INCIDENT OBJECTIVES

Incident Name Cougar Rock Complex 2. Date Prepared 07/17/2021

3. Time Prepared 1900

4. Objectives

High Value Assets and Resources to be Protected:

- Private properties, infrastructure and timber resources.
- Habitat reparation and watershed, cultural, historic, and heritage sites.
- Waterways and riparian areas.

Leader's Intent:

- Protect human life. Firefighter and public safety will be given the highest priority at all times. Risks to firefighters and the public will be managed by utilizing a risked-based approach to decision making. An emphasis will be placed on exposure to accidents and heat related illness.
- Minimize the exposure of the public and responders to transmission or infection from COVID-19 by following agency guidance and established CDC, local, state and national guidance to ensure a healthy work environment.
- Communicate proactively with agency staffs, cooperators, permittees and stakeholders, including PotlachDeltic, Idaho Department of Lands, United States Army Corps of Engineers, United States Forest Service, the Nez Perce Tribe, and the Clearwater County Sheriff, Emergency Management Coordinator and County Commisioners, through effective and timely dialogues, meetings and comprehensive information sharing for purposes to include public safety, evacuations, traffic control, road closures, structure protection and any other safety risk to public and industrial operators.
- Inform the Agency Administrator and Association Line Officer of any public meetings and media contacts and coordinate with the Clearwater IDL and CPTPA to ensure that we build on existing relationships, contacts and key messages.
- Utilize appropriate fire strategies to minimize fire impacts to residences, commercial properties, critical community infrastructure and natural resources, and critical watersheds.
- Implement appropriate measures to limit the spread of noxious weeds, including washing all vehicles and equipment upon arrival at the incident and departure from the incident.
- Work with agency staff and cooperators to assess wildfire effects to infrastructure and watersheds and develop and implement short-term actions to address high-risk watershed impacts.
- Commit incident resources only where there is a high probability of meeting reasonable objectives or when the risk of injury or death can be mitigated.
- Follow and adhere to the 10 standard orders. Continually evaluate the 18 watch out situations through clear concise direction and understanding of assignments and necessary mitigations.
- Maintain and foster relationships with users of public lands, landowners, agencies and local communities.
- Maintain the highest degree of professionalism on the incident and within local communities.
- Adhere to applicable work-rest guidelines to reduce fatigue and ensure that assigned fire-fighting personnel receive adequate rest.
- Maintain a workplace and atmosphere of mutual respect and free of any harassment. There will be no tolerance for any unethical, illegal drug or alcohol related incidents.
- Effectively manage costs commensurate with the high value assets and resources to be protected and risks.
- Efficiently demobilize resources in a manner that will ensure safe travel and "right-sizing" consistent with demobilization glidepath direction.

Operational Objectives:

- Scout for and prioritize potential fire suppression and values at risk protection opportunities.
- Gather intelligence on personnel and equipment on the incident.
- Engage in fire suppression and/or values at risk protection actions and/or point protection when safe to do so with available resources.
- Respond as appropriate to, and commensurate with the prioritization of, new/emerging incidents.
- Act with appropriate prioritization if presented with the opportunity to rehabilitate resource damage caused by suppression actions.

Fire Weather Forecast

FORECAST NO: 9

PREDICTION FOR: Day SHIFT

SHIFT DATE: Sunday, 07-18-2021

NAME OF FIRE: Cougar Rock Complex

UNIT: CPTPA

SIGNED: Eric Trimble/Nathan Lancaster, FBAN

TIME AND DATE

FORECAST ISSUED: 1900 7/17/2021

WEATHER DISCUSSION: For Cougar Rock Complex (Hobbit 1, Scott, Trapper Saddle, Goat Creek)

Very warm and dry weather will continue this weekend. Increased moisture late Monday through Wednesday along with a series of waves passing through the area will bring a chance of showers and thunderstorms. Storms are expected to be mainly elevated and quick moving with light rain amounts favored.

Today Sunday, July 18:

WEATHER: Mostly Sunny. Hazy.

TEMPERATURES:

Fire: 80-84°F

HUMIDITY:

Fire: 29-33%

WINDS (20ft): Variable 1 to 4 in the morning becoming upslope 3 to 8 mph by late morning, early afternoon.

