INCIDENT Weather Forecast

FORECAST NO: 38

PREDICTION FOR: 0700 Sun-0700 Mon

SHIFT DATE: October 24-25, 2021

FORECAST ISSUED: 1800 Saturday October 23

Transport winds....West around 20 mph.

NAME OF FIRE: KNP Complex

UNIT: CA-KP

SIGNED: Dan Harty

Incident Meteorologist

...Flash Flood Watch 11 PM Sunday through 11 PM Monday...

WEATHER DISCUSSION

An Atmospheric River will move over northern California this morning then gradually shift south through the day. There is a slight chance of rain this morning then an increasing chance through the day. Rain becomes likely tonight with moderate to heavy rain arriving around sunrise. Rainfall amounts are forecast to be mainly around 2-3 inches with potential for up to 5 inches, mainly across high elevations. Moderate to heavy rainfall rates could cause flash flooding and debris flows. A **Flash Flood Watch** is in effect from late Sunday night through Monday evening. Wind will increase Sunday night with gusts around 30 mph through early Monday.

SUNDAY
Sky/weatherMostly cloudy. A 20% of rain in the morning increasing to a 40% chance in the afternoon. Snow level around 11,000 ft. Rain amount up to 0.25 inches.
Max temperatureLower Elevations 55-65. Upper Elevations 45-55.
Min humidityLower Elevations 57-67%. Upper Elevations 62-77%.
Wind (20 ft)
Slope/valleySouth southwest 5-10 mph with gusts to 15 mph.
RidgetopSouthwest 6-12 mph. Gusts to around 20 mph.
Mixing heightIncreasing to around 3000 ft AGL.
Transport windsSouthwest around 15 mph.
.SUNDAY NIGHT
Sky/weatherA 70% chance of rain in the evening then rain after midnight. Moderate to heavy rain at times. Snow level lowering to near 9,000 feet by sunrise. Rain amounts 0.5 to 1 inches.
Min temperatureLower Elevations 41-51. Upper Elevations 31-41.
Max humidityLower Elevations 90-100%. Upper Elevations 90-100%.
Wind (20 ft)
Slope/valleySouth southwest 7-14 mph. Gusts to around 20 mph.
RidgetopSouthwest 10-20 mph. Gusts up to 30 mph.
Mixing heightLowering to around 500 ft AGL.
Transport windsSouthwest around 20 mph.
.MONDAY
Sky/weatherRain, moderate to heavy at times. Rain amounts 1 to 2 inches.
Snow level lowering near 7,000 feet. Snow amounts 3 to 9 inches.
Max temperatureLower Elevations 45-55. Upper Elevations 35-45.
Min humidityLower Elevations 84-94%. Upper Elevations 77-87%.
Wind (20 ft)
Slope/valleyWest southwest 7-14 mph with gusts up to 20 mph in the morning, Becoming west northwest 5-15 mph in the afternoon.
RidgetopWest southwest 10-20 mph with gusts up to 30 mph in the morning, Becoming west northwest 10-15 mph in the afternoon.
Mixing heightIncreasing to around 3000 ft AGL.

Windy Incident Weather Forecast

FORECAST NO:

SHIFT DATE:

43

PREDICTION FOR:

Sunday

10/24 (0700-2100)

FORECAST ISSUED:

10/23/21 @ 1900

FIRE NAME: Windy

UNIT:

CA-TIA

SIGNED:

Gary Zell

Incident Meteorologist

FLASH FLOOD WATCH IN EFFECT FROM 2300 SUNDAY THROUGH MONDAY EVENING FOR THE WINDY BURN SCAR AREA

WEATHER DISCUSSION: A strong storm system will move across the area late today and Monday. This will lead to much colder temperatures, gusty winds at times and increasing precipitation chances. Storm total rainfall amounts by Tuesday morning will likely be between 1 and 2 inches and potentially up to 3 inches. Snow levels will start off between 9-10 kft, lowering to 7 kft Monday afternoon and Monday night. 3 to 7 inches of snowfall will be possible above 7 kft by Tuesday morning.

