## INCIDENT ACTION PLAN EAST FORK FIRE CENTER CREEK TRAIL FIRE

UT-ASF-100340 / UT-ASF-100353 P4NGU2 (0401) / P4NJ2X (0401)

### **OPERATIONAL PERIOD**

10/14/2020 0700

to

10/15/2020 0700

Fire Information: (435) 635-8738

### **INCIDENT OBJECTIVES (ICS 202)**

			<del></del>		
1. Incident Name:	2. Operational Period:	Date From:	10/14/2020	Date To:	10/15/2020
East Fork Fire Center Creek Trail Fire		Time From:	0700	Time To:	0700
3. Objective(s):	· <del>1</del>				
Management Objectives			······································		
- Provide for firefighter and public safety through of success.	utilization of risk-informe	d strategies and tac	tics that yield t	he highest	probability
- Follow all COVID-19 guidelines specified by the I Implement measures to reduce exposure and tr				tandards ir	operations.
- Use available resources and tactics to contain fir	re spread and minimize un	wanted fire effects	to natural and	cultural re	sources
  - Ensure prompt and accurate communications w	ith hosting agency, stakeh	olders and the publ	ic.		
·				•	
Control Objectives					,
- Protect identified values at risk from unwanted	fira impacta				
Provide for structure protection as fire moves in	•		,		
Keep fire within containment lines where they e	•	douglaping conting	analas linas		
		developing conting	encies lines.		
- Identify and initiate suppression repair operation		· · · · · · · · · · · · · · · · · · ·	1 .	_	
<ul> <li>Thoughtfully engage in suppression actions that organization.</li> </ul>	allow for an efficient and	effective transition	to the next ma	nagement	
General Situational Awareness:					
Steep and rugged terrain, critically dry and recep	otive fuel beds, active area	for fire history and	drought stress	sed trees.	
- In the COVID-19 environment, high density popu	ulations or large groups are	e particularly at risk	-		, your family
and to ensure all employees return home safely,		_			
Enhanced hygiene (especially handwashing), PPI	E & monitoring practices h	elp limit the infection	on rate of first	responders	· ·
					,

### Incident Fire Weather Forecast

FORECAST NO: 10

FORECAST FOR: Wednesday, October 14

FORECAST ISSUED: October 13, 2020, 1800 MDT

NAME OF FIRE: East Fork and Center Creek Trail

**UNIT:** USFS – Ashley National Forest

**SIGNED:** Mark Struthwolf – IMET

WEATHER DISCUSSION: The upper level ridge will remain along the West Coast keeping Utah under a NW flow aloft today. An embedded disturbance within this flow will streak SE across Wyoming today resulting in strong winds, colder temperatures, and higher RH. The RH decreases again Thursday, but fortunately winds will be lighter. **AVIATION...** Winds will be >=50kts at 12K ft through today, impacting and possibly suspending AirOps.

**WEATHER FORECAST FOR TODAY:** 

WEATHER: Partly cloudy (30-50% cloud cover) this morning then mostly sunny, windy and colder.

MAX TEMPERATURES (10kft): 38-43°F

MIN HUMIDITY (10kft): 40-50%

**HAINES:** 2 Very Low

WIND CHILL: 22-28°F (8kft): 30-40%

20 FT WINDS:

RIDGETOP -

Grandaddy Basin/Lake Fork Mountain -NW 12-18 mph with gusts to 35 mph until 1000,

then NW at 18-24 mph with gusts to 40-45 mph through the afternoon.

SLOPE/VALLEY - West Fork Rock Creek and Hells Canyon - NW winds at 10-15 mph with gusts to 20

mph until 1000 MDT, becoming NW at 15-20 mph with gusts to 35 mph.

**Inversion:** No inversion due to wind.

LAL: 1

**OUTLOOK FOR TONIGHT:** 

**WEATHER:** Mostly clear.

MIN TEMP (10kft): 25-30.

