Spot Forecast for RED Fire...YNP National Weather Service Hanford CA 1231 PM PDT Thu Sep 8 2022

Forecast is based on forecast start time of 1300 PDT on September 08. If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...Much above average temperatures and low humidity will continue over the fire through Friday. More seasonable temperatures and higher humidity will develop this weekend along with increasing precipitation chances and possible thunderstorms due to moisture from the remnants of Hurricane Kay.

#### .FRIDAY ...

Sky/weather......Mostly sunny in the morning then becoming partly sunny by afternoon.

Max temperature.....76-78.

Min humidity......16-21 percent. Eye level winds.....Upslope 3-6 mph.

Surrounding ridge... East 4-8 mph in the morning shifting to west 5

to 10 mph by 1100 PDT.

Mixing height.....Rising to around 11000 ft AGL.

Transport winds....Northeast 10 mph.

Spot Forecast for ASPEN Fire...YNP National Weather Service Hanford CA 1233 PM PDT Thu Sep 8 2022

Forecast is based on forecast start time of 1300 PDT on September 08. If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...Much above average temperatures and low humidity will continue over the fire through Friday. More seasonable temperatures and higher humidity will develop this weekend along with increasing precipitation chances and possible thunderstorms due to moisture from the remnants of Hurricane Kay.

#### .FRIDAY...

Sky/weather......Mostly sunny.

Max temperature....83-85.

Min humidity.....13-18 percent. Eye level winds....Upslope 3-6 mph.

Surrounding ridge...East 4-8 mph in the morning shifting to west 5

to 10 mph by 1100 PDT.

Mixing height.....Rising to around 10000 ft AGL.

Transport winds....Northeast 10 mph.

Spot Forecast for Rodgers Fire...YNP National Weather Service Hanford CA 1228 PM PDT Thu Sep 8 2022

Forecast is based on forecast start time of 1300 PDT on September 08. If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...Much above average temperatures and low humidity will continue over the fire through Friday. More seasonable temperatures and higher humidity will develop this weekend along with increasing precipitation chances and possible thunderstorms due to moisture from the remnants of Hurricane Kay.

#### .FRIDAY . . .

Sky/weather......Mostly sunny.

Max temperature....76-78.

Min humidity......15-20 percent.

Eye level winds.....Upslope 3-6 mph.

Surrounding ridge... East 4-8 mph in the morning shifting to west 5

to 10 mph by 1100 PDT.

Mixing height......Rising to around 12000 ft AGL.

Transport winds....Northeast 10 mph.

#### Short-haul Extraction Description\*

Yosemite Helicopter 551 is an Advanced Life Support (ALS) rescue capable ship. For rescue operations, two rescuers can be inserted into technical terrain or an area with tight canopy cover via rappel or Short-haul. Once medical interventions and patient packing are completed by rescuers, 551 will extract all individuals via Short-haul.

Ground personnel should consider an opening free of overhead hazards and snags as a reasonable site. Ensure extraction site is a safe distance from the fire-line (rotor wash). The standard Shorthaul rope length is 150' but can be extended to 250'. During the insertion and extraction process of a patient, ground personnel must remain clear of area.

H-551 will fly to lat and long provided. H-551 will contact personnel on the ground via CALCORD. Once a recon of the site has been completed, 2 rescuers will be inserted via rappel and may be followed by cargo let down (CLD) of gear. Once Rappel/Short-haul operations commence, and the sterile cockpit has been established, H-551 will only monitor the Air Guard frequency. *During Rappel/Short-haul operations, contact H-551 via Air Guard only in case of an emergency.* 

Once rescuers are on the ground, H-551 will depart the area for the closest landing zone (LZ) and configure helicopter for extraction of patient and rescuers via Short-haul. Once patient packaging is completed, H-551 will return to the area and extract personnel. H-551 will fly to the closest LZ and load the patient internally.

\*This is intended as a brief description. When requesting a medical evacuation, prior to the arrival of H-551, remember the basics: Utilize the Medical Incident Report (MIR) Page 118, IRPG, scene safety, initial patient care and management of on scene personnel.

