<h1 style="text-align: center;">INCIDENT OBJECTIVES</h1>	1. INCIDENT NAME Potato Cave Fire	2. DATE PREPARED 07/31/12	3. TIME PREPARED 2100									
	4. OPERATIONAL PERIOD (DATE/TIME) 08/01/12 0700-2200											
5. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES) 1. Provide for firefighter and public safety utilizing the "10 Standard Fire Orders" and "18 Watchout Situations" and incorporating Lookouts, Communications, Escape Routes, Safety Zones. 2. Keep the fire south of private land along County Road 734, East of County Road 365, West of the North Fork River, and North of County Road 368. 3. Limit impacts to private land where possible, buy using tactics that reduce threat to structures, pastures, and timber values. 4. Keep fire out of Devils Backbone Wilderness. 5. Minimize impacts to the North Fork River corridor, Special Use permit holders, and private businesses. 6. Maintain communications and strengthen relationships with the Dora Volunteer Fire Department and the Ozark County Sheriff's Department.												
6. WEATHER FORECAST FOR OPERATIONAL PERIOD SEE ATTACHED												
7. GENERAL SAFETY MESSAGE Firefighter safety comes first on every fire, every time. The 10 Standard Firefighting Orders are firm. Every firefighter has the right to know that his or her assignment is safe- questions are always welcomed and expected.

MEDICAL EMERGENCY PROCEDURES

In the event of a medical emergency, the Incident Commander will be notified immediately to ensure timely medical treatment of the injured person(s). The goal of medical emergency procedures is to get the patient to qualified medical treatment within 1 hour of the occurrence of the injury/medical condition. The Incident Commander will initially identify and prioritize transport options. The IC will designate an on-scene Point of Contact (POC) to coordinate with Rolla Dispatch and use any of the resources assigned to the burn to facilitate the emergency evacuation. The Point of Contact will take charge of the scene, follow the Incident Communication Protocol, coordinate the request for transportation, and ensure patient assessment information is transmitted directly to Rolla Dispatch. The prescribed burn may be delayed or shut down as necessary to facilitate this effort.

Provide information to the communications unit using this Incident Communications Protocol

1. Declare the nature of the emergency.
 - a. Medical injury/illness? If injury/illness is it Life Threatening?
2. If Life Threatening, then request that the designated frequency be cleared for emergency traffic.
3. Identify the on-scene Point of Contact (POC) by Resource and Last name (i.e. POC is TFLD Smith).
4. Identify nature of incident, number injured, patient assessment(s) and location (geographic and GPS)
5. Identify on-scene medical personnel by position and name(i.e. EMT Jones).
6. Identify preferred method of patient transport.
7. Request any additional resources and/or equipment needed.
8. Document all information received and transmitted on the radio or phone.
9. Identify any changes in the on-scene Point of Contact or medical personnel as they occur.

Incorporate incident personnel to assist with leading emergency personnel and equipment into the scene.
