3. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES)

Management Objectives

- 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements.
- 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics.
- 3) Maintain and strengthen relationships with the Helena-Lewis and Clark NF, Custer-Gallatin NF, private landowners, the public, cooperators and partners by providing timely and accurate information.
- 4) Use management actions that ensure fire personnel safety from contact with bears through compliance with the Food Storage Special Order.
- 5) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement.
- 6) Protect impact to cultural resources through consultation with local forest specialists.

Control Objectives

Divide Complex

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 2) Protect Tenderfoot Experimental Forest infrastructure within the tenderfoot drainage.
- 3) Protect the communities of Belt Park, Deer Creek Estates, Monarch, Neihart and the Hwy 89 corridor to avoid loss or damage to private lands and critical infrastructure.
- 4) Use mechanized equipment to establish and improve control lines where approved to minimize risk and exposure to firefighting resources.
- 5) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

American Fork Fire

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 2) Keep fire on Forest Service lands to protect and limit impact to adjacent landowner property and values at risk.
- 3) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

Woods Creek Fire

- 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success.
- 4) Keep fire on Forest Service lands to protect and limit impact to adjacent landowner property and values at risk.
- 2) Protect private properties along Camas Creek, Birch Creek and Benton Gulch to avoid loss or damage to private lands and critical infrastructure.
- 3) Protect Values at Risk such as the Miller Cabin, the Thompson Guard Station and the Duck Creek communication towers on FS 4023 road.
- 4) Protect the west slope cutthroat trout habitat in Camas Creek by limiting fire intensity and ground disturbance where feasible.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 18

TYPE OF FIRE: Wildland

FIRE NAME: Divide Complex, American Fork, & Woods Creek

OPERATIONAL PERIOD: Day & Night Shift

DATE ISSUED: 08/08/2021 **TIME ISSUED:** 1800

SHIFT DATE: Monday, August 9, 2021

UNIT: Helena, Lewis & Clark, and Custer Gallatin NF

SIGNED: Greg Titus, FBAN

WEATHER SUMMARY:

See weather forecast in IAP for detailed forecast. **Low RH values, strong gusty winds, and lightning.**

Local Thresholds – Watch Out

20-foot winds over **13 mph**, RH under **17%**, Temperature over **82°**, 1,000-hour fuel moisture under **14%**.

FIRE BEHAVIOR:

GENERAL: The dominant fuel types found in the fire areas are heavy mixed conifer stands and short grass outside the forested areas. Heavy and live fuel moistures are at critical levels.

Fine Dead Fuel Moisture = **6%**, 1,000 Hour Fuel Moisture = **6-8%**, Live Fuel Moisture = **115-125%**

Live fuels (grass, herb, and woody) are continuing to cure and becoming more available.

Open short grass areas significantly slow rates of spread.

Heavy and taller grass areas are becoming less of a barrier to fire.

ERC's are above the 90th percentile for most RAWs in the area.

Moderate surface fire behavior with surface fire,

| Fuel Model | Average Rate of Spread | Average Flame Length |
|---------------------|--|---------------------------------|
| Grass (GS2) | 1-3 ch/hr | 1-2 foot |
| Mixed Conifer (TU5) | 13 ch/hr Extreme 30 ch/hr | 7 feet Extreme 10 feet |

Spot fires: **5-15** acres in one hour in mixed conifer stands.

Probability of Ignition = **55%**

Spotting distance up to **0.5** miles
1.0 mile during gusts.

Specific Areas to Watch and Pay Close Attention:

Potential areas of fire well away from the current fire edge due to long range spotting from yesterday's wind event.

Balsinger

Diminished fire behavior today on all Divisions due to yesterday's rainfall. Areas of heat will show back up tomorrow as fuels dry.

American Fork

Div. M – Area of concern is Lodgepole Creek.

Div. P – Watch for fire movement and runs in the Shields River drainage, around the Crandell Creek.

Woods Creek

Div. AA – Mule and Moose Creek drainages.

Div. MM – Remain alert in the Gypsy Creek area, especially Big and Little Birch Creek drainages, these drainages align with forecasted SW wind.

