SAFETY MESSAGE

Conduct a Safety Briefing for Every Firefighter on the Fireline

What Risk - What Benefit ?

HAZARDS AND RISKS IDENTIFIED

Fireline: All fireline personnel need to know their Escape Routes and where their Safety Zones are, at all times. Safety Zones need to be adequate and appropriate for potential fire behavior and to safely accommodate everyone depending on them! Use lookouts that know fire behavior and can give adequate warning. A Safety Zone is NOT a fire shelter deployment zone! Test Communications & Know what the fire is doing at all times! Maintain a safe working distance between crewmembers. You need to have a dependable ANCHOR point. No food tossed on the line, prevent bear problems.

SNAGS: In a drought year, the danger of falling trees or snags becomes extreme. The normally moist center rots and 1,000 hr. fuels are dry and sustaining fire. Root systems normally protected by soil moisture are burning, especially the old dead trees.

Transportation: Narrow, dirt roads with limited turnouts, dusty, public recreational traffic. Drive slowly, with your lights on and be defensive & courteous. Deer and cattle are along the roads. Pull over to use cell phone / radio.

I. A.: Know where you're going & use a controlled / orderly response. Make sure you're totally ready to roll - get to know the capabilities (strengths and weaknesses) of other I.A. resources. Careful with highway travel, leave enough distance between engines for cars to pass you.

Communications: Ask questions if you are unsure of an assignment or procedure. It's getting to be a long season - A person's attitude plays a major role in SAFETY! How's Yours?

Hot, Dry Weather & Dehydration: Water is best - drink a little often rather than a lot infrequently. Fruit juice in the morning instead of coffee!

Other: Take care of yourself. Get enough sleep & eat right. *Foot Care:* Prevent blisters by changing socks and keeping feet dry. See the medical unit for early treatment & care advice.

SUBMITTING TIME**

- CTR's and Shift Tickets should be submitted through email to:

2025.deercreek.finance@firenet.gov

- Fillable PDF CTR and Shift Tickets are provided on the linktr.ee page by accessing the QR code on the IAP cover. We will accept any version that is signable and has all required fields.
- Pictures of signed CTR/Shift Tickets are acceptable.
- Justifications are required in remarks when posting time without meal breaks.
- Hazard Pay is required to be justified in the remarks, such as: "Firefighting on an uncontrolled fireline."
- Finance will be available each morning to answer questions and assist you with turning in finance documents if needed.

Resources on Demob list:

- Ensure all finance documents have been sent to Finance and ensure time submittals are current
- We are asking all resources to project time home on your CTR. This is to help with the FMAG documentation requirements from FEMA.
