10/31/2021 0700

*** CORRECTED ***

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: KNP COMPLEX & WINDY FIRE	2. Operational Period:	Date From: 10/30/2021	Date To: 10/31/2021
		Time From: 0700	Time To: 0700

3. Objective(s):

Strategic Framework

Implement a full suppression strategy on the KNP Complex and Windy Fire. Values at risk include human safety, communities, Sequoia Groves, critical infrastructure, associated improvements, and wilderness values. Apply tactics that offer the highest probability of success commensurate with resource availability.

Leaders Intent

Provide the highest level of customer service to all involved with or impacted by the KNP Complex and Windy Fire. Ensure transparent, timely and accurate communication at all levels of the incident and strengthen relationships with cooperators. All incident assigned personnel should be prepared to take appropriate actions regarding:

- Professional behavior, conduct, and timely/effective communication.
- Personal safety and the safety of others, including driving slowly and defensively.
- Manage fatigue by taking breaks and maintaining work/rest cycles.
- Minimize risk and limit exposure to infectious disease by minimizing large group settings, social distancing, wearing face coverings, and handwashing.

Management Objectives

- Provide for firefighter and public safety through hazard recognition and application of the risk management process.
- Make risk-informed decisions to minimize fire impacts to Sequoia Groves.
- Coordinate suppression activities with assigned incident Resource Advisors and Tribal Advisors to minimize impacts to Sequoia Groves, wilderness, natural and cultural resources. Utilize Minimal Impact Suppression Tactics (MIST) where appropriate.
- Implement suppression repair activities in accordance with the suppression repair plans and Incident Resource Advisors.

Control Objectives

Branch I KNP Complex
To prevent the fire from spreading to private property, surrounding communities, Sequoia Groves, wilderness, and values at risk, keep the fire:

- North, South, and East of established containment lines.
- West of Redwood Meadow Grove confined to areas with natural barriers

Branch III Windy Fire
To prevent the fire from spreading to public and private property on the Tule River Reservation, surrounding communities, Sequoia Groves, natural and cultural values at risk, keep the fire:

- North, South, and West of established containment lines.
- East of established containment lines and within its currently identified perimeter.

KNP Complex Incident Weather Forecast

FORECAST NO: 44
 PREDICTION FOR: 0700 Sat - 0700 Sun
 SHIFT DATE: October 30-31, 2021
 FORECAST ISSUED: 1800 Friday October 29

NAME OF FIRE: KNP Complex
 UNIT: CA-KNP
 SIGNED: Chris Foltz - Incident Meteorologist

WEATHER DISCUSSION

Clouds will increase across the fire today as an area of low pressure moves across northern CA resulting in increasing clouds by early afternoon. Temperatures will be about 5 degrees cooler than Friday with afternoon RH values remaining 10-15 percent higher. Light upslope/upcanyon winds will develop by late morning. Temps on Sunday will cool 3-5 degrees more than Saturday with light winds continuing.

. SATURDAY ...

Sky/weather.....Increasing clouds beginning late morning becoming mostly cloudy during the afternoon.

Max temperature....Lower Elevations 59-69. Upper Elevations 54-64.

Min humidity.....Lower Elevations 54-64%. Upper Elevations 55-65%.

Wind (20 ft).....

Slope/valley.....Upslope/upcanyon 3-8 mph. Gusts to 10 mph in the afternoon.

Ridgetop.....Southwest 3-7 mph.

Mixing height.....Increasing to around 3000 ft AGL.

Transport winds....West around 5 mph.

. SATURDAY NIGHT ...

Sky/weather.....Mostly cloudy becoming partly cloudy overnight.

Min temperature....Lower Elevations 46-56. Upper Elevations 38-48.

Max humidity.....Lower Elevations 80-90%. Upper Elevations 85-95%.

Wind (20 ft).....

Slope/valley.....Downslope/downcanyon 2-5 mph.

Ridgetop.....Northeast 3-7 mph.

Mixing height.....Lowering to around 100 ft AGL.

Transport winds....Northeast around 3 mph.

. SUNDAY ...

