

IAP East Canyon (06/10/2021)

UTNWS-000236 PN N2F9 (1522)

OBJECTIVES

- Provide for firefighter and public safety
- Reinforce established control lines and continue direct line construction. Go indirect where feasible.
- Keep fire West of Highway 66, South and East of I-84, and North of Highway 65.
- Keep costs commensurate with values at risk.
- Maintain positive working relationships with key stakeholders and the public.
- Gather data for planning purposes and fire records.

SAFETY HAZARDS

- Stay hydrated
- Fire and regular traffic - use care on blind corners, and slow down
- Weather, be prepared for hot, dry and windy conditions – possible cold night on Thursday.
- High risk terrain and fuels, wear approved footwear and gloves in case of tripping, and hard hats for overhead hazards
- UTV operators need to be trained and carded, do not drive recklessly
- Mitigate any possible Covid 19 Exposure

MEDICAL PLAN-Notify IC immediately. Refer to IRPG Medical Incident Report Page 118.
