PIO Information Please email Public Information any photos of the fire, equipment in use, crews working. Include date and general location to: 2022.moose@firenet.gov

Letter from Great Basin Team 5 Incident Commander:

To: All Moose Fire Personnel:

As Great Basin Team 5 Incident Commander, I am committed to a policy of "zero tolerance" of inappropriate behavior during incident operations. Any form of harassment, discriminatory practices, or disrespectful behavior will not be tolerated.

Guidelines on inappropriate behavior both "on Duty" and "off Duty" while assigned are addressed within each agencies policies. Our Team expects all incident personnel to follow established government policies for behavior along with all Illegal drug and alcohol directives.

Our Incident Management Team endorses and supports an attitude of mutual respect for all personnel and the public we serve.

We expect a strong work ethic and an attitude of Safety at all times! Sincerely,

Trent Angram

/s/ Trent Ingram Incident Commander Great Basin Team 5 Type 2 Incident Management Team

## **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Operational Period:	DAY/NIGHT			
MOOSE	Date/Time From:		Date/Time To:		
	09/02/2022 0700	FRI	09/03/2022 0700	SAT	

3. Objective(s):

#### Management Objectives:

 Utilize a risk based approach to address firefighter, aviation, and public safety through clear leaders' intent with established work priorities and implementation of fundamental firefighting priorities using risk informed decisions, with avenues for feedback from personnel.

2. Ensure infectious disease, including COVID-19, precautions and best practices are met by following agency, team, and county guidance.

3. Reduce the negative impacts of fire on communities, major infrastructure, municipal watershed, private land, and other values at risk.

4. Foster and maintain relationships with the public, cooperators, and stakeholders.

5. Ensure coordinated, timely, and accurate release of information to the public and land managers utilizing the full array of platforms.

6. Complete suppression repair to the standards set forth by the Agencies having jurisdiction.

7. Maintain fiscal accountability by making good risk-informed decisions.

#### **Operational Objectives:**

1.	Protect the values of concern by utilizing direct attack, in	ndirect attack,	and point protection	of structures wh	ere feasible and
likel	to be successful.				

- 2. Maintain access for firefighting resources and public egress within the vicinity of the fires.
- 3. Coordinate with Resource Advisors to minimize natural and cultural resource damage.
- 4. Complete suppression repair to the standards set forth by the Agencies having jurisdiction.
- 5. Provide initial attack within the TFR.

#### 4. Operational Period Command Emphasis:

Support efforts by local agencies to protect identified values at risk with strategies and tactics that emphasize safety, minimal exposure and success of confinement and suppression repair activities.

General Situational Awareness:

1. Watch for heavy traffic.

2. Prevent transmission of infectious disease, including COVID-19, by practicing good personal hygiene, wearing face coverings, and social distancing as appropriate. Follow the "module as one" concept as much as possible.

3. This area is under exceptional drought with ERCs above the 90th percentile and live fuel moistures near record lows in uncontained area.

Fire Weather Forecast

FORECAST NO: 45 **PREDICTION FOR:** 24 Hr Shift **SHIFT DATE:** Friday 9/2/2022 **TIME AND DATE ISSUED:** 9/1/2022 2000 hrs **INCIDENT:** Moose Fire **UNIT:** Salmon - Challis NF **SIGNED:** Trent Smith Incident Meteorologist (IMET)

## Discussion: \*\*\*FIRE WEATHER WATCH FOR SATURDAY AFTERNOON & EVENING\*\*\*

The ridge of high pressure rebounds over the region today causing terrain driven winds. Smoke over the area will keep temperatures similar to yesterday along with low humidity readings. Another weak disturbance will be moving through the region on Saturday causing increased winds. Temperatures will be extremely warm with very low afternoon humidity. The combination of winds and low humidity will create critical fire weather conditions.

## WEATHER FORECAST FOR TODAY:

SKY/WEATHER: Mostly Sunny. Max Temperature: High 88 to 98 lower elevations and 74 to 84 upper slopes/ridges. Min RH: 6 to 16 percent. 20 Ft WINDS: Lower Valleys: Terrain driven 3 to 8 mph. Midslopes and Ridges: Terrain driven to 10 mph. HAINES INDEX: 5 Moderate. **INVERSION:** 5000ft inversion lifting to 8000ft.

