Duchesne, UT 84021

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: DAY	
EAST FORK & CENTER CREEK TRAIL FIRES		Date/Time From: 09/12/2020 0700 SAT	Date/Time To: 09/12/2020 2100 SAT
3. Objective(s):			
Course of Action: Full Suppression			
Incident Objectives:			
<ul style="list-style-type: none"> • Provide for firefighter and public safety through utilization of risk-informed strategies and tactics that yield the highest probability of success. • Use available resources to contain fire spread utilizing direct, indirect, and barriers to contain the fires. • Minimize fire impacts to inholdings and infrastructure, natural and cultural resources, critical wildlife habitat, and riparian zones. • Follow all COVID-19 guidelines specified by the Leaders Intent/ Delegation of Authority and utilize NWCG standards, in conjunction with CDC guidance to prevent, plan, recognize, and respond to infectious disease issues during wildland fire operations. Implement measures to reduce transmission/exposure among fire personnel and the public. • Ensure prompt and accurate communication that fosters discussion and encourages interaction with hosting agencies and partners. • Focus public information actions to enhance relationships with landowners, cooperators and the public. 			
Desired End State:			
The fire was managed and values at risk protected using the appropriate resources to implement tactics in locations with reasonable probabilities of success. Operations were conducted using risk-based decision making processes to reduce the likelihood of accidents and injuries. Suppression damage is identified and repaired. Cooperator and public relationships are enhanced during incident management.			
4. Operational Period Command Emphasis:			
General Situational Awareness:

Incident Fire Weather Forecast

FORECAST NO: 05
FORECAST FOR: Saturday, Sep 12 Day Shift
FORECAST ISSUED: September 11, 2020, 2000 MDT

NAME OF FIRE: East Fork & Center Creek Trail Fires
UNIT: USFS – Ashley National Forest
SIGNED: Lisa Kriederman - IMET

WEATHER DISCUSSION: An upper ridge will be becoming established over the Great Basin to bring warmer and drier conditions over the fires, while weakening winds. Winds will be diurnally driven in the main drainages, with the ridges will be becoming west on the northwestern side of East Fork fire and becoming SSE over the rest of East Fork and Center Creek Trail fire. Smoke from the West Coast fires will begin filtering in over the fire tomorrow, thickening on Sunday.

WEATHER FORECAST FOR TODAY:

WEATHER: Mostly sunny but hazy.

MAX TEMPERATURES (9kft): 64 – 67°F **MIN HUMIDITY (9kft):** 17 – 19% **HAINES:** 5

20 FT WINDS:

DIV X and B - NW wind 7-9 mph with gusts to 12 mph through 1200, then W wind 9-11 mph with gusts up to 18 mph through the afternoon (except Rock Creek which will turn SSE 9-12 mph with gusts to 18 mph.

DIV G, M, R and Z - N wind 5-9 mph until 1000, then SSE 5-7 mph with gusts to 12 mph.

OUTLOOK FOR TONIGHT:

WEATHER: Clear but hazy skies.

MIN TEMPERATURES (9kft): 40 – 43°F **MAX HUMIDITY (9kft):** 47 – 50% **HAINES:** 3

20 FT WINDS:

RIDGETOP - NW wind 7-10 mph.

SLOPE/VALLEY - N wind 7-9 mph with gusts to 15 mph.

OUTLOOK FOR SUNDAY:

WEATHER: Sunny, with thicker smoke moving in from the northwest.

MAX TEMPERATURES (9kft): 67 – 70°F **MIN HUMIDITY (9kft):** 15 – 17% **HAINES:** 5

20 FT WINDS:

RIDGETOP - NW wind 7-9 mph with gusts to 12 mph through 1200, then SW wind 7-11 mph with gusts up to 16 mph through the afternoon.

SLOPE/VALLEY - Downvalley/N wind 5-9 mph through 1000, then S 5-7 with gusts to 10 mph.

EXTENDED FORECAST: The upper ridge established over the Great Basin will continue to bring warmer and drier conditions through Wednesday. Highs will be back in the low-70s and humidity dropping to 10-15%. Winds across the ridges will generally be out of the SW with slightly stronger speeds, in the 15 to 22 mph range, while the valleys will remain diurnally driven with speeds of 10 to 15 mph.

