CA-KNP-000122
PPN9UH (1522)

WINDY FIRE

CA-TIA-003058
PAN9QV (1522)

Sunday

OPERATIONAL PERIOD

10/24/2021 0700
to
10/25/2021 0700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: KNP COMPLEX & WINDY FIRE	2. Operational Period:	Date From: 10/24/2021	Date To: 10/25/2021
		Time From: 0700	Time To: 0700

3. Objective(s):

Strategic Framework

Implement a full suppression strategy on the KNP Complex and Windy Fire. Values at risk include human safety, communities, Sequoia Groves, critical infrastructure, associated improvements, and wilderness values. Apply tactics that offer the highest probability of success commensurate with resource availability.

Leaders Intent

Provide the highest level of customer service to all involved with or impacted by the KNP Complex and Windy Fire. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Professional behavior, conduct, and timely/effective communication.
- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by minimizing large group settings, social distancing, wearing face coverings, and handwashing.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Make risk-informed decisions to minimize fire impacts to Sequoia Groves.
- Coordinate suppression activities with assigned incident Resource Advisors and Tribal Advisors to minimize impacts to Sequoia Groves, wilderness, natural and cultural resources. Utilize Minimal Impact Suppression Tactics (MIST) where appropriate.
- Implement suppression repair activities in accordance with the suppression repair plans and Incident Resource Advisors.

Control Objectives

Branch I KNP Complex
To prevent the fire from spreading to private property, surrounding communities, Sequoia Groves, wilderness, and values at risk, keep the fire:

- North, South, and East of established containment lines.
- West of Redwood Meadow Grove confined to areas with natural barriers

Branch III Windy Fire
To prevent the fire from spreading to public and private property on the Tule River Reservation, surrounding communities, Sequoia Groves, natural and cultural values at risk, keep the fire:

- North, South, and West of established containment lines.
- East of established containment lines and within its currently identified perimeter.

INCIDENT Weather Forecast

FORECAST NO: 38
PREDICTION FOR: 0700 Sun-0700 Mon
SHIFT DATE: October 24-25, 2021
FORECAST ISSUED: 1800 Saturday October 23

NAME OF FIRE: KNP Complex
UNIT: CA-KP
SIGNED: Dan Harty
Incident Meteorologist

...Flash Flood Watch 11 PM Sunday through 11 PM Monday...

WEATHER DISCUSSION

An Atmospheric River will move over northern California this morning then gradually shift south through the day. There is a slight chance of rain this morning then an increasing chance through the day. Rain becomes likely tonight with moderate to heavy rain arriving around sunrise. Rainfall amounts are forecast to be mainly around 2-3 inches with potential for up to 5 inches, mainly across high elevations. Moderate to heavy rainfall rates could cause flash flooding and debris flows. A Flash Flood Watch is in effect from late Sunday night through Monday evening. Wind will increase Sunday night with gusts around 30 mph through early Monday.

. SUNDAY . . .

Sky/weather. Mostly cloudy. A 20% of rain in the morning increasing to a 40% chance in the afternoon. Snow level around 11,000 ft. Rain amounts up to 0.25 inches.
Max temperature. Lower Elevations 55-65. Upper Elevations 45-55.
Min humidity. Lower Elevations 57-67%. Upper Elevations 62-77%.
Wind (20 ft)
Slope/valley. South southwest 5-10 mph with gusts to 15 mph.
Ridgetop. Southwest 6-12 mph. Gusts to around 20 mph.
Mixing height. Increasing to around 3000 ft AGL.
Transport winds. Southwest around 15 mph.

. SUNDAY NIGHT . . .

Sky/weather. A 70% chance of rain in the evening then rain after midnight. Moderate to heavy rain at times. Snow level lowering to near 9,000 feet by sunrise. Rain amounts 0.5 to 1 inches.
Min temperature. Lower Elevations 41-51. Upper Elevations 31-41.
Max humidity. Lower Elevations 90-100%. Upper Elevations 90-100%.
Wind (20 ft)
Slope/valley. South southwest 7-14 mph. Gusts to around 20 mph.
Ridgetop. Southwest 10-20 mph. Gusts up to 30 mph.
Mixing height. Lowering to around 500 ft AGL.
Transport winds. Southwest around 20 mph.

. MONDAY . . .

Sky/weather. Rain, moderate to heavy at times. Rain amounts 1 to 2 inches. Snow level lowering near 7,000 feet. Snow amounts 3 to 9 inches.
Max temperature. Lower Elevations 45-55. Upper Elevations 35-45.
Min humidity. Lower Elevations 84-94%. Upper Elevations 77-87%.
Wind (20 ft)
Slope/valley. West southwest 7-14 mph with gusts up to 20 mph in the morning, Becoming west northwest 5-15 mph in the afternoon.
Ridgetop. West southwest 10-20 mph with gusts up to 30 mph in the morning, Becoming west northwest 10-15 mph in the afternoon.
Mixing height. Increasing to around 3000 ft AGL.
Transport winds. West around 20 mph.

