<b>Comments /notes on tonight's mission and this interpretation:</b> <ul style="list-style-type: none"> <li>• Started with 08/26/2016 IR heat perimeter.</li> <li>• There are a few intense heat spots that are outside the previous perimeter that have cause a few acres of perimeter growth. One of the areas is an isolated heat source outside the perimeter on the southwest side of the fire in the northeast quarter of section 34. The other growth is in the northeast quarter of section 35.</li> </ul>
