INCIDENT Weather Forecast

FORECAST NO: 42  
PREDICTION FOR: 0700 Thu-0700 Fri  
SHIFT DATE: October 28-29, 2021  
FORECAST ISSUED: 1800 Wednesday October 27

NAME OF FIRE: KNP Complex  
UNIT: CA-KNP  
SIGNED: Chris Foltz  
Incident Meteorologist

WEATHER DISCUSSION

Temperatures will be around 5 degrees warmer today and humidity a few percent drier with light terrain driven winds prevailing. Conditions on Friday will be similar today. A weak low pressure system will move over northern California this weekend bringing an increase in winds and clouds which will result in cooler temperatures. However, no precipitation is expected.

. THURSDAY ...

Sky/weather.....Mostly sunny.  
Max temperature....Lower Elevations 65-75. Upper Elevations 54-64.  
Min humidity.....Lower Elevations 48-58%. Upper Elevations 41-51%.  
Wind (20 ft).....  
Slope/valley.....Upslope/upcanyon 3-8 mph. Gusts to 12 mph in the afternoon.  
Ridgetop.....North 3-7 mph.  
Mixing height.....Increasing to around 2000 ft AGL.  
Transport winds....Northwest around 5 mph.

. THURSDAY NIGHT ...

Sky/weather.....Mostly clear.  
Min temperature....Lower Elevations 46-56. Upper Elevations 31-41.  
Max humidity.....Lower Elevations 65-75%. Upper Elevations 60-70%.  
Wind (20 ft).....  
Slope/valley.....Downslope/downcanyon 2-7 mph.  
Ridgetop.....Northeast 3-7 mph.  
Mixing height.....Lowering to around 500 ft AGL.  
Transport winds....Northeast around 5 mph.

. FRIDAY ...

Sky/weather.....Partly cloudy.  
Max temperature....Lower Elevations 62-72. Upper Elevations 51-61.  
Min humidity.....Lower Elevations 42-52%. Upper Elevations 33-43%.  
Wind (20 ft).....  
Slope/valley.....Upslope/upcanyon 3-8 mph. Gusts to 12 mph in the afternoon.  
Ridgetop.....North 3-7 mph.  
Mixing height.....Increasing to around 3000 ft AGL.  
Transport winds....West around 5 mph.

## Windy Incident Weather Forecast

**FORECAST NO:** 47  
**PREDICTION FOR:** Thursday  
**SHIFT DATE:** 10/28-10/29 (0700-0700)  
**FORECAST ISSUED:** 10/27/21 @ 1700

**FIRE NAME:** Windy  
**UNIT:** CA-TIA  
**SIGNED:** Chris Foltz  
**Incident Meteorologist**

**WEATHER DISCUSSION:** High pressure continues to build into the region bringing a mostly clear sky and light winds through Friday except for the usual gusts in the Kern River Valley. Temperatures will be above normal both days with good overnight RH recoveries and moderate afternoon minimum RH values. No precipitation is expected.

### **WEATHER FORECAST:**

**TODAY:**

**WEATHER:** Dry conditions are expected with a mostly clear sky.

**MAX TEMPERATURES:** 70-75 below 5 kft including the Kern River Valley. 60-65 at higher elevations.

**MIN HUMIDITY:** 40-45% across most of the fire; 25-30% along the eastern slopes/Kern River Valley.

**20 FT WINDS:**

**RIDGETOP -** Downslope/downvalley 2-4 mph, then upslope/upvalley to west at 6-10 mph after 1000. Afternoon gusts around 15 mph.

**SLOPE/VALLEY -** Downslope/downvalley 2-4 mph, then upslope/upvalley 6-10 mph after 1000. Afternoon gusts to 12 mph. Gusts to 25 mph along the Kern River.

**STABILITY//INVERSION:** Valley inversion including the San Joaquin Valley through 1000.

**FRIDAY:**

**WEATHER:** Dry conditions are expected with a mostly clear sky.

**MAX TEMPERATURES:** 68-73 below 5 kft including the Kern River Valley. 58-63 at higher elevations.

**MIN HUMIDITY:** 35-40% across most of the fire; 25-30% along the eastern slopes/Kern River Valley.

**20 FT WINDS:**

**RIDGETOP -** Downslope/downvalley 2-4 mph, then upslope/upvalley to northwest at 6-10 mph after 1000. Afternoon gusts around 15 mph.

