

## INCIDENT ACTION PLAN - COUGAR ROCK COMPLEX - SOUTH OPS

ID-CTS-000623 Fire Code PN N5HF

Tuesday 08-10-2021

Day Shift: 0600-2200

### **SAFETY** starts with **YOU**

We are **ALL** accountable for **SAFE** behaviors

#### **MAJOR HAZARDS ALL DIVISIONS**

**BEES:** We have had problems with bees in the past! Flag nest locations and avoid the area.

**COVID:** Keep washing and/or sanitizing your hands and give people space. Maintain 6 feet of social distance.

**DRIVING HAZARDS:** Narrow roads...dusty roads...sharp corners...wash boards...DEER AND MOOSE...shade to sun corners...clean windshields inside and out...rocks, stumps and stobs hidden in the grass and dust along road.

**Snags:** Lots of large snags and week green trees throughout the forest...size up the area you are in frequently...flag suspect trees and mitigate appropriately..."Hazard Tree Safety" guidelines in IRPG...p. 22.

#### **HOT WEATHER** – It's just around the corner. Learn How to Survive the Heat.

Heat illness includes a range of disorders that result when your body is exposed to more heat than it can handle. The human body is constantly engaged in a life-and-death struggle to disperse the heat that it produces. One way to fight heat-related illnesses is to drink plenty of fluids.

#### **BE YOUR OWN SAFETY OFFICER and WATCHOUT FOR OTHERS!**

**Crew Briefings:** Take the time to give all your crew members a thorough situational and safety briefing. Identify hazards and discuss how you plan to mitigate those hazards.

**Medical Plan:** Review the Medical Plan, and familiarize yourself with the medical emergency protocols and 8 line protocols. Discuss the Emergency Medical Plan with your Division Supervisor and make sure you understand how it will be implemented. If you have qualified EMT's on your crew, please have them check in with the Medics for information and supplies.

# Mop-up Guidelines

Mop-up from the fire edge to a distance interior that:

- 1.) Minimizes hazard exposure to suppression resources;
- 2.) Is commensurate to the risk of escape from torching and spotting;
- 3.) Is a minimum distance of 100 feet if firefighter safety is not compromised.

Concentrate on ragged green fingers or islands that have potential to torch and spot. One hundred percent mop-up of all spot fires outside the perimeter.

## Keep Your Crew Healthy for the Next One!

- **Perform hand hygiene:** When soap and water are available, wash your hands often for at least 20 seconds, especially after coughing or sneezing. This is especially true when hands are visibly dirty, after touching commonly touched surfaces like porta potty doors, tables, and equipment, after using the toilet, or before eating. If soap and water are not readily available, alcohol-based hand sanitizers with at least 60% alcohol should be used.
- **Follow respiratory etiquette principles:** Cover your nose and mouth with a tissue when coughing or sneezing. If using a tissue, immediately throw away the tissue away after use and wash or sanitize your hands as described above.
- **Keeping hands away from face:** Practice not touching your eyes, nose, or mouth. While it may seem simple, germs often spread this way.
- **Clean and disinfect the environment appropriately:** Frequently touched surfaces in the workplace (engines, rigs, and buggies) should be routinely cleaned and if necessary disinfected.

**MEDICAL PLAN (ICS 206 WF)**  
Controlled Unclassified Information//Basic

**Medical Incident Report**

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**  
*Ex: Sprains, strains, minor heat-related illness.*

**Use the following items to communicate situation to communications/dispatch.**

- 1. CONTACT COMMUNICATIONS / DISPATCH** (Verify correct frequency prior to starting report)  
*Ex: "Communications: Div. Alpha. Stand-by for Emergency Traffic."*
- 2. INCIDENT STATUS:** Provide incident summary (including number of patients) and command structure.  
*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat/Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> <b>RED/PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> <b>YELLOW/PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.</b> <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> <b>GREEN/PRIORITY 3 Minor Injury or illness. Non-Emergency transport</b>