HAINES INDEX:

4 Low

LAL: 1 CWR: 0%

WEATHER DISCUSSION: For Cougar Rock Complex (Butte Creek, Benton Ridge Fires, Lovell Knob, Sheep, Owl)

Expect poor RH recoveries on the fire tonight due to strong thermal belts. Sunday will see hotter and drier conditions with continued smoke from area fires. Some improvement in smoke is possible in the late afternoon and evening, which should allow for increased instability and thus a Haines of 5. Winds will be terrain driven most of the day, becoming more southwesterly as the atmosphere destabilizes in the afternoon.

Today Sunday, July 18:

WEATHER: Sunny, Smoke

TEMPERATURES:

Fire: 85-90°F

HUMIDITY:

Fire: 25-30%

WINDS (20ft): Variable 1 to 3 becoming SW 3-5 mph by late afternoon.

HAINES INDEX:

5 Moderate

LAL: 1

CWR: 0%

EXTENDED FORECAST: Monday - Friday

Monday....... Mostly cloudy, Smoke and Haze. Slight chance of rain. Lows 60's. Highs 80's. Winds: SW 5-10 mph. Haines: 5

Tuesday...... Mostly cloudy with a possibility of afternoon T-storms. Higher RH's. Low's 60's. Highs 80's. Winds: NW 5-10 mph.

Wednesday.. Mostly clear. Slight chance of rain showers and T-storms. Lows 60's. Highs 80's. Winds: West 5-10 mph.

Thursday......Mostly clear. Smoke and haze. Lows 60's. Highs 80's.

Friday......Mostly clear. Smoke and haze. Lows 50's, Highs 80's.

	FIRE BEHAVIOR FORECAST
FORECAST NUMBER: 9	INCIDENT TYPE: Wildfire
FIRE NAME: Cougar Rock Complex	OPERATIONAL PERIOD: July 18, 2021 Sunday
DATE ISSUED: July 17, 2021	TIME ISSUED: 1800
UNIT: ID-CPTPA	PREPARED BY: Eric Trimble/Nate Lancaster FBAN
	INPUTS

WEATHER SUMMARY:

Sky Weather: Smoky/hazy skies. CWR (>0.10"): 0%, Temps: 80-88°, RH: 25-33%, Haines: 4-5 Low to Moderate with a possible Haines of 6 in Branch II under clear skies; LAL: 1

Winds (20 ft): SW 3 to 6 mph

FUELS: Cougar Rock Complex- 14 fires

Mixed conifer forest dominated by Western Red Cedar, Douglas Fir, Western Larch, and Grand Fir. Subalpine Alpine Fir, Engelman Spruce and Lodge Pole Pine at the higher elevations (>4,800'). All age and size classes of conifer fuels with relatively high crown bulk density and low crown base heights. Light to moderate amounts of dead fine fuels and logging/thinning slash will contribute to surface fire spread. Herbaceous and live woody fuels are green and will generally not contribute to fire spread.

Fine Fuels: 5-7%; 10-hr: 8%; 100hr: 9%; 1000hr: 12%

ERC: 95th to 98th percentile. Max spotting distance: 0.2 Mile

OUTPUTS - FIRE BEHAVIOR

General:

Terrain and fuel-driven fire. Shading due to off-site smoke will continue to limit fire activity. However, there is a 50:50 chance that the smoke will clear out by mid-day allowing for higher atmospheric instability. A Haines of 6 is possible, particularly in Branch II. Should this occur expect very active surface fire activity with a potential for large group-tree torching and short to mid-range spotting. Highest activity to occur within Subalpine Fir/Engelman Spruce stands at the higher peaks and on the steeper sites (>60% slope) with 70-80% consumption of the 1-hr, 10-hr and 100-hr fuels. Smoke from other fires and under inversion may temper fire activity. Live fuels and young conifer plantations should discourage crown fire activity, until fuels dry in the upcoming weeks.

Backing/flanking spread 1-2 ft/min with flames 2-4 ft. Head fire with possible 5-8 ft. flame lengths and 9-12 ft/min rates of spread on the steeper sites, higher with torching and when slope and wind align. Spotting will increase as the inversion breaks and as receptive fuels continue to warm and dry.

Specific:

Benton Fires: Continued movement to the NW toward the Reservoir.

Butte Creek: Continued fire growth towards the NE.

Goat Creek: Sub-alpine fir will continue to promote fire spread thru multiple tree and group torching in most directions.

Scott Road: Continued Fire spread in the Floodwood drainage, N on FS ground towards Hemlock Creek Rd.

Probability of Ignition (PIG): 70-80% during the peak of the burning period.

AIR OPERATIONS: Marginal VFR due to widespread smoke.