MAX HUMIDITY (10kft): 30-40%. HAINES: 2 Very low

20 FT WINDS:

RIDGETOP -

NW wind 15-20 mph with gusts 35-40 mph in the evening decreasing to 8-12 mph with

gusts 25 mph after midnight.

SLOPE/VALLEY - West Fork Rock Creek and Hells Canyon - NW 15-20 mph with gusts 30 mph in the

evening decreasing to 5-10 mph with gusts 18 mph towards morning.

**INVERSION:** Isothermal.

**OUTLOOK FOR THURSDAY:** 

WEATHER: Mostly sunny (20% cloud cover).

MAX TEMPERATURES (10kft): 35-40°F

**MIN HUMIDITY (10kft): 22-28%** 

**HAINES:** 3 Very low

20 FT WINDS:

RIDGETOP -

NW wind 6-10 mph with gusts 20 mph in the morning increasing to 8-12 with gusts to

25 mph during the midday hours then decreasing some after 1500.

SLOPE/VALLEY - West Fork Rock Creek and upper Hells Canyon - Down drainage winds at 4-7 mph with

gusts to 12 mph, shifting to up drainage after 1000 at 7-11 mph with gusts to 18 mph.

**INVERSION:** Isothermal

LAL: 1

**EXTENDED FORECAST:** The ridge will remain near or just off the West Coast through early next week resulting in a NW flow across the eastern Great Basin. A couple of embedded disturbances within this flow (Saturday, Sunday night-Monday) will either clip or directly hit the Uintas. How strong the NW winds will be or how cold each system will be is questionable. However, confidence is high that winds will be predominantly NW, temperatures mostly near or below normal, and RHs elevated compared to recent weeks. Temperatures should be in the mid-upper 40s Friday and Saturday and likely low 40s Sunday. Min RHs between 25-40%. NW winds around 10 mph with gusts to 20 mph Friday, but likely increasing to 15-20 mph Saturday and Sunday with gusts 30-35 mph.

\*\*\*Temps at ICP will be in the low 30's tonight\*\*\*

Please bring in, or send pictures of weather observations to 240-778-5282. Thanks

Fire Behavior Forecast #10									
Name of Incident: East Fork UT-ASF-100340	Administrative Unit: Ashley National Forest								
Date Issued: Tuesday, Oct. 13, 2020	Operational Period: Wed. Oct. 14, 2020 Day Shift								
Time Issued: 1900	SIGNED: ISI Linda Ferguson FBAN (T)								

Inputs

Weather Summary:

\*\*\*See attached Fire Weather Forecast\*\*\*

Discussion: Strong winds, colder temperatures and higher RH

Weather: Partly cloudy (30-50% cloud cover) this morning then mostly sunny, windy and colder.

Max Temp: 38-43°F Min RH: 30-50% LAL: 1 Haines: 2

Winds (20 Foot):

**Ridgetop** - Granddaddy Basin/Lake Fork Mountain –NW 12-18 mph with gusts to 35 mph until 1000, then NW at 18-24 mph with gusts to 40-45 mph through the afternoon.

**Slope/Valley -** West Fork Rock Creek and Hells Canyon - NW winds at 10-15 mph with gusts to 20 mph until 1000 MDT, becoming NW at 15-20 mph with gusts to 35 mph.

**Today's General Fire Behavior:** Increased fire behavior today in all fuel types. With forecasted winds the fire will have the ability to pick up and move quickly especially in unsheltered areas. Expect isolated torching, roll out with uphill runs and spot fires within conifer stands.

Maximum spotting distance: 0.6-mile Probability of Ignition: 64% ERC =76 (90% =82)

**Fuels:** Fuels remain dry due to lack of spring rains and non-existent monsoons for the last 3 years. All fuel size classes have been near critical levels for months. Live fuels are entering dormancy which means they are reaching their driest state. The fire is mainly burning in mixed conifer stands with heavy dead/down and a shrub understory. Many of these stands have an extremely high mortality rate with a 50% or more standing snag component.