WEATHER FORECAST:

TODAY:

WEATHER:

Mostly cloudy. A 20 percent chance of showers in the morning, increasing to 40

percent by evening and 80 percent after midnight.

MAX TEMPERATURES:

60-65° below 5 kft, except 65-70° along the Kern River. 55-60° at higher elevations.

MIN HUMIDITY:

33-38% across most of the fire; 24-29% along the eastern slopes/Kern River Valley.

20 FT WINDS:

RIDGETOP -

Downslope/downvalley 2-5 mph, then upslope/upvalley to west-northwest at 7-12

mph after 1000. Afternoon gusts around 20 mph.

SLOPE/VALLEY -

Downslope/downvalley 3-6 mph, then upslope/upvalley 4-9 mph after 1000.

Afternoon gusts to 20 mph. Gusts 20-25 mph along the Kern River.

STABILITY/INVERSION:

Valley inversions including the San Joaquin Valley, breaking between 0900-1000.

MONDAY:

WEATHER:

Cloudy. A 100 percent of rain. Falling temperatures during the afternoon, with

snow above 7 kft during the afternoon hours and Monday night.

MAX TEMPERATURES:

MIN HUMIDITY:

20 FT WINDS:

44-49° below 5 kft, except 49-54° along the Kern River. 39-44° at higher elevations.

75-80% across most of the fire; 70-75% along the eastern slopes/Kern River Valley. South-southwest in the morning at 15-20 mph with gusts around 35 mph, shifting to

the west-northwest in the afternoon.

STABILITY/INVERSION:

No inversion expected.

OUTLOOK FOR TUESDAY THROUGH THURSDAY: There will be a chance of showers Tuesday, with dry conditions Wednesday and Thursday. Otherwise, temperatures will warm a couple of degrees each day through the outlook period, along with gradually lowering relative humidity values. It will be a little breezy on Tuesday, with light wind speeds Wednesday and Thursday.

Incident Weather Station Data --- SCAN CODE with Smart Phone

Tiger Flat (IRAWS 46) - ridgetop Kern (IRAWS 48) - Kern River Valley

Johnsondale – sheltered basin Peppermint – upper eastern slope

Porterville – Porterville Camp Kern Co. Landfill - Camp 9 Sugarloaf Dr – northern slope

Pine Flat (UHL) - lower western slope

FIRE BE	HAVIOR FORECAST
FORECAST NUMBER: 38	TYPE OF FIRE: Vegetation
FIRE NAME: KNP Complex & Windy Fire	OPERATIONAL PERIOD: Oct 24th 24 Hour
DATE ISSUED: October 23 rd	TIME ISSUED: 2000
UNIT: Sequoia Kings National Park	SIGNED: Greg White PSC2 for Dan O'Connor Fire Behavior Analyst (FBAN) & Oscar Vargas (FBAN)

WEATHER SUMMARY: See detailed Fire Weather Forecast in IAP

FUELS:

The most notable vegetation is forests of giant sequoia (Sequoiadendron giganteum). Oak woodland (blue oak, interior live oak) and chaparral with chamise and manzanita characterize the lower elevations. Mixed conifer forest with Colorado white fir, red fir, western yellow pine (ponderosa pine), sugar pine and lodgepole pine forests and montane meadows occupy the middle elevations. Subalpine forests with foxtail pine, whitebark pine and meadows, krummholz, and alpine ecosystems typify the higher elevations.

Tulare County is currently classified as 'Exceptional' by the US Drought Monitor mapping system impacting both live and dead fuels.

