

**Annual GACC map products**  
**Fire GIS Lab**  
**6/6/2017**

Annually, after all of the data is updated, these maps are generated with standardized QR codes and loaded to the NIFC FTP site.

Update this master file with the year, any changes for QR codes, create a PDF, and publish the PDF in the z\_Aviation folders for both North and South Ops.

X:\GIS\_Lib\Boundary\1\_QRcodes\_Boundaries\1\_DownloadMaps\_QRcode\_details\_All\_FAM\_Maps.rtf

NOTE: there are files for each folder (Facilities\_Land, Fire\_Fuels, ... where a similar file is located, but only for the name resource.

**Key:**

DPA = Direct Protection Areas – USFS currently creates and maintains this data – see the DPA Data Management Plan

GACC = Geographic Area Coordination Center – 2 in California ONCC (North Ops) and OSCC (South Ops)

Ops = Operations

Own = Ownership data – CAL FIRE currently creates and maintains this data.

SRA = State Responsibility Areas – CAL FIRE currently creates and maintains this data.

**Questions** – contact Lorri Peltz-Lewis
