they can support fire control and greatly reduce risk to personnel and equipment.

Guiding Principles for Firing Operations

- Should be developed and implemented by certified and qualified personnel.
- Involve enough skilled personnel assigned as a firing team.
- Include enough personnel and equipment on a holding team.
- Must never jeopardize the safety of personnel, the public, property, or invalidate the actions of adjacent resources and personnel.
- Have a beginning point and an ending point (solid anchor points).
- Will be able to complete with the personnel and equipment on hand. Never start an operation that requires resources that are not on scene, or that may never arrive.
- Have considered all other options including the use of other tactics.
- Will not delay suppression activities by spending time gathering resources, preparing and executing the operation.
- Coordinate with Operations, Safety, and adjoining resources/personnel.
- Constantly monitor weather and fire behavior throughout the operation.
- Identify safety zones and escape routes and make them known.

Communicate Expectations – Understand Roles & Responsibilities

Dan Cassidy SOF1 NR Team 1

FIRE WEATHER FORECAST

FORECAST NO: 28 PREDICTION FOR: Sept 20-21, 2020 0600-0600 **INCIDENT NAME:** East Castle Zone SQF Complex

UNIT: CA-SQF SIGNED: Phil Manuel

TIME AND DATE FORECAST ISSUED: Sat, Sep 19 @ 2000 hours

Incident Meteorologist – Phil Manuel

WEATHER DISCUSSION: High pressure will build across the area today. A weak trough will move across the area from the southwest Monday into Tuesday. Expect slightly warmer temperatures today with lower humidity, Rh values in the teens. Ridge winds will be lighter today, northeast this morning, then southwest this afternoon, sustained speeds generally under 10 mph. This will allow for a greater influence from the terrain, with upslope/upvalley during the day and down slope/valley winds at night. Aside from heavy smoke in the valleys, skies are expected to be clear with no clouds.

<u>SKY/WEATHER TODAY (SUNDAY)</u>: Mostly sunny. Slightly warmer. Expect the weak inversion to break by 1100-1200 outside of heavy smoke.

MAX TEMPERATURES / MIN RELATIVE HUMIDITY:

5000 FT:	76 to 83 degrees (Up 3) / 14 to 18 (Down 5%)
7000 FT:	71 to 75 degrees (Up 3) / 16 to 22 (Down 5%)
EYE LEVEL WINDS:	
Slope/Valley:	Morning drainage winds will become South to southwest after 1000-1100 with speeds 6 to 10, gusts to 15 mph. Stronger winds in south to north aligned drainages and canyons.

<u>**Ridges:</u>** Southwest 5 to 8 G15 mph, but will become light out of the south during the mid to late afternoon hours.</u>

MIXING HEIGHT...7,000 FT AGL VENTILATION... Very Good TRANSPORT WIND... West-southwest 10 mph. CWR (0.10")....0% LAL....1 HAINES....4

<u>SKY/WEATHER TONIGHT (SUNDAY NIGHT)</u>: Mostly Clear with heavy smoke in the Kern River Valley. Moderate recoveries in the valleys. Poor to moderate recoveries along the ridges.

MIN TEMPERATURES / MAX RELATIVE HUMIDITY

5000 FT:	47 to 52 degrees (Up 2) / 40 to 50% (Down 5%)
7000 FT:	52 to 57 degrees (Up 2) / 30 to 40% (Down 5-10%)
EYE LEVEL WINDS:	
Slope/Valley:	North to northeast 3 to 6 mph.
Ridges:	Southwest 4 to 8 G15 mph becoming northeast 3 to 5 mph after 2200.
CWR (0.10")0%	LAL1

MONDAY: Inversion lifting by 1100-1200 outside of heavy smoke. Mostly Sunny and smoky. **Max Temps:** 73 to 86. **Min RH:** 14 to 22%. **Winds: Slope/Valley:** Morning drainage winds becoming South to southwest 5-10 G15 mph in the afternoon. Stronger winds in South to North drainages and canyons. **Ridge:** South to southwest 8-12 G20 mph.