Sunrise today: 7:01am
Sunset today: 7:34pm

Feel free to send pictures of weather observations to (208)577-1624

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 5	TYPE OF FIRE: Wildfire
FIRE NAME: East Fork/Center Creek Fire	OPERATIONAL PERIOD: Day Shift 09/12/2020
DATE ISSUED: 11 Sept, 2020	TIME ISSUED: 2000
UNIT: UT-ASF-100340-East Fork Fire UT-ASF-100353-Center Creek Trail Fire	SIGNED: <i>Dan Bartel</i> Dan Bartel – FBAN

INPUTS

MAX TEMP: 64-67°F MIN RH: 17-19% 20 FOOT WINDS: NW 09-11 gusts to 18
CHANCE OF WETTING RAIN ($\geq 0.10''$): 0% HAINES: 5

FUELS: Fuel types within the fire area are grass and brush with pockets of pinyon and juniper at lower elevations and mixed conifer at higher elevations starting around 9000 feet.

Ignition Receptiveness: 1000 fuels will see little influence from precipitation. 10- and 100-hour-fuel will begin to become receptive.

OUTPUTS

FIRE BEHAVIOR

GENERAL: Valley winds will be generally down canyon down slope, changing to upcanyon upslope around 1230. As heating occurs large woody debris will burn more active and fine-fuels will begin to become more receptive over the next couple of days.

SPECIFIC

DIV B: 1000hr fuels will continue to hold heat and burn. Little to no movement expected along the perimeter.

DIV G: 1000hr fuels will continue to hold heat and burn. Little to no movement expected along the perimeter. Fire will remain hung up along the canyon above Rock Creek, and Fire behavior will be minimal lower along Rock Creek, and debris will remain to roll out.

DIV M: 10- and 100-hour fuels will become more receptive to fire, 1000-hour fuels will continue to burn and spread in jackpots.

DIV R: 10- and 100-hour fuels will become more receptive to fire, 1000-hour fuels will continue to burn and spread in jackpots.

DIV X: 10- and 100-hour fuels will become more receptive to fire, 1000hr fuels will continue to hold heat and burn. Little to no movement expected along the perimeter.

Center Creek Fire: 10- and 100-hour fuels will remain unreceptive to fire, 1000-hour fuels will continue to burn and spread in jackpots.

AIR OPERATIONS:

SAFETY

Watch out for Snags and Rollout.

Finance Remote Procedures East Fork and Center Creek Trail Fires

Finance Email: 2020.EastFork.Finance@firenet.gov

<p>Finance will accept both hard copy and electronic time records. If you would like to drop them off with us please do so at the Fairgrounds or give to your Division.</p>			<p>https://drive.google.com/file/d/1a5T3TLK VW8O17Sndv0cR5KV ebK62vTLt/view?usp=sharing</p>
<p>To submit electronically you can access Fire Finance forms via the QR code or the URL on the right. On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop. They are Adobe PDF forms so you will need a PDF reader app on your device. The forms were created on a laptop so the commands in your cell phone and tablet do not allow for the Save and Print functions to work. You will need to use your app's functionality to Save or Print.</p>			<p>https://drive.google.com/file/d/1ScLEKv Mlfq loKbWxKZP4O g5JdtoDRWy/view?usp=sharing</p>
<p>Once you have completed the appropriate form for your resource please email to your supervisor for approval. Supervisors can use their app to apply a signature or just type /s/ your name on the approval line. After approving please email the approved form back to the resource for their record and to finance at 2020.EastFork.Finance@Firenet.gov</p>			<p>https://drive.google.com/file/d/10vIFSzW 8PkxkkIEBXGE71Q8Q sF8QzbBq/view?usp=sharing</p>
<p>Resources: Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to 2020.EastFork.Finance@Firenet.gov</p>			<p>https://drive.google.com/file/d/13d2z2M p QyAHNJPUd2VfTC GJebRT5xVG/view?usp=sharing</p>
<p>For assistance please call Finance at 208-423-8113.</p>