Sky/weather.....Partly to mostly cloudy.

Max temperature....Lower Elevations 53-63. Upper Elevations 44-54.

Min humidity.....Lower Elevations 50-60%. Upper Elevations 45-55%.

Wind (20 ft).....

Slope/valley.....Upslope/upcanyon 3-8 mph. Gusts to 12 mph in the afternoon.

Ridgetop.....West 3-7 mph.

Mixing height.....Increasing to around 2500 ft AGL.

Transport winds....West around 5 mph.

Windy Incident Weather Forecast

FORECAST NO: 49
PREDICTION FOR: 0700 Sat - 0700 Sun

NAME OF FIRE: Windy
UNIT: CA-TIA
SHIFT DATE: October 30-31, 2021
SIGNED: Chris Foltz - Incident Meteorologist

FORECAST ISSUED: 1800 Friday October 29

WEATHER DISCUSSION: Clouds will begin to increase beginning late this morning becoming mostly cloudy by the afternoon. This will result in slightly cooler temperatures and slightly higher afternoon minimum RH values.. No precipitation is expected. A similar pattern is expected on Sunday with a slight drop again in temperatures as compared to Saturday.

WEATHER FORECAST:

TODAY:

WEATHER: Slightly cooler. Dry conditions are expected with increasing clouds. Mostly cloudy conditions are expected by the afternoon.

MAX TEMPERATURES: 64-69 below 5 kft including the Kern River Valley. 56-61 at higher elevations.

MIN HUMIDITY: 45-50% across most of the fire; 30-35% along the eastern slopes/Kern River Valley.

20 FT WINDS:

RIDGETOP - Downslope/downvalley 2-4 mph, then upslope/upvalley to northwest at 6-10 mph after 1000. Afternoon gusts around 15 mph.

SLOPE/VALLEY - Downslope/downvalley 2-4 mph, then upslope/upvalley 6-10 mph after 1000. Afternoon gusts to 12 mph. Gusts to 25 mph along the Kern River.

STABILITY/INVERSION: Valley inversion including the San Joaquin Valley through 1000.

SUNDAY:

WEATHER: Dry conditions are expected with a partly to mostly cloudy sky.

MAX TEMPERATURES: 61-66 below 5 kft including the Kern River Valley. 53-58 at higher elevations.

MIN HUMIDITY: 50-55% across most of the fire; 40-45% along the eastern slopes/Kern River Valley.

20 FT WINDS:

RIDGETOP - Downslope/downvalley 2-4 mph, then upslope/upvalley to northwest at 6-10 mph after 1000. Afternoon gusts around 15 mph.

SLOPE/VALLEY - Downslope/downvalley 2-4 mph, then upslope/upvalley 6-10 mph after 1000. Afternoon gusts to 12 mph. Gusts to 25 mph along the Kern River.

STABILITY/INVERSION: Valley inversion including the San Joaquin Valley through 1000.

OUTLOOK FOR MONDAY THROUGH WEDNESDAY: A weak storm system will move across the area on Monday with abundant clouds and an isolated light shower possible. Any accumulation is expected to be limited to a few hundredths of an inch. Winds will be stronger from the southwest and west with gusts to 20 mph expected at the ridgetops through at least Wednesday.

Incident Weather Station Data --- SCAN CODE with Smart Phone

Porterville – Porterville Camp

Johnsondale – sheltered basin

Peppermint – upper eastern slope

Kern Co. Landfill – Camp 9

Sugarloaf Dr – northern slope

Pine Flat (UHL) – lower western slope

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 44	TYPE OF FIRE: Vegetation
FIRE NAME: KNP Complex	OPERATIONAL PERIOD: Oct 30 th -Nov 3 rd
DATE ISSUED: October 29 th	TIME ISSUED: 1600
UNIT: Sequoia Kings National Park, Sequoia National Forest	SIGNED: Dan O'Connor Fire Behavior Analyst (FBAN)

WEATHER SUMMARY: See detailed Fire Weather Forecast in IAP

FUELS:

The most notable vegetation is forests of giant sequoia (*Sequoiadendron giganteum*). Oak woodland (blue oak, interior live oak) and chaparral with chamise and manzanita characterize the lower elevations. Mixed conifer forest with Colorado white fir, red fir, western yellow pine (ponderosa pine), sugar pine and lodgepole pine forests and montane meadows occupy the middle elevations. Subalpine forests with foxtail pine, whitebark pine and meadows, krummholz, and alpine ecosystems typify the higher elevations. A combination of prescribed and resource benefit fire patches exist throughout the Park and National Forest. Tulare County is currently classified as 'Exceptional' by the US Drought Monitor mapping system impacting both live and dead fuels.

EXPECTED FIRE BEHAVIOR: *Based on the Warmest, Driest, Windiest Conditions Forecasted*

<u>Maximum Spotting Distance</u> Minimal <u>Probability of Ignition</u> 10 % or less	Fuel Type/Model	Maximum Rate of Spread (chains/hour)	Maximum Flame Length (feet)
	Timber understory (TU5-Overstocked and/or dense reprod)	Head 1-2 ch/hr Flank 0-1 ch/hr	Head 0-2 ft Flank 0-1 ft
	Timber litter (TL6-closed canopy, ground fuels)	Head 0-1 ch/hr Flank 0-1 ch/hr	Head 0-1 ft Flank 0-1 ft

General: This week's moisture continues to impact the fire area, with north aspects and higher elevation areas still under snow and/or wet ground. Exceptions may be heavy dead and down logs that may continue to smolder, with potential for creeping late week on the driest, most sun exposed south aspects. Humidity values in the 50's and lower sun angles/shorter days should further limit potential for fire growth.

SPECIFIC

KNP Complex

North: No forward fire progression is expected. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

South: No forward fire progression is expected. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

AIR OPERATIONS:

Minimal impacts to air operations anticipated during the forecast period.

SAFETY:

As you reengage the fire area later in the week, look out for deep smoldering root systems that may still contain heat.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 41 Extended	TYPE OF FIRE: Wildfire
FIRE NAME: Windy Fire	OPERATIONAL PERIOD: 10/29-31, DAY-NIGHT Shift
DATE ISSUED: October 28, 2021	TIME ISSUED: 1800
UNIT: CA-TIA & CA-SQF	SIGNED: 
	Typed/printed: Oscar Vargas (FBAN)

INPUTS

WEATHER SUMMARY:

- Above normal temperatures 10/29 and then slight cooling trend thru 10/30 & 10/31
- Increasing clouds on Saturday and Sunday
- Afternoon gusts around 12-15 with gusts up to 25mph possible in some areas

See Fire Weather Forecast for daily weather details

FUELS SUMMARY: Dense mixed conifer, old-growth timber, heavy down/dead, mixed ground fuels

TOPGRAPHY SUMMARY: Steep to very steep

OUTPUTS

GENERAL FIRE BEHAVIOR:

Fire behavior in most areas will remain minimal however there will be areas that will continue to smoke and smolder in heavy dead fuels and fuels that have been sheltered or burning on the inside.

Smoldering is expected to increase as conditions continue to warm and dry out.

Fire behavior potential will increase over the next few days as fuels continue to dry but clouds that provide shading over the fire will minimize fire behavior.

- Moderate intensity burning in heavy down/dead
- Rates of spread potential will be low to moderate depending on alignment of wind/gusts, slope & fuel moistures
- ERCs between Low and Average conditions during this period with highest ERCs around 41
- Probability of ignition around 50-65% in most areas but can more or less at your location
- Smoldering could remain active at night in areas that are holding heat in heavy fuels, especially in areas exposed to winds.
- Fine Dead Fuels will continue to dry out and could carry fire in some areas exposed to direct sunlight or steady winds
- You could start seeing smoke in areas that have been quite in the past few days

Spotting distances potential: spotting potential is minimal

Min. Fine Dead Fuel Moistures ranges: 1 hr.= 5-7-%, 10 hr.= 6-9%, 100hr= 11+% 1000hr.= 12+%

Ground and Air resources continue to have a dramatic influence over fire behavior & growth potential. Containment lines are continuing to hold the fire in place.