SAFETY: Don't stand too close to people that are always bandaged up.

7. Control Operations							

Group includes the Owl and Washington Creek fires.

Task: Secure fire edge along FS Scofield Sourdough road working to the east and west of main fire. Continue to open roads T6050 and T6050A. Look for direct line opportunities from Sneak Creek to Sourdough road.

Purpose: Keep fire south of FS Scofield Sourdough road and north of Sneak Creek. End State: The Owl fire has a viable fire suppression/values at risk protection plan.

8. Special Instructions

Owl fire has priority.

Utilize LCES.

Grandad Bridge and Captains Cabin road closures will be staffed by Clearwater Co. S.O. Deputies from 0600-1800 and 1800-0600.

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Cougar Rock Complex

Date:

July 18, 2021

Shift: Day

0600-2200

SAFETY MESSAGE SAFETY IS OUR FIRST PRIORITY

Fire fighter safety comes first on every fire, every time

SAFETY QUOTE

"It tis the Foolish man who dares to not Care about his own safety" Safety Slide Rock fire

Our History in tragedy:

6-30-13 Yarnell, 19 dead, burnover

7-10-01 Thirtymile, 4 dead, burnover

7-17-76 Battlement Creek, 3 dead, burnover

7-23-07 Elk fire, 1 dead, helicopter crash

7-6-94 Strom King, 14 dead, burnover

7-16-76 Battlement, 1 dead, air tanker crash

7-22-03 Cramer, 2 dead, burnover

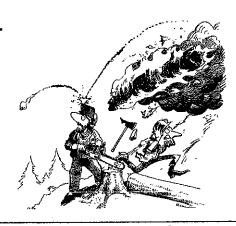

7-25-08 Dutch Creek, 1 dead, Tree strike

Northern Rockies employees 2021: 6-2-21 Eiks Fire, 1 dead, Jumper accident,

Northern Rockies Geographically 2021: 7-16-2021, Harris Fire, 1 injuried, engine burnover

FIRE SAFETY BEGINS WITH IJ

Remember that it is your life that is on the line. You have the right to voice your opinion and concerns about personal safety. Don't hesitate to speak up if you feel uncomfortable with the situation or the circumstance in which you are put in. Firefighting is inherently hazardous. Discuss your concerns with your immediate supervisor and/or with a Safety Officer. We are in this together!

Your Safety Team.... Marvin Carpenter, Jim Freestone and Opie Blackwell, and each and every one of

YOU!!

ASSIGNMENT-SPECIFIC MEDICAL EMERGENCY ACTION PLAN

Pre-Planning for today's assignment

Pre-Planning for	today's assignment	
What are the likel What kind of seve	y hazards that could cause injuries? re injuries?	
	n-charge DIVS or overhead for an rr assigned area today? (i.e. "Division	
	ical personnel assigned to your part of at are their capabilities?	
Other Emergency ambulance?	Responders: fire dept., crash rescue,	
	Command channel, Air to Ground, ers, local rescue/medical?	
	Ground vehicle, drop point, coordinates, travel route?	
Transportation methods available	Aircraft I.D, Helispot names, coordinates? Hoist capable, internal transport	
	Other available methods - contingency	
Most likely workf	force for evacuation	

Response checklist

Who takes charge?

- DIVS or designated Overhead manages the overall scene and evacuation process.
- Medical personnel and emergency responders manage patients and assist in rescue/extrication.
- OPS and IC make command decisions so the emergency can be given full attention and management. They continue to manage ongoing incident operations.

Response sequence:

- First, secure the scene and protect responders and patients from further injury. Render first aid.
- Clear the Command channel for "Emergency Traffic only" if this is a critical emergency. If <u>not</u>, inform Communications of non-critical-emergency status and use normal communications.
- Contact closest Medical personnel and DIVS or designated Overhead for response.

Information for Communications: <u>Medical Incident Report – See last page of IAP and IRPG</u>
pages 118 and 119.

Helicopter Extraction Operations: See IRPG pages 116 and 117.

Severe Weather: In the event of forecasted severe weather, <u>implement Incident Severe</u>
<u>Weather Plan</u>.

Incident Within Incident: Upon arriving at the incident, all overhead should obtain and review the team's incident Within Incident Plan.