Demobilization Procedure & Tentative Release

Check-out Procedure for Resources Demobilizing

- **Initiate this process at your scheduled time, as listed in the IAP.**
- A checkout form **will not** be issued to the demobilizing resource.
- When demobilizing, resources are only to send one representative to complete the process. (Exception for inspection – a separate driver can do this.)
- Return all equipment to **Supply and Communications**.
 - If nothing has been checked out, the Unit will notify Demob for you and reporting to the unit is not required.
 - Once returned, the Supply and Communications Units will notify Demob via radio of your completion.
- If you are a contractor or have a claim, you will need to go through **Ground Support**. Otherwise, you will not need to visit them.
- **The following is required for all resources demobilizing** (in this order): Finance and Demob.
- Upon closing out with **Finance**, the resource will report to the Demob unit.
- The Demob Unit Leader will collect travel information and complete the process.

TENTATIVE RELEASE DATES

Monday 9/14	Tuesday 9/15
TFLD Casbon O-54	GISS Panunto O-72
TFLD (T) Haen O-55	

Feedback Form

East Fork & Center Creek Trail Fires

READ Message

- Continue to add suppression repair needs into Collector or report to Resource Advisors (dozerlines, handlines, cut fences, road damage, etc.)
- Reminder: Wilderness intrusions need prior approval from Agency Administrators (aircraft landing, chainsaw work, repeaters, etc.)
- Cheatgrass and several other weed species are present in the area. Please wash vehicles after assignment. Car washes are available locally.
- Please do not remove or disturb artifacts and/or cultural sites. GPS and report.
- Keep Resource Advisors or Operations informed of any cows seen on the forest.
- ATV/UTVs are acceptable on trails and roads on BIA administered lands.
- Utilize designated water draft sites indicated with a W inside a circle on the map. Trash pumps are available at the sites.
- South Fork, Rock Creek and Hells Canyon Creek contain pure populations of native cutthroat. Please avoid introducing water from other sources into these creeks. Bucket work taking place in these drainages should avoid dropping directly into creek (at least 150' away).

Thanks for all your good work. Call with any questions:

Garry Brown 435-790-7030

Jason Neel 435-322-0927

Doug Bryce 435-401-1943

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: East Fork and Center Creek Trail

DATE: September 12, 2020

TIME: 0700

Major Hazards and Risks:

- **DRIVING:** Drive defensively, be aware of cattle and wildlife on roadways and in the fire area. Obey all posted speed limits. Share the roadway. Be aware of other drivers, and personnel. Be alert and watch for public and other non-operational personnel in fire areas.
- **Heat Related Illness (HRI):** Take care to monitor the health and welfare of yourself and crew, drink plenty of water/fluids, take frequent breaks, get 8 hours of sleep, and get enough food to support your task of the day.
- **HAZARD TREES:** Look up, Look down, Look around for signs of fire weakened trees.

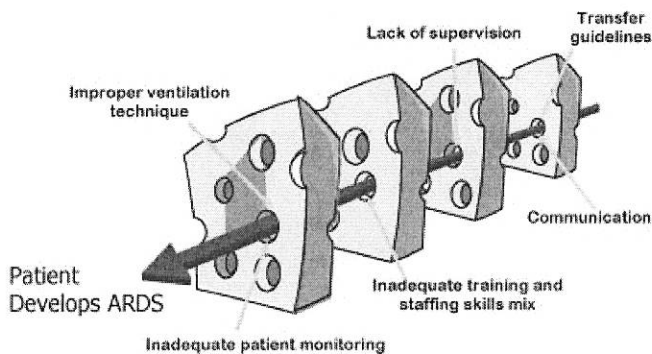

FIRE ORDER OF THE DAY:

Give clear instructions and be sure they are understood.

- Brief others as needed.
- Be clear and specific.
- Don't assume they know what you mean.

