SUNDAY

The Fallen Firefighters Foundation

Today, October 4, at 7:00 am PDT, the lives of 103 firefighters who died in the line of duty will be remembered in the National Fallen Firefighters Foundation's production of America's Tribute to Fallen Firefighters. This 45-minute special will be available to watch on www.firehero.org and through the NFFF's social media platforms. Please take a moment today to honor our fallen heroes.

SUNDAY 10/4/2020 - 0700 to MONDAY 10/5/2020 - 0700

INCIDENT OBJECTIVES (ICS 202)	1. INCIDENT NAME SQF Complex	2. DATE 10/3/2020	3. TIME 2200
--------------------------------------	--	-----------------------------	------------------------

4. OPERATIONAL PERIOD (DATE/TIME) 10/4/2020 - 10/5/2020 0700-0700

SQF COMPLEX - INCIDENT OBJECTIVES

Strategic Framework

Implement a full suppression strategy on the Castle and Shotgun Fires. Values at risk include human safety, private property and residences, infrastructure, utilities, developed sites, facilities, Giant Sequoia groves and archaeological and cultural sites. Apply tactics that offer the highest probability of success.

Leaders Intent

Provide the highest level of customer service to all involved with, or impacted by, the Castle and Shotgun Fires. Ensure transparent, timely and accurate communication at all levels of the incident. All incident assigned personnel should be prepared to take the appropriate actions regarding:

- Professional behavior, conduct and timely/effective communications.
- Personal safety and the safety of others, includes driving slowly, safely and defensively.
- Fatigue management by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to COVID-19 by daily screening, minimizing large group settings, social distancing, wearing face coverings, hand washing and practicing module of one concept.
- Effective management of incident costs by planning strategies and tactics toward a high probability of success in meeting incident objectives.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Reduce the threat to private property, residences and infrastructure through the application of effective suppression tactics.
- Reduce the impacts to Wilderness values by ensuring minimum impact suppression tactics (MIST) are applied. Utilize historic fire control lines, trails, streams, ridges and natural barriers when possible for control lines.
- Coordinate suppression activities with assigned incident resource advisors to minimize adverse effects to natural and cultural resources, on riparian areas, watersheds, Spotted Owl and Goshawk PACs, Fisher, Little Kern Golden Trout, Mountain Yellow Legged Frog, and Sierra Nevada Bighorn Sheep Habitats.
- Mop up as safety allows to reduce the threat of fire spread outside of containment lines.
- Conduct suppression repair activities to prevent long term damage to resources.
- Utilize suppression resources in the removal of fuel hazards in support of community repopulation.

Control Objectives

To prevent the fires from spreading to private property, surrounding communities, and values at risk, keep the fire:

- North of Durrwood Camp and the Tule River Reservation to protect communities and infrastructure along the Kern River and within the Reservation.
- West of Toowa Range to Kingfisher Ridge to 22S05 Road to protect recreational and administrative infrastructure.
- South Hwy 198 to Lost Canyon to Whitney Meadow to limit fire growth to the north.
- East of Springville to Blue Ridge to South Fork to protect communities west of the fire.

Site Safety Plan Required Yes No Approved Site Safety Plan Located at:

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 44	TYPE OF FIRE: Wildfire
FIRE NAME: SQF Complex	OPERATIONAL PERIOD: 24 HR, 10/4/2020 - 10/5/2020
DATE ISSUED: October 3, 2020	TIME ISSUED: 2130
UNIT: CA-SQF 002541	SIGNED: /s/ Dennis K Burns

INPUTS

WEATHER SUMMARY **Continued Warm Dry and Unstable**
Temps: Day 71-90 depending on elevation Night 42-66
RH: Day 8-18% Night 15-40%
20 FOOT WINDS: Day Slope/Valley - Variable 1-3 mph becoming upslope/up canyon 4-8 mph in the afternoon, gusts 15. Ridge winds S 4-8 mph gusts 15mph becoming W 5-10 gusts to 15mph after 1400hrs.

Night Ridge winds N-NE 3-6mph

POI 80-90% unshaded ERC 81 Above 97th percentile

FIRE BEHAVIOR

GENERAL: Smoke over the fire will moderate the fire behavior. No forward fire progression is expected and any spot fires should be easily handled by direct attack. Most of the fire continues to be in a backing alignment. All fuels are available to burn and will be receptive to spotting. Expect single and group tree torching in the denser stands of timber and brush fields in the interior. Spotting distances will be short to mid range 100 to 200 feet. Rates of spread on slopes will be 8-12 chains per hour with 4-8 foot flame lengths in the timber. Backing fire, multiple forward rate of spread by .3. If you see clear skies expect the fire behavior to increase as the smoke has been moderating the fire behavior.

Branch I: No forward fire progression expect mainly smoldering and creeping in the interior. Some interior heat still exists but is not expected to challenge containment.

Branch II: Most of the Branch is in a backing alignment. No forward fire progression is expected. In Div D there is some heat near the line above DP 60, keep a heads up for short intense runs, watch the column direction as an indicator for potential spot fire. Div T potential for reburn still exists. For crews working the north end the fire is not expected to impact your work.

