

MONROE CANYON

INCIDENT ACTION PLAN

Thursday July 17th 0600 - Friday July 18th 0600

UT-FIF-250223

P4 S5CN (0408)

7/17/2025

Check-in, Finance, IAPs, Maps

Incident Meeting Schedule		
0700	Day Shift Operational Briefing	Box Creek Spike
1000	Cooperator Meeting	Richfield Fairgrounds Auditorium
1200	Command and General Meeting	Snow College Conference Room
1700	Tactics / Pre-Planning Meeting	Snow College Conference Room
1800	Planning Meeting	Snow College Conference Room
1900	Night Shift Operational Briefing	Snow College Conference Room

Great Basin Complex Incident Management Team 3

Incident Commander – BRETT WATERS

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY/NIGHT				
MONROE CANYON	Date/Time From: 07/17/2025 0600 THU	Date/Time To: 07/18/2025 0600 FRI			
3. Objective(s): <ul style="list-style-type: none"> Implement suppression strategies that minimize impacts to identified values at risk, and ensures that firefighter and public safety are the top priority. Protect the communities of Manning Meadows, Monroe Meadows, Magelbys, Monroe City, Burrville, and Koosharem. Utilize tactics that have the highest probabilities of success, with a minimal amount of risk. Maintain and develop relationships with key stakeholders and the general public for the duration of the incident. 					
4. Operational Period Command Emphasis: <ul style="list-style-type: none"> Provide and maintain constant/clear communications. Protect identified values at risk from unwanted fire impacts Continue structure protection as fire moves into developed areas. To the extent practical, protect structures and property without compromising firefighter safety. 					
General Situational Awareness: <ul style="list-style-type: none"> Do not take action in terrain where firefighter risk is high and risk to values is low. Maintain heightened situational awareness on travel routes. Highway 20: Watch for animals(deer, elk, cattle) especially at dusk and dawn. 					
5. Site Safety Plan Required? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>					
Approved Site Safety Plan(s) Located at:					
6. Incident Action Plan (the items checked below are included in this Incident Action Plan): <table style="width: 100%; margin-top: 10px;"> <tr> <td style="width: 33%; vertical-align: top;"> <input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206 </td> <td style="width: 33%; vertical-align: top;"> <input type="checkbox"/> ICS 207 <input checked="" type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 220 <input type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents </td> <td style="width: 33%; vertical-align: top;"> Other Attachments: <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____ </td> </tr> </table>			<input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input checked="" type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 220 <input type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	Other Attachments: <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____

Fire Weather Forecast

FORECAST NO: 02

PREDICTION FOR: Thursday's Operational Period

SHIFT DATE: July 17, 2025

INCIDENT: Monroe Canyon

UNIT: Fishlake NF

SIGNED: *Chris Foltz* **Chris Foltz**

TIME AND DATE ISSUED: July 16, 2025 1500

Incident Meteorologist (IMET)

Discussion:

Monsoonal moisture will continue to push northward today and tomorrow resulting in the potential for additional showers and thunderstorms. A mix of dry and wet thunderstorms is expected with the best opportunity for a wetting rain (>0.10") coming on Friday. Lightning as well as gusty and erratic winds are possible in and near any thunderstorm activity. Increasing clouds will allow the temperatures to be around 5 degrees cooler than Wednesday.

TODAY:

Sky/Weather: Partly to mostly cloudy. Isolated to scattered storms after 1100. Gusty and erratic winds are possible near thunderstorms. Smoke/haze in drainages and sheltered areas where precipitation isn't received.

Max Temperature: Valleys: 88-93. **Mid-Slopes and Ridges:** 76 to 81.

Min RH: Valleys: 13 to 23 percent. **Mid-Slopes and Ridges:** 16 to 26 percent.

20 ft Winds: Lower Valleys: Terrain 3 to 7 mph becoming southwest 10 to 14 mph with gusts to 18 mph.

Mid-slopes and Ridges: Southwest 8 to 12 mph with gusts to 17 mph, higher near thunderstorms

Transport Winds: W 11 mph.

Chance of Wetting Rain: 25 percent.

Expected Rain Amount: 0.05", higher in thunderstorms

TONIGHT:

Sky/Weather: Becoming mostly clear. Smoke and haze in valleys and sheltered drainages.

Min Temperature: Lower Valleys: 60 to 63. **Mid-Slopes and Ridges:** 61 to 64.

Max RH: Lower Valleys: 55 to 65 percent. **Mid-Slopes and Ridges:** 38 to 48 percent.

20 ft Winds: Valleys/Lower Slopes: Terrain/down-valley 3 to 6 mph.

Mid-Slopes and Ridges: Downslope/down-valley 4 to 8 mph.

Inversion: 500 ft after 2100.

FRIDAY:

Sky/Weather: Smoke, haze, and clouds until late morning when the inversion dissipates then partly cloudy with a chance for showers and storms. Gusty and erratic winds are possible near thunderstorms.

