Divide Complex Maps

1. INCIDENT NAME American Fork Fire and Divide Complex	2. OPERATIONAL PERIOD: DAY / NIGHT 07/30/2021 Friday 0600 07/31/2021 Saturday 1000	2. DATE PREPARED 07/29/2021	3. TIME PREPARED 1900
--	---	---------------------------------------	---------------------------------

3. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES)

Management Objectives

- 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements.
- 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics.
- 3) Maintain and strengthen relationships with the Helena-Lewis and Clark NF, Custer-Gallatin NF, private landowners, the public, cooperators and partners by providing timely and accurate information.
- 4) Use management actions that ensure fire personnel safety from contact with bears through compliance with the Food Storage Special Order.
- 5) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement.
- 6) Protect impact to cultural resources through consultation with local forest specialists.

Control Objectives

Divide Complex

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 2) Protect Tenderfoot Experimental Forest infrastructure within the tenderfoot drainage.
- 3) Protect the communities of Belt Park, Deer Creek Estates, Monarch, Neihart and the Hwy 89 corridor to avoid loss or damage to private lands and critical infrastructure.
- 4) Use mechanized equipment to establish and improve control lines where approved to minimize risk and exposure to firefighting resources.
- 5) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

American Fork Fire

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 2) Keep fire on Forest Service lands to protect and limit impact to adjacent landowner property and values at risk.
- 3) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

4. Operational Period Command Emphasis: * L C E S *****

5. General Situational Awareness: *Erratic and gusty winds to 40 mph possible with any shower or storm. Keep in mind gusty winds are possible far away from the nearest precipitation.*****

Mostly clear skies in the morning will give way to partly cloudy skies and isolated thunderstorms in the afternoon. High temperatures will increase slightly over yesterday, reaching upper 70s at higher elevations with min RHs dropping into the mid 20's. The primary threats will be erratic and gusty winds to 40 mph and some lightning strikes. Winds during the afternoon will generally be terrain driven with predominantly upslope/upvalley flow, however, exposed locations will see more of a NE wind. Decent RH recoveries (50-60%) are expected tonight with light downslope/downvalley winds.

7. GENERAL MESSAGE

INCIDENT Weather Forecast

View Local Obs →

FORECAST NO: 8
PREDICTION FOR: Friday

NAME OF FIRE: American Fork/Divide Complex
UNIT: Helena/Lewis & Clark NF and Custer Gallatin NF
SHIFT DATE: July 30, 2021
SIGNED: Ian Morrison

FORECAST ISSUED: 1800 July 29, 2021

Incident Meteorologist

****Erratic and gusty winds to 40 mph possible with any shower or storm. Keep in mind gusty winds are possible far away from the nearest precipitation.****

WEATHER DISCUSSION: Mostly clear skies in the morning will give way to partly cloudy skies and isolated thunderstorms in the afternoon. High temps will increase slightly over yesterday, reaching upper 70s at higher elevations with min RHs dropping into the mid 20's. The primary threats will be erratic and gusty winds to 40 mph and a couple lightning strikes. Winds during the afternoon will generally be terrain driven with predominantly upslope/upvalley flow, however, exposed locations will see more of a NE wind. Decent RH recoveries (50-60%) are expected tonight with light downslope/downvalley winds.

WEATHER FORECAST FOR THE DIVIDE COMPLEX & AMERICAN FORK:

WEATHER: Seasonable temperatures with a chance of an afternoon shower/storm. Generally less than 0.05" of rainfall is expected. *Erratic wind gusts to 40 mph possible with any shower/storm.*

TEMPERATURES: 72-76 ridges and 78-82 valley bottoms

HUMIDITY: Minimums 25 to 30%

20 FT WINDS:

RIDGETOP - NE 10 to 15 mph for completely exposed locations. Otherwise, variable wind.

SLOPE/VALLEY - Upslope/upvalley at 8 to 12 mph.

HAINES INDEX: 3 (Very low chance of plume dominated activity)

CHANCE OF WETTING RAIN (> .10): 10%

STABILITY/INVERSION: Weak inversion breaking by 0900.