LAL: 1 CWR (0.10"): 0% MIXING HEIGHT: 8,000 FT AGL HAINES: 5

OUTLOOK for TUESDAY Through THURSDAY:

TUESDAY: Mostly sunny. High Temp: 70-84. Min RH: 18. Ridge Wind: W 5-10 G17 mph. WEDNESDAY: Mostly sunny. High Temp: 73-86. Min RH: 15. Ridge Wind: S-SE 4-8 G12 mph. THURSDAY: Mostly sunny. High Temp: 74-87. Min RH: 15. Ridge Wind: S-SE 5-8 G15 mph.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 30 Day TYPE OF FIRE: Wildland FIRE NAME: East Castle Zone SQF Complex OPERATIONAL PERIOD: 9/20/2020 0600-2000 DATE ISSUED: **September 19, 2020** TIME ISSUED: 2000 **UNIT: CA-Sequoia National Forest** SIGNED: /s/ Brian Anderson FBAN WEATHER **Terrain driven winds today** (See Weather forecast for details) Weather thresholds for large fire growth: Temps greater than 83°, RH's less than 20%, 20ft winds greater than 7mph Rule of Thumb – To figure 20' winds, divide the observed eye level winds by .4 FUELS Fuels- There are three primary fuels in the fire area. In the higher elevations above 5000' mixed conifer fuel types with a heavy load of dead and down dominate the fire area. At the mid elevations the fuels transition into more of a brush type. This will include most burn scars in the area. At the lower elevations, grass is the dominate fuel. There is a heavy component of beetle killed timber in the grey stage throughout the fire area. These pockets could lead to increased dead fuel loads in these areas. The fuels are critically dry for this time of year. The ERC-G is currently setting historical maximums and the 100-hr and 1000-hr fuel moistures are at historical lows. These indices indicate all dead fuels are available to contribute to fire intensity. Topography- Topography in the fire area is dominated by two features. The Kern river valley runs north/south and bisects the fire can produce diurnal up/down slope winds that can be strong enough to overpower the prevailing winds. The Tule River Canyon on the west side of the fire runs from the San Joaquín valley to east to about Ponderosa. This canyon can affect the winds and associated fire

FIRE BEHAVIOR

Tonight's maximum fire potential (Head Fire, 2%-4% fine dead fuel moisture)

spread, especially at night.

REMEMBER: These are rates of spread for surface fire only, crown fire and spotting will increase the overall rates of spread

Timber (Mixed Conifer)									
0% Slope 30% Slope 60% Slope									
Rate of Spread	4-8 ch/hr	8-12 ch/hr	14-18 ch/hr						
Flame Lengths	3-5'	5-8'	9-11'						
	Timber (Oal	k Leaf Litter)							
	0% Slope	30% Slope	60% Slope						
Rate of Spread	3-5 ch/hr	5-8 ch/hr	10-12 ch/hr						
Flame Lengths	3-4'	4-6'	6-8'						

Rule of Thumb: Cut head fire flame lengths and rate of spread in half for flanking fire, backing fire 2'-4 flame lengths with rates of spread of 3-4 ch/hr

<u>All Divisions:</u> Slightly warmer temperatures along with low RH's will bring another active day of fire activity. Surface fire with occasional torching will be observed. Any rollouts have the potential for short duration crown runs. Downwind spotting is likely the probability of ignition is 80%-100%. Expect fire activity to increase when the inversion lifts, around 1100, peak out around 1600-1700 before moderating after dark. Watch the smoke, clear skies can bring a dramatic shift in fire behavior and vice versa.

<u>Div Y/Z & Ponderosa Structure</u> - If backfire operations around Ponderosa occur today, be heads up for the onset of the upslope winds in the early afternoon. If these winds develop, they will become unfavorable to your backfire operations. If these winds develop after burnout is complete, be heads up for spot fires in Ponderosa. **Pay attention! spotting is likely across the Kern River**.

