3. GENERAL CONTE	ROL OBJECTIVES FOR THE INC	A						
Management Objectives 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements. 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics. 3) Maintain and strengthen relationships with the Helena-Lewis and Clark NF, Custer-Gallatin NF, private landowners, the public, cooperators and partners by providing timely and accurate information. 4) Use management actions that ensure fire personnel safety from contact with bears through compliance with the Food Storage Special Order. 5) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement. 6) Protect impact to cultural resources through consultation with local forest specialists. Control Objectives Divide Complex 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success. 2) Protect Tenderfoot Experimental Forest infrastructure within the tenderfoot drainage. 3) Protect the communities of Belt Park, Deer Creek Estates, Monarch, Neihart and the Hwy 89 corridor to avoid loss or damage to private lands and critical infrastructure. 4) Use mechanized equipment to establish and improve control lines where approved to minimize risk and exposure to firefighting resources. 5) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth. American Fork Fire 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs.								
		LCES***						
5. General Situational Awareness: **Enhanced Fire Weather Conditions Expected Today** Enhanced fire weather conditions are expected today for all fires for min RHs of 14-18 percent and hot temperatures. Winds will be more westerly initially and turn out of the NW as the day progresses. A chance for a shower or isolated thunderstorm will exist after 1800 hours. Isolated shower chances will continue through the overnight hours, primarily for the Divide Complex. Any shower/storm can produce erratic and gusty winds to 45 mph. Keep in mind gusty winds are possible far away from the nearest precipitation. Better RH recoveries (35-45%) are expected tonight with a partly to mostly cloudy sky.

INCIDENT Weather Forecast

View Local Obs →

-Submit Wx Obs!

PREDICTION FOR: Tuesday

SHIFT DATE: July 27, 2021

FORECAST ISSUED: 1800 July 26, 2021

NAME OF FIRE: American Fork/Divide Complex

UNIT: Helena/Lewis & Clark NF and Guster Gallatin NF

SIGNED: Cory Mottice

Incident Meteorologist

Enhanced Fire Weather Conditions Expected Today

Erratic and gusty winds to 45 mph possible with any shower or storm. Keep in mind gusty winds are possible far away from the nearest precipitation.

WEATHER DISCUSSION: Enhanced fire weather conditions are expected today for all fires for min RHs of 14-18 percent and hot temperatures. Winds will be more westerly initially and turn out of the NW as the day progresses. A chance for a shower or isolated thunderstorm will exist after 1800 hours. Isolated shower chances will continue through the overnight hours, primarily for the Divide Complex. Any shower/storm can produce erratic and gusty winds to 45 mph. Better RH recoveries (35-45%) are expected tonight with a partly to mostly cloudy sky.

WEATHER FORECAST FOR THE DIVIDE COMPLEX & AMERICAN FORK:

WEATHER: Hot, dry, and partly cloudy. 30% chance of a shower/storm after 1800 hours. Very little to no measurable rainfall is expected. Erratic wind gusts to 45 mph possible with any shower/storm.

TEMPERATURES: 80-84 ridges and 85-90 valley bottoms

HUMIDITY: Minimums 14 to 18%

20 FT WINDS:

RIDGETOP - West 10 to 15 mph becoming more NW through the day with gusts to 20 mph.

SLOPE/VALLEY - Upslope/upvalley 8 to 12 mph with locally higher gusts.

HAINES INDEX: 5 (Moderate chance of plume dominated activity)

CHANCE OF WETTING RAIN (> .10): 0%

STABILITY/INVERSION: Weak inversion breaking by 0900.

OUTLOOK FOR TONIGHT:

A slight chance of a shower with gusty winds will exist through tonight, primarily over the Divide Complex. RH recoveries will be better tonight than we have seen the past few nights with recoveries reaching 35-45%. A weak thermal belt will be present tonight, primarily keeping the warmer and drier conditions confined to the mid and upper elevations.