OUTLOOK FOR TONIGHT:

A slight chance of a shower with gusty winds before 2200. RH recoveries will reach 50-60%. Partly cloudy skies early will become mostly clear by Saturday morning. Temperatures will fall to the mid and upper 50s for most areas and the low 50s for the valley locations. Downslope/downvalley winds 4-8 mph.

OUTLOOK FOR SATURDAY AND SUNDAY:

High temperatures will be in the 70s with lows in the 50's. Expect mostly sunny to partly cloudy skies each day with min RHs in the upper 20s. Most areas will remain dry, but a stray afternoon shower or thunderstorm cannot be ruled out. If a shower or storm develops, gusty winds and lightning would be the primary threats. Winds become E to ESE with gusts of 20 to 30 mph expected in exposed areas.

FIRE BEHAVIOR FORECAST										
FORECAST NUMBER: # 8	TYPE OF FIRE: Wildland									
FIRE NAME: American Fork / Divide Complex	OPERATIONAL PERIOD: 07/30/2021 Day/Night Shift									
DATE ISSUED: 07/29/2021	TIME ISSUED: 2000									
UNIT: Helena / Lewis and Clark NF and Custer /Gallatin NF	WRITTEN: Kelly Cagle FBAN									
<p>FUEL ASSUMPTIONS: The major fuel types found on the American Fork/Divide Complex are Fuel Model 10 (mixed conifer with heavy dead/down) and Fuel Model 2 (short grass w/timber) in the lower elevations. Current fuel conditions are favorable for extreme fire behavior within all fuel types, especially 100 hour and 1000 hour fuels. Live fuel moistures are low and will contribute to fire spread. Grass fuels are becoming more available as well. Heavy dead and down will likely be the most problematic. ERC's are approaching all time high's for today's date.</p>										
<p>WEATHER SUMMARY: Reference fire weather forecast for specifics. Mostly clear skies in the morning will give way to partly cloudy skies and isolated T storms this afternoon. Gusty and erratic winds possible near these storms. Temps – upper 70's with RH's in the mid 20's. Decent RH recovery tonight. Winds will be light and predominantly upslope/upvalley.</p>										
<p>General Fire Behavior Forecast: <i>General movement will be upslope/upvalley today.</i> Current fuel conditions encourage extreme fire behavior. Fuel driven fire with uphill runs and torching or crowning should be expected. Long distance spotting is probable anywhere wind and slope align. Expect a high resistance to control. Expect activity to begin early in the day and to persist thru early evening and into the night hours.</p>										
<p>Specific:</p> <p>American Fork Fire - Westward push into Shields River drainage will continue today. Fire behavior could be intense and progression may continue unabated until fire reaches rocks/grass. Meadows and fuels treatment should blunt fire progression on the west side of Shield River drainage. Blacktail fire scar should continue to limit spread to the north. Remainder of fire – probable low fire activity.</p> <p>Balsinger Fire – Expect fire to continue to progress to the north around/near/down Thunder mountain until it runs out of fuel. Fire behavior could be intense if upslope- with group torching, crown runs, and long range spotting possible. It will be difficult to suppress fire in conifer fuel under the extremely dry conditions.</p> <p>Ellis Fire – Smoldering and isolated single tree torching will most likely continue. Any heat source in direct contact with unburned fuel could produce intense fire behavior.</p> <p>Night Shift – Expect fire to remain active well into the overnight hours – possibly midnight or later. Unexpectedly intense fire behavior is possible. Forward movement of fire with torching or short canopy runs possible when moving upslope.</p>										
<p style="text-align: center;">*****</p> <table> <tr> <td>Fine fuel moisture today is -</td> <td>4%</td> <td>1000 hour fuels 9 to 12%</td> </tr> <tr> <td>Probability of Ignition today -</td> <td>85% +</td> <td>Live fuel moistures are critically low</td> </tr> <tr> <td>Max Spotting Distance Today-</td> <td>1/2 mile plus</td> <td>Haines is at 3 for today</td> </tr> </table>		Fine fuel moisture today is -	4%	1000 hour fuels 9 to 12%	Probability of Ignition today -	85% +	Live fuel moistures are critically low	Max Spotting Distance Today-	1/2 mile plus	Haines is at 3 for today
Fine fuel moisture today is -	4%	1000 hour fuels 9 to 12%								
Probability of Ignition today -	85% +	Live fuel moistures are critically low								
Max Spotting Distance Today-	1/2 mile plus	Haines is at 3 for today								
<p>AIR OPERATIONS: Light inversion possible that should not impact aviation. Light smoke expected.</p>										
<p>Fire Behavior Safety: Snags havent been a huge problem on this fire thus far, but they do injure firefighters almost every year. Look up. Look down. Look all around.</p>