AIR OPERATIONS:

Smoke or Inversions are not a factor or limitation

There are deceptively quite areas on this fire....
Maintain positive situational awareness and situational intelligence to stay safe on the fireline

Health & Safety Message

Incident: KNP Complex / Windy Fire CA-KNP-000122/ CA-TIA-003058	Date/Op Period: 10/30-31/21 Day Shift 0700-0700

6. Work Assignments:
 Task: Patrol and hold fire. Hold and improve existing containment lines. Backhaul trash, fire suppression systems, hose, etc.
 Implement suppression repair plan. Coordinate and work with the REAFs.
 Purpose: To keep fire within existing containment lines. To keep fire north of East Fork of Kaweah River and south of Mineral King Rd.
 To prevent further damage to the land and provide erosion control.
 End State: The fire remains within its existing footprint and prevent spread to the south.
 Suppression repair is completed in accordance within specifications.

7. Special Instructions:
 Be aware of both fire and private vehicles traveling the Mineral King Road.

 KNP BAER Team will be working in all divisions of the fire.

6. Work Assignments:
 Task: Where safe and practical, implement mop up tactics in identified Sequoia groves. Patrol and monitor identified open fireline.
 Remove all excess equipment and supplies in Division L/P/S/U to remove all excess equipment and supplies.
 Purpose: To keep the fire within its current footprint and minimize Sequoia mortality.
 End State: Forward spread on the KNP Complex is mitigated and all Giant Sequoia redwoods impacted by fire on the KNP Complex have the highest probability of survival.

7. Special Instructions:
 Ensure all equipment is winterized if not backhauled.

 KNP BAER Team will be working in all divisions of the fire.

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>		
Transport Request			Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location			Descriptive Location & Lat. / Long. <i>(WGS84)</i>		
Incident Name			Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>		
On-Scene Incident Commander			Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>		
Patient Care			Name of Care Provider <i>(Ex: EMT Smith)</i>		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG PAGE 106					
Treatment:					
4. TRANSPORT PLAN: Evacuation Location <i>(if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)</i> Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS: <i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication :</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead. .					
8. ADDITIONAL INFORMATION: Updates/Changes, etc. .					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively. .					

COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - Fever
 - Chills
 - Sore throat
 - Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least SIX feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Any questions contact:

MEDL Nick Stepanian @ (909) 908-4778

MEDL(T) Ellis Johnston @ (208) 390-2326

KNP COMPLEX & WINDY FIRE COVID CARE CLINICS

What to expect:

- Wear a mask at all times
- Provide patient information
- Estimated Time for Testing: 30 minutes
- Rapid anti-gen self-tests provided
- PCR Tests available and may be required in certain situations as a follow-up to a rapid.

Services available at each camp:

Camp Name	Symptomatic Testing	Demob Testing	Vaccinations & Boosters

California Wildland Fire Coordinating Group

Framework for Mandatory COVID Testing on Federal Fire Incidents in California

Due to the risk of spread of COVID-19 to individual fire personnel and modules, as well as the overall impact on firefighting capacity, the federal leadership of the California Wildland Fire Coordinating Group (CWCG) have decided to move forward with the intent of mandatory testing on all federal fire incidents in California, specifically type 1 and 2 wildfire incidents when logistically possible (e.g. personnel to support, testing available). This intention applies to all federal employees and federal contractors regardless of vaccination status and will be voluntary for partners and cooperators involved in a federal fire incident.

To date, the Department of Agriculture, Forest Service, Pacific Southwest Region, COVID-19 Emergency Response Team (CERT) implemented two mandatory pilot testing programs in California. The first pilot program was during the McFarland Fire on the Shasta-Trinity National Forest. The testing service was provided through a contract. The second pilot program was on the French Fire during unified command between the Bureau of Land Management and the Sequoia National Forest. Cal OES provided the testing service. These pilot programs provided many lessons to assist with more effective implementation on other fire incidents.