**SLOPE/VALLEY -** Downslope/downvalley 2-4 mph, then upslope/upvalley 6-10 mph after 1000. Afternoon gusts to 12 mph. Gusts to 25 mph along the Kern River.

**STABILITY//INVERSION:** Valley inversion including the San Joaquin Valley through 1000.

**OUTLOOK FOR SATURDAY THROUGH MONDAY:** A weak storm system will move across northern California over the weekend. The main impact for the Windy Fire will be cooler temperatures and increasing cloud cover. No precipitation is expected.

### **Incident Weather Station Data --- SCAN CODE with Smart Phone**

Porterville – Porterville Camp	Kern Co. Landfill – Camp 9
Johnsondale – sheltered basin	Sugarloaf Dr – northern slope
Peppermint – upper eastern slope	Pine Flat (UHL) – lower western slope

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 39	<b>TYPE OF FIRE:</b> Vegetation
<b>FIRE NAME:</b> KNP Complex	<b>OPERATIONAL PERIOD:</b> Oct 25 <sup>th</sup> -Oct 29 <sup>th</sup>
<b>DATE ISSUED:</b> October 24 <sup>th</sup>	<b>TIME ISSUED:</b> 1700
<b>UNIT:</b> Sequoia Kings National Park, Sequoia National Forest	<b>SIGNED:</b> Dan O'Connor Fire Behavior Analyst (FBAN)

**WEATHER SUMMARY:** See detailed Fire Weather Forecast in IAP

### FUELS:

The most notable vegetation is forests of giant sequoia (*Sequoiadendron giganteum*). Oak woodland (blue oak, interior live oak) and chaparral with chamise and manzanita characterize the lower elevations. Mixed conifer forest with Colorado white fir, red fir, western yellow pine (ponderosa pine), sugar pine and lodgepole pine forests and montane meadows occupy the middle elevations. Subalpine forests with foxtail pine, whitebark pine and meadows, krummholz, and alpine ecosystems typify the higher elevations. A combination of prescribed and resource benefit fire patches exist throughout the Park and National Forest. Tulare County is currently classified as 'Exceptional' by the US Drought Monitor mapping system impacting both live and dead fuels.

### **EXPECTED FIRE BEHAVIOR: Based on the Warmest, Driest, Windiest Conditions Forecasted**

<u>Maximum Spotting Distance</u> Minimal <u>Probability of Ignition</u> 10 % or less	Fuel Type/Model	Maximum Rate of Spread (chains/hour)	Maximum Flame Length (feet)
	Timber understory (TU5-Overstocked and/or dense reprod)	Head 0-1 ch/hr Flank 1-2 ch/hr	Head 0-1 ft Flank 0-2 ft
	Timber litter (TL6-closed canopy, ground fuels)	Head 0-1 ch/hr Flank 0-1 ch/hr	Head 0-1 ft Flank 0-1 ft

**General:** Previous rain will have a substantial impact on fire growth across the fire area for the week. Higher elevation areas may become inaccessible due to snow and lower elevations will receive adequate moisture to stop or slow fire spread for the foreseeable future. Exceptions may be heavy dead and down logs that may continue to smolder, with potential for creeping late week on the driest, most sun exposed south aspects.

### SPECIFIC

#### **KNP Complex**

**North:** No forward fire progression is expected. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

**South:** No forward fire progression is expected. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

### **AIR OPERATIONS:**

Active storm conditions will limit air operations today, with less impacts as the storm moves out later into the week.

### **SAFETY:**

As you reengage the fire area later in the week, look out for deep smoldering root systems that may still contain heat.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 40 Extended

TYPE OF FIRE: Wildfire

FIRE NAME: Windy Fire

OPERATIONAL PERIOD: 10/26-28, DAY-NIGHT Shift

DATE ISSUED: October 25, 2021

TIME ISSUED: 1800

UNIT: CA-TIA & CA-SQF

SIGNED: 

Typed/printed: Oscar Vargas (FBAN)

## INPUTS

### WEATHER SUMMARY:

- Sunny weather for 10/26, 10/27, 10/28
- Warming and drying trend over the next 3 days
- Afternoon gusts around 20-25 mph possible in some areas

\*\*See Fire Weather Forecast for daily weather details\*\*

**FUELS SUMMARY:** Dense mixed conifer, old-growth timber, heavy down/dead, mixed ground fuels

**TOPGRAPHY SUMMARY:** Steep to very steep

## OUTPUTS

### GENERAL FIRE BEHAVIOR:

Fire behavior in most areas will be minimal due to rain and snow in the past few days however there will still be areas that are smoldering in heavy dead fuels that have been sheltered or burning on the inside. Smoldering is expected to increase as conditions warm and dry out.