HEALTH AND SAFETY MESSAGE

*“Change is an event, but transition is a process you go through in response to the change”
William Bridges*

INCIDENT: American Fork & Divide Complex **DATE:** Friday July 30, 2021

Major Hazards & Risks: Transition & Driving

Today is Transition Day: The incoming SA Red Team will be shadowing the SA Gold Team today before taking over the fire at 0600 tomorrow morning. This has historically been a time where missed communications or the lack there of can lead to an undesirable outcome. Make sure you have good instructions and communication with your supervisor before engaging the fire.

Driving: It is important to know where you are as you drive, especially if you need to drive to new locations, download a transportation map from the QR reader on the front of this plan. Know which road leads to your safety zone, keep in mind there will be additional traffic on the road leading out of fire areas. Roads in the fire areas are becoming dusty. Turn on headlights, follow far behind the vehicle in front of you and keep your mind on the road. Washboards and holes can bounce you off the road, so slow down to keep control.

12. CANNOT SEE MAIN FIRE, NOT IN CONTACT WITH ANYONE WHO CAN

Fire Order of the Day:

Give clear instructions and insure they are understood.

- **Task** = What is to be done
- **Purpose** = Why it needs to be done
- **End State** = How it should look when completed

Safety Officers: Buddy, Paul, Jeff, Larry, Shawn, & Chris

INCIDENT SAFETY ANALYSIS 215a

Divide Complex / American Fork - Friday, July 30, 2021

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Air Operations	<ul style="list-style-type: none"> ~ Ensure positive communication with all air resources. ~ Don't plan on air resources for medical transport or resupply. ~ Follow "Aviation Watch-Out Situations" IRPG Pg 46. ~ Refer to "Directing Bucket or Retardant Drops" IRPG Pg 58 . ~ Refer to "Aerial Retardant Safety" IRPG Pg57. ~ Refer to "Aircraft Mishap Response Procedure" IRPG Pg 62.
All	Extreme Fire Behavior	<ul style="list-style-type: none"> ~ Share weather observations with all personnel assigned to division. ~ Establish "Trigger Points" to withdraw. ~ Use "Risk Management" process prior to engaging in suppression actions IRPG Pg 1. ~ Refer to "Common Denominators of Fire Behavior Tragedy Fires" IRPG Pg 5. ~ Refer to "Alignments & Patterns for Dangerous Fire Behavior" IRPG Pg 73
All	Fireline Hazards	<ul style="list-style-type: none"> ~ Refer to "Fireline Location" considerations, IRPG Pg 84 ~ Do not work directly above or below personnel during firing and mop-up operations. ~ Watch for falling and rolling debris on steep slopes. ~ Alert crew personnel of rolling debris by yelling to affected individuals. ~ Position debris that could roll vertically on slope. ~ Avoid stepping over debris that could roll by walking around object. ~ Avoid radiant heat by wearing appropriate PPE correctly. ~ Flag and isolate all HAZMAT and alert all personnel working in Division. ~ Follow WUI recommendations, IRPG Pg 12.
All	Heat Related Illness (HRI)& Dehydration	<ul style="list-style-type: none"> ~ Refer to Heat Related Illness information, IRPG Pg 109 ~ Drink Fluids throughout operational period (6-8 qts/shift). ~ Maintain water/electrolyte ratio of 3 to 1. ~ Carry extra water on line and cache water at drop points. ~ Take Frequent breaks, minimum of 10 minutes every hour. ~ Allow out of area resources time to acclimatize before expecting peak performance.
All	Hazard Trees	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG page 22. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Don't park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
All	Firing Operations & Devices	<ul style="list-style-type: none"> ~ Only personnel trained in the use of each device will be authorized to use firing equipment. ~ Ensure all personnel are aware of firing operation that may affect them. ~ Wear appropriate PPE. ~ Ensure aerial/ground ignition plans have been adequately developed and personnel are briefed.
All	Power Utilities	<ul style="list-style-type: none"> ~ Refer to the IRPG page 24 for Power Line Safety. ~ Notify all personnel of down electrical lines. ~ Always treat downed wires as energized. ~ Identify and avoid high tension transmission lines. ~ Identify and avoid high pressure natural gas lines. ~ Identify and avoid damaged gas service near structures. ~ Be aware of utility restoration in your work area.
Ellis Fire	Mop-up & Suppression Repair	<ul style="list-style-type: none"> ~ Do not work above or below personnel during rehab/mop-up operations. ~ Alert crew personnel of rolling debris by yelling to affected individuals. ~ Position debris that could roll vertically on slope. ~ Wear eye protection.
American Fork / Balsinger	Night Operations	<ul style="list-style-type: none"> ~ Maintain high visibility in work area and wear vest while in roadway. ~ Use glow sticks to mark hazards. ~ Ensure personnel have a personal light (headlamp). ~ Watch for signs of fatigue. ~ Take breaks away from areas of known hazard.