<u>Div. B</u> – Backing and flanking surface fire with an occasional torching tree will continue into the Coy Creek Drainage today. Terrain, fuels and fire behavior should be conducive for direct attack. Watch out for rollouts. Fires below you can get established quickly and make a run back upslope

AIR OPERATIONS

Heavy smoke is likely to linger in drainages due to light winds, potentially causing issues with aviation.

SAFETY

Stay alert, don't get complacent! Small changes in fuel and weather conditions can equal big changes in fire behavior.

Task: Assess opportunities and implement point source protection to values in the Ponderosa, Quaking Aspen and Peppermint work center areas where feasible and safe to engage. Continue to utilize aircraft to limit fire spread around values. Implement firing operations as directed by Branch 1. Coordinate suppression actions with DIV Y/Z.

Purpose: Minimize fire impacts to values within the mountain communities located within the DIV.

End State: Limit fire spread into additional values at risk to protect communities and infrastructure. **Special Instructions**

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
 discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions
 would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the
 IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignmen										
Task: Assess opportunities and implement point source protection to values in the Ponderosa, Quaking Aspen and Peppermint work center areas where feasible and safe to engage. Continue to utilize aircraft to limit fire spread around values. Implement firing operations as directed by Branch 1. Coordinate suppression actions with DIV Y/Z.										
Purpose: Minimiz	e fire impa	cts to value	es withir	the mo	ountain communi	ties locate	d withi	n the DIV.		
End State: Limit f	ire spread	into additio	nal valu	es at ris	k to protect com	munities a	and infr	astructure.		

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the
 discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions
 would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the
 IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignments										

Task: Implement point source protection to values in Ponderosa, Pyles Camp, Lloyd Meadows. Scout for direct and indirect containment opportunities along the southern edge. Monitor and manage fire effects to the extent possible in the Freeman Grove. Coordinate with DIV A - Ponderosa Structure Group.

Purpose: Minimize impacts to values and limit fire spread to the southwest.

End State: Fire impacts to private property and infrastructure is minimized to the extent possible, natural resource impacts are limited, and there are no accidents or injuries to firefighters or the public.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Crews be prepared to spike.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Task: Prep the Crawford Road east to the 107 Road. Develop a firing plan focused on limiting fire effects and be prepared to implement to prevent the negative impacts of high intensity fire. Coordinate with Tule River Fire personnel on any line construction on reservation ground. Coordinate with DD to connect the Black Mtn Ridge with the Cow Mountain FCR.

Purpose: Protect the municipal water shed and other important tribal values from high intensity fire.

End State: Values at risk are not negatively impacted by high intensity fire or heavy handed suppression action.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.

Task: Maintain readiness and structure protection in: Bonita Meadow, West Meadow, Beach Meadow and Blackrock Work Center. Recon and develop a structure protection plan for Monache. Continue to go direct with crews and equipment on eastern finger of fire north of Beach Meadows. Monitor division X-Ray from the air and utilize air resources as needed to keep green islands from impacting control lines. Assist with point protection as needed.

Purpose: Limit impact to values at risk.

End State: Values at risk are not impacted by fire. A plan to protect values at risk is developed for the Monache area. The spread of fire to the south and east is limited in divisions L/X.

- A/G Tac for Branch Five: RX169.200, TX 169.200. This needs to be hand programmed.
- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at the Blackrock Ranger Station. Castle REMS 2 available to all branch divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignment										

Task: Implement point source protection around values in Pierpoint, Camp Nelson and Coy Flat where feasible. Utilize aerial resources to limit fire spread around values at risk. Utilize direct and indirect tactics to work toward containing spread and evaluate opportunities for indirect containment lines farther to the south. Coordinate with division A to ensure an integrated strategy. Coordinate all actions with Cal Fire Team 6.

Purpose: Minimize impacts to surrounding communities and limit fire spread to the south and west.

End State: Impacts to local communities and infrastructure was kept to a minimum.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Medic Team 1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignments							· · ·		•	

Task: Support line divisions with fireline perimeter control as instructed by Branch Director or Operations Section Chief. Reinforce structure protection plans with hose lays, static water supply and hazard mitigation as instructed by Group Supervisor for values at risk in Camp Nelson, Cedar Slope, Apline Village, Sequoia Crest and Pierpoint. Assist Ponderosa Structure Group as requested by Operations Section Chief or Branch Director.