Max Temperature: Valleys: 84-88. **Mid-Slopes and Ridges:** 73 to 77.

Min RH: Valleys: 25 to 35 percent. **Mid-Slopes and Ridges:** 25 to 35 percent.

20 ft Winds: Lower Valleys: Terrain 3 to 7 mph becoming southwest 8 to 12 mph with gusts to 14 mph.

Mid-slopes and Ridges: Southwest 5 to 9 mph with gusts to 15 mph.

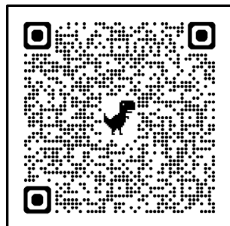

Transport Winds: W 7 mph.

Chance of Rain: 50 percent.

Expected Rain Amount: 0.10"

OUTLOOK FOR SATURDAY THROUGH MONDAY: Moisture will linger through the day Saturday keeping humidity values higher. Warmer and drier conditions will return to the area beginning Sunday with only isolated chances for a storm over the higher terrain.

Weather observations can be texted to 816-833-6299 or emailed to christopher.foltz@noaa.gov

FIRE BEHAVIOR FORECAST	
FORECAST NUMBER 2	TYPE OF INCIDENT: Wildland Fire
INCIDENT NAME: Monroe Canyon	OPERATIONAL PERIOD 7/17/25
DATE ISSUED: 16 July 2025	TIME ISSUED: 1900
UNIT: Fishlake National Forest	SIGNED <i>Ken Loda</i>
	Ken Loda, FBAN
INPUTS	
WEATHER SUMMARY See the preceding Fire Weather Forecast.	
FUELS CONDITIONS Fuel moisture: Historically, live fuel moistures are climbing at this time. Currently they are static or declining and live and dead fuel moistures are at a very low point for this time of the year. One-hour fuel moisture can be expected to be about 11% at 0600. That will drop to about 3% on exposed flat areas and south aspects from about 1200 to 1700. The 10-hour fuels are at 9%, the 100-hour about 7% and the 1000-hour fuels about 8%. After 2030 the fine fuel moistures will fairly rapidly increase to about 8%, then gradually build to about 11% from midnight through the night. Live fuel moisture: The live moisture is near or below 100% in conifers, but this could vary with aspect and setting.	
OUTPUTS	
<p style="text-align: center;">A LITTLE BIT OF RELIEF TODAY</p> <p>GENERAL FIRE BEHAVIOR This fire has remained active through the night. Fuel moisture in the heavier dead fuels – the 100- and 1000-hours – are little influenced by changes in relative humidity, and are likely to continue to burn to some extent through the night. General conditions will be fairly active with moderate flame lengths and rates of spread through the day, with some increase around 1200 today with our predicted winds. Much of the fire behavior is dependent on the afternoon winds, which will be less today but could still produce some torching and related spot fires. Because of the low live fuel moistures most of the fire has some potential for single and multi-tree torching and spotting. At peak burning conditions the behavior is expected to be ROS 7 to 11 ch/hr with flame lengths 7 to 8 feet.</p> <p>Spotting: Torching and spotting is possible. Spotting distance could be up to 2000 feet in the gusts. The probability of ignition will be 40% early and late in the day, and up to 80% during peak burning conditions.</p> <p>Crown fire potential: Should we get outflow gusts, a short crown run would be possible but not particularly likely.</p> <p>SPECIFIC FIRE BEHAVIOR Our forecast winds align well with much of the terrain in the fire area, and in particular may push fire along ridges and down the slopes on the uncontrolled eastern flank.</p>	
SAFETY	
<p>SAFETY As always keep your situational awareness up. Watch for fire and rain loosened falling rocks and snags. Any nearby thunderstorm activity may push the fire in unpredictable directions.</p> <p>AIR OPERATIONS Thunderstorm gusts could complicate if not prevent effective use of aircraft for some time.</p>	

Division/Group Assignment List (ICS 204 WF)
Controlled Unclassified Information//Basic

1. Incident Name:				3.			
MONROE CANYON				I		A	
2. Operational Period: DAY/NIGHT

6. Control Operations/Work Assignments:						
TASK: Continue mopping up along fire line behind structures. Identify areas where an anchor point can be established and fire line construction can begin.						
PURPOSE: Protect structures and private property from further fire impact.						
END STATE: Fire edge stopped at current location. Private property incurs no additional fire impact.						
7. Special Instructions:						
<ul style="list-style-type: none"> Continually identify escape routes and safety zones as conditions evolve and the fire progresses. Lots of dead and down trees throughout the fire area. Watch for snags and hazard trees. Insurance engines may be operating in your area. Contact info: GFP E27, Ron Stevenson, 503-620-2820. E5428, Matt Slater, 715-218-8364. See ICS 205 for Comms.