**TONIGHT:** 

**SKY/WEATHER:** Clear. Min Temperature: 52 to 62. Max RH: 18 to 28 percent, except 35 to 45 percent lower elevations. 20 ft Wind Valleys/Lower Slopes: Down drainage 8 to 14 mph, stronger through Panther Creek. Mid-Slopes and Ridges: Terrain driven 5 to 10 mph. INVERSION: Developing after 2000 hrs near 5000 ft.

## SATURDAY: \*\*\*FIRE WEATHER WATCH\*\*\*

**SKY/WEATHER:** Mostly sunny. Max Temperature: High 92 to 102 lower elevations and 78 to 88 upper slopes/ridges. Min RH: 5 to 15 percent. 20 ft WINDS:

Lower Valleys: Terrain driven winds 3 to 8 mph becoming West 8 to 13 mph in the afternoon. Mid-slopes and Ridges: South 4 to 8 mph becoming West 15 to 20 mph gusts up to 30 mph in the late afternoon.

TRANSPORT WINDS: SW 25 mph.

Site M	onday	Max T	Min T	Max RH	Min RH
Ridge Road RAWS 7800 Ft		76	53	43	7
Panther Creek RAWS 4100	Ft	93	65	31	5
Leesburg RAWS 6700 Ft		82	45	67	8
Salmon Airport 4045 Ft		92	53	71	9

Weather observations can be texted to 406-360-6330 or emailed to trent.smith@noaa.gov

**TRANSPORT WINDS:** Variable 5 mph.

## FIRE BEHAVIOR FORECAST

FORECAST NUMBER 45	TYPE OF INCIDENT: Wildland Fire
INCIDENT NAME: Moose	<b>OPERATIONAL PERIOD</b> 9/2/22 Day/Night
DATE ISSUED: 1 September 2022	TIME ISSUED: 2000
UNIT: Salmon-Challis NF	SIGNED Ken Loda, FBAN

## INPUTS

**WEATHER SUMMARY** See the preceding Fire Weather Forecast for specifics.

**Day, upper elevations:** 74° – 84° F, min. RH 6% – 16%, winds terrain driven to 10 mph

Day, lower elevations: 88°-98°F, min. RH 6% - 16%, winds terrain driven 3 to 8 mph

The inversion is forecast to lift to 8000'.

**Night:**  $52^{\circ} - 62^{\circ}$  F, max. RH 45% low-, 28% high-elevation. Winds down drainage 8 – 14 mph, stronger in Panther Creek. Wind mid-slope and ridges terrain driven 5 – 10 mph.

**FUELS CONDITIONS** Fuel moisture: One-hour fuel moistures: about 11% at 0700, going to 3% during peak burning, north aspects about 7%. The 10-hour fuels are at 4%, the 100-hours are 5%, and the 1000-hour fuels are about 7%. The live fuel herbaceous moisture is 30% or less low-elevation (below 5600', treated as dead), 50% to 120% as elevation increases; shrubs 110%. **ERCs at local reporting stations are above the 90<sup>th</sup> percentile.** 

## OUTPUTS

**GENERAL FIRE BEHAVIOR** Fire persistence here is mostly dependent on the fuel moisture of the heavier dead fuels – the 100- and 1000-hours, which are little influenced by changes in relative humidity. At all elevations they are likely to have burned through the night. A strong inversion developed overnight, but that is not likely to have suppressed fire activity very much. In addition to continued consumption of heavier fuels, expect daytime general behavior as described below. General atmospheric instability (Haines index) is a good local predictor of potential for large fire growth, and **today's Haines index is 5 – moderate**.

	ROS	Flame Length	Prob. of Ignition
Grass & shrub below 6000'	14 ch/hr, 1 ch/hr backing	1' backing, 4' front	90%
Grass & shrub above 6000'	12 ch/hr, 1 ch/hr backing	1' backing, 3' front	90%
Grass & shrub as understory	1 ch/hr	1'	55%

Spotting: In today's winds torching and spotting is unlikely, but rollout is possible in Div's O, T, and X.