Purpose: Protect values at risk from wildfire impacts with emphasis on supporting fireline perimeter control well in advance of direct threats to communities and improvements.

End State: Values at risk and communities are able to operate in pre-fire condition accounting for public safety. Special Instructions

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Black Rock Ranger station. Medic Team 1 available to all structure divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

Work Assignment							n			
Task: Support div										
protect values and	secure any	y spots i	f safe to	do so. P	repare for firing to	protec	t values	at risk and fo	r perimeter control.	

Purpose: To protect values at risk and provide perimeter control to impacted communities.

End State: Impacts to values at risk have been minimized and critical missions have been successfully implemented safely.

- Personnel to notify DIVS of potentially sensitive cultural materials.
- Castle Ambulance 3 staged at Whitsett Base Camp. Castle Ambulance 2 staged at Blackrock Ranger Station. Castle REMS1 available to all Branch I divisions.
- Prioritization of all control or containment actions taken during the operational period in this Division will be at the discretion of the DIVS. Actions may have to be taken by the DIVS that are not enumerated in today's IAP. These actions would be a result of a significant change in actual or expected fire behavior over and above that anticipated at the time the IAP was prepared. These actions will be coordinated with and approved by the OSC whenever possible.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

MEDICAL PLAN (ICS 206 WF) Controlled Unclassified Information//Basic ASSIGNMENT-SPECIFIC MEDICAL EMERGENCY ACTION PLAN

Pre-Planning for today's assignment - See Page 2 IRPG

What are the likely l What kind of severe	hazards that could cause injuries?	
	-charge DIVS or overhead for an emergency in oday? (i.e. "Division Zulu")	
Who are the Medica What are their capab	Il personnel assigned to your part of the incident? pilities?	
Other Emergency R	esponders: fire dept, crash rescue, ambulance?	
Communications: C helicopters, local res	ommand channel, Air to Ground, Medical scue/medical?	
	Ground vehicle, drop point, coordinates, travel route?	
Transportation methods available	Aircraft I.D, helispot names, coordinates? Hoist capable, internal transport	
	Other available methods - contingency	
Most likely workfor	ce for evacuation	

Response checklist

Who takes charge?

- DIVS or designated Overhead manages the overall scene and evacuation process.
- Medical personnel and emergency responders manage patients and conduct rescues.
- OPS and IC make command decisions so the emergency can be given full attention and management. They continue to manage ongoing incident operations.

Response sequence:

- First, secure the scene and protect responders and patients from further injury.
- Clear the Command channel for "Emergency Traffic only" if this is a critical emergency. If <u>not</u>, inform Communications of non-critical-emergency status and use normal communications.
- Contact closest Medical personnel and DIVS or designated Overhead for response.
- Notify Communications to initiate Accident Action Plan response.

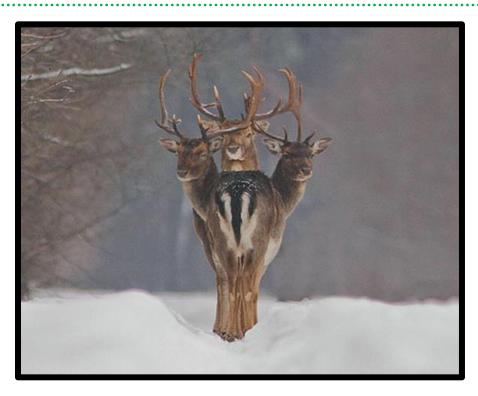

Information for Communications: (See Medical Incident Report, page 108, IRPG)

- Type and extent of injuries?
- Airway or breathing problems? Serious bleeding?
- Is an EMT present or needed? Are Paramedics (Advanced Life Support) needed?
- Specific location of patients (Lat/Long, access route, DP#, helicopter Landing Zone)?
- What type of transport is needed? Helicopter medevac, hoist, ambulance or ground transport?
- Name of contact person in charge of the scene.
- Do not use names of patients at any time.
- Medical Emergency Responders confer with Medical Unit Leader and DIVS or designated Overhead to determine if this is a critical emergency and what type of transport is needed.