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: Monroe Canyon	2. Operational Period: Date From: 7/17 Time From: 0600	Date To: 7/18 Time To: 0600
3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan: <p>Weather is expected to continue warm and dry with a chance of thunderstorms.</p> <p>There is currently an ambulance stationed on DIV M. Medical personnel are also assigned to Division M, W, and Nights. If a serious injury or serious medical incident occurs, initiate the Medical Incident Report located in the IAP through Richfield Dispatch, then Monroe Canyon Communications on Command once incident communications have been established.</p> <p>At Greenwich ICP, the fastest medical response will be through incident resources. Notify MEDL Tyla Northrup 435-979-5285 or Marty Strand 605-890-3440 (or on command if no service) as soon as possible for any medical emergency. At helibase or in Richfield, the fastest medical response will be through 911.</p> <p>Incident within an Incident (IWI) protocols:</p> <p>The IWI <i>On-Scene Point of Contact</i> or <i>IWI Incident Commander</i> (IC) should utilize the Medical Incident Report (ICS 206 WF) or MIR to determine the level of response required for an IWI.</p> <ul style="list-style-type: none"> • <i>Green/Priority 3 Injury or Illnesses</i> which do not require transport do not require the completion of a full Medical Incident Report, declaration of a “medical emergency”, or activation of the C&G Recall/Notification Process. These incidents can be reported to communications or directly to the MEDL via cell phone with a brief description of the injury and the subsequent treatment. • <i>Green/Priority 3 Injury or Illnesses</i> which require transport off the line, should be reported to ICP Communications and may utilize a completed MIR, but do not require the declaration of a “medical emergency” or the activation of the C&G Recall/Notification Process. At the very least, notification should include the transportation destination and a description of the illness or injury. • <i>Yellow/Priority 2 Serious Injury and Illness</i> requires the completion of the MIR and will be declared as a “medical emergency” to initiate a response from ICP Communications. Radio communication should be on the Command frequency and will take priority over other incident radio traffic. The C&G Recall/Notification Process will be initiated. Evacuation may be delayed for a <i>Yellow/Priority 2 Serious Injury or Illness</i>. • <i>Red/Priority 1 Life or limb threatening injury or illness</i> requires the completion of the MIR and will be declared as a “medical emergency” to initiate a response from ICP Communications. Radio communication should be on the Command frequency and will take priority over other incident radio traffic. The C&G Recall/Notification Process will be initiated. Evacuation need is immediate and takes priority over most other incident operations. • A Fatality should be treated like a <i>Red/Priority 1 Life or limb threatening injury or illness</i>. The MIR should be completed and declared as a “medical emergency” to initiate a response from ICP communications. Deceased individuals and their equipment should not be moved, except to accomplish rescue work or to protect the health and safety of others. The area should be secured and entry to the area should be limited to authorized personnel only. Local authorities should assume command of the IWI as soon as is practical and it is safe to do so. The PSC will complete the <i>Wildland Fire Fatality and Entrapment Initial Report</i> when required by the nature of the emergency. https://www.nwcg.gov/sites/default/files/publications/PMS%20405-1.pdf <p style="text-align: center;">An ounce of prevention is worth a pound of cure. ~Benjamin Franklin</p>

DEMOBILIZATION CHECK-OUT PROCESS and TENTATIVE RELEASE

This incident is using a virtual checkout process for demobilization. **Please do not leave the incident until the following steps have been completed!**

1. **48 hours prior** to demobilization date, please ensure that:
 - Your incident supervisor has submitted a [Demob Request Form](#).
 - If you need a flight arranged for you, please submit a [Flight](#) Request Form.
2. **On your demob date**, please check out with the following units.
 - Supply Unit – Return gear and supplies.
 - Ground Support/Weed Wash – Return pool NERV rentals, receive inspections, etc.
 - Communications Unit – Return Radios and other communications equipment.
 - Time/Finance – Ensure that all CTRs and/or shift tickets have been submitted and **you have received your final, signed OF-288 Time Report or OF-286 invoice.**
3. **Once you have completed the above steps**, please fill out the [Demob Check out Form](#) and contact the Demob Unit Leader to confirm your release from the incident. **PLEASE DO NOT FILL OUT THE DEMOB RELEASE FORM UNTIL ALL PRIOR STEPS HAVE BEEN COMPLETED!**
Demob Unit Leader: (775) 720-6547, 2025.monroecanyon.demob@firenet.gov

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM ICP COMMUNICATIONS.					
Use the following items to communicate situation to ICP COMMUNICATIONS.					
1. CONTACT ICP COMMUNICATIONS: (Verify correct frequency prior to starting report) <i>Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."</i>					
2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "ICP Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury			Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)		
Transport Request			Air Ambulance / Short Haul/Hoist Ground Ambulance / Other		
Patient Location			Descriptive Location & Lat. / Long. (WGS84)		
Incident Name			Geographic Name + "Medical" (Ex: Trout Meadow Medical)		
On-Scene Incident Commander			Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)		
Patient Care			Name of Care Provider (Ex: EMT Smith)		
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG PAGE 108					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.					
REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
