Flight Time: 2300 MDT Flight Date: 09/01/22	Interpreter(s) location: Santa Fe, NM Interpreter(s) Phone: 928-606-1994	GACC IR Liaison: Nate Yorgason GACC IR Liaison Phone: 435-590-1107	National Coordinator: Jan Johnson National Coord. Phone: 801-824-5440
Ordered By: Dale Farrand	A Number: 68	Aircraft/Scanner System: N149Z/Phoenix	Pilots/Techs: Techs: Mann + Littlefield Pilots: Helquist + Watts
IRIN Comments on imagery: There appeared to be some distortion along the southern edge of the fire. The pixels in this area were blurred		Weather at time of flight: Clear	Flight Objective: PDF Map, shapefiles, kmz, GDB
Date and Time Imagery Received by Interpreter: 9/2/2022 0200 MDT		Type of media for final product: PDF Map, shapefiles, kmz, GDB, IR log Digital files sent to: /incident_specific_data/great_basin/2022_Incidents/2022_Woodtick/IR/20210902	
Date and Time Products Delivered to Incident: 9/2/2022 0530 MDT			
Comments /notes on tonight's mission and this interpretation: I began interpretation with the IR perimeter from 8/31. The distortion along the southern edge of the image may have resulted in less precise interpretation in that area. All new acres were added along the western and southern edge of the fire. Outside of the high intensity heat areas there was little heat seen overall. A cursory look at the quality of the orthorectification by comparing the IR imagery with NAIP data showed it to be well georeferenced.