INCIDENT SAFETY ANALYSIS 215a

All	Chain Saw Operations	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG Pg 22 ~ Follow "Procedural Felling Operations" IRPG Pg 85. ~ Look up, Look down, Look around for hazard tree indicators. ~ Only fell and buck trees within your expertise, and training. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.
All	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Refer to "Working with Heavy Equipment" IRPG Pg 86 ~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 300 feet exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment. ~ Brush Chippers: Ensure that Job Hazard Analysis are reviewed and signed by all crew members working with or around them.
All	Structure Protection & HAZMAT	<ul style="list-style-type: none"> ~ Review "Wildland Urban Interface Firefighting" considerations, IRPG Pg 12-16 ~ Use "Structure Assessment" checklist, IRPG Pg 13 ~ Refer to "Structure Hazard Marking System" IRPG Pg 41 ~ Follow "HAZMAT Incident Operations" IRPG Pg 36
All	Driving & Traffic	<ul style="list-style-type: none"> ~ Practice "Defensive Driving" techniques traveling on all roads and city streets. ~ Use spotters when backing. ~ Always use headlights. ~ Yield to pedestrians, wildlife and livestock. ~ Observe posted speed limits. ~ Use the 3 second rule for following distance when driving. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, radio). ~ Ensure that windshields are kept clean of dust and bugs. ~ ATV and UTV traffic in town and on all roads.
All	ATV/UTV use	<ul style="list-style-type: none"> ~ Ensure equipment is inspected and safe to use. ~ Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. ~ Ensure operator is trained and certified to operate. ~ Ensure operator has proper PPE according to the Redbook and/or RMA. ~ Question if it is mission critical.
All	Communications	<ul style="list-style-type: none"> ~ Maintain communication with aviation resources, and suppression organization. ~ Ensure all know frequency and protocol for contacting resources. ~ Utilize the ICS 205. ~ Utilize human repeaters when working in dead spots.
All	Wildlife & Livestock	<ul style="list-style-type: none"> ~ Watch out for wildlife & livestock inside fire area and along roadways. ~ Clean up all food and trash during each operational period. ~ Store all food in bear proof containers or in vehicles. ~ Slowly back away from any wildlife that you encounter.

COVID Mitigations and Screening Tool

Maintain Situational Awareness of The Fire Environment: 10 & 18, LCES

- Monitor each other, watch for symptoms (Firefighter Health Screening Tool).
- Never share PPE, UTV & flight helmets, radios, or other equipment
- Implement daily decontamination procedures of apparatus and equipment
- Adjust operational periods to allow for additional COVID-19 logistics.
- Plan for overnight lodging/camping/feeding scenarios that maintain separation from other fire personnel and community

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

American Fork AND Divide Complex Overnight Medical Incidents – contact DIVIDE COMMUNICATIONS on COMMAND, or if unreachable, contact by phone 208-401-6806.

