Ordered By: Amanda Curry	A Number: 67	Aircraft/Scanner System: N149Z/Phoenix	Pilots/Techs: IR Tech: Michael Mann
IRIN Comments on imagery: Good Imagery; 2 passes		Weather at time of flight: Clear	Flight Objective: Map Heat Perimeter, Intense Heat, Scattered Heat, and Isolated Heat
Date and Time Imagery Received by Interpreter:		Type of media for final product: PDF Maps, Geodatabase/Shapefiles, KMZ, IRIN Log	
Date and Time Products Delivered to Incident:		Digital files: Posted to: <ul style="list-style-type: none"> • ftp.nifc.gov/incident_specific_data/great_basin/2022_Incidents/2022_Wildcat/IR • NIFS 	
Comments / notes on tonight's mission and this interpretation: I began mapping from the latest NIFS Wildfire Daily Perimeter. The far eastern extended arm of the fire was not included in the scan box so there is no heat data for that portion of the fire. There was no intense heat. There were pockets of scattered heat and isolated interior heat; predominantly within the western half of the fire.