HUMAN RESOURCE MESSAGE

There is zero tolerance for drugs or alcohol on this fire incident.

Things are not always as they first appear.

It can be the same way with conversations.

Make sure what people "hear" you say is what you were really trying to convey.

Debby Hassel, HRSP (406) 274-7985

hrspfire@gmail.com

DEMOBILIZATION IS NOW REMOTE!!

Demobilization Steps:

- 1. ALL accountable property checked-out from the incident must be returned (i.e. communications, supply). Items may be returned at Whitsett Base Camp or ICP.
- 2. Submit all finance documentation (time must be projected for travel home).
 - a. <u>Abide by scheduled DMOB time</u> or call Finance for an unscheduled DMOB.
 - b. Government agency resources that would like to close out their time 100% remotely should call **949-591-4123** when they are close to their DMOB date and make necessary arrangements to complete the process.
- 3. Scan the QR code on the front of the IAP to complete the DMOB process and start your travel home. DO NOT LEAVE the incident until you have confirmed with Demobilization Unit Leader at 951-235-1568. If you have questions, please call!

EXTENSIONS & RR

- Extensions or RR's <u>MUST be requested by your incident supervisor</u> and approved by your home unit supervisor prior to being processed.
- Extensions forms can be obtained from DMOB or the plans representative onsite at Camp Whitsett.

Are You a TRAINEE?

1. Scan these codes to access the fillable *trainee* information forms. Send photo of qualification cards and task book cover to: <u>2020.Castle.Plans@firenet.gov</u>

Registration

Check-out

2. Call Rob at 850-688-7623 or Robin at 406-360-5936 from 0600 – 2100 daily.

FINANCE MESSAGE

OPTIONS FOR SUBMITTING TIME:

1. <u>Fillable PDF CTR/Shift Ticket:</u> QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.

- 2. <u>Hard Copy CTR/Shift Ticket:</u> Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it is legible and includes the supervisor's signature at the bottom! Please make sure to include your phone number in the **Remarks** in case we have questions.
- **3.** OR you may turn in your actual hard copy as usual at Whitsett Spike Camp & Troy Meadow.
- Please try to submit time at least every other day
- H-Pay justifications are still required on your CTRs "H = Hazard Pay" is not sufficient

CONTRACTED EQUIPMENT PLEASE CONTACT FINANCE IF YOU WANT TO START THE PROCESS OF AN INTERIM PAYMENT

2020.castle.finance@firenet.gov

Finance Main Line: 949-591-4123

TIP:

**In order to use fillable pdf forms, you must have some version of Adobe Acrobat downloaded on your device. If you have any issues opening the documents call finance for assistance. **

REMINDER BE SURE to call Finance <u>1 day</u> prior to your scheduled DMOB to ensure time is complete at 949-591-4123 Only 1 representative per resource should go to Finance at ICP to officially close out time.

FINANCE

S# PROCESS

FEDERAL RESOURCES ONLY

- PROPERTY LOSS-REPAIR-REPLACE OF NON-NATIONAL FIRE EQUIPMENT SYSTEM (NFES) OR NON-STANDARD CACHE ITEMS
 - > CAN IT BE REPLACED AT SUPPLY?
- 1. General message is needed (ICS 213) with contact information NAME/PHONE #/EMAIL/RESOURCE ORDER # send to Supply at <u>2020.castle.ordering@firenet.gov</u>
 - IF YOU NEED AN S# FOR REPLACEMENT BECAUSE SUPPLY DOES NOT HAVE IT PLEASE DO THE FOLLOWING
- 2. General message is needed (ICS 213) with contact information NAME/PHONE #/EMAIL/RESOURCE ORDER #. A description of property damage or loss needs to be documented and pictures of damaged items. Please send to finance at 2020.castle.finance@firenet.gov
- 3. We have Comp/Claims on site! Please reach out to us with any questions at 406-363-8956 or 406-366-3724.
