● Helispot	■ Wildfire Daily Fire Perimeter
■ Drop Point	■ PICNIC SITE
■ Staging Area	— Transportation
● Turnout	— Highway
● Bridge	— BASIC CUSTODIAL CARE (CLOSED)
● Retardant in Avoidance Area	— HIGH CLEARANCE VEHICLES
● Resource Location	— Trails
■ Historical Structure	■ Forest Boundary
■ Contained	■ Wilderness
■ Uncontained	■ Aerial Retardant Avoidance Area (Hydro)
— Completed Hand Line	● Repair Status
— Access or Improved Road	● In Use - Fire Management
— Other	● In Use - Fire Management
— Retardant Drop	○ No Repair Needed
— Powerlines	

FC Line Type	Comments	Repair Status	Repair Comments	Repairs Needed
Access or Improved Road	Road 626- limited turnouts	In Use - Fire Management		
Other	Unimproved two-track; minimal turn arounds, narrow road	In Use - Fire Management	pull in some cleared slash to discourage unauthorized motorized use	Y
Other	Personnel line	In Use - Fire Management		
Retardant Drop	Walked and ground truthed	In Use - Fire Management		
Retardant Drop	Walked and ground truthed	In Use - Fire Management		
Retardant Drop	Started from observable edge	In Use - Fire Management		
Completed Hand Line	handline around spot fire	In Use - Fire Management	standard repair	Y
Completed Hand Line		In Use - Fire Management	standard repair	Y
Completed Hand Line	discontinuous line along ridge	In Use - Fire Management	standard repair	Y

FC Point Type	Label	Comments	Repair Status	Repair Comments	Repairs Needed
Other		Parking area 8-10 vehicles	In Use - Fire Management		
Other		Turnout for fire equipment	In Use - Fire Management		
Other		Small turnout	In Use - Fire Management		
Other		Small turnout on corner	In Use - Fire Management		
Other		Turnout	In Use - Fire Management		
Bridge		15 feet wide, Unknown if suitable for dozer and transport	No Repair Needed		
Staging Area		Parking for approximately 10 vehicles	In Use - Fire Management		
Drop Point	DP-10	Dp 10 per IC	In Use - Fire Management		
Helispot	H-10		In Use - Fire Management	1 large lodgepole cut for helispot: buck, stack logs, spread slash	Y
Helispot	H-1		In Use - Fire Management	scatter slash from cut trees	Y
Helispot	H-2	H 2 being built for type 2 capability	In Use - Fire Management	scatter slash	Y
Other		Retardant continues downhill. Needs gpsed, recommend waiting until fire operations slow down	In Use - Fire Management		
Retardant in Avoidance Area		End corner of retardant, no live water, no rca or riparian vegetation. No impact to aquatic, terrestrial vegetation only	In Use - Fire Management		
Resource Location		RCA edge, live water 10 feet from edge, no retardant or drift observed in rca	In Use - Fire Management		
Retardant in Avoidance Area		End of retardant drift, observed based on droplets on lupine. Approximately 25 feet from riparian vegetation edge.	In Use - Fire Management