Balsinger will be using Belt Ambulance as fire is in Cascade County. Complete Medical Incident Report (8 line) per process with responding dispatch center.

Weed Wash

OPEN UNTIL 2100

Mandatory when:

- Checking in
- Moving between fires
- Demob

Located 1.3 miles west of US 89 on Luppold Rd (AKA Cemetery Rd).

Finance

Send your CTRs and Shift Tickets to the email below that correlates with the fire on your resource order, even if you are working on different fire.

2021.divide.finance@firenet.gov

2021.americanfork.finance@firenet.gov

CTRs/Shift Ticket – Please document what fire and division you are working on in the comment section of each CTR or Shift Ticket. This will help us with cost share information on the fire.

Common mistakes: missing dates, wrong dates, missing order number, picture does not show supervisors signature.

Document reason for Hazardous Pay on CTR.

Last working day – please contact finance via email two days prior to your demob day.

If you are an AD please send your casual hire form to the correct email address above. Use the email address that corresponds to the fire on your resource order.

Finance Remote Processing Procedures

To the right is access to electronic Finance forms. You can access them via the QR code or the URL. On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop. They are Adobe PDF forms so you will need a PDF reader app on your device. The forms were created on a laptop so the commands in your cell phone and tablet do not allow for the Save and Print functions to work. You will need to use your app's functionality to Save or Print.

Once you have completed the appropriate form for your resource please email to your supervisor for approval.

Supervisors can use their app to apply a signature or just type /s/ your name on the approval line. After approving please email the approved form back to the resource for their record and to the correct finance email:

2021.americanfork.finance@firenet.gov

2021.divide.finance@firenet.gov

Resources: Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to the correct finance email:

2021.americanfork.finance@firenet.gov

2021.divide.finance@firenet.gov

General Message

Human Resource Message

The mission of the Gold Team is to safely, effectively and efficiently manage the Divide Complex and American Fork Fire by maintaining a team of skilled and productive personnel. During this incident we will strive to successfully complete our mission and achieve our objectives while creating a positive, drug and alcohol free work environment for all assigned incident personnel. Consumption of drugs that alter decision making abilities, such as marijuana and alcohol, is prohibited while assigned to the incident.

The Gold Team fully supports EEO and will not tolerate sexual harassment or any form of discrimination!

All inappropriate behavior will be dealt with promptly. Disciplinary action and reporting back to an individual's home unit will be initiated as necessary.

Please report any incidents of inappropriate behavior to your supervisor, Marty Bentley or myself immediately.

Deborah Beard, Incident Commander

TRAINING MESSAGE

Check-in – If you have a position task book (PTB), please scan the QR code or click the link below to initiate the check-in process with the Incident Training Specialist. Please complete the form in its entirety. Upon completion, at your earliest convenience, **please email a copy of your qualification card and position task book cover to Al Hoke at ahoke@gfc.state.ga.us.**

For your convenience, an electronic ICS-225 or ICS-226 and Evaluation Record will be sent to you after you complete the check-in process. Electronic Evaluation Records, Trainee Data Forms can also be provided.

<https://forms.office.com/g/25cqnByg71>

Demob – In order to receive credit for your assignment, you must close out with the Incident Training Specialist prior to departure.

Close out requirements include:

1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
2. Obtain an Incident Performance Rating (please sign in the appropriate block at the bottom of the form);
3. Obtain an Evaluation Record;
4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
5. Email all documentation (including item #4, when appropriate) to ahoke@gfc.state.ga.us;
6. Please scan the QR code or click the link below to complete the Incident Trainee Exit Interview with the Incident Training Specialist.

SUBMIT YOUR PHOTOS & VIDEOS

Documentation Documentation Documentation

Don't forget to submit your documentation to Plans!