- Slight fire behavior potential increase over the next few days as fuels begin to dry but will remain low due to recent rain and snow
- Low intensity burning in heavy down/dead
- Rates of spread will be none or minimal depending on alignment of wind, slope & available fuels
- ERCs between Low and Average conditions during this period with highest ERCs around 41
- Probability of ignition around 50% or less but will slightly increase by 10/28
- Smoldering could remain active at night in areas that are holding heat in heavy fuels, especially in areas exposed to winds.

Spotting distances potential: spotting potential is minimal to none

Min. Fine Dead Fuel Moistures ranges: 1 hr.= 6-8-%, 10 hr.= 7-10%, 100hr= 12+% 1000hr.= 13+%

\*\* Rain has dramatically increased dead fuel moistures.

Ground and Air resources continue to have a dramatic influence over fire behavior & growth potential. Containment lines are continuing to hold the fire in place.

### AIR OPERATIONS:

Smoke or Inversions are not a factor or limitation

Fire weakened trees are still a high hazard and rain/snow has made it worse in some trees so HEADS UP!  
Logs and other heavy fuels could be very unstable on hillsides due to fire & rain impacts so HEADS UP!

## ***Health & Safety Message***

<b>Incident:</b> KNP Complex / Windy Fire CA-KNP-000122/ CA-TIA-003058	<b>Date/Op Period:</b> 10/28-29/21 Day Shift 0700-0700
---	---

### **Hazards & Risks**

**Fire Camp Safety:** We usually don't think of Fire Camp as a dangerous place but camp has a few hazards to look out for:

- Trip hazards such as stairs, tent stakes, cables and wires are abundant.
- Vehicle traffic in and around parking areas and driving through camp.
- Electrical shock from all the power cords and power strips plugged in our tents, kitchen area, hand wash stations and shower unit.
- Wildlife and insects.
- Walking and talking or texting on our cell phones.
- Sharp objects such as scissors, tacks, saws and nails.
- Adverse weather; to name just a few Fire Camp Watch Outs.
- Puddle jumping and walking the planks....watch your footing.

**Helicopter Extraction Operations:** The intent of a helicopter extraction operation is to insert qualified personnel into inaccessible areas to extract a patient for transport to the nearest medical facility. These operations are not meant to be a medical transport resource but a way to move the patient off the fireline and bring to a waiting air or ground ambulance for direct transport to a medical facility.

Some considerations:

- Establish communications with aircrew. Provide information regarding known hazards (on approach path or in LZ), terrain, wind speed & direction and patient updates.
- Choose the extraction site away from the fireline or black edge.
- Ensure the area is clear of debris and nonessential equipment or personnel.
- Rotor wash may affect overhead hazards and blowing dust can create "brown out" conditions. Protect the patient from blowing dust.
- Aerial supervision is valuable for coordinating aviation medevac missions.
- The aircrew makes the final decision regarding the safety of the mission.  
**Always have a contingency plan in case the helicopter cannot be used.**
- Don't get caught up in the urgency of the situation and disregard basic fireline and aviation safety procedures.

**6. Work Assignments:**  
 Task: Where safe and practical, implement mop up tactics in identified Sequoia groves. Patrol and monitor identified open fireline.  
 Remove all excess equipment and supplies in Division L/P/S/U to remove all excess equipment and supplies.  
 Purpose: To keep the fire within its current footprint and minimize Sequoia mortality.  
 End State: Forward spread on the KNP Complex is mitigated and all Giant Sequoia redwoods impacted by fire on the KNP Complex have the highest probability of survival.

**7. Special Instructions:**  
 Ensure all equipment is winterized if not backhauled.  
  
 KNP BAER Team will be working in all divisions of the fire.