**Topography:** Steep rugged canyons and bluffs that top out into high elevation meadows and lake systems. Large rocky fuel breaks occur within the higher elevation bluffs. Isolated areas of continuous fuel occur within the escarpment where fire will have the ability to move.

### Specific Fire Behavior:

**Mixed conifer stands with heavy dead and down:** Expect isolated torching and possible spot fires or roll out with uphill runs. Maximum ROS 13-20 ch/hr and flame length 9-11 feet.

Aspen stands: Minimal fire behavior, creeping and smoldering.

Maximum ROS 2-4 ch/hr and flame length 1-2 feet

**Sagebrush and grass:** Expect fire to move rapidly if it becomes established within this fuel type. Maximum ROS 38-62 ch/hr and flame length 7-9 feet.

- Walking pace on flat ground is 3 mph which is 240 ch/hr. Know your pace compared to fires rate of spread on the ground you are working in.
- Flame lengths 4-8 feet are too intense for direct attack on the head with hand tools.
- Flame lengths 8-11 feet present serious control problems, torching, crowning and spotting.

### Air Ops/Smoke Dispersion

Winds may impact air operations

### Safety

Local thresholds/watch outs for increased fire behavior are 20' winds over 20 mph, RH less than 20%, Temperature over 80, and 1000-hour fuels less than 6%. Today two of these thresholds are met. Winds over 20 mph and 1000-hour fuels are at 6%.

### 6. Work Assignments:

Provide point protection to values at risk at Moon Lake and along Moon Lake Rd.

Patrol and mop-up between DP 23 and DP 2.

Monitor interior islands and mitigate threat to containment lines.

Back haul trash and remove excess flagging.

### 7. Special Instructions:

SOF2 Chuck Frank will be available in Divisions B / C / H as a line safety.

Ambulance 849 will be staged at DP 55 (Mountain Home).

### 6. Work Assignments:

Construct indirect line from DP 68 to DP 83.

Mop up around DP 68.

Back haul all trash and remove excess flagging.

### 7. Special Instructions:

SOF2 Joe Nishikida will be available in Divisions M/W as a line safety.

Ambulance 849 will be staged at DP 55 (Mountain Home).

