Date and Time Products Delivered to Incident:		Digital files sent to: ftp.nifc.gov /incident_specific_data/great_basin/2020_Incidents/2020_Buck/IR	
Comments /notes on tonight's mission and this interpretation: I began mapping from the previous heat perimeter (8/29/2020 @ 2009). The Heat Perimeter grew by 532 acres (64%). The expansion occurred in every flank with the most active expansion to the south where it grew up to a mile. The majority of the interior of the fire had scattered heat.