# MEDICAL PLAN (ICS 206 WF) CIIMT 12

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

**Use the following items to communicate situation to communications/dispatch.**

**1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)**

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

**2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.**

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b> <i>Ex: Sprains, strains, minor heat-related illness.</i>
--	--

Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

**3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)**

Patient Assessment: See IRPG PAGE 106

Treatment:

**4. TRANSPORT PLAN:**

Evacuation Location *(if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

**5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:**

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication :*

**6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable**

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

**7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead. .**

**8. ADDITIONAL INFORMATION: Updates/Changes, etc. .**

**REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively. .**

# **COVID-19 Briefing Checklist**

## **Self-Awareness / Screening**

- Notify supervisor if you or others experience:
  - Cough, more than expected
  - Difficulty breathing
  - Loss of taste or smell
  - Fever
  - Chills
  - Sore throat
  - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

## **Hygiene on the Fireline**

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

## **Social distancing and protective equipment**

- Practice social distancing
- Conduct briefings in conversations outdoors and at least SIX feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

## **Communications**

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Any questions contact:

## **California Wildland Fire Coordinating Group**

### **Framework for Mandatory COVID Testing on Federal Fire Incidents in California**

Due to the risk of spread of COVID-19 to individual fire personnel and modules, as well as the overall impact on firefighting capacity, the federal leadership of the California Wildland Fire Coordinating Group (CWCG) have decided to move forward with the intent of mandatory testing on all federal fire incidents in California, specifically type 1 and 2 wildfire incidents when logistically possible (e.g. personnel to support, testing available). This intention applies to all federal employees and federal contractors regardless of vaccination status and will be voluntary for partners and cooperators involved in a federal fire incident.

To date, the Department of Agriculture, Forest Service, Pacific Southwest Region, COVID-19 Emergency Response Team (CERT) implemented two mandatory pilot testing programs in California. The first pilot program was during the McFarland Fire on the Shasta-Trinity National Forest. The testing service was provided through a contract. The second pilot program was on the French Fire during unified command between the Bureau of Land Management and the Sequoia National Forest. Cal OES provided the testing service. These pilot programs provided many lessons to assist with more effective implementation on other fire incidents.

To implement this intent the CERT and a Point of Contact (POC) from each of the following Department of the Interior (DOI) agencies: Bureau of Indian Affairs, Bureau of Land Management, Fish and Wildlife Service and the National Park Service will coordinate and collaborate.

It is recognized that testing in and of itself is not a silver bullet, but it is an important tool in the suite of COVID mitigations to protect fire personnel, modules, and their families and friends when personnel return home from fire incidents. With increasing COVID cases over the past few months, and continued fire activity expected in the weeks and months ahead, we have decided this is a necessary tool until vaccine requirements for the federal workforce are fully implemented.

#### **Mandatory Testing Intent & Framework**

- Applies to all federal employees and federal contractors on type 1 and 2 wildfire incidents in California, regardless of vaccination status.
- Testing will be provided for partners and cooperators that volunteer or request testing, if testing capacity is available.
- The requirement for testing will be included in the resource order for those resources identified as available to fill orders.
- Refusal of COVID testing on incidents will be handled on a case-by-case basis by the employee's agency or the hiring agency of the federal contractor with participation on the incident not occurring until a resolution is identified.
- If there are logistical challenges (e.g. personnel support, testing availability) the CERT and DOI POCs will attempt to implement this intent in the following priority order: (1) test individuals upon arrival to an incident, (2) test individuals upon demobilization from an incident, (3) test individuals that are already assigned to an ongoing incident at frequencies recommended by the Centers for Disease Control and Prevention (CDC).

# Suppression Rehabilitation Specifications

**Goal**— Overall line rehab goals are to reduce erosion and runoff potential and promote future plant growth. Walk through adjacent undisturbed area and take a look at your rehab efforts to determine your success at returning the area to as natural a state as possible.

## Rehabilitate dozer lines and handlines after ops approval

- Pull back soil and cut vegetation. Remove berms. Restore slope contour.
- Install waterbars on slopes greater than 10%.

Fire line Gradient (% slope)	Distance Between Waterbars (feet)
0 to 10	no waterbars needed
10 to 20	100
21 to 40	75
41 to 60	50

- Dimensions: 6-18 inches tall. Steeper slopes require taller waterbars
- Angle: 30-45 degrees across fireline. Extend waterbar across entire fireline. Exit waterbar flow into the green.
- Block entrance of dozer lines with extra logs and vegetation to prevent access

**Rehabilitate Helispots, Drop Points, and Staging Areas**—rake back disturbed soil and scatter cut trees, shrubs, limbs, and logs over area. If called out by READs decompact soil as needed in the top 2-4”.

**Roads**-Chip or masticate vegetation piles cut during suppression. Unclog culverts of dirt or vegetation if impacted by suppression.

