38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

Threats to life and property:

Significant WUI. Residences and outbuildings within the Trapper Creek drainage, approximately 1-2 miles due east of the fire. There are numerous organizational camps, campgrounds, a ski area, and recreational residences 3-4 miles northwest of the current fire perimeter in Rock Creek. Additional structures and complex ownership exists 6 miles east in the Goose Creek drainage. Other federal, state, and county jurisdictions, cooperators and mutual aid areas in or near the fire area.

Threats to public and private infrastructure:

12 hours: **Electric transmission lines, communication repeaters, structures, and bridges are within the fire planning area.**

Threats to cultural and natural resources:

Areas of cultural significance, critical sage grouse habitat, grazing allotments, Cassia Crossbill habitat, big game winter range, and multiple roadless areas.