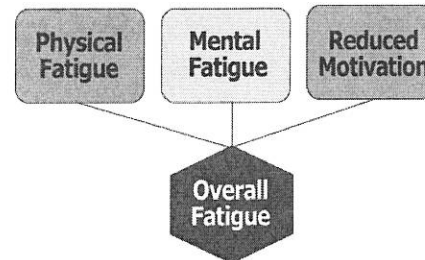

Accident Avoidance

- **Speak up if you see something that looks wrong!!!**
- **Get a good briefing prior to beginning task**
- **Ask if you don't understand!!!!**

HELP BREAK THE "ERROR CHAIN"!!!

Fatigue Management

- Fatigue management goes beyond counting hours on timesheets, it is individualized and overt.
- Cumulative fatigue is dangerous. It prevents sound decision-making, confounds situational awareness, and dulls reaction times. It is as problematic in the office as it is on the fireline.
- Cumulative fatigue is manifest in the explanations used when folks are asked to take a break, or take a day off..."I don't have time." "There is too much going on." "As soon as things calm down a bit."

PLEASE TAKE THE TIME TO WATCH OUT FOR EACH OTHER!

Your Safety Team:

Jeff Bedke, Mark Wiseman, John Brawley, Rob Hickok

COVID-19: As we become more comfortable with each other, make sure you do not let your guard down. Follow all COVID-19 protocols.

Incident within an Incident Plan

The **Incident Commander** is responsible for overall action in case of a serious accident.

ON SCENE

Upon occurrence of a “**Medical Emergency**” involving significant injury (Yellow or Red) or fatality within the incident, the highest qualified person on scene shall take control of the situation until the nearest **DIVS** or **OPS** arrives and assume control. Immediate and clear communication must be established between **DIVS** and **OPS** to determine who can arrive at the scene quickest and assumes control of the IWI. In the event of an IWI in camp or on incident roads, on-site personnel will take control until a **DIVS**, **OPS**, **Local LEO** and/or **Medical personnel** have assumed control as the **On-Scene IC**. In the event of an IWI at helibase the **HEBM** will assume control as the **On-Scene IC**.

Incident Communications or the **On-Scene IC** will take immediate action to clear all radio traffic on the incident “Command Channel” by broadcasting “*Emergency Traffic Only*”. This will assist in quick and proper coordination for managing the IWI.

At no time during the IWI will the name of the subject(s) be used over the radio.

Upon arrival at the IWI the **DIVS** or **OPS** will take immediate actions to:

- Validate the correct actions have been initiated.
- Make clear announcement that you are now the **On-Scene IC**.
- Mobilize additional resources as necessary.
- Coordinate appropriate medical care and transportation for injured personnel.
- Restrict unnecessary personnel from the accident scene.
- Secure the scene and identify witnesses for investigation or review.

Upon occurrence of a non-serious injury or illness (green) the **DIVS** will notify **Communications** of the nature, location, patient care, and transportation plan. No need to complete full MIR unless for training only if fire tempo allows.

The nearest **SOF** will immediately respond to the IWI and assist the **On-Scene IC** as well as initiate the proper documentation for an investigation or review.

ICP

Specific processes for C&G notification, day and night, will be determined upon arrival at each incident.

Upon occurrence of a “**Medical Emergency**” involving significant injury (Yellow or Red) or fatality **Communications** will make group text and radio notification to all **C&G**, **MEDL**, **SITL** and **COMP**.

The **IC**, **MEDL**, **SOF**, **Planning OPS**, and **AOBD** will respond to communications to assist in managing the IWI. Incident **Communication staff** will physically operate the radio and are responsible for documentation during the IWI. In the absence of the **IC**, the **PSC** or **other Acting** will assume the commanders roles.

Support for the IWI will be provided by **PSC**, **LSC**, **FSC** and/or **COMP**, **INFO**, **LOFR** and **SITL** who will respond to communications in order to gather first hand SA and provide special support as needed.

INFO is responsible for managing external communication. All information released from the incident shall be through **INFO** with the approval of the **IC**.

The **IC** will make contact with the **AA** who will in turn contact appropriate officials of the agency(s). If the accident involves a fatality, the **AA** will be responsible for implementing agency specific protocols.

For non-serious (Green) incidents, the **SOF** or **MEDL** will notify appropriate overhead as necessary.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