## SPECIFIC FIRE BEHAVIOR

Mid- to high-elevation: With winds being primarily terrain-driven, spread in the drainages will be up drainage and upslope with winds up to 10 mph. In most instances the terrain winds will generally be pushing the fire into the black, restraining its spread.

Lower elevations (Divisions A and X): Fire in Panther and Beaver Creeks will continue to fill in the unburned areas. All fuel types will be available to burn, but more-so in the afternoon.

Spotting is unlikely in today's conditions, and would be short-range if it occurs.

Night Shift: Generally poor recovery expected at all elevations.

## SAFETY

## **SAFETY** Today's forecast conditions meet three of the four local watch-out thresholds.

**AIR OPERATIONS** The inversion is expected to lift but may not break thoroughly. Poor smoke dispersal could hinder air operations at all elevations.

Task: Continue to patrol in the Napoleon Hills area to DP 50. Hold and mop-up direct line along Moose Creek Road. Continue to mop-up fire edge in Daly Creek. Consider backhaul of hose lays and pumps no longer needed.         Purpose: To prevent fire from getting established on the east side of Hwy 93 and east of the Moose Creek Road, Rd 300.         Account for suppression property on the line and remove unnecessary hose lays. Identify areas where suppression repair can begin.         End State: Impacts from fire to values at risk, including private property and the Salmon municipal watershed, are significantly reduced.         7. Special Instructions:         **** Dalton Hotshots (C-118) are assisting the Granite Fire assisting with IA.         • White flagging will be used to indicate avoidance areas.         • READs, REAFs, and ARCHs must check in with appropriate DIVS as they enter and exit Division. # HEALTH AND SAFETY MESSAGE

SAFETY is YOU& ME

We are  $\underline{ALL}$  accountable for  $\underline{SAFE}$  behaviors

**INCIDENT:** Moose Fire

**DATE:** September 2, 2022

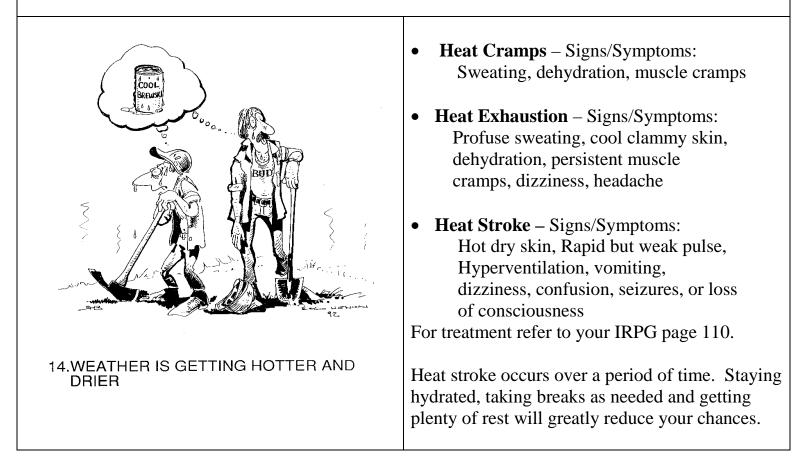

Major Hazards and Risks: Heat Related Injuries, Fatigue, Complacency, Public Interaction

<u>Heat Related Injuries</u> – Be sure and continue to drink throughout the entire operational period with an intake of one quart of water prior to and after heavy work activity to maintain proper hydration. A 3or 4 water to 1 Gatorade ratio is recommended to regulate electrolytes. One sure sign of being properly hydrated is clear urine.

*Fatigue and Over Exertion* – Set a reasonable work pace and allow adequate rest breaks while on the task at hand. Start drinking water early in the workday and continue water intake throughout the day.

<u>Complacency-</u> This fire has not given up neither should you. Keep your head in the game. There is still a lot of work to be done.