EXPECTED FIR	E BEHAVIOR: Based on the Warmest,	Driest, Windiest Conditions F	
Maximum Spotting Distance	Fuel Type/Model	Maximum Rate of Spread (chains/hour)	Maximum Flame Length (feet)
0.1 mile or less Probability of Ignition 19 %	Timber understory (TU5- Overstocked and/or dense reprod)	Head 3-5 ch/hr Flank 1-2 ch/hr	Head 2-5 ft Flank 0-2 ft
	Timber litter (TL6-closed canopy, ground fuels)	Head 1-2 ch/hr Flank 0-1 ch/hr	Head 1-2 ft Flank 0-2 ft

General: Some increased winds ahead of the approaching storm may get interior pockets moving around a bit, but in general the spread potential will continue to be minimal today. Expect creeping under closed canopies and heavier fuels will continue to burn. Fire weakened trees will continue to fall. Spotting, if any will be from rollout and with the higher RH the potential for torching, will be reduced. One hour fuels will quickly reach the moisture of extinction as precipitation moves into the area.

SPECIFIC Branch I KNP

North: No forward fire progression is expected. Most of the fire is in a backing alignment. Rollout will continue to challenge containment. Heavier fuels will continue to burn and some creeping should be expected under closed canopies.

South: Rollout will continue to challenge containment lines. Some flanking runs are possible on the east flank Div. C. The fire is not expected to cross Cliff Creek. No forward progression in Divisions A and X.

Branch III Windy

Continued decrease in fire behavior potential with the increase in relative humidity. Areas in alignment with breezy conditions could remain active as the heavy fuels continue to burn. ERC's will continue to tread downward and fuel moistures recover.

AIR OPERATIONS:

Erratic winds associated with the approaching system may limit aircraft capabilities.

SAFETY:

Heads up for increased winds that may try to squeeze the last bit of life out of the fire today as the welcomed moisture approaches today.

Health & Safety Message

Incident: KNP Complex / Windy Fire CA-KNP-000122/ CA-TIA-003058 **Date/Op Period:** 10/24/21 - 10/25/21 Day Shift 0700-0700

Hazards & Risks

<u>Firefighter Health:</u> With multiple days of working on the fireline; cuts, abrasions, rashes and blisters are accumulating on your body. Prevent infections by washing your hands often, take daily showers, wash or change your clothes frequently and care for minor wounds each shift. Treatment early-on will help prevent larger medical problems later!

<u>Weather Changes on the Way!</u> The weather forecast is calling for cool, rainy and blustery conditions with snow possible in the higher elevations. Take precautions to stay warm and dry. Dress in layers and remember to stay hydrated. The onset of hypothermia does not necessarily require extremely low temperatures. If possible, periodically drink warm fluids.

- -Know your equipment
- -Inspect your equipment
- -Maintain your equipment

Use engineered safety features built into your equipment and wear all appropriate PPE when operating it. It just might come in handy......

6. Work Assignments:						a avatama ha	an oto

Task: Patrol and hold fire. Hold and improve existing containment lines. Backhaul trash, fire suppression systems, hose, etc.
Purpose: To keep fire within existing containment lines. To keep fire north of East Fork of Kaweah River and south of Mineral King Rd.
End State: The fire remains within its existing footprint and prevent spread to the south.

7. Special Instructions:

Be aware of both fire and private vehicles traveling the Mineral King Road.

KNP BAER Team will be working in all divisions of the fire.

Task: Implement suppression repair plan. Coordinate and work with the REAF's. Determine additional resource needs.

Validate accountable property.

Purpose: To prevent further damage to the land and provide erosion control.

End State: Supression repair is completed in accordance within specifications.

7. Special Instructions:

See the completed repair plan for further direction.

KNP BAER Team will be working in all divisions of the fire.

6. Work Assignments:

Implement suppression repair throughout the Repair Group based on priorities identified by the REAFs.

Monitor open fireline for signs of heat or spread that could threaten containment lines.

Snag roads to increase access and safety for firefighters and the public.

7. Special Instructions:

Follow all COVID-19 protocols and utilize appropriate PPE and social distancing to enhance personal safety.

Resource avoidance areas will be flagged red/white combined with any other solid color.

Remove all trash and identify any excess supplies that need to be removed.

Work with communications for transport needs.

Monitor open fireline for signs of heat or fire spread that could threaten containment lines.