To implement this intent the CERT and a Point of Contact (POC) from each of the following Department of the Interior (DOI) agencies: Bureau of Indian Affairs, Bureau of Land Management, Fish and Wildlife Service and the National Park Service will coordinate and collaborate.

It is recognized that testing in and of itself is not a silver bullet, but it is an important tool in the suite of COVID mitigations to protect fire personnel, modules, and their families and friends when personnel return home from fire incidents. With increasing COVID cases over the past few months, and continued fire activity expected in the weeks and months ahead, we have decided this is a necessary tool until vaccine requirements for the federal workforce are fully implemented.

Mandatory Testing Intent & Framework

- Applies to all federal employees and federal contractors on type 1 and 2 wildfire incidents in California, regardless of vaccination status.
- Testing will be provided for partners and cooperators that volunteer or request testing, if testing capacity is available.
- The requirement for testing will be included in the resource order for those resources identified as available to fill orders.
- Refusal of COVID testing on incidents will be handled on a case-by-case basis by the employee's agency or the hiring agency of the federal contractor with participation on the incident not occurring until a resolution is identified.
- If there are logistical challenges (e.g. personnel support, testing availability) the CERT and DOI POCs will attempt to implement this intent in the following priority order: (1) test individuals upon arrival to an incident, (2) test individuals upon demobilization from an incident, (3) test individuals that are already assigned to an ongoing incident at frequencies recommended by the Centers for Disease Control and Prevention (CDC).

Suppression Rehabilitation Specifications

Goal— Overall line rehab goals are to reduce erosion and runoff potential and promote future plant growth. Walk through adjacent undisturbed area and take a look at your rehab efforts to determine your success at returning the area to as natural a state as possible.

Rehabilitate dozer lines and handlines after ops approval

- Pull back soil and cut vegetation. Remove berms. Restore slope contour.
- Install waterbars on slopes greater than 10%.

Fire line Gradient (% slope)	Distance Between Waterbars (feet)
0 to 10	no waterbars needed
10 to 20	100
21 to 40	75
41 to 60	50

- Dimensions: 6-18 inches tall. Steeper slopes require taller waterbars
- Angle: 30-45 degrees across fireline. Extend waterbar across entire fireline. Exit waterbar flow into the green.
- Block entrance of dozer lines with extra logs and vegetation to prevent access

Rehabilitate Helispots, Drop Points, and Staging Areas—rake back disturbed soil and scatter cut trees, shrubs, limbs, and logs over area. If called out by READs decompact soil as needed in the top 2-4”.

Roads—Chip or masticate vegetation piles cut during suppression. Unclog culverts of dirt or vegetation if impacted by suppression.

Remove Trash—remove unnecessary microtrash, flagging/equipment and tools from along handlines, spike camps, helispots, drop points, and staging areas.

Work with Resource Advisors with questions, modifications to the specifications, and sign-off.

Hotel Acquisition Protocol

This guideline is only for acquiring hotel accommodation. Meals are still provided by the KNP incident from caterer and off-site meals are **not** authorized for reimbursement. Offsite meals **are** authorized for the Windy Fire. Resources will follow their Agency of Hire direction as identified in the *Standards for Interagency Incident Business Management Handbook*, (4/2021) page 10-62, www.nwccg.gov/sites/default/files/publications/pms902.pdf .

Lodging Per Diem Rate per Incident: Must stay within per diem rate.

KNP COMPLEX - \$110.00 per night

WINDY - \$113.00 per night

- **Resources will utilize double occupancy (when appropriate) when acquiring rooms.**
 - Example is Resource A – 5 personnel may acquire 3 rooms (2 rooms with two crew members, 1 room with one crew member).
- **Federal Resources (Including AD's)**
 - Will follow Lodging policy of their Agency.
- **Local Government**
 - Will follow the State Agreement from which they are from.
 - CA – Work with Finance Section for S# request.
- **Contracted Resources**
 - Will follow Lodging rules within Agreement.
 - Provide receipt(s) for reimbursement on Invoice.
 - Make sure receipts are Itemized (not from credit card machine) and show a zero balance due.