<u>**Public interaction-**</u> Hunting season has begun, and with that comes a lot more opportunities to interact with the public. Always be professional and courteous in all we do.

## MEDICAL PLAN (ICS 206 WF) Controlled Unclassified Information//Basic

For COVID questions or concerns contact MEDL Temple Fletcher 775-742-3245 and a second and the **Prevention and Management of COVID-19 During Wildland Fire Operations** Keep yourself and your peers safe by practicing these measures whenever possible

#### Practice Social/Physical Distancing

Do not gather in groups or shake hands.

- Hold necessary meetings outside and maintain a social distance of 6 feet.
- Use radios, remote units, and virtual technology for communications as much as possible.
- Establish smaller spike camps to insulate crews/modules from each other and outside personnel and resources (Module as One).
- Keep newly onboarded crewmembers separate for 2 weeks.
- Create separate spaces in offices and housing and stagger work hours.
- · Wear cloth face coverings and practice hand hygiene when riding in vehicles or coming into contact with outside resources, personnel, or the general public.

2 weeks

#### **Clean and Disinfect**

- Clean and disinfect shared areas and high touch surfaces in workplaces, vehicles, and housing at regular intervals.
- Use appropriate PPE and follow product label instructions when cleaning and disinfecting.
- · Do not share dishes, drinking glasses, cups, eating utensils, towels, or bedding without appropriately sanitizing them.
- · Minimize equipment sharing, disinfect equipment, and wash/sanitize hands before and after use.

00000

#### Maintain a Healthy Workforce

- Monitor your own health and maintain awareness of symptoms.
- Prioritize rest, proper hydration, and nutrition to reduce cumulative fatigue.
- Practice rigorous sanitation and personal hygiene, including covering coughs and sneezes and washing/ sanitizing hands.
- Conduct symptom screening, including temperature checks, at duty stations or on incidents.
- Mitigate smoke exposure whenever possible.
- Assign at-risk individuals to duties that reduce their potential for contracting the illness.

# 98.6 °F

#### Prevent the Spread of COVID-19

- · Separate sick individuals; provide a separate bedroom, bathroom, and essential supplies. 00000
  - · Sick individuals must wear a face mask or cloth covering over their nose and mouth and maintain a 6-foot distance.
  - Seek immediate medical attention if someone develops emergency warning signs for COVID-19.
  - Only discontinue isolation after meeting CDC criteria.

### **Understand Different Face Coverings**

- Cloth face coverings over the mouth and nose are not PPE and should be washed with soap and water after each use.
- Disposable face and surgical masks covering the mouth and nose are not PPE and should be discarded after one use.
- N95 filtering facepiece respirators are PPE and have a close facial fit and efficient filtration of airborne particles.

#### **Other Resources**

- Centers for Disease Control and Prevention: https://www.cdc.gov/coronavirus/2019-ncov/.
- National Wildfire Coordinating Group: https://www.nwcg.gov/committees/ emergency-medical-committee/ infectious-disease-quidance.

# Human Resource Message

# Communication

Effective communication provides the best level of protection against accidents in high-risk environments.

# Elizabeth Romero, Human Resource Specialist (505) 449-8670

# **~TRAINING MESSAGE~**

Training Specialist Check-in -

*If you have a position task book (PTB), please scan the QR code below to initiate the check-in process with the Incident Training Specialist.* Please complete the form in its entirety. Upon completion, at your earliest convenience, email a copy of your qualification card and position task book cover (see below for email address).

For your convenience, an electronic ICS-225 or ICS-226, Evaluation Record, and other appropriate assignment documentation will be sent to you after you complete the check-in process.

