

Prescribed Burning LMR Determinations

Last Approved Year:
2023

WHF-HC-01-C

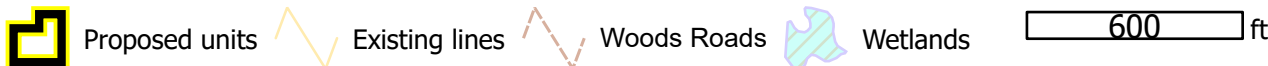

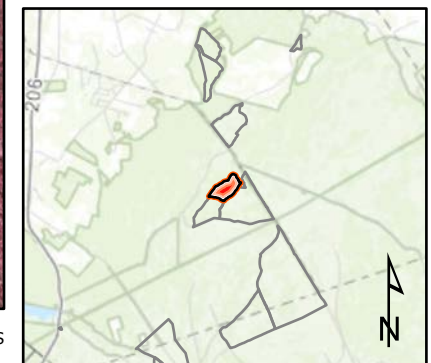

**Conditionally
Approved**

ONLM COMMENTS:
 2018: 01-C - use revised polygon; mixed intensity fire recommended; Do not replot existing lines due to rare wetland communities (PL, PL7), paleodunes, critical habitats; install new line to exclude 01-X.

ENSP COMMENTS:
 Restrict burns to Nov. 15 – March 15 to avoid adverse impacts to E&T species. Pls contact Kris Schantz prior to burn w/ anticipated burn dates to facilitate ENSP post-burn survey work. Abandon PL's?