Windy Incident Weather Forecast

FORECAST NO: 43
PREDICTION FOR: Sunday
SHIFT DATE: 10/24 (0700-2100)
FORECAST ISSUED: 10/23/21 @ 1900

FIRE NAME: Windy
UNIT: CA-TIA
SIGNED: Gary Zell
Incident Meteorologist

*****FLASH FLOOD WATCH IN EFFECT FROM 2300 SUNDAY THROUGH MONDAY EVENING FOR THE WINDY BURN SCAR AREA*****

WEATHER DISCUSSION: A strong storm system will move across the area late today and Monday. This will lead to much colder temperatures, gusty winds at times and increasing precipitation chances. Storm total rainfall amounts by Tuesday morning will likely be between 1 and 2 inches and potentially up to 3 inches. Snow levels will start off between 9-10 kft, lowering to 7 kft Monday afternoon and Monday night. 3 to 7 inches of snowfall will be possible above 7 kft by Tuesday morning.

WEATHER FORECAST:

TODAY:

WEATHER: Mostly cloudy. A 20 percent chance of showers in the morning, increasing to 40 percent by evening and 80 percent after midnight.

MAX TEMPERATURES: 60-65° below 5 kft, except 65-70° along the Kern River. 55-60° at higher elevations.

MIN HUMIDITY: 33- 38% across most of the fire; 24-29% along the eastern slopes/Kern River Valley.

20 FT WINDS:

RIDGETOP - Downslope/downvalley 2-5 mph, then upslope/upvalley to west-northwest at 7-12 mph after 1000. Afternoon gusts around 20 mph.

SLOPE/VALLEY - Downslope/downvalley 3-6 mph, then upslope/upvalley 4-9 mph after 1000. Afternoon gusts to 20 mph. Gusts 20-25 mph along the Kern River.

STABILITY/INVERSION: Valley inversions including the San Joaquin Valley, breaking between 0900-1000.

MONDAY:

WEATHER: Cloudy. A 100 percent of rain. Falling temperatures during the afternoon, with snow above 7 kft during the afternoon hours and Monday night.

MAX TEMPERATURES: 44-49° below 5 kft, except 49-54° along the Kern River. 39-44° at higher elevations.

MIN HUMIDITY: 75-80% across most of the fire; 70-75% along the eastern slopes/Kern River Valley.

20 FT WINDS: South-southwest in the morning at 15-20 mph with gusts around 35 mph, shifting to the west-northwest in the afternoon.

STABILITY/INVERSION: No inversion expected.

OUTLOOK FOR TUESDAY THROUGH THURSDAY: There will be a chance of showers Tuesday, with dry conditions Wednesday and Thursday. Otherwise, temperatures will warm a couple of degrees each day through the outlook period, along with gradually lowering relative humidity values. It will be a little breezy on Tuesday, with light wind speeds Wednesday and Thursday.

Incident Weather Station Data --- SCAN CODE with Smart Phone

Tiger Flat (IRAWS 46) – ridgetop	Porterville – Porterville Camp
Kern (IRAWS 48) – Kern River Valley	Kern Co. Landfill – Camp 9
Johnsondale – sheltered basin	Sugarloaf Dr – northern slope
Peppermint – upper eastern slope	Pine Flat (UHL) – lower western slope

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 38	TYPE OF FIRE: Vegetation
FIRE NAME: KNP Complex & Windy Fire	OPERATIONAL PERIOD: Oct 24 th 24 Hour
DATE ISSUED: October 23 rd	TIME ISSUED: 2000
UNIT: Sequoia Kings National Park	SIGNED: Greg White PSC2 for Dan O'Connor Fire Behavior Analyst (FBAN) & Oscar Vargas (FBAN)

WEATHER SUMMARY: See detailed Fire Weather Forecast in IAP

FUELS:

The most notable vegetation is forests of giant sequoia (*Sequoiadendron giganteum*). Oak woodland (blue oak, interior live oak) and chaparral with chamise and manzanita characterize the lower elevations. Mixed conifer forest with Colorado white fir, red fir, western yellow pine (ponderosa pine), sugar pine and lodgepole pine forests and montane meadows occupy the middle elevations. Subalpine forests with foxtail pine, whitebark pine and meadows, krummholz, and alpine ecosystems typify the higher elevations.

Tulare County is currently classified as 'Exceptional' by the US Drought Monitor mapping system impacting both live and dead fuels.

