

# Avenza PDF Maps

By Avenza Systems Inc.

## Description

PDF Maps is a powerful, award-winning offline map viewer with a connected iTunes-like map store to find, purchase and download new professionally created maps for a wide variety of uses.

Downloaded maps are stored on your device and are always available even when not connected to the Internet. Maps don't need network coverage to be viewed and which helps you avoid data roaming charges when traveling. Carry them around like books or music!

Going to the Grand Canyon? Grab the free official park map; use it without a network connection and without roaming charges. Navigate the map with only GPS (cellular data isn't required), estimate hiking times, add custom points of interest and record your tracks (with photos!) and share them with others.

Thousands of free specialty maps for offline use available through the in-app Avenza Map Store! Browse and purchase maps for:

- Camping and hiking including National Park Service maps and other regions of the world
- Nautical and Marine navigation including NOAA and FAA charts for North America and other regions of the world
- Topographic use including USGS and Canadian Topographic maps and other regions of the world
- Maps for tourists, transit, travel, special events, historic and much more!

Even more great features:

- Plot placemarks and record tracks with GPS
- Measure distances and areas
- Share, pictures and placemarks with family and friends
- Overlay search engine results on any map for offline use
- Handy map searching tools to find the map you need
- Estimate travel time
- Load your own maps through iTunes and Dropbox.
