---	---

14. Date/Time Submitted: 08/23/2021 2052 MDT	15. Primary Location, Organization, or Agency Sent To: RMCC
--	---

16. State: MT	17. County / Parish / Borough: Lincoln	18. City: Troy
-------------------------	--	--------------------------

19. Unit or Other:	20. Incident Jurisdiction: MT-KNF	21. Incident Location Ownership (if different than jurisdiction): MT-KNF
--------------------	---	--

22. Latitude/Longitude: Latitude: 48° 20' 24" Longitude: 115° 58' 3"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:	24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:
--	---	---

25. Short Location or Area Description (list all affected areas or a reference point): 9 miles SW of Troy, MT	26. UTM Coordinates: Zone: Easting: Northing:
---	--

27. Note any geospatial data available (indicate data format, content, and collection time information and labels): All GIS data and products are available at: https://ftp.nifc.gov/public/incident_specific_data/norther_rockies/2021_Incidents/2021/BurntPeak/

28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Minimal Smoldering
--

Incident Status Summary (ICS-209)

Incident: **Burnt Peak**

Narrative:

Minimal activity across the fire with low fire behavior observed. Heavy fuels and thick duff continue to smolder.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Timber (Litter and Understory)
Timber (Grass and Understory)**

Narrative:

Dense timber stands with continuous brush and grass understory. Heavy dead and down fuel load with a continuous thick duff layer.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

Area, road, and trail closures in effect. Four residences, nine minor structures, Bull trout habitat, Grizzly bear habitat, and timber resources could become threatened with continued drying and increase in fire behavior. The fire is burning into Inventoried Roadless Areas.

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	0	0	0
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	0	0	0
I. Other Minor Structures	0	0	0

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0		0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0		0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Civilians (Public) Affected:	0		0

32. Responder Status Summary:

C. Indicate the Number of Responders Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0		0
E. With Injuries/Illness	3	0	3
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0		0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Responders Affected:	3	0	3

33. Life, Safety, and Health Status/Threat Remarks:

(32 E.) Three total to date. Zero for previous report. Safety concerns include: Steep rugged terrain, heavy equipment working the fire area, decreased visibility limiting air support, grizzly bear management area within fire area. North Fork Keeler Creek Road

34. Life, Safety, and Health Threat Management:

	Active?
A. No Likely Threat	<input type="checkbox"/>

Incident Status Summary (ICS-209)

Incident: **Burnt Peak**

<p>residences could be affected following several days of drying. Lincoln County is experiencing an increase in numbers of COVID cases. GB Team 5 is committed to following the guidance set forth by the CDC during the latest surge in COVID variants.</p> <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Mostly clear skies with westerly flow through Thursday. Temperatures are to be expected to in the low 70s with RH in the 20s.</p>		Active?
	B. Potential Future Threat	X
	C. Mass Notifications in Progress	
	D. Mass Notifications Completed	
	E. No Evacuation(s) Imminent	
	F. Planning for Evacuation	
	G. Planning for Shelter-in-Place	
	H. Evacuation(s) in Progress	
	I. Shelter-in-Place in Progress	
	J. Repopulation in Progress	
	K. Mass Immunization in Progress	
	L. Mass Immunization Complete	
	M. Quarantine in Progress	
	N. Area Restriction in Effect	
O. Road Closure	X	
P. Trail Closure	X	
Q. Area Closure	X	

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>	
12 hours:	(Overnight): Fire behavior is anticipated to be low throughout the fire area. The fire will continue to smolder in thick understory fuels and burn through the heavy dead/down fuels.
24 hours:	(Tuesday): Fire behavior is anticipated to be low throughout the fire area. The fire is expected to continue to smolder in thick understory and heavy dead/down fuels. Entering a warmer and drier weather pattern.
48 hours:	(Wednesday): Fire behavior is anticipated to be low throughout the fire area. The fire is expected to continue to smolder in thick understory and heavy dead/down fuels. Entering a warmer and drier weather pattern.
72 hours:	(Thursday): Entering a warmer and drier weather pattern as the low pressure system exits the area.
<p>Anticipated after 72 hours: Seasonally average temperatures and RH. Low risk to values in the fire area as the fire continues to slowly creep and back downslope. Heat will remain in the heavy dead and down fuels.</p>	

<p>37. Strategic Objectives (define planned end-state for incident):</p> <p>Risk to private property, infrastructure, and merchantable timber have been reduced using appropriate resources to implement tactics in locations with reasonable probabilities of success. At the conclusion of the incident, there will have been no serious accidents or injuries, suppression damage will have been documented for future repair and cooperators and the public relationships will have been enhanced.</p>	
---	--

<p>38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:</p>	
12 hours:	(Overnight): Low risk to structures southwest of the fire (North Fork of Keeler Creek) as the fire continues to smolder. No anticipated impacts to values at risk.
24 hours:	(Tuesday): Low risk to structures southwest of the fire (North Fork of Keeler Creek) as the fire

Incident Status Summary (ICS-209)

Incident: **Burnt Peak**

	continues to smolder. No anticipated impacts to values at risk with the anticipated drying trend.
48 hours:	(Wednesday): Low risk to structures southwest of the fire (North Fork of Keeler Creek) as the fire continues to smolder. No anticipated impacts to values at risk with the anticipated drying trend.
72 hours:	(Thursday): Low risk to structures southwest of the fire (North Fork of Keeler Creek) as the fire continues to back slowly down slope toward the drainage.
Anticipated after 72 hours:	Low risk to structures southwest of the fire area as the fire continues to slowly back down slope toward the drainage.
39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
	3 SOFR
12 hours:	1 EMPF
	2 TFLD
24 hours:	same as above
48 hours:	same as above
72 hours:	same as above
Anticipated after 72 hours:	same as above
40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:	
1) critical resource needs identified above,	
2) the Incident Action Plan and management objectives and targets,	
3) anticipated results.	
Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.	
In alignment with the Kootenai Forest Plan and WFSS direction for the Burnt Peak Fire, implement a full suppression strategy to meet incident objectives. Current Critical Resource Needs are necessary to meet objectives and fulfill the Delegation of Authority.	
41. Planned Actions for Next Operational Period:	
Heavy equipment is preparing the alternate line on the southwest flank (473 road/Keeler Rattle Road). Crews will hold and improve the roads east of the fire (404 road) and work on primary containment lines northeast of the fire (Surprise and Carr draws) from the 404 road to the top of Goat Mountain (Div P). Resources will continue road preparation north of the fire along Callahan Rd (Div K). Crews will complete suppression repair on the 4542 road.	
GBIMT5 will continue to communicate with local emergency management personal on fire behavior or conditions requiring a change in tactics or response posture.	
42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"):	
43. Anticipated Incident Containment or Completion Date: 09/30/2021	
44. Projected Significant Resource Demobilization Start Date:	
45. Estimated Incident Costs to Date: \$25,143,327.00	
46. Projected Final Incident Cost Estimate:	
47. Remarks (or continuation of any blocks above – list block number in notation):	
GBIMT5 is managing both the Burnt Peak and South Yaak Fire. Resources are being assigned to the Burnt Peak financial code and incident number. Estimated costs reflect a more accurate representation.	
49. Resources (summarize resources by category, kind, and/or type; show # of resources on top 1/2 of box, show # of personnel associated with resource on bottom 1/2 of box):
