Comments /notes on tonight's mission and this interpretation: I began mapping from the previous IR perimeter of 8/13/2023. The fire grew from 11 to 685 acres with extensive intense heat as well as spotting. There was even one spot 0.5 miles from the eastern flank on the far side of Little Pistol Creek at 44° 44.753' N 115° 21.983' W.