For those in the field you can scan or take a picture and email it to the plans section - American Fork at 2021.americanfork.docs@firenet.gov or Divide at 2021.divide.docs@firenet.gov

For those with access to America Fork or Divide Teams submit your documents in the correct General Channel>Files>DOCUMENT Inbox

**Make sure you use the NEW Electronic File Naming Convention.
File Naming Convention Format**

Standard for all Section/Unit files

{DocType}_{DocVersion}_{Date}_{IncidentNumber}

EXAMPLE – 214_BearSmokey_20210727_005087

File Naming Components

DocType is the title of the document or the ICS form number
(examples: Public Meeting Events; 296).

DocVersion identifies individual files with the same doc type and date or a file that necessitates a name ID.

Not all electronic files will need a DocVersion

(examples: Resource Name; Aircraft Tail number; Resource Order number; Time).

Date is entered as YYYYMMDD – Y=year; M=month; D=day

(example: 20210704 represents the date July 4, 2021).

IncidentNumber is the six-digit incident number 000NNN – N=numeral

(example: 000363 represents the incident number RM-SJF-000363).

IF YOU ARE FLYING YOU MUST CONTACT DEMOB AT LEAST 3 DAYS BEFORE YOUR DEMOB DATE TO GET A FLIGHT.

On your demob day, or last work day, personnel should:

1. Turn in all supplies, radios and computer equipment checked out from the incident.
2. They should ensure that all Unit Logs and evaluations are submitted to Documentation electronically. 2021.americanfork.docs@firenet.gov
3. Go to the Ground Support Unit for equipment inspections.
4. Go through weed wash and obtain a receipt to verify that the equipment has been cleaned. Return that receipt to demob (this can be done virtually if necessary by emailing a picture of the receipt to: 2021.americanfork.demob@firenet.gov).
5. Go to the Time Unit to complete time and review their final OF-288 or OF-286. This may be done virtually if necessary.
6. Report back to the Demobilization Unit to verify travel information home, including ETD/ETA and RON locations. This can be done virtually if necessary.

Call Jeff DeMatteis, DMOB at 937-506-6181 if you have questions.

