12. Prepared By: Print Name: Becky Smith Date/Time Prepared: 07/23/2022 1545 CT		13. Approved By: Print Name: Jon Holmes Signature: .									
14. Date/Time Submitted: 07/23/2022 1752 CT		15. Primary Location, Organization, or Agency Sent To: GBCC									
16. State: NV	17. County / Parish / Borough: Lincoln	18. City: Motoqua, Utah									
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): NV-ELD									
22. Latitude/Longitude: Latitude: 37° 19' 29" Longitude: 114° 3' 32"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:									
25. Short Location or Area Description (list all affected areas or a reference point): 30 miles north of Mesquite, directly on the Utah/Nevada border.			26. UTM Coordinates: Zone: Easting: Northing:								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): IR Data collected overnight on 7-22-23. Flight ordered for the night of 7-23-22.											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Active Uphill Runs Short Crown Runs											

Incident Status Summary (ICS-209)

Incident: **Dodge Springs**

Flanking				
Narrative:				
29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):				
Short Grass (1 foot) Brush (2 feet) Timber (Grass and Understory)				
Narrative:				
30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): If fire continues to move to the east the community of Motoquak, Utah could be impacted.	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Fire is making runs to the northeast and northwest moving into heavier fuels and into the Docs Pass Wilderness. No roads or access points for crews and no breaks in fuel type for miles.**

24 hours: **With predicted weather and inaccessible terrain, expect fire growth to continue.**

48 hours:

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Meet containment objectives while maintaining firefighter and public safety as the number one priority. Utilize dozers to contain the heel and utilize crews with retardant to continue flanking the fire to the east and west sides.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Priority mule deer habitat, Docs Pass Wilderness, current and projected extreme heat, extreme fire behavior, no road access and a Type 2 Incident Management Team is on order to support fire suppression.**

24 hours: **Priority mule deer habitat, Docs Pass Wilderness, current and projected extreme heat, extreme fire behavior, no road access and a Type 2 Incident Management Team is on order to support fire suppression.**

48 hours:

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **Type 2 Team due to inaccessibility and logistical support for spike camps.**

24 hours:

48 hours:

Incident Status Summary (ICS-209)

Incident: **Dodge Springs**

72 hours:																	
Anticipated after 72 hours:																	
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. Inaccessible roads for equipment, travel times are increased due to having to enter the incident from the St. George, Utah area.																	
41. Planned Actions for Next Operational Period: Continue line construction with crews and dozers while being supported by air resources.																	
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): 20,000																	
43. Anticipated Incident Containment or Completion Date: 08/01/2022																	
44. Projected Significant Resource Demobilization Start Date: 08/01/2022																	
45. Estimated Incident Costs to Date: \$750,000.00																	
46. Projected Final Incident Cost Estimate: \$5,000,000.00																	
47. Remarks (or continuation of any blocks above – list block number in notation): Type 2 in-brief 0900 PDT on Sunday, July 24th.																	
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top 1/2 of box, show # of personnel associated with resource on bottom 1/2 of box):