Human Resource Message

ACTIVE LISTENING

High performing teams demonstrate active listening when accomplishing the mission. Active listening is a way of listening and responding to another person that improves mutual understanding and respect. Often when people talk to each other, they do not listen attentively. They are often distracted, half listening, half thinking about something else. Here are some questions to ask yourself to determine if you are actively listening:

- Do you really hear what the other person says or are you busy preparing a response?
- Can you repeat what the other person just said to you?
- Do you understand what the other person intended to say?
- Did you repeat what the person just said to verify that is what they meant to say?
- Did you ask clarifying questions to better understand the other person?
- Are you on the same page and agree on what was just said and meant?

Remember: 93% of all communication is through body language (facial expressions, body posture, and tone). Only 7% of a conversation is the actual verbal part. Active listening is crucial when heightening situational awareness on and off the line.

Take Home Message:

Take the time to really hear the other person by repeating what they just said, then ask clarifying questions, then agree on what you both have said before rolling with the plan.

Human Resource Specialists are here on assignment to help you and your teams manage the operational stress, keeping your team positive, and productive, while increasing your situational awareness.

Riddle of the Day:

*Add me to myself and multiply by 4.
Divide me by 8 and you will find me
again. What am I?*

***** DOUBLE JEPORDY!!!! *****

*What can't talk but will reply when
spoken to?*

Answer for yesterday:
"A Stapler"

TRAINING SPECIALIST

(209) 770-4809 bradley_smith@firenet.gov

Please Close Out your "Open" Training Documentation w the TNSP no later than
Today, 10-30, 2100 Hrs.

Trainees remaining on the incident- Close your documentation under the Type 2 Incident complexity. Start a new Evaluation Record in your task book under the appropriate complexity level.

Training Assignment Close Out Instructions

Date documentation for your anticipated Last Workday Date.

Want To Expedite The Process?

Scan and complete the "Incident Trainee Final Interview Form" QR Code below

Contact the TNSP to front load the rest of your package before Demob.

The Training Desk is located at ICP, in the Main Building, adjacent to the center entrance.

Windy Fire Trainees – Contact the TNSP to make close-out arrangements

WRITING EFFECTIVE PERFORMANCE EVALUATIONS

- ✓ Provide **CONSTRUCTIVE FEEDBACK** for the trainee and make your words valuable for the person or people responsible for reviewing the evaluation.
- ✓ Describe what the trainee did on the assignment to justify their rating. **PAINT THE PICTURE** to the reviewing officials on the complexity of the assignment!
- ✓ Be **HONEST** enough to let the trainee know what their strengths and weaknesses are, how they performed and if they met, did not meet, or exceeded your expectations.
- ✓ **DOCUMENT** what skills or tasks the trainee should work on next if recommending continuing assignments.
- ✓ If recommending certification, **BE SPECIFIC** in the performance evaluation that you are recommending them for certification.

PLEASE DO:

- Only drive ONE WAY in camp
- Drop your trash off at the Human Eco Consulting: corner of Engine Parking & Sleeper Trailer Row
- Treat other people the way you want to be treated

PLEASE DO NOT:

- Walk where vehicles drive
- Sleep in vehicle parking areas

DEMOB Instructions

KNP Complex:

1. Go to Weed Wash if your vehicle has been on the fireline
 2. Go to Ground Support for your post-inspection
 3. Return items checked out from Supply
 4. Return items checked out from Comms
 5. Email Finance to close out your CTR/Shift tickets
 6. Scan the QR code below to DEMOB. Complete the questionnaire, then call 213-264-1886 to verify that DMOB has received all the information.
- NOTE: If you have any problems, contact Jan by phone: 213-264-1886 or email: 2021.knp.demob@firenet.gov

Windy Fire:

Report to Windy Demob in person to obtain your check-out form. **THERE IS NO REMOTE DEMOB.** Obtain signatures from the appropriate Unit Leaders as noted on your check-out form, closing out with Finance just before bringing the signed form back to Demob.

If you need a flight arranged, contact the Demob Unit Leader **72 hours prior** to your Demob date to ensure that all necessary information has been provided. Demob will submit your request.