Incident within Incident (IWI) Plan

Immediate response:

- Secure the site to prevent further injury to victims and responders.
- Render first aid using crew and line EMT's and nearby forces.
- Designate a Point of Contact at the scene. Notify communications who this is and when it changes.
- Notify Communications and Medical Unit. Identify whether this is a life threatening emergency or less serious injury.
- Communications requests "Emergency Traffic" to clear channel if it is a life threatening emergency.
- Transmit critical information from the scene to Communications: Type and extent of injury; Airway or breathing problems; serious bleeding; EMT present or needed; ALS needed. Give specific location of victim: Lat/Long; ground or air access; DP#; Helispot or helicopter medevac site. Do not use victim or crew names in any communications. Use the Medical Incident Report, pages 118 and 119 of the Incident Response Pocket Guide (IRPG) as a checklist.
- Request appropriate Medical Unit, incident resource and local 9-1-1 EMS response.
- Designate an Incident Within Incident Commander (IWIC). DIVS is normally in charge. Other Operations persons may be in charge until relieved. Notify communications who this is and when it changes.
- Communications: If requested, notify Local 9-1-1 EMS and other responders right away. Provide staging information, medical evacuation location(s), IWIC, medical contact information and communication protocol. Post Medical Incident Report at Communications desk to facilitate sharing critical information.
- Medical Unit Leader should assist the IWIC in coordinating any Local EMS, incident medical, and transportation response.
- Communications notifies DIVS, Line OPS and SOF2 to respond to the scene.
- In the event we are shadowing another team, provide whatever assistance we can to help them with the situation.

Aviation Mishap:

For an aviation accident within the fire area, the standard Incident within Incident protocols will be followed.

For an aviation accident outside of the fire area, the following procedure will be followed in addition to the Incident within an Incident Protocols.:

If an aviation accident is suspected or reported, Helibase will dispatch Air Attack to the location to assess the scene. If no Air Attack is available than the closest aviation resource will be dispatched. Helibase will then make a determination on the most appropriate helicopter available to respond for rescue considering time, capabilities, access, etc. Once on scene the helitack on site will designate a POC to be in charge of the situation until relieved. Once these resources are on scene and communication is established the Incident within an Incident protocols remain the same.

Finance Demob Process

The finance demob process can be done remotely or in person.

Remote Demob for Equipment and / or Personnel / Crews

- Complete your Last Day Shift Ticket and / or CTR (this would include your travel). Forest Service AD's need to project their time for their travel
- Write your email address on the Shift Ticket and / or CTR
- Send your Shift Ticket and / or CTR to:

2021.cougarrock.finance@firenet.gov

- Finance will complete the posting and send the documents back to you by email for your review and signature
- Please return the Final Signed Documents to the finance email (Contracted Equipment – in lieu of signature approval you may respond to the finance email that "All is Correct")
- Forest Service Casual Hire Employees (AD's) should also submit their travel information which may include per diem, lodging, baggage fees, gas receipts etc.

In Person Demob for Equipment and / or Personnel / Crews

- Complete your Last Day Shift Ticket and / or CTR (this would include your travel.) Forest Service AD's need to project their travel time.
- Turn in to finance the Shift Ticket and / or CTR for input
- A draft will be provided for review
- After review and approval a "Final" will be printed for signatures

If you have any questions call Finance at 208-820-4661

Upcoming Demob's:

COUGAR ROCK COMPLEX ID-CTS-000623 VIRTUAL DEMOB PROCESS

The following virtual demobilization process has been established for all resources demobilizing from the Cougar Rock Complex. You will need a cell or internet connection to complete the Check-Out Form.

<u>STEP 1:</u> Return all accountable property (radios, supplies, etc.) to the Communications Unit and/or the Supply Unit. ***ALL NON-LOCAL VEHICLES THAT HAVE BEEN OFF-PAVEMENT MUST GO THROUGH WEED WASH AT THE OROFINO ICP OR OTHER AREA DESIGNATED BY GROUND SUPPORT PRIOR TO DEMOBILIZING**

<u>STEP 2:</u> Deliver Unit Logs, Field WX Observations, Performance Evaluations and other documentation to the Documentation Unit at the Orofino ICP. If you do not check-out at the Orofino ICP, arrange with your supervisor to deliver your documentation to the Documentation Unit.

STEP 3: Finalize all CTRs and Shift Tickets and complete any other required Finance demobilization item(s) per the Finance Demobilization sheet.

<u>STEP 4:</u> After you have completed Steps 1, 2 and 3, use the following QR code to access the virtual Demobilization Form. After you have answered all questions, press the "SUBMIT" button to submit the form.

