

INFRARED INTERPRETER'S DAILY LOG

| | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| Incident Name: KNP Complex | IR Interpreter(s): Jeremy Hurd | Local Dispatch Phone: | Interpreted Size: 6919 Growth last period: 3500 |
| Flight Time: 1905PDT Flight Date: 20210914 | Interpreter(s) location: Edmonds, WA Interpreter(s) Phone: 562-572-5787 | GACC IR Liaison: Tara Umphries GACC IR Liaison Phone: 720-618-2543 | National Coordinator: Jan Johnson National Coord. Phone: 801-824-5440 |
| Ordered By: Tara Umphries | A Number: TBD | Aircraft/Scanner System: Partinavia P-68/TK-7 | Pilots/Techs: Jeff Blais, Nick Rose / Dan Klinnert |
| IRIN Comments on imagery: Sufficient heat for clear IR contrast, good ortho-rectification | | Weather at time of flight: Clear below 12,000 AGL | Flight Objective: IR imagery of fire |
| Date and Time Imagery Received by Interpreter: 20210914 2126PDT | | Type of media for final product: Shapefiles, KMZ, PDF maps, IRN Log | |
| Date and Time Products Delivered to Incident: 20210915 0120PDT | | Digital files sent to: ftp.wildfire.org , sarlyn_mccormick@firenet.gov | |
| Comments /notes on tonight's mission and this interpretation: Southern perimeter saw substantial growth to the west and NNW with intense heat around the edges of the perimeter. Heat perimeter has progressed past Highway 198 and continues to work its way up hill. Northern perimeter grew in all directions, but significantly to the south. | | | |