## INCIDENT RISK ANALYSIS (ICS 215a)

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
ALL	FIRE WEATHER	<ul> <li>Winds increasing or changing direction.</li> <li>Weather becoming hotter and drier.</li> <li>Reevaluate strategy, tactics, LCES, and mitigation of 10 and 18.</li> </ul>
ALL	FIRE BEHAVIOR	Establish and maintain LCES. Take weather obs.     Anticipate intense burning and rapid rates of spread. Watch for spot fires.     Allow for adequate time to escape routes and safety zone.
ALL	FATIGUE	Be alert for signs of fatigue and take breaks as necessary.     Maintain 2:1 work/rest ratio.     Monitor incoming resources for level of fatigue.
ALL	LIGHTNING	Follow Thunderstorm Safety Precautions (IRPG p. 17)
ALL	HYDRATION	<ul> <li>Drinking water before, during and after shifts, up to 1.5 gal. per shift.</li> <li>Be alert for signs of heat disorder in yourself and others.</li> </ul>
ALL	DRIVING HAZARDS	<ul> <li>Drive defensively! Expect the unexpected around every curve.</li> <li>Drive with headlights on; use chock blocks, keep windshields clean; look before backing; and use backers whenever available.</li> <li>Don't drive when fatigued. Adhere to agency driving regulations and guidelines.</li> <li>Be alert for wildlife, heavy trucks, &amp; high speed opposing and overtaking traffic.</li> <li>Increase following distances on dusty roads. Slow down when you</li> </ul>
ALL	AIRCRAFT OPERATIONS	meet opposing traffic or encounter washboard surfaces.     Keep personnel out of drop zones when bucket work in progress.     Use air-to-ground frequency to communicate with aircraft.     Use clear, concise statements when directing aircraft. Use clock
ALL	INDIRECT LINE CONSTRUCTION	directions from pilot's perspective.  Establish and maintain LCES.  Locate line in favorable location, lighter fuels and gentler topography when possible.  Utilize natural or existing barriers.
ALL	STRUCTURE PROTECTION	If possible burn out or backfire as line construction progresses.  Ensure LCES is in place Review Structure Protection; IRPG pages 12-16 Do not commit to stay on a structure unless the area around the structure represents an adequate safety z
ALL	BEAR PRECAUTIONS	Look for propane tanks and other hazardous materials     Pick up and remove all trash from fire line. Don't allow storage of food in tents. Manage trash in spike compacts qualid attraction has a spike compacts.
ALL	HAZARD TREES	<ul> <li>food in tents. Manage trash in spike camps to avoid attracting bears</li> <li>Follow Hazard Tree Safety Guidelines (IRPG p. 20).</li> <li>Limit number of personnel around snags and their exposure time; fallers must be qualified for trees being fallen.</li> <li>Be especially alert around snags during wind events or changing wind direction.</li> <li>Check for hazard trees &amp; "widow-makers" in sleeping areas prior to using. Maintain Situational Awareness.</li> </ul>
ALL	COMMUNICATIONS	<ul> <li>Share your Situational Awareness.</li> <li>Share your Situational Awareness (hazards, changes, etc.) to those who also have a need.</li> <li>Answer questions when asked by others. Ask for intel if and when you don't know the plan.</li> <li>Ensure all personnel are familiar with the incident and IA communications plans</li> </ul>
ALL	COLD / FLU VIRUS SYMPTOMS SPREADING THRU INCIDENT PERSONNEL	<ul> <li>Follow good hygiene practices – wash hands frequently before eating, after rest room use, etc. Treat symptoms early, visit Med Unit.</li> <li>Get as much rest as possible, stay hydrated, eat healthy foods (fruits &amp; vegetables)</li> </ul>
Red Rodgers Aspen 215a	DATE PREPARED: 9/8/2022 TIME PREPARED: 17:55:41	OPERATIONAL PERIOD 9/9/2022-9/10/2022 Day shift Prepared by: Danen / Ferguson

# Lookouts Communications Escape Routes Safety Zones

#### RED/RODGERS/ASPEN FIRE

Operation Period: 09/09-10/2022 Day Shift

#### SAFETY MESSAGE

#### "TAKE YOUR TIME TO DO IT SAFELY"

- Use time wisely to focus on safety issues, there is <u>NOTHING</u> that is more important.
- Do not let a sense of urgency, or the hazardous mindsets of "impulsiveness" or "mission fixation" compromise your safety.
- Any time spent planning for safety will pay dividends in the end.