## Incident Assignment Requirements -

- 1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB,
- 2. Obtain an Incident Performance Rating,
- 3. Obtain an Evaluation Record,
- **4.** If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page),
- 5. Email all documentation (including item #4), when appropriate,
- 6. Complete Exit Interview (form will be provided via email).
- ~ Training Specialists can be reached @ <u>risttnsp@gmail.com</u> Voice mail:760-297-6712 ~

MOOSE FIRE - TRAINEE CHECK-IN

## FINANCE PROCESS – MOOSE FIRE

ID-SCF-022105 (0413)

## ~ Finance Hotline: (425) 324-1236 ~

- Please email all Finance Documents to the email account
- All Moose resources send Shift Tickets / CTRs <u>DAILY</u> to <u>2022.moose.finance@firenet.gov</u>
- Use the following format: FOR SUBMITTING TIME
   Email Subject Line: Time/Resource Order No./Resource Name/Position Code (Example: TIME/O200/Sbear/Safety)
- Please **include your email address and phone number** in the body of the email when sending your documents, so that we can easily contact you if there are questions.
- Email all documents that pertain to your assignment See the following:

Agency Overhead	Agency ADs / EFFs	VIPR Resources	Contract / Agency Crews	Cooperators
Resource Order	Resource Order	Resource Order	Resource Order	Resource Order
Crew Time	Casual Hire Form	VIPR Agreement	Manifest	Agreement
Reports (CTRs)	CTRs	Schedule of Items	Agreement / Contract	Shift Tickets / CTRs
		Inspections	Schedule of Items	
		Shift Tickets	Inspections/CTRs	

FOR RESOURCES DEMOBING:

- CALL the Finance Hotline <u>the evening before or day of</u> Demob.
- Provide your email address in the remarks of your travel shift ticket or CTR and email it to <u>2022.Moose.Finance@firenet.gov.</u> This will prompt us to finalize your 288 or 286.
- Finance Demob will be VIRTUAL ONLY

## **COMP/CLAIMS PROCESS – MOOSE FIRE**

## ~ COMP Assistance: (425) 324-1236 ~

- <u>Injuries:</u> COMP will follow the employee's home agency forms and process to the greatest extent possible. It's imperative the injured employee or incident supervisor contact COMP as soon as possible or upon arrival at the hospital/clinic whichever is convenient to facilitate getting the paperwork.
- Replacement or Accidents: Different circumstances require different forms be completed. <u>Please contact COMP</u> <u>first to find out which forms are appropriate for your situation</u>, and what additional information might be needed. This will expedite the process.
- For incident replacement requests, your Property Loss or Damage Report (OF-289) must include contact name and phone number of person on the incident, a valid email address, home agency name and home unit address.
- Unserviceable items must be turned into COMP/SUPPLY.

Motor Vehicle Accident	Property Loss or Damage
	of items that cannot be replaced in Supply
SF-91, Motor Vehicle Accident SF-94 Witness Statement (if app)	OF-289 (2 pages)

Thank you for helping us to ensure a great finance experience during your assignment.

## **Resource Advisor's Message – September 2, 2022**

Respect Wildlife.

Here on the Salmon-Challis National Forest we are lucky to share the landscape with a variety of wildlife. Bears, wolves, cougars, bighorn sheep, elk and mule deer call this place home.

While these species are often the most noticed on the landscape, it is important to recognize that they share the forest with many smaller birds and animals that are just as important to the area. Many of these species don't have the same ability to cover long distances as their larger neighbors and as a result can be more impacted by fire.

There are several ways we can lesson the impacts to wildlife from our activities.

- **Drive slowly**. This time of year the roadways can be littered with the carcasses of grouse, snakes trying to warm themselves and young deer not yet educated in traffic laws. Let's try and give these young ones a chance to grow.
- Keep a clean camp. Proper food storage not only can reduce the likelihood of visits from bears but can also make camp less attractive to brazen squirrels and chipmunks. If the squirrels and chipmunks do make themselves a nuisance, do your best to remove or secure any attractants in camp.
- **Give them their space**. Avoid crowding or disturbing all species whenever possible. They are out there trying to prepare for a long Idaho winter and can use all the help they can get.

# **Moose Fire Initial Attack Responsibility and Procedures**

## The following applies to all IA responses:

- Responding resources will inform Central Idaho Dispatch (IDCIC) of the number, type and kind of resources responding.
- Once on scene Initial Attack resources will provide the initial sizeup directly to ID-CIC.
- After reporting to ID-CIC an additional size-up will be reported through Moose Fire Communications.
- All ordering, updates and coordination will follow Great Basin Team 5 Operations Protocols.
- If requested, the Planning Operations Chief will update the jurisdictional Duty Officer.
- Initial Attack activities will be documented using the appropriate Incident Organizer and be transferred to ID-CIC at the conclusion of the IA.
- Initial coordinates for the new start will be provided to the Situation Unit through Moose Fire Communications.

