| <b>Comments /notes on tonight's mission and this interpretation:</b><br>Still very active fire.<br><br>Started interpretation with NIFS Wildfire Event Poly pulled 08/20/2022 @ 2335 MDT<br><br>The heat perimeter continues to grow. Previous IR acres 7,603 mapped 7,822 acres in the extending to the east and southwest.<br>Imagery on the north of the incident was cloudy and couldn't see much, mapped some isolated heat in the Northeast corner.<br><br>Still a lot of intense heat along entire perimeter. Lots of scattered heat throughout the interior. |  |   |   |