Branch III: The fire has backed down to and spotted across the South Fork of Kaweah. Div. U should expect the potential that the fire will make a slope aligned run towards Homers Nose. Rock screens will slow fire spread however there is a significant amount of bug kill timber on the upper third of the slope which will increase spotting and the potential for crown runs. Expect smoke to limit air operations.

Night: Expect the fire to remain active in thermal belts or until the RH recovers above 25-30%. In Branch II expect the RH to drop after midnight and fire behavior to increase in the interior. No forward fire progression expected on any division.

AIR OPERATIONS

Inversion layer with smoke will be present until at least the 1000-1100hr time period.
Do not base your plan on air they might not be able to get there.

SAFETY

Fire will become active at RH% below 25% and clear skies. Slope and heavy fuels will enhance fire intensity.

Remember tragedies often occur on quite sections of line.

Safety Message

October 4, 2020 - 0700 to October 5, 2020 - 0700

5 at 2

At 1400, take a 5-minute break and re-access your current situation against objectives. Remember, of 20 fatality burnovers, 15 occurred between the hours of 1400 and 1630

Heat/Smoke/Hazard Trees

Symptoms & Signs of Heat Illness

- **Heat Exhaustion:** Victim will have cool, clammy skin; pale coloring; feel weak, dizzy and/or nauseous.
 - Treatment – Have individual sit in shade or cool area; administer fluids; loosen clothing and assure rest.
- **Heat Stroke: *This is a life-threatening medical emergency!!*** Victim will have hot, dry, red skin and possible convulsions. These symptoms can progress to unconsciousness and death!
 - Treatment – Initiate emergency medical procedures outlined in incident Med Plan. Immediately cool individual's body by pouring water over them, especially the head and upper body. Monitor the victim and provide whatever medical support necessary. Placing ice around the neck, groin and armpits can help speed the cool down.

Smoke and carbon monoxide are present on the typical wildfire. Some exposure is unavoidable.

Your objective must be to limit exposure best as possible. Too much exposure causes fatigue, effects decision making, and cognitive functions.

- Rotate crew members out smoke, used vehicle air conditioning, look for sleeping sites out of smokey areas.

Hazardous Tree Indicators:

- Disease or bug-kill timber.
- Trees and duff have been burning for an extended period.
- High-risk tree species (rot and shallow root system – tan oaks, sequoia).
- **Mitigations**
 - Minimize exposure; determine if benefit is worth the risk.
 - Use extra caution when working downhill of hazard trees. Post lookouts in areas of known or potential snag hazards

INCIDENT SAFETY ANALYSIS 215a

All Div.	Helicopter Operations	<ul style="list-style-type: none"> ~ Stay clear of all bucket drops when suppression actions are in place and allow 1 minute prior to re-entry. ~ Monitor A-G communications. ~ Follow aviation safety guidelines in IRPG and IHOG.
All Div.	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 50'-100' exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment.
All Div.	Fatigue & Over Exertion	<ul style="list-style-type: none"> ~ Drink 1 quart of water each hour during and after work. ~ Rotate crews out of smoky areas. ~ Set a reasonable work pace and allow adequate rest breaks while on the project. ~ Stagger work crews start time to limit fatigue. ~ Use buddy system to monitor personnel of heat related and fatigue issues. ~ Follow work / rest guidelines.
All Div.	Heat Related Illness (HRI)& Dehydration	<ul style="list-style-type: none"> ~ Drink Fluids throughout operational period (6-8 qts/shift). ~ Maintain water/electrolyte ratio of 3 to 1. ~ Carry extra water on line and cache water at drop points. ~ Take Frequent breaks, minimum of 10 minutes every hour. ~ Allow out of area resources time to acclimatize before expecting peak performance. ~ Recognize symptoms of HEAT RELATED ILLNESS which include. <ul style="list-style-type: none"> o Lack of energy o Headaches, dizziness o Lack of rest o No hunger, poor eating habits o Hot skin, and lack of sweating
Div. Y,Z	Unplanned Public Interaction	<ul style="list-style-type: none"> ~ Be alert to non-fire personnel in areas with suppression personnel. ~ All non-fire personnel will be escorted while on fireline. ~ Post lookouts to in areas with public to avoid conflicts with mission tasks. ~ Ensure sufficient security to restrict access to exclusion area.
Div. U	Indirect Fireline	<ul style="list-style-type: none"> ~ Post lookouts, identify escape routes and safety zones (IRPG pg. 6). ~ Review "Strategy/Indirect Attack" (IRPG pg. 87).
All Div.	Spike Camp	<ul style="list-style-type: none"> ~ Keep a clean camp. ~ Ensure communications are in place. ~ Review and observe "Line Spike" considerations (IRPG pg. 98).
All Div.	Communications	<ul style="list-style-type: none"> ~ Maintain communication with aviation resources, and suppression organization. ~ Ensure all know frequency and protocol for contacting resources. ~ Utilize the ICS 205. ~ Utilize human repeaters when working in dead spots.