## Fires within the IA Responsibility Area (Under the TFR):

- After reporting the initial size-up, all fire status updates will be communicated through Moose Fire Communications.
- Line Ops will be contacted in the event of all new smoke reports, who will send appropriate identified resources.
- All requests for additional resources will go through Line Ops.
- Great Basin Team 5 will manage the fire until it is suppressed completely, turned over to the local unit or the agency administrator makes a different decision regarding its management.
- In the event the initial smoke report goes through ID-CIC, they will notify Moose Fire communications and all above procedures will be implemented.

## Fires outside the IA Responsibility Area:

- ID-CIC may dispatch local resources to the fire unless the jurisdictional Duty Officer requests Moose incident resources to provide initial attack support.
- The jurisdictional duty officer will make any requests for support through Planning Ops.
- Planning Ops will coordinate with Line Ops to determine whether the Moose Incident can accommodate request for IA support.
- If Moose Fire resources are utilized, and arrive on-scene first, they will provide a size up to ID-CIC.
- If local jurisdictional resources also respond, ID-CIC will coordinate frequency use that utilizes the Moose IA Communications Plan.
- Moose Fire resources will communicate through ID-CIC until released from the incident.
- Aviation resources may go direct to the dispatch center for their notification and size up but must also coordinate with the Moose Fire Air Attack or Heli-base as appropriate.

# **Check-In Instructions**

To check-in, scan the QR code and complete the Resource Check-In Form. Select the Assigned Fire per your Resource Order (i.e. Moose).

- 1. Scan QR Code
- 2. Call Check-In at 208-891-7581
- 3. Email Finance BE SURE to provide finance documentation (including contract paperwork, inspection forms, CREW MANIFESTS, red cards, etc.) to: 2022.moose.finance@firenet.gov

Radios can be checked out and cloned at ICP

# **Demobilization Check-Out Process**

## DO NOT COMPLETE DMOB FORM PRIOR TO YOUR DEMOB DATE

This incident is using a virtual checkout process for demobilization to minimize the spread of infectious disease, including COVID-19.

- Ensure that your supervisor has released you from the incident, in coordination with the Demob Unit.
   Filling out this QR Code DOES NOT initiate your demob.
  - □ **All Resources** check out with all of the following units as applicable. Each unit will release you through an electronic process that is monitored rather than a paper ICS-221.
  - □ Supply ICP
  - □ Communications ICP Parking Lot
  - □ Ground Support Base Camp
  - □ Time / Finance VIRTUAL
- 2. After ensuring Finance has received all CTR and/or Shift tickets so electronic OF-288 / OF-286 can be emailed to you, scan the QR code below to confirm travel information in the DMOB Form prior to departing ICP.
- 3. Once the above steps have been completed, the Demobilization Unit Leader will release you from this assignment and notify Expanded Dispatch. The demobilization process is complete travel safe!

\*\*Any resource requiring commercial air travel <u>must</u> make arrangements with the Demobilization Unit Leader a minimum of 48 hours in advance. The above QR code contains a Flight Request form\*\*

> Please contact the DMOB Unit Leader if you need assistance. 2022.moose.demob@firenet.gov

# MEDICAL PLAN (206 WF)

Medical Incident Report										
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.										
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE										
USE THE FOLLOWING ITEMS TO COMMUNICATE SITUATION WITH COMMUNICATIONS/DISPATCH										
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."										
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."										
Severity of Emergency / Transport       Priority         Priority       PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE         Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.         Priority       YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.         Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.         GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport								riented.		
Nature of In	njury or Illness	Ex:	Sprains, strains, minor heat-re	lated illnes	s.	. Non-Emergency (	ransport	· · · · · · · · · · · · · · · · · · ·
