

NJFFS Custom Henry Rifles

- I have previously done Henry Rifles for the NYPD Aviation Unit and the Emergency Services Unit. They were outstanding with zero flaws and zero complaints.
- Anthony Imperato is grandfathering us into purchasing the rifles at wholesale price due to my previous projects with Henry. Customization is \$200 for the Stock to be laser engraved and hand painted. \$200 for the .22 receiver and \$250 for the .357 receiver to be engraved on both sides.
- Each Rifle will have a custom NJFFS serial number (NJFFS0001). Per the ATF, serial numbers must be in sequential order so please do not make personalized requests. Serial numbers available depend on the number of rifles sold (.357/.38 will be the lower numbers, .22 lr are the higher numbers.) TA number can be chosen on a first paid - first chosen order. Numbers will be chosen after sales are closed and you will be contacted by Dan after March 14th with available numbers upon your turn.
- Cost includes Rifle, Receiver Engraving, Engraved and Hand Painted Stock, Artwork setup fees, Custom Serial Number Fee, Shipping Cost, NJ Taxes, and the FFL NICS Transaction Fee.
- Delivery should occur about 3-4 months after the order is placed and will be shipped to Silver Bullet Supply as the FFL owned by 2 NJFFS personnel. Arrangements will be made for us to transport the ordered rifles South so no one needs to drive all the way to Northern NJ.
- **Sales will end on Friday March 14th** so please have your orders in by then. Again, first paid = first picks on serial numbers.

*******This is a ONE TIME SALE and there will not be another manufacture date in the future. If you are thinking about purchasing one, this is the only time to do so.**

*******Sales are ONLY to Active and Retired members of the New Jersey Forest Fire Service.**

Two rifle Calibers are being offered:

.357 Mag / .38 Spl \$1,435.00

Stock rifle price range \$920 - \$1,000

The **H006GM Big Boy** in .357 Magnum/.38 Special has a 20" octagon barrel, buckhorn/bead sights, drilled and tapped scope option, straight stock wrist, with a brass receiver, barrel band and butt plate, ten-round magazine capacity, tube magazine loading and side gate, transfer bar safety, and 8.68 pound-weight.

Two rifle Calibers are being offered:

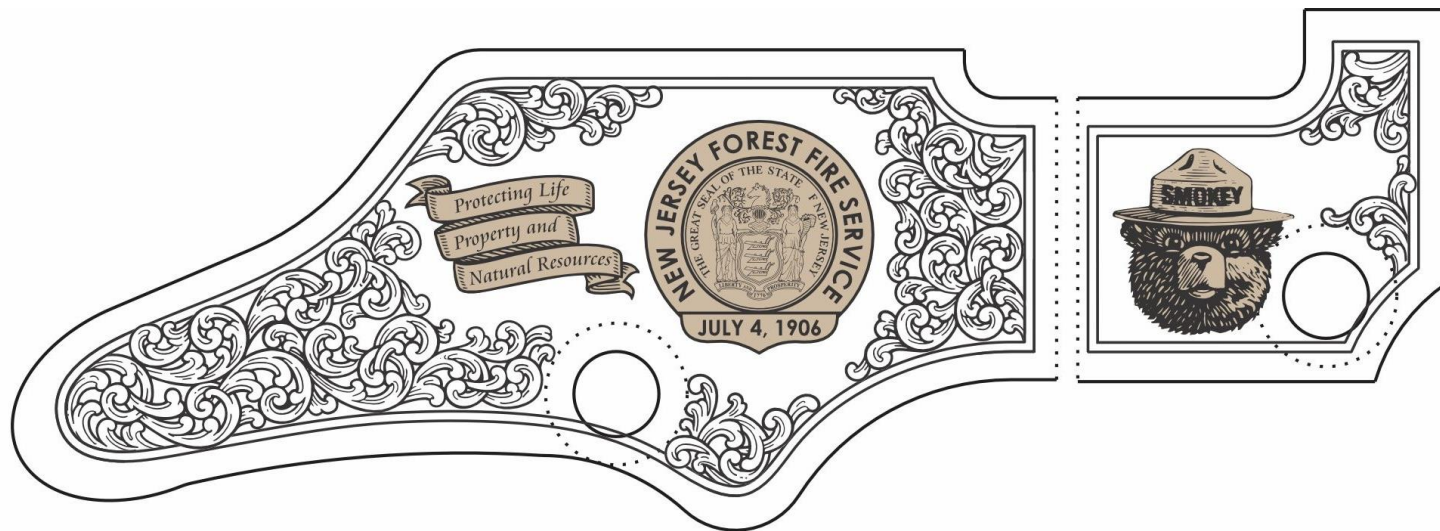

.22 S/L/LR \$1085.00

Stock rifle price range \$575 - \$625

The **H004S Golden Boy Silver** in .22 Lr has a finely grained American-walnut stock with a nickel receiver, barrel band and butt plate. The hefty 20" blued octagonal barrel and lever provide perfect balance for accurate off-hand shooting. Adjustable buckhorn-style rear sight and brass beaded front sight. Easy-to-load tubular magazine.

This is the artwork as it will appear. It is laser engraved and hand painted on the stock.

This is the design as it will appear engraved on the receiver. This is just a layout and will be more detailed. The .357/.38 now has a side gate and artwork will be shifted. Smokey and the NJFFS emblem will be on the Right Side. The other NJFFS patch and St Florian will be on the Left Side.

The .22 is a Silver Finish

The .357/.38 will be in a Brass Finish.

This is the design as it will appear engraved on the receiver.
The .357/.38 is now produced with a side gate and artwork is being reworked to accommodate the change on the right side.
