

Prescribed Burning LMR Determinations

Last Approved Year:
2023

BSF-RRT-01

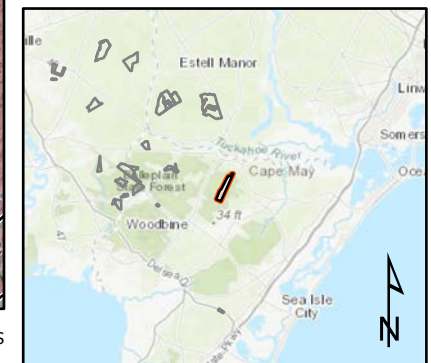

**Conditionally
Approved**

ONLM COMMENTS:
2018: Limit RxB ignition & plowlines to uplands, and minimize RxB encroachment into fire sensitive wetlands; Recommend low intensity RxB to maintain oaks in OP/ PO and limit RxB encroachment on wetlands.;

ENSP COMMENTS:
NOVEMBER 15th TO FEBRUARY 15th ONLY, NO EXTENSION POSSIBLE

HPO COMMENTS:
low potential for historic period arch resources and high pot. for precontact period Native American resources within 300ft of Back Run. avoid this segment or use great consideration of pot. arch res

SFS COMMENTS:
no comment