#### MAJOR HAZARDS AND RISKS

	HAZARD TREES
DEHYDRATION	<b>SPOT FIRES</b>
THUNDERSTORMS	BEARS

Be sure all elements of your safety plan are in place prior to engagement

#### **Hazard Tree Safety**

Inspect area for hazard trees before starting work. Are there trees that have been falling, leaning, hung up, or have broken tops? Are there high-risk species? How long has the fire been burning in the area?

Identify hazards and fell or avoid the hazard and flag.

Take down hazard trees only with qualified sawyers and then only if necessary.

#### THUNDERSTORM SAFETY

Follow the 30/30 rule: If you see lightning and hear thunderclaps follow in less than 30 seconds, take storm precautions.

- Take shelter in vehicle or building if possible.
- 2. If outdoors, find low spot away from tall trees, wire fences, and utility lines.
- If in open country, crouch low, with feet together, minimizing contact with the ground.
- Don't group together.
- Stay away from ridgetops, wide open areas, or near ledges or rock outcroppings.
- Follow the thunderstorm safety guidelines on page 17 of the IRPG.

California Team 10 Safety Officers Linda Ferguson Jason Danen

#### WILDLAND FIRE COVID-19 SCREENING TOOL/ TESTING INFO

- Have you in the past 14 days, had contact with a person known to be infected with the Coronavirus (COVID-19)?
  - Today or in the past 24 hours, have you had any of the following symptoms?
- + Cough more than expected?
- + Fever? Chills?
- + Nausea or vomiting?
- + New loss of taste or smell?

- + Shortness of breath or difficulty breathing?
- + Sore throat?
- + Diarrhea?
- + Fatigue, outside your normal for firefighting?
- + Headache, outside your normal for firefighting?
- + Congestion or runny nose, outside your normal for firefighting?
- + Muscle pain, outside your normal for firefighting?

# <u>IF YOU ARE HAVING ANY SIGNS OR SYMPTOMS HAVE SUPERVISOR CALL MEDL</u> <u>@ (530)400-0880 IF IN CAMP, OTHERWISE CALL VIA RADIO FOR FUTHER</u> INSTRUCTIONS.

#### Preventative Measures:

#### Social Distancing and Protective Equipment

- Initiate, practice, and remind others of social distancing.
- Conduct briefings and conversations outdoors and at least 6 feet apart.
  - Utilize face coverings as a tool when practical.
  - Clean or replace dirty face coverings, equipment, and PPE.

#### Hygiene on the Fireline

- Properly wash or sanitize your hands often, especially before and after eating or entering a
  public place, and after coughing or sneezing.
  - Avoid handshakes and communal use items.
  - Maintain a supply of hand sanitizer and hand wipes.
    - Disinfectant high touch surfaces often:
      - · Radios, phones, doors, pumps, fuel cans, etc.

#### Communications

 Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

Protect yourself, your module, your camp!

# Red Fire-Incident Training Program

A TNSP is available on this incident to assist with your training assignment needs and documentation.

To receive documented credit for your assignment, click on the link below to access and complete the Trainee Registration Form or scan the QR code on the front of your IAP and click on the Training Specialist tab. Once registered you will receive additional instructions via text.

Registering your training assignment as early as possible on the incident is to your benefit!

The Training Specialist Desk is located in the Yosemite Valley Lodge. Permanent location TBA.

For training related questions, call: Bill Fullerton (TNSP)T at 209-768-8786 or email billfullerton@sbcglobal.net

Red Fire-Trainee Registration

# Finance Remote Processing Procedures

Use the QR code to the right to access electronic Finance forms. When the form opens, click the <u>download button</u> to open on your device.

On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop.

They are Adobe PDF forms so you will need a PDF reader app on your device. The Forms were created in android/PC environment.

To work with apple use the Sync function. You cannot complete in the browser on your device.

Once you have completed the appropriate form for your resource please email to your supervisor for approval. Supervisors can use their app to apply a signature or just type /s/ their name on the approval line.

After approving please email the approved form back to the resource for their record and to finance at <a href="mailto:2022.red.finance@firenet.gov">2022.red.finance@firenet.gov</a>

Resources: Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to 2022.red.finance@firenet.gov