EXPECTED FIRE BEHAVIOR: *Based on the Warmest, Driest, Windiest Conditions Forecasted*

<u>Maximum Spotting Distance</u> 0.1 mile or less <u>Probability of Ignition</u> 19 %	Fuel Type/Model	Maximum Rate of Spread (chains/hour)	Maximum Flame Length (feet)
	Timber understory (TU5-Overstocked and/or dense reprod)	Head 3-5 ch/hr Flank 1-2 ch/hr	Head 2-5 ft Flank 0-2 ft
	Timber litter (TL6-closed canopy, ground fuels)	Head 1-2 ch/hr Flank 0-1 ch/hr	Head 1-2 ft Flank 0-2 ft

General: Some increased winds ahead of the approaching storm may get interior pockets moving around a bit, but in general the spread potential will continue to be minimal today. Expect creeping under closed canopies and heavier fuels will continue to burn. Fire weakened trees will continue to fall. Spotting, if any will be from rollout and with the higher RH the potential for torching, will be reduced. One hour fuels will quickly reach the moisture of extinction as precipitation moves into the area.

SPECIFIC Branch I KNP

North: No forward fire progression is expected. Most of the fire is in a backing alignment. Rollout will continue to challenge containment. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

South: Rollout will continue to challenge containment lines. Some flanking runs are possible on the east flank Div. C. The fire is not expected to cross Cliff Creek. No forward progression in Divisions A and X.

Branch III Windy

Continued decrease in fire behavior potential with the increase in relative humidity. Areas in alignment with breezy conditions could remain active as the heavy fuels continue to burn. ERC's will continue to tread downward and fuel moistures recover.

AIR OPERATIONS:

Erratic winds associated with the approaching system may limit aircraft capabilities.

SAFETY:

Heads up for increased winds that may try to squeeze the last bit of life out of the fire today as the welcomed moisture approaches today.

Health & Safety Message

Incident: KNP Complex / Windy Fire CA-KNP-000122/ CA-TIA-003058	Date/Op Period: 10/24/21 - 10/25/21 Day Shift 0700-0700
---------------------------------------------------------------------------	-------------------------------------------------------------------

Hazards & Risks

Firefighter Health: With multiple days of working on the fireline; cuts, abrasions, rashes and blisters are accumulating on your body. Prevent infections by washing your hands often, take daily showers, wash or change your clothes frequently and care for minor wounds each shift. Treatment early-on will help prevent larger medical problems later!

Weather Changes on the Way! The weather forecast is calling for cool, rainy and blustery conditions with snow possible in the higher elevations. Take precautions to stay warm and dry. Dress in layers and remember to stay hydrated. The onset of hypothermia does not necessarily require extremely low temperatures. If possible, periodically drink warm fluids.

- Know your equipment
- Inspect your equipment
- Maintain your equipment

Use engineered safety features built into your equipment and wear all appropriate PPE when operating it. It just might come in handy.....

6. Work Assignments:
 Implement suppression repair throughout the Repair Group based on priorities identified by the REAFs.
 Monitor open fireline for signs of heat or spread that could threaten containment lines.
 Snag roads to increase access and safety for firefighters and the public.

7. Special Instructions:
 Follow all COVID-19 protocols and utilize appropriate PPE and social distancing to enhance personal safety.
 Resource avoidance areas will be flagged red/white combined with any other solid color.
 Remove all trash and identify any excess supplies that need to be removed.
 Work with communications for transport needs.

MEDICAL PLAN (ICS 206 WF)CIIMT 12

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury	Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>	
Transport Request	Air Ambulance / Short Haul/Hoist Ground Ambulance / Other	
Patient Location	Descriptive Location & Lat. /Long. (WGS84)	
Incident Name	Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>	
On-Scene Incident Commander	Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>	
Patient Care	Name of Care Provider <i>(Ex: EMT Smith)</i>	

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG PAGE 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES /EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extraction:

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead..

8. ADDITIONAL INFORMATION: Updates/Changes, etc..

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively..

COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - Fever
 - Chills
 - Sore throat
 - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least SIX feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Hotel Acquisition Protocol

This guideline is only for acquiring hotel accommodation. Meals are still provided by the incident(s) from caterer and off-site meals is not authorized for reimbursement. Resources will follow their Agency of Hire direction as identified in the *Standards for Interagency Incident Business Management Handbook*, (4/2021) page 10-62, www.nwccg.gov/sites/default/files/publications/pms902.pdf.

Lodging Per Diem Rate per Incident: Must stay within per diem rate.

KNP COMPLEX - \$110.00 per night

WINDY - \$113.00 per night

- **Resources will utilize double occupancy (when appropriate) when acquiring rooms.**
 - Example is Resource A – 5 personnel may acquire 3 rooms (2 rooms with two crew members, 1 room with one crew member).
- **Federal Resources (Including AD's)**
 - Will follow Lodging policy of their Agency.
- **Local Government**
 - Will follow the State Agreement from which they are from.
 - CA – Work with Finance Section for S# request.
- **Contracted Resources**
 - Will follow Lodging rules within Agreement.
 - Provide receipt(s) for reimbursement on Invoice.
 - Make sure receipts are Itemized (not from credit card machine) and show a zero balance due.

