| MAP | Condition                                                                                              | Action                                                                                                                                                  |
|-----|--------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Consider evacuations of the Blind Stream area.                                                                                                          |
| 2   | If fire approaches MAP 2.                                                                              | Contact Dano Jauregui at 435-315-5687 on the UWC.                                                                                                       |
| 3   | If fire comes within 1 mile of MAP 3.                                                                  | Consider evacuations and extending area closures east of the Lake Fork Trail.                                                                           |
| 4   | If fire crossed the Wilderness boundary.                                                               | Consider evacuations of the remaining campgrounds in Rock Creek: Yellow Pine, Miner Gulch and Rock Creek Group Site.                                    |
| 5   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Implement East Fork Fire Protection Plan Zone 1: Upper Stillwater/Rock Creek.                                                                           |
| 6   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Implement East Fork Fire Protection Plan Zone 1: Upper Stillwater/Rock Creek.                                                                           |
| 7   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Order Type 1 Helicopter (high performance to operate at 10,000 ft + elevations) if not currently available.                                             |
| 8   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Order Type 1 helicopter (high performance to operate at 10,000 ft + elevations) if not currently available.                                             |
| 9   | Fire establishes itself beyond the MAP or is expected to cross the MAP within the next burning period. | Order Type 1 helicopter and 1 Type 3 helicopter with PSD, (both with high performance to operate at 10,000 ft + elevations) if not currently available. |