New areas of concern is the Deep Creek and Russell Fork of Deep Creek drainages. Fire may also move into the Cooks Creek drainages.

AIR OPERATIONS:

Smoke may present issues for air operations.

SAFETY:

Things will be different today. Fire has moved into new areas. Look for additional spot fires away from the main fire. Trees could have been weakened from the strong winds. Keep up your SA today and gain a fresh awareness.

HEALTH AND SAFETY MESSAGE

“We don’t plan on luck to be safe, we plan on sound risk management and good decisions”....the Red Team

Incident: Divide Complex

DATE: Monday, August 9th, 2021

Major Hazards & Risks: Driving, False Sense of Security

“Driving.....Are You that person”

- *Vehicles speeding on some of the main highways are being reported and are a concern. Remember that we are “guests” on the incident and in the town. Respect the posted speed limits and obey local signs when you are driving. Wildlife continues to be an issue on all roads. Slow down and drive defensively as necessary.*
- *The recent rains will decrease fire activity today on some areas of the fire. Not all of the fires received rainfall. Don’t have a false sense of security that the fire is completely out or fire behavior will not be intense. Some portions of the American Fork Fire were still active immediately after the rain yesterday.*

KNOW YOUR OBJECTIVES

- **TASK:** *What is to be done...Strategy and tactics*
- **PURPOSE:** *Why it is to be done...Big picture: who, what, when, where, why, etc.*
- **END STATE:** *How it should look when I’m done. quantify your expectations: aka: Leaders Intent*

KNOW YOUR LIMITATIONS

- *Employ your resources in accordance with their capabilities - set them up to succeed!*
- *Know yourself and your limitations -seek feedback from peers and upper management if in doubt.*

| <p>To the right is access to electronic Finance forms. You can access them via the QR code or the URL. On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop. They are Adobe PDF forms so you will need a PDF reader app on your device. Human Resource Message

All I really need to know I learned in Kindergarten

by Robert Fulghum

Wisdom is not at the top of the graduate-school mountain, but it was in the sand pile out on the playground in kindergarten. These are the things Robert Fulghum learned:

1. Share everything.
2. Play fair.
3. Don't hit people.
4. Put things back where you found them.
5. Clean up your own mess.
6. Don't take things that aren't yours.
7. Say you're sorry when you hurt somebody.
8. Wash your hands before you eat.
9. When you go out into the world, watch for traffic, hold hands and stick together.

A few more I would add include:

1. Smile to everyone you see.
2. Listen more than you speak.
3. Be nice to everyone.

**If you think the cost of training
is expensive, check out the cost
of ignorance!**

DEMOB HOURS 0700 - 2000

*****If you need a flight home, contact demob at least 72 hours before your demob day to make arrangements. *****

Three things to keep in mind about demobbing:

- 1. You need to be off shift for minimum 8 hours and rested before we can let you start travelling.**
- 2. You need to be back to your home unit by 2200 hours or you have to RON and continue travelling the next day.**
- 3. If you are taking a flight home, please shower and put clean clothes on. Your fellow passengers will be very appreciative and you won't end up on the no fly list!**

On your demob day, or last work day, you should:

1. Turn in all supplies, radios and computer equipment checked out from the incident.
2. Email all ICS-214s (Unit Logs) and evaluations Documentation at 2021.divide.docs@firenet.gov
3. Go to the Ground Support Unit for equipment and vehicle inspections.
4. Go through weed wash and obtain a receipt to verify that the equipment has been cleaned. Return that receipt to demob (this can be done virtually by emailing a picture of the receipt to: 2021.divide.demob@firenet.gov.)
5. For water handling equipment that has drafted from streams, lakes or ponds, you must decontaminate your fittings and drafting hose (footvalve, hose, etc) at the Aquatic Invasive Species Decontamination station co-located with the weed wash. Follow directions on the tank.
6. Contact Time Unit to complete time and review your final OF-288 or OF-286. This may be done virtually. See instructions in IAP.
7. Report back to the Demobilization Unit to verify travel information home, including ETD/ETA and RON locations. This can be done virtually by calling DMOB.

Call Marg Olson, DMOB at 573-647-5844 if you have questions. 2021.divide.demob@firenet.gov

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.