### INCIDENT RISK ANALYSIS (ICS 215A) East Fork Fire 10/14/20 Day Shift

DIV	HAZARDOUS ACTIONS / CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES
All	Hazard Trees/ High Tree Mortality	<ul> <li>Large amount of tree mortality (&gt;50%).</li> <li>Follow "Hazard Tree Safety" guidelines, IRPG pgs. 22-23.</li> <li>Post lookouts, road guards, spotters in areas where mop up is happening.</li> <li>Establish trigger points for disengagement during high wind events.</li> <li>Limit exposure to work area as much as possible.</li> <li>Elevated wind speeds 45 mph ridgetops</li> </ul>
All	Non-Fire Personnel in area	<ul> <li>Cattle ranchers, hunters, loggers, homeowners, dam inspectors, utility workers in fire area.</li> <li>Ensure accountability for non-fire accountability.</li> <li>Educate and advise public of fire area closure.         Use chain of command to request Law Enforcement if needed.     </li> </ul>
All	Driving	<ul> <li>Long drive to work areas.</li> <li>Practice Defensive Driving Techniques.</li> <li>Be aware of livestock and wildlife on or near roads</li> <li>Observe posted speed limits.</li> </ul>
All	Rough and Narrow Roads	<ul> <li>Narrow, steep, unforgiving native surfaced roads within the fire area.</li> <li>Roads not maintained regularly, look for holes, dips and road sluff offs.</li> <li>Scout for access and egress.</li> <li>Have a plan for if you have traffic coming towards you.</li> </ul>
C	Chipping Operations	<ul> <li>Ensure JHA is reviewed and signed by all personnel involved in chipping operations.</li> <li>Only qualified personnel will feed the chipper.</li> <li>Do not walk in front of chipper discharge.</li> </ul>
B,C,W	Point Protection	<ul> <li>Review WUI Firefighting in IRPG pgs. 12-16.</li> <li>Do not commit to stay in areas without adequate safety zones.</li> <li>Ensure you have adequate access and egress.</li> <li>Look for propane tanks, generators and other hazardous materials.</li> </ul>
All	Fatigue	<ul> <li>Be alert for signs of fatigue and take breaks as necessary.</li> <li>Maintain 2:1 work/rest ratio.</li> <li>Monitor new resources for level of fatigue.</li> </ul>
All	Steep Terrain/ Rolling Material	<ul> <li>Maintain 8'-10' spacing when working &amp; walking.</li> <li>Don't work above any personnel.</li> <li>Evaluate necessity to send personnel in areas with limited access.</li> </ul>
All	Air Operations	<ul> <li>Follow "Aviation Watch-Out Situations" on page 46, IRPG.</li> <li>Don't plan on air resources for medical transport or resupply.</li> <li>Refer to page 58, IRPG for directing bucket drops.</li> <li>Ensure positive communication with all air resources.</li> </ul>
в,с,н	Firing Operations	<ul> <li>Conduct thorough briefing for all personnel (inside rear cover IRPG).</li> <li>Qualified personnel for all assignments. Trainees to have qualified trainer</li> <li>Establish LCES prior to implementing burning operations.</li> </ul>
All	COVID	<ul> <li>Maintain 6' foot distance whenever possible.</li> <li>Utilize masks, frequent handwashing/sanitizing, disinfect common surfaces.</li> <li>Follow County Public Health guidelines. Monitor for symptoms.</li> </ul>
H,M Cont. Branch	Fireline Construction	<ul> <li>Ensure thorough briefings to all assigned personnel.</li> <li>Establish and maintain L.C.E.S. Adhere to 10 Standard Orders, mitigate 18 watch out situations.</li> <li>Utilize Risk Management Process in all activities.</li> </ul>
All	Altitude Sickness	<ul> <li>Can happen as low as 8000 ft in elevation. Will be worse if you come from lower elevations (i.e. sea level vs 5000 ft) normal work area.</li> <li>Symptoms: shortness of breath, dizziness, lack of physical output.</li> <li>Treatment: high flow oxygen, move to lower elevation, provide adequate hydration.</li> </ul>
South Cont.	Heavy Equipment Operations	<ul> <li>Ensure communications are established with operators.</li> <li>Use hand signals if other communications are unavailable.</li> <li>Maintain a 50'-100' exclusion area around equipment.</li> </ul>
ICS 215a	East Fork	DATE PREPARED:  Operational period  10/14-15/2020  October 13, 2020  Or00-0700  Prepared by  Frank Pingiczer  TIME PREPARED: 1600 HOURS

### Lookouts Communications Escape Routes Safety Zones

### **EAST FORK FIRE**

Operation Period: 10/14/20 to 10/15/20 0700-0700

### **SAFETY MESSAGE**

### **Planning for Medical Emergencies**

- Prior to each operational period be able to answer these 3 questions;
  - 1. What are you going to do if someone gets hurt?
    - -Where is your closest medical personnel and ambulance?
  - 2. How will we get them out of here?
    - Can you get the injured to a road or helispot, what will it take to do that?
  - 3. How long will it take to get them to a hospital?
    - Where is the closest hospital, air or ground transport, what conditions can change or affect the transportation timeline?

### **MAJOR HAZARDS AND RISKS**

STEEP TERRAIN	ROLLING MATERIAL	HEAVY EQUIPMENT
FATIGUE	CHIPPING OPERATIONS	HAZARD TREES
WILDLIFE/LIVESTOCK	BUCKET DROPS	COMPLACENCY

### Be sure all elements of your safety plan are in place prior to engagement

### Watch for Over Confidence During Mop Up

- \*Driving: As you become more familiar with the road systems, we tend to increase speeds. Please be aware of this and keep speeds down, watch for people and vehicles along the roads, and drive defensively.
- \*PPE: Please recognize that in low stress situations like mop up, it is easy to over-look the importance of wearing the appropriate PPE include eye protection.
- \*Work Area: Familiarity with your work area can result in a lowering of awareness, especially as conditions change.