COVID-19 Reminders

Make prevention part of your routine!

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24hrs, have you had any of the following symptoms?

Symptoms:

Cough?

Shortness of breath or difficulty breathing?

Fever? Chills?

Muscle pain, outside that expected for your level of exertion?

Sore throat?

New loss of taste or smell?

Excessive fatigue?

Headache?

Congestion or runny nose?

Nausea or vomiting?

Diarrhea?

Take temperature with no-touch thermometer, if available

What to do if you are experiencing COVID-19 symptoms?

- Put on a mask if not already wearing one.
- Notify your supervisor and self-isolate from others immediately.
- Notify Line Medic or Medical Unit to evaluate symptoms.
- Document contacts you had the two days before your symptoms began.
- Wait for further instructions from the Medical Unit and COVID Team.

How do I know if I am a 'close contact' of a person who is presumptive positive or has tested positive for COVID-19?

For COVID-19, a **close contact** is anyone who was within 6 feet of an infected person for at least 15 minutes. An infected person can spread COVID-19 starting from 48 hours (or 2 days) before the person had any symptoms or tested positive for COVID-19.

*Approximately 40-50% of people with COVID-19 will not show any symptoms. It's important to utilize preventative strategies (masks, spacing, hand hygiene) prior to someone displaying symptoms.

Do your part to minimize the spread of COVID-19 and reduce your risk of exposure.

- Maintain 6 ft or greater spacing between you and others.
- Wear a mask, especially when unable to maintain social distancing, anytime indoors, in public settings, including briefings.
- Frequently wash your hands with soap and water or a hand sanitizer that is at least 60% alcohol.
- Wash/sanitize frequently touched surfaces.

The best way to prevent illness and continue to fight fire is to avoid being exposed to this virus.

**COVID questions or concerns?
Call the COVID Information Line
601-376-8273**

SQF COMPLEX

REMOTE DEMOB PROCEDURES

We are doing a remote demob of resources; **please complete all steps below on your smart phone/tablet and through email.** There will be no ICS-221 for you to obtain physical signatures; the ICS-221 will be completed in a virtual environment.

After your supervisor makes you available for demob:

Step 1: On the date you are scheduled to demob, ensure all supplies and equipment are returned to **SUPPLY** and **COMMS**, as appropriate.

Step 2: Email your remaining CTRs and shift tickets to **FINANCE**, including the travel day CTR and shift ticket, to 2020.castle.finance@firenet.gov. Please be prompt in submitting your final finance package; you will not be released from the incident until you get the final documentation and Finance notifies Demob.

Step 3 (Only applies if you are at Porterville-ICP): Proceed to **GROUND SUPPORT** for vehicle inspection. AFTER inspection, proceed to **WEED WASH** (adjacent to Ground Support). Additionally, visit **FINANCE** to close your financial package.

Step 4: Scan the QR Code below, click on "Demob Folder" and enter your DEMOB travel information in the form provided.

Failure to follow all of these steps will keep you attached to this fire and subsequently unavailable for future fires.

Note: Email all non-finance documentation to 2020.castle.plans@firenet.gov (Unit Logs, ICS-213s, etc.). Take a picture and attach to email.

Questions? Contact DEMOB at 951-235-1568.

Virtual Timekeeping Finance Message

Financial Information:

Fire Name: SQF Complex

Fire Number: CA-SQF-002541/ P5NG2P (0513)

Finance Email: 2020.Castle.finance@firenet.gov

Finance Documents Needed (If Not Already Submitted):

Overhead: <ul style="list-style-type: none">• Resource Order• AD Hire Form (If an AD)• CTR's	Cooperator: <ul style="list-style-type: none">• Inspection• Resource Order• Cooperative Agreement• Shift Ticket
---	---

Please send in your CTR or Shift Ticket daily, if you would like to get paid. You can submit your time using one of the following methods:

- 1) **Fillable PDF CTR/Shift Tickets:** QR code to the fillable forms are included below. If you do not have QR capabilities finance can e-mail you the forms directly.
- 2) **Hard Copy CTR/Shift Tickets:** Fill out a hard copy CTR, snap a picture and email/text that into finance. If you send in a picture, please make sure it, is legible and includes the supervisors' signature at the bottom! Please make sure to include your phone number in the **Remarks** in case we have questions.
- 3) OR you may turn in your actual hard copy as usual at Whitsett Spike Camp & Troy Meadow.
- 4) If possible, please be consistent with the method in which you submit your docs.
- 5) A justification in remarks is required for federal employees claiming hazard pay or environmental on ctrs – for example, "working on an uncontrolled fire line."

You can download fillable CTR and Shift Tickets with this QR Code:

*****REMINDER*****

- **BE SURE TO CALL Finance 1 day prior to your scheduled DMOB to ensure time is complete at 949-591-4123.**
- **Only 1 representative per resource should go to Finance at ICP to Officially close out time.**

154,983 acres
 as of 10/02/2020, 1630 HRS