HUMAN RESOURCES MESSAGE

When we talk about productivity, we always talk about the "getting it done" side of things. However, productivity has more to do with what you DON'T do. Too often, people focus on how to cram more into less. Society's definition of Productivity seems to be heavily focused on the execution side of things, with minimal focus on the preparation, the rest, and the quiet that can ultimately create a much more productive way of life. Think of your brain as an engine. An engine can only run so long before it needs two things: fuel, and rest. In our culture, we refer to this "fuel" as "coffee," and often flaunt our abilities to keep our engines revving at full speed without ever giving them a rest. But, the BIG SECRET IS...If you want to be more productive when you're working, you need to prioritize a bit more downtime. Here are some tips, to practice, that will help elevate your productivity - when you are working:

- **Slow Down to Speed Up** - Too often, we forget this rule in life. We think everything has to be done right now. Everyone's priority matrix is filled with immediate deliverables. We over-promise, under-resource, and run ourselves empty because we fear taking a step back in the beginning. Instead, we jump in and get started with a sense of urgency, not realizing the failure until we're drowning in the deep end. Before you run off to the races, take a step back. What's the goal? What actions are actually going to move the needle? Focus on what's most important, get your mind right, and then get to work.
- **Prevent, Don't React** - Whether we're talking about personal health or maintaining a positive relationship with your co-workers, the same theory holds true: Preventative medicine works a whole lot better than something reactionary. Instead of burning the candle at both ends until your body shuts down, make time as you go along to take a step back. I'm sure your reaction to that is, "Well I don't have the time!" Ok, yes you do. You make time for a lot of other things, you can make time to take care of your most important asset: yourself. Nothing is more valuable than that. If you don't have your body and your well being, everything else will suffer. Keep tabs on your body each day and each week, and when the warning signs start flashing, listen. Learn to prevent the engine failure instead of crashing and then wondering where you went wrong. Take a moment--it doesn't have to be forever--and give your body what it needs. Clear your head and then re-approach the work. You will be so much more effective.
- **Make Time to Do Nothing** - This holds especially true for the creative types--you need time to let your mind wander. If you are constantly in "Do" mode, you aren't allowing yourself the freedom or spontaneity that may result in a brilliant "Aha!" moment. Even still, time spent doing nothing does an amazing thing to the mind. Think of the toy cars that have to be pulled backwards to be wound up, and then when released they go shooting across the dining room table. The longer you pull them back, the further they go. When you take a step back and allow yourself to regenerate, you will inherently bring more excitement and drive to your work when you do return. This idea of "time spent doing nothing" is one of the hardest things for over-achievers and driven individuals. They can't help but turn this time into a sweatpants version of a normal workday. That's not the point of it. The point is to, quite literally, do nothing. Even for 30 minutes to an hour. Go for a walk without your cell phone. Read a book for leisure (when was the last time you did that?). Have lunch in a quiet place while enjoying the scenery. Do something that has zero relevance to a task that needs to be completed. When you come back afterwards, you will feel so much more energized to do what needs to get done.

Riddle of the Day!!!

I'm light as a feather, yet the strongest person can't hold me for five minutes. What am I?

David Legrand, HRSP
505.218.1189

TRAINING SPECIALIST

TRAINEE INSTRUCTIONS

To receive incident credit for your training assignment you must register (remotely) and close out (in-person) with the Training Specialist

Windy Fire Trainees – Contact the TNSP to make close out arrangements

Registration

To register your assignment with the TNSP:

1. Scan the “Registration Form” QR Code

2. Complete and submit the form
3. Check Text Messages for further instructions

(209) 770-4809 bradley_smith@firenet.gov

Training Assignment Close Out

1. Contact the TNSP 24 Hrs. prior to Demob for instructions
2. Scan the “Incident Trainee Final Interview Form” QR Code

INCIDENT RECYCLING

KNP COMPLEX 10/20/21

WHAT GOES IN THE BINS

- ALUMINUM CANS
- GLASS BOTTLES
- PLASTIC BOTTLES

- PAPER LUNCH BAGS
- ALUMINUM CANS
- GLASS BOTTLES
- PLASTIC BOTTLES
- WHITE PAPER (IAP)
- BATTERIES

- FOOD CONTAINERS
- UTENSILS
- PLASTIC BAGS
- PAPER TOWELS
- COFFEE CUPS

HOW TO RECYCLE WITH US

1. Pick up a blue recycle bag at the refer
2. Fill it with clean, empty items from the above indicated recyclables list
3. Drop off your recycle bags and your trash bags with us at the recycling station.