Snag roads to increase access and safety for firefighters and the public.

7. Special Instructions:

Follow all COVID-19 protocols and utilize appropriate PPE and social distancing to enhance personal safety.

Resource avoidance areas will be flagged red/white combined with any other solid color.

Remove all trash and identify any excess supplies that need to be removed.

Work with communications for transport needs.

COVID-19 Briefing Checklist

Self-Awareness / Screening

- Notify supervisor if you or others experience:
 - o Cough, more than expected
 - Difficulty breathing
 - Loss of taste or smell
 - o Fever
 - o Chills
 - Sore throat
 - o Muscle pain
- Immediately separate yourself from others.
- Follow crew and division plans to isolate, triage, and transport symptomatic personnel.

Hygiene on the Fireline

- Properly wash or sanitize your hands often
- Avoid handshakes and communal use items
- Inform supervisor of needed resupply.
- Disinfect high touch surfaces often

Social distancing and protective equipment

- Practice social distancing
- Conduct briefings in conversations outdoors and at least <u>SIX</u> feet apart
- Utilize face coverings
- Clean or replace dirty face coverings, equipment, and PPE

Communications

- Ensure effective sender/receiver messaging.
- Protect yourself, your crew, and your camp!

Any questions contact:

MEDL Nick Stepanian @ (909) 908-4778

MEDL(T) Ellis Johnston @ (208) 390-2326

FINANCE MESSAGE

Fire Name: KNP Complex

Fire Number: CA-KNP-000122

PF.FSN9UH022.00.1 CFAA N9UH

Email: 2021.knp.finance@firenet.gov

Finance Documents Needed upon "Check In" (If Not Already Submitted):

Please email these documents or scan the QR Code below, attach & submit.					
FED Equipment/ Crews:	Overhead:	Contract Equipment/	Cooperator:		
 Manifest - showing 	 AD/Casual Hire Form 	Contract Crews:	Cooperative		
employment type	If regular Agency	 Agreement 	Agreement		
(GS or WG) or AD	please ensure "GS" or	Manifest	 Resource Order 		
rates if applicable	"WG" is written on	 Resource Order 			
	your first CTR	 Inspections 			

When emailing us:

- Overhead/FED: subject line: TIME, Resource #, Resource Name
- Equipment/Cooperator: subject line: EQTR, Resource #, Resource Name

Prior to your demob date, please contact Finance to expedite the demob process. Upon submittal of your final CTR/Shift Tickets, Finance will email you copies of your pay documents for review and signature.

Finance is available to assist you in-person at Orange Cove ICP

Hotel Acquisition Protocol

This guideline is only for acquiring hotel accommodation. Meals are still provided by the incident(s) from caterer and off-site meals is <u>not</u> authorized for reimbursement. Resources will follow their Agency of Hire direction as identified in the *Standards for Interagency Incident Business Management Handbook*,(4/2021) page 10-62,

www.nwcg.gov/sites/default/files/publications/pms902.pdf.

Lodging Per Diem Rate per Incident: Must stay within per diem rate.

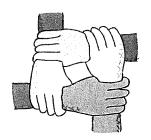

KNP COMPLEX - \$110.00 per night

WINDY - \$113.00 per night

- Resources will utilize double occupancy (when appropriate) when acquiring rooms.
 - Example is Resource A 5 personnel may acquire 3 rooms (2 rooms with two crew members, 1 room with one crew member).
- Federal Resources (Including AD's)
 - Will follow Lodging policy of their Agency.
- Local Government
 - Will follow the State Agreement from which they are from.
 - CA Work with Finance Section for S# request.
- Contracted Resources
 - Will follow Lodging rules within Agreement.
 - o Provide receipt(s) for reimbursement on Invoice.
 - Make sure receipts are Itemized (not from credit card machine) and show a zero balance due.