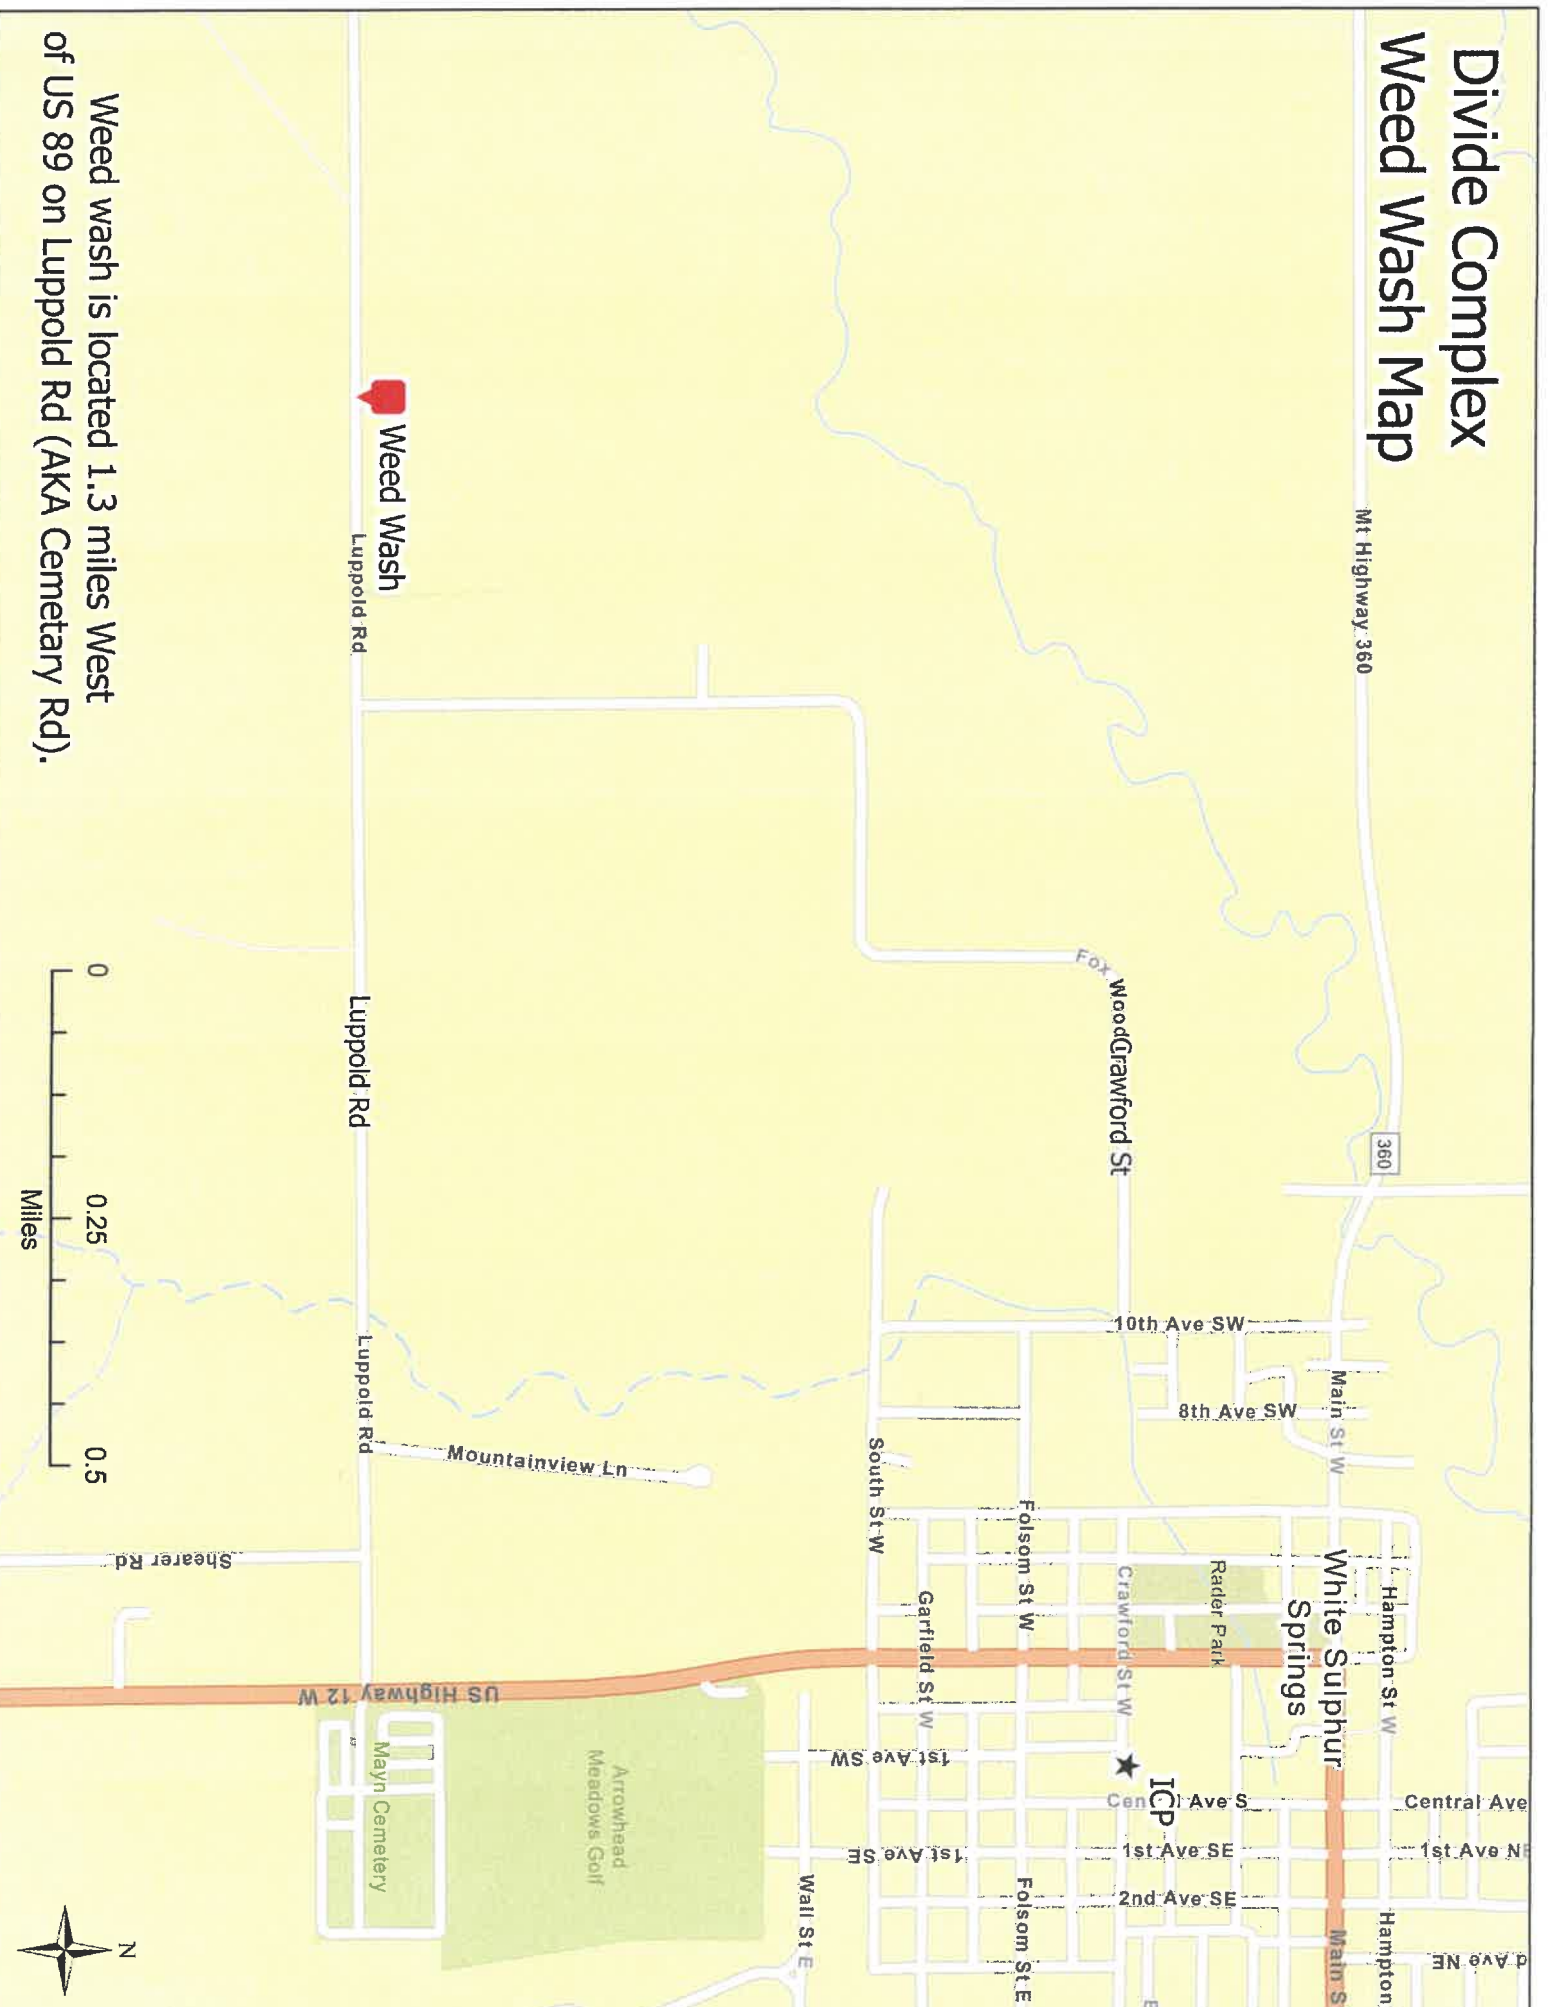

Email: 2021.americanfork.demob@firenet.gov

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o – 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o – 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