### **Working with Helicopter Drops**

Do you have good communications?

Does the pilot have a clear understanding Of the target?

Are trees and snags in the drop zone?

Are ground crews clear of the area?

What is the turnaround time for the helicopter?

Are people on the ground aware of the effects of the helicopter's rotorwash?

Give feedback to the pilot about drop accuracy. Be honest and constructive.

CHMT 10 Safety Officers: Frank Pingiczer, Chuck Frank, Robert Hilfer(t)

### Fire and COVID-19 Briefing Checklist

### Self-Awareness / Screening

- ☐ Immediately separate yourself from others.
- □ Notify supervisor if you or others experience:
  - o Cough, more than expected
  - o Shortness of breath or difficulty breathing
  - o New loss of taste or smell
  - o Fever
- o Chills
- o Sore throat o Muscle pain
- □ Review and follow crew and division plans to isolate, triage, and transport symptomatic personnel.

### SUPERVISOR CALL COMMUNICATIONS TRAILER @ 925-532-5449 IF IN CAMP, OTHERWISE CALL VIA RADIO FOR FUTHER INSTRUCTIONS

### Hygiene on the Fireline

- □ Properly wash or sanitize your hands often, especially before and after eating or entering a public place, and after coughing or sneezing.
- □ Avoid handshakes and communal use items.
- ☐ Maintain a supply of hand sanitizer and hand wipes. Inform supervisor of needed resupply.
- □ Disinfect high touch surfaces often:
  - o Radios, phones, doors, pumps, fuel cans, etc.

### Social Distancing and Protective Equipment

- □ Initiate, practice, and remind others of social distancing.
- □ Conduct briefings and conversations outdoors and at least 6 feet apart.
- □ Utilize face coverings as a tool when practical.
- □ Clean or replace dirty face coverings, equipment, and PPE.

### **Communications**

□ Face coverings and social distancing complicate communications. Ensure effective sender/receiver messaging.

### Protect yourself, your crew, and your camp!

Find more information: <a href="https://www.nwcg.gov/coronavirus">https://www.nwcg.gov/coronavirus</a>

### WILDLAND FIRE COVID-19 SCREENING TOOL

Have you in the past 14 days, had contact with a person known to be infected with the Coronavirus (COVID-19)?

Today or in the past 24 hours, have you had any of the following symptoms?

- + Cough more than expected?
- + Shortness of breath or difficulty breathing?

+ Fever? Chills?

+ Sore throat?

+ Nausea or vomiting?

- + Diarrhea?
- + New loss of taste or smell?
- + Fatigue, outside your normal for firefighting?
- + Headache, outside your normal for firefighting?
- + Congestion or runny nose, outside your normal for firefighting?
- + Muscle pain, outside your normal for firefighting?

### **East Fork Fire**

### **Incident Training Program**

A TNSP is assigned to this incident and will be performing majority of duties "virtually".

To receive documented credit for your assignment,

scan the QR Code below to access and complete the Trainee Registration Form. Once registered you will receive additional instructions and updates via text and email. For training related questions, call Brad Smith (TNSP) at 209-770-4809 or email bradley smith@firenet.gov

### **MEDICAL PLAN (ICS 206 WF)**

### Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.						
Use	the following	items to comm	unicate situati	on to communications	dispatch.	
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)						
Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."  2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.						
Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the						
Trout Meadow Me	dical, IC is TFLD Jones. I	EMT Smith is providing medic	cal care."		- J I- IMPREDIATE	
Severity of Emergency / Transport		□RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.				
		□YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.  Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.				
Priority		□GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport				
		Ex: Sprains, strains, m	ninor heat-related illness.			
Nature of Injury or Illness					ary of Injury or Illness
