

- MAP 1: WUI From Wallace Creek to Salmon**
 Condition: If fire becomes established east of MAP 1...
 Description: MAP 1 is the Diamond Creek Control Line north of Wallace Creek near the Salmon River, west to the Ridge Road continuing south to Williams Creek Summit.
 Actions: Fire may threaten the WUI corridor from Wallace Creek to Salmon, Idaho. Consider actions based on current and expected fire behavior to initiate production measures...
 Resources: LIAISON OFFICER: Sheriff's Office, IOT, Safety Officer. Operational Resources include 30 Engines, 5 water tenders, 4 Dozers, 3 HC, 2 Type 2 IA Crews, 3 Task Force Leaders, 3 Type 1 Helicopters, and 10 Attack/HELCO. Additional resource needs may be required as complexity escalates.
- MAP 2: WUI corridor north of North Fork**
 Condition: Fire is established east or north of MAP 2...
 Description: MAP 2 follows the west side of Highway 93 north from North Fork and turns west at the Hill Creek Road.
 Actions: Fire may threaten the WUI corridor from North Fork to Gibsonsville. ID including drainages at Highway Creek, Clark Creek and Sheep Creek. Consider actions based on current and expected fire behavior to initiate production measures...
 Resources: LIAISON OFFICER: Forest Staff, LTANFMAN, Safety Officer. Operational resource needs will be determined given fire location, fuels, topography, and values. Risk to personnel will be a factor in determining actions.
- MAP 3: Notifi Bitterroot National Forest**
 Condition: If fire becomes established north of MAP 3...
 Description: MAP 3 is a north-south line following the Bitterroot National Forest boundary, east to Ditch Mountain, Bald Mountain, Indian Peak, and ending at Granite Mountain.
 Actions: Based on time of year and projected fire spread, consider notification to the Bitterroot National Forest for potential spread onto their administrative area...
 Resources: LIAISON OFFICER: Forest Staff, LTANFMAN, Safety Officer. Operational resource needs will be determined given fire location, fuels, topography, and values. Risk to personnel will be a factor in determining actions.
- MAP 4: ESA Fish Tributaries**
 Condition: As suppression actions are developed, care must be taken to avoid negative suppression impacts to fish habitat in identified tributaries on all watersheds...
 Description: The map applies to watersheds that have no additional values on the Bitterroot NF...
 Actions: Based on time of year and projected fire spread, consider notification to the Bitterroot National Forest for potential spread onto their administrative area...
 Resources: LIAISON OFFICER: Forest Staff, LTANFMAN, Safety Officer. Operational resource needs will be determined given fire location, fuels, topography, and values. Risk to personnel will be a factor in determining actions.
- MAP 5: Salmon Municipal Watershed**
 Condition: Fire crosses MAP 5 and becomes established...
 Description: MAP 5 follows the Ridge Road from the west end of the Diamond Control Line near Wallace Creek, west to the Ridge Road, and the OTC road south to Williams Creek Summit.
 Actions: High intensity fire on the forested slopes in the upper reaches of Pollock, Chips, and Jesse Creeks may result in high sediment flows that could negatively impact the Salmon municipal water system...
 Resources: Local fire staff, LIAISON OFFICER: LTANFMAN, Safety Officer. Operational resource needs will be determined given fire location, fuels, topography, and values.
- MAP 6: Mine Power Line (4 mi buffer)**
 Condition: Fire crosses MAP 6 and becomes established...
 Description: MAP 6 is a line buffered 4 miles north of the powerline to the Blackbird Mine.
 Actions: Loss of power will threaten Blackbird and Bear Track mines' wastewater filtration, potentially poisoning the stream and the mine...
 Resources: LIAISON OFFICER: LTANFMAN, Safety Officer. Operational resource needs may be required as complexity escalates.
- MAP 7: Mine Power Line (1.5 mi buffer)**
 Condition: Fire crosses MAP 7 and becomes established...
 Description: MAP 7 is a line buffered 1.5 miles north of the powerline to the Blackbird Mine.
 Actions: Loss of power will threaten the mine's ability to filter wastewater, this will poison the stream and kill fish, having long term ecological and economic impacts...
 Resources: LIAISON OFFICER: Operations Section Chief and Safety Officer. Additional resource needs may be required as complexity escalates.
- MAP 8: Blackbird Mine Access**
 Condition: This is an east-west line buffered 1 mile north of the access road from Salmon to Blackbird Mine...
 Description: MAP 8 is an east-west line buffered 1 mile north of the access road from Salmon to Blackbird Mine, which goes east to west following Williams Creek Road, Deep Creek Rd, Panther Creek Rd to Blackbird Creek Road.
 Actions: Maintaining traffic flow to the mine is essential for the local economy and could jeopardize mine safety operations...
 Resources: LTANFMAN, Lead Read, Mine Officials, Safety Officer. Operational resources include a Task Force Leader.
- MAP 9: Panther Creek Closure and WUI**
 Condition: Fire crosses MAP 9 and becomes established...
 Description: MAP 9 is a north-south line buffered 2 miles east of the north portion of Panther Creek Road and extends from the Salmon River, south to Napas Creek.
 Actions: Operations and the LIAISON OFFICER will coordinate with the Sheriff to plan for and implement road closures...
 Resources: LIAISON OFFICER: LTANFMAN, Sheriff's Office, Safety Officer. Operational Resources include 20 Engines, 3 water tenders, 2 HC, 2 Type 2 IA Crews, 3 Task Force Leaders, 3 Type 1 Helicopters, and 10 Attack/HELCO. Additional resource needs may be required as complexity escalates.
- MAP 10: Notifi Beaverhead/Deeridge National Forest**
 Condition: If fire breaches and becomes established east of MAP 10...
 Description: MAP 10 extends north to south approximately 2 miles west of the Beaverhead/Deeridge NF boundary.
 Actions: Based on time of year and projected fire spread, consider notification to the Beaverhead/Deeridge National Forest for potential spread onto their administrative area...
 Resources: LIAISON OFFICER: Forest Staff, LTANFMAN, Safety Officer. Operational resource needs will be determined given fire location, fuels, topography, and values. Risk to personnel will be a factor in determining actions.
