

Burley Field Office
Fire Constraint Map

2013 South Central Idaho Interagency Fire Center Fire Suppression Constraints	
Resource	
Buried Gas Pipeline	No dozer use.
Sage-grouse Priority Suppression Area*	Protect sagebrush.
*Sage-grouse Priority Suppression Area Constraints the same for BLM & USFS lands	
National Historic Trail	No dozer use within 1/8 mile (660 ft.) of trails.
Wilderness Study Areas (WSA)*	No dozer use without Field Manager approval.
Monuments/NPS Units*	No retardant over the NPS portion of the Monument and Preserve.
No dozers in the NPS portion of the Monument and Preserve.	
Foot traffic and hand tools only in Craters of the Moon Wilderness.	
No dozers within 300 ft. of plays.	
Craters of the Moon National Monument and Preserve	No retardant or foam without Park Superintendent approval.
No dozers without Park Superintendent approval.	
No retardant without Park Superintendent approval.	
City of Rocks National Reserve	Avoidance Area Contact Archeologist.
Hagerman Fossil Beds National Monument	No Motor Vehicle use without Field Office Manager Approval.
Cultural Site Nearby	No Dozers without verbal approval from Resource advisor.
American Falls Archeological District	Avoid dozer use in the Goose Creek drainage without verbal approval from a resource advisor.
Jim Sage SRMA	No use of retardant within aquatic avoidance areas or within 300 feet of surface water on FS lands**
Goose Creek Milkvetch*	No use of retardant within 100' of any surface water. Use containment berms for any fuel storage.
The only exception to using retardant in an avoidance area is a threat to life/safety. Using retardant to defend structures where there is no risk to safety is a deviation from policy.	
Retardant Avoidance Areas	
Resource Advisor should be requested. *Use MIST guidelines.	
General Constraints	
Live Streams	No retardant within 300 ft. of streams.
No ground disturbing activities using heavy equipment within 300 ft. of streams without Field Manager approval.	
No fueling activities or equipment within 100 ft. of streams unless fuel and equipment can be contained to avoid stream contamination.	
Snake River Canyon	No retardant in the canyon.
Avoid edging within 100' of any surface water. Use containment berms for any fuel storage.	
Do not use heavy equipment within 300' of streams or 150' of dry streams.	
Use 3/32" mesh screen foot valves for all drafting/portable pumps	
All Surface Water (Rivers, streams, lakes, etc.)
