

# East End FIRE

**MO-MTF-255**

**P9GZ1N**

**INCIDENT ACTION PLAN**

**JUNE 30, 2012**

<h1>INCIDENT OBJECTIVES</h1>	1. INCIDENT NAME East End	2. DATE PREPARED 06/29/2012	3. TIME PREPARED 1100
4. OPERATIONAL PERIOD (DATE/TIME) 06/30/2012      0700-2000			
5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES)			
<p>1) Provide for firefighter and public safety utilizing the "10 Standard Orders" and "18 Watchout Situations" and incorporating Lookouts, Communications, Escape Routes, and Safety Zones.</p> <p>2) Keep the East End Fire south of Highway 32, east of Iron County Road 73, west of Iron County 72 and north of the private land boundary on the south side of the fire.</p> <p>3) Keep Highway 32 open to public travel while adhering to the first priority of firefighter and public safety safety.</p> <p>4) Provide timely, accurate information to Quad County Fire Department, Iron County Sheriff and local residences near the fire area.</p>			
6. WEATHER FORECAST FOR OPERATIONAL PERIOD SEE ATTACHED			
7. GENERAL SAFETY MESSAGE <p>Firefighter safety comes first on every fire, every time.</p> <p>The 10 Standard Firefighting Orders are firm.</p> <p>Every firefighter has the right to know that his or her assignment is safe- questions are always welcomed and expected.</p> <p>It is HOT and Dry. This fire will move in a manner that is uncharacteristic for the fuels and season.</p>

# HEALTH AND SAFETY MESSAGE

***SAFETY*** starts with ***YOU***

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: East End	DATE: 06/29/2012	TIME: 0900
<b>Major Hazards and Risks:</b>  Extreme Temperatures (100 Plus)  High Speed Traffic on Highway 32  Snags  Extreme Unprecedented Fire Behavior  Environmental (snakes, poison ivy, heat)  Thick Vegetation adjacent to fireline  Fatigue  WUI, Powerlines		
<p style="text-align: center;"><u>Fire Order of the Day – Determine safety zones and escape routes – make them known</u></p>		
<p><u>Narrative:</u></p> <p>Today is a transition day. This fire has shown extreme fire behavior including long range spotting and 100 foot plus flame lengths. Maintain your situational awareness of the environment and your physical health.</p>		

## Watch Out Situation of the Day

17. TERRAIN AND FUELS MAKE ESCAPE TO SAFETY ZONES DIFFICULT

## Escape Route/Safety Zone Checklist

### Escape Routes:

- \*More than one escape route
- \*Scouted – soils, vegetation, slope
- \*Timed – slowest person, fatigue, dozer speed
- \*Marked – flagged for day and night use

### Safety Zones:

- \*Survivable without a shelter
- \*Natural – clean burn, water, bare soil/rock
- \*Manmade – constructed sites, roads
- \*Scouted for size and hazards
- \*Close enough considering escape time needed

### Remember and Follow:

- \*The 10 Standard Fire Orders
- \*The 18 Situations That Shout Watch Out
- \*The Common Denominators of Fire Behavior on Tragedy Fires
- \*The Downhill Line Construction Guidelines

## **MEDICAL EMERGENCY PROCEDURES**

In the event of a medical emergency, the Incident Commander will be notified immediately to ensure timely medical treatment of the injured person(s). The goal of medical emergency procedures is to get the patient to qualified medical treatment within 1 hour of the occurrence of the injury/medical condition. The Incident Commander will initially identify and prioritize transport options. The Burn Boss will designate an on-scene Point of Contact (POC) to coordinate with Rolla Dispatch and use any of the resources assigned to the burn to facilitate the emergency evacuation. The Point of Contact will take charge of the scene, follow the Incident Communication Protocol, coordinate the request for transportation, and ensure patient assessment information is transmitted directly to Rolla Dispatch. The prescribed burn may be delayed or shut down as necessary to facilitate this effort.

### **Provide information to the communications unit using this Incident Communications Protocol**

1. Declare the nature of the emergency.
  - a. Medical injury/illness? If injury/illness is it Life Threatening?
2. If Life Threatening, then request that the designated frequency be cleared for emergency traffic.
3. Identify the on-scene Point of Contact (POC) by Resource and Last name (i.e. POC is TFLD Smith).
4. Identify nature of incident, number injured, patient assessment(s) and location (geographic and GPS)
5. Identify on-scene medical personnel by position and name(i.e. EMT Jones).
6. Identify preferred method of patient transport.
7. Request any additional resources and/or equipment needed.
8. Document all information received and transmitted on the radio or phone.
9. Identify any changes in the on-scene Point of Contact or medical personnel as they occur.

**Incorporate incident personnel to assist with leading emergency personnel and equipment into the scene.**