**Remove Trash**—remove unnecessary microtrash, flagging/equipment and tools from along handlines, spike camps, helispots, drop points, and staging areas.

**Work with Resource Advisors with questions, modifications to the specifications, and sign-off.**

# Hotel Acquisition Protocol

This guideline is only for acquiring hotel accommodation. Meals are still provided by the KNP incident from caterer and off-site meals are **not** authorized for reimbursement. Offsite meals **are** authorized for the Windy Fire. Resources will follow their Agency of Hire direction as identified in the *Standards for Interagency Incident Business Management Handbook*, (4/2021) page 10-62, [www.nwccg.gov/sites/default/files/publications/pms902.pdf](http://www.nwccg.gov/sites/default/files/publications/pms902.pdf) .

**Lodging Per Diem Rate per Incident:** Must stay within per diem rate.

KNP COMPLEX - \$110.00 per night

WINDY - \$113.00 per night

- **Resources will utilize double occupancy (when appropriate) when acquiring rooms.**
  - Example is Resource A – 5 personnel may acquire 3 rooms (2 rooms with two crew members, 1 room with one crew member).
- Federal Resources (Including AD's)
  - Will follow Lodging policy of their Agency.
- Local Government
  - Will follow the State Agreement from which they are from.
  - CA – Work with Finance Section for S# request.
- Contracted Resources
  - Will follow Lodging rules within Agreement.
  - Provide receipt(s) for reimbursement on Invoice.
  - Make sure receipts are Itemized (not from credit card machine) and show a zero balance due.

## Human Resource Message

### *"Harassment Free Zone"*

*Harassment – in any form – can result in poor team performance. Everyone on this incident has a right to work in a harassment-free environment. A harassment-free environment is one where individuals treat one another with courtesy, dignity and respect.*

### **Riddle of the Day:**

*With pointed fangs I sit and wait;  
with piercing force I crunch out fate;  
grabbing victims, proclaiming might;  
physically joining with a single bite.  
What am I?*

*"I need your help. Someone is stalking me!"*

**David Legrand, HRSP**  
**505.218.1189**

# TRAINING SPECIALIST

## TRAINEE INSTRUCTIONS

***Friday, 10-29, will be the last day on the KNP Complex and Windy Fire to register a training assignment with the Training Specialist***

### Registration

To register your assignment with the TNSP:

1. Scan the "Registration Form" QR Code

2. Complete and submit the form
3. Check Text Messages for further instructions

**(209) 770-4809 [bradley\\_smith@firenet.gov](mailto:bradley_smith@firenet.gov)**

### Training Assignment Close Out

1. Please Close Out your "Open" Training Documentation w the TNSP no later than **Saturday, 10-30, 2100 Hrs.**

Want to expedite the process?

Scan and complete the "Incident Trainee Final Interview Form" QR Code below  
Contact the TNSP to front load the rest of your package before Demob.

The Training Desk is located at ICP, in the Main Building, adjacent to the center entrance.

# KNP ICP LOGISTICS NOTES

Supply: 0700-2100

Ordering: 0700-2100

Comms Techs: 0600-2200

COVID Med: 0600-2200

## PLEASE DO:

- Only drive ONE WAY in camp
- Drop your trash off at the Human Eco Consulting: corner of Engine Parking & Sleeper Trailer Row
- Treat other people the way you want to be treated

## PLEASE DO NOT:

- Walk where vehicles drive
- Sleep in vehicle parking areas

# DEMOB Instructions

## KNP Complex:

1. Go to Weed Wash if your vehicle has been on the fireline
2. Go to Ground Support for your post-inspection
3. Return items checked out from Supply
4. Return items checked out from Comms
5. Email Finance to close out your CTR/Shift tickets
6. Scan the QR code below to DEMOB. Complete the questionnaire, then call 213-264-1886 to verify that DMOB has received all the information.  
NOTE: If you have any problems, contact Jan by phone: 213-264-1886 or email: [2021.knp.demob@firenet.gov](mailto:2021.knp.demob@firenet.gov)

---

## Windy Fire:

Report to Windy Demob in person to obtain your check-out form. **THERE IS NO REMOTE DEMOB.** Obtain signatures from the appropriate Unit Leaders as noted on your check-out form, closing out with Finance just before bringing the signed form back to Demob.

If you need a flight arranged, contact the Demob Unit Leader **72 hours prior** to your Demob date to ensure that all necessary information has been provided. Demob will submit your request.