HUMAN RESOURCES MESSAGE

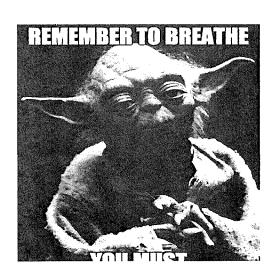

When we talk about productivity, we always talk about the "getting it done" side of things. However, productivity has more to do with what you DON'T do. Too often, people focus on how to cram more into less. Society's definition of Productivity seems to be heavily focused on the execution side of things, with minimal focus on the preparation, the rest, and the quiet that can ultimately create a much more productive way of life. Think of your brain as an engine. An engine can only run so long before it needs two things: fuel, and rest. In our culture, we refer to this "fuel" as "coffee," and often flaunt our abilities to keep our engines revving at full speed without ever giving them a rest. But, the BIG SECRET IS...If you want to be more productive when you're working, you need to prioritize a bit more downtime. Here are some tips, to practice, that will help elevate your productivity - when you are working:

- Slow Down to Speed Up Too often, we forget this rule in life. We think everything has to be done right now. Everyone's priority matrix is filled with immediate deliverables. We over-promise, under-resource, and run ourselves empty because we fear taking a step back in the beginning. Instead, we jump in and get started with a sense of urgency, not realizing the failure until we're drowning in the deep end. Before you run off to the races, take a step back. What's the goal? What actions are actually going to move the needle? Focus on what's most important, get your mind right, and then get to work.
- Prevent, Don't React Whether we're talking about personal health or maintaining a positive relationship with your co-workers, the same theory holds true: Preventative medicine works a whole lot better than something reactionary. Instead of burning the candle at both ends until your body shuts down, make time as you go along to take a step back. I'm sure your reaction to that is, "Well I don't have the time!" Ok, yes you do. You make time for a lot of other things, you can make time to take care of your most important asset: yourself. Nothing is more valuable than that. If you don't have your body and your well being, everything else will suffer. Keep tabs on your body each day and each week, and when the warning signs start flashing, listen. Learn to prevent the engine failure instead of crashing and then wondering where you went wrong. Take a moment—it doesn't have to be forever—and give your body what it needs. Clear your head and then re-approach the work. You will be so much more effective.
- Make Time to Do Nothing This holds especially true for the creative types--you need time to let your mind wander. If you are constantly in "Do" mode, you aren't allowing yourself the freedom or spontaneity that may result in a brilliant "Aha!" moment. Even still, time spent doing nothing does an amazing thing to the mind. Think of the toy cars that have to be pulled backwards to be wound up, and then when released they go shooting across the dining room table. The longer you pull them back, the further they go. When you take a step back and allow yourself to regenerate, you will inherently bring more excitement and drive to your work when you do return. This idea of "time spent doing nothing" is one of the hardest things for over-achievers and driven individuals. They can't help but turn this time into a sweatpants version of a normal workday. That's not the point of it. The point is to, quite literally, do nothing. Even for 30 minutes to an hour. Go for a walk without your cell phone. Read a book for leisure (when was the last time you did that?). Have lunch in a quiet place while enjoying the scenery. Do something that has zero relevance to a task that needs to be completed. When you come back afterwards, you will feel so much more energized to do what needs to get done.

Riddle of the Day!!!

I'm light as a feather, yet the strongest person can't hold me for five minutes. What am I?

David Legrand, HRSP 505.218.1189

TRAINING SPECIALIST

TRAINEE INSTRUCTIONS

To receive incident credit for your training assignment you must register (remotely) and close out (in-person) with the Training Specialist

Windy Fire Trainees — Contact the TNSP to make close out arrangements

Registration

To register your assignment with the TNSP:

1. Scan the "Registration Form" QR Code

- 2. Complete and submit the form
- 3. Check Text Messages for further instructions

(209) 770-4809 bradley_smith@firenet.gov

Training Assignment Close Out

- 1. Contact the TNSP 24 Hrs. prior to Demob for instructions
- 2. Scan the "Incident Trainee Final Interview Form" QR Code

ICP LOGISTICS NOTES