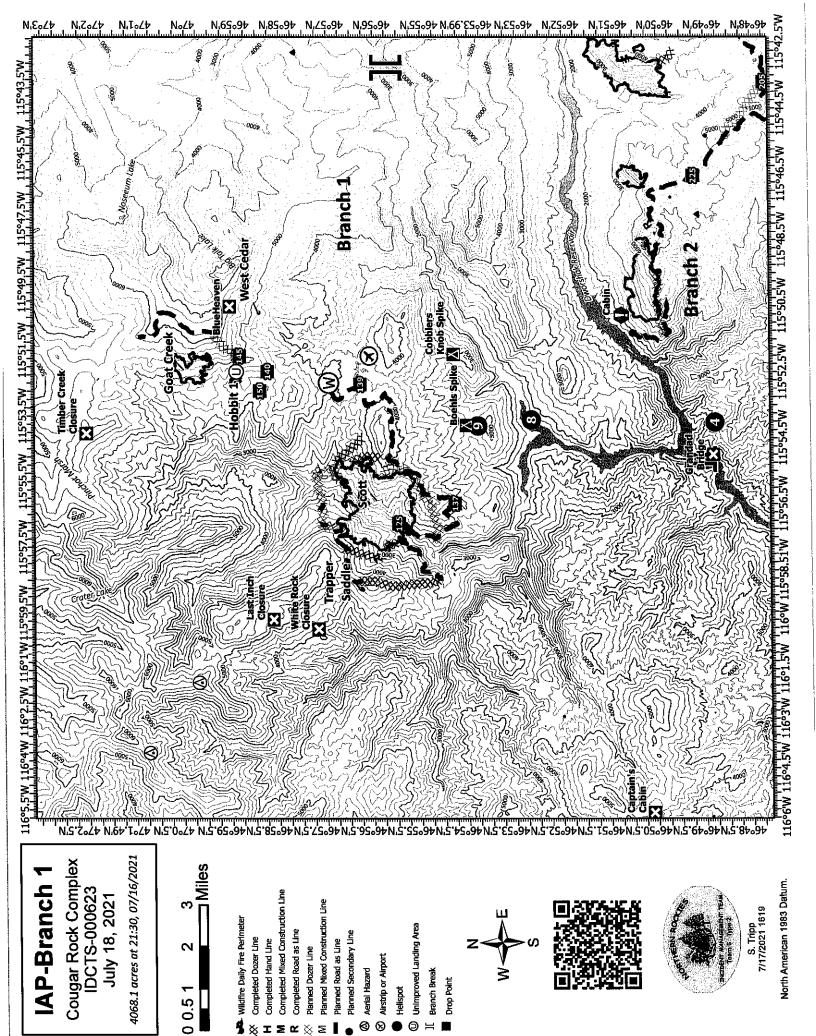

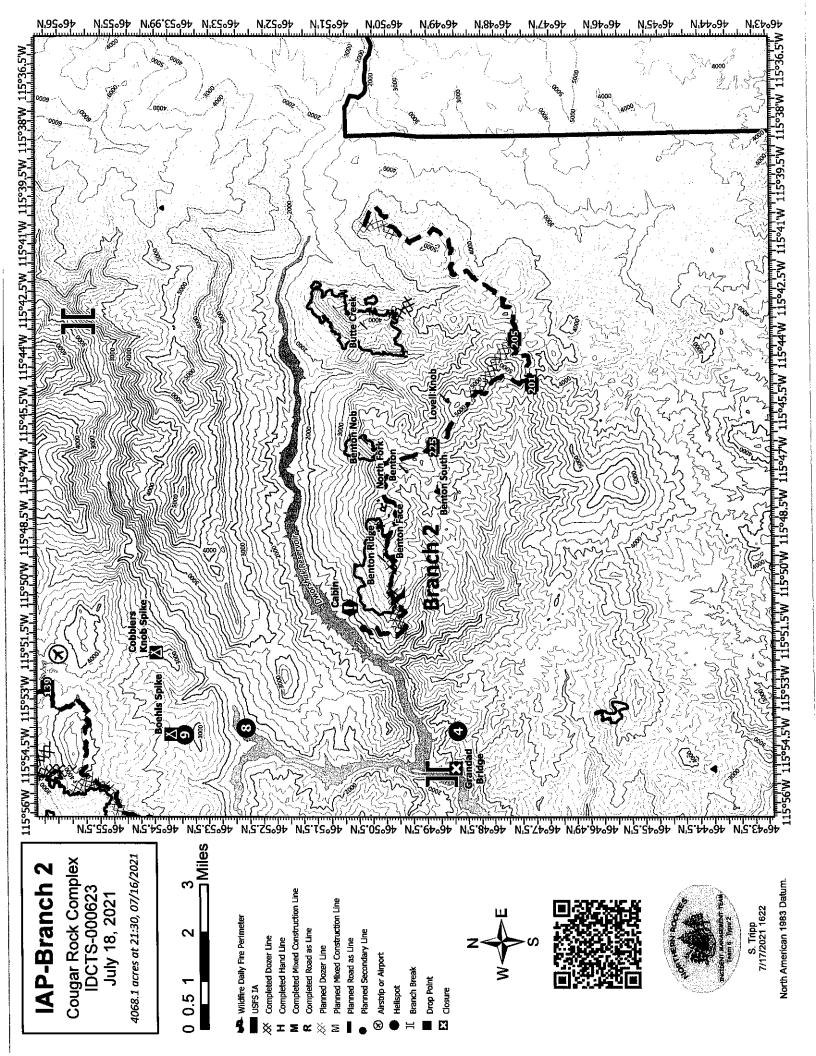

https://forms.office.com/g/gCN9QfrQPD

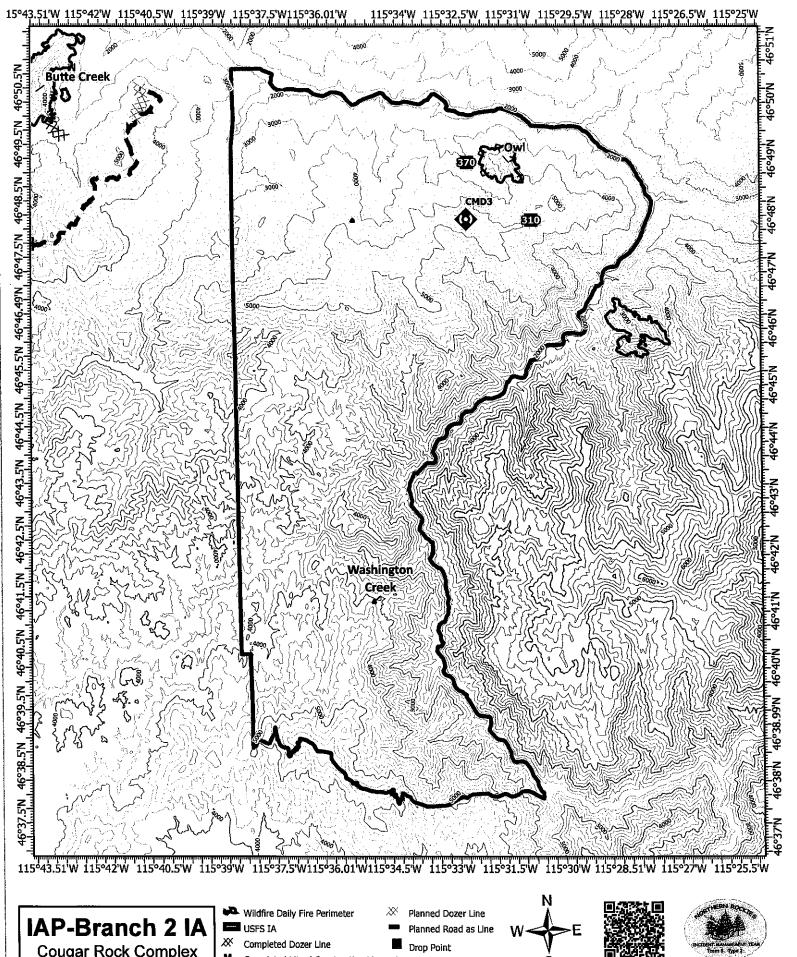

The Demobilization Unit will not demobilize you with Grangeville Dispatch until it has received your completed virtual Demobilization Form.

If you are unable to complete the virtual Demobilization Form, visit the Demobilization Unit at the Orofino ICP or contact the Demobilization Unit at 2021.cougarrock.demob@firenet.gov or at 208-494-2355 to complete your demob.

IF YOU ARE TRAVELING HOME BY AIR, YOU MUST CONTACT THE DEMOBILIZATION UNIT NOT LESS THAN **72 HOURS** PRIOR TO YOUR DEMOB DATE TO CONFIRM TRAVEL INFORMATION.