OUTLOOK FOR WEDNESDAY AND THURSDAY:

Partly cloudy skies and cooler temperatures are expected Wednesday and Thursday with min RHs around 24% on Wednesday and 35% on Thursday. Winds will be mostly upslope/upvalley at 8-12 mph during the day and downslope/downvalley at 4-8 mph during the overnight hours. A chance for thunderstorms will exist each afternoon/evening with the main threat of any storm being erratic, gusty winds to 45 mph.

FIRE BEHAVIOR FORECAST									
FORECAST NUMBER: #5 TYPE OF FIRE: Wildland									
FIRE NAME: American Fork/ Divide Complex	OPERATIONAL PERIOD: 07/27/2021 Day/Night Shift								
DATE ISSUED: 07/26/2021	TIME ISSUED: 2000								
UNIT: Helena/Lewis and Clark NF and Guster /Gallatin NF	WRITTEN: Kelly Cagle FBAN								

FUEL ASSUMPTIONS: The major fuel types found on the American Fork/Divide Complex are Fuel Model 10 (mixed conifer with heavy dead/down) as well as areas of Fuel Model 2 (short grass w/timber) in the lower elevations. Current fuel conditions are favorable for extreme fire behavior within all fuel types, especially 100 hour and 1000 hour fuels. Live fuel moistures are low enough to contribute as well. Heavy dead and down will likely be the most problematic. ERC's are approaching all time high's for today's date.

WEATHER SUMMARY: Reference fire weather forecast for specifics.

Enhanced fire weather conditions are expected today for all fires for min RHs of 14-18 percent and hot temperatures. Winds will be more westerly initially and turn out of the NW as the day progresses. A chance for a shower or isolated thunderstorm will exist after 1800 hours. Isolated shower chances will continue through the overnight hours, primarily for the Divide Complex.

General Fire Behavior Forecast: Weather today will create conditions for extreme fire behavior. Wind and fuel driven fire with uphill runs and torching or crowning should be expected wherever fuels exist for fire to consume. Long distance spotting is probable anywhere wind and slope align. General movement will be upslope or towards the north and east. Expect a high resistance to control. Expect activity to begin early in the day and to persist thru early evening and into the night hours.

Specific:

American Fork Fire Expect intense fire behavior anywhere that fuel is available for fire to consume. Slopover in South Fork/American Fork drainage will run upslope to the ridgetop/rocks and likely move easterly where fuel will allow. Expect progression to continue unabated until fire reaches rocks/grass. Blacktail fire scar should continue to limit spread to the north.

Balsinger Fire – Expect fire to continue to progress unabated to the north and east until it runs out of fuel. Fire behavior will be intense, with group torching, crown runs, and long range spotting likely. It will be difficult to suppress fire in conifer fuel under the extremely dry conditions.

Ellis Fire – Isolated single tree torching will most likely continue. There could be reburn potential in canopy fuels if canopy is intact/brown. Any heat source in direct contact with unburned fuel could produce intense fire behavior today.

Night Shift – Expect fire to remain active well into the overnight hours. In recent days this fire has been extremely active until midnight or beyond – at times with unexpectedly active fire behavior. Forward movement of fire with torching is certainly possible. Short canopy runs cannot be ruled out.

Fine fuel moisture today is - 2 to 3% 2 Critical Thresholds are being exceeded today!

Probability of Ignition today - 90% + (Rh, and 1000 hr fuel moisture)

Max Spotting Distance Today- ½ mile or greater Haines is at 5 for today

AIR OPERATIONS: Light inversion will quickly fade by mid morning. Otherwise, conditions should be suitable for aviation operations.

FIRE BEHAVIOR SAFETY: Watch out situation # 14 – Weather becoming hotter and dryer. Temps today will be warmer than previous days. This will facilitate easier/quicker ignition of fine fuels.

HEALTH AND SAFETY MESSAGE

SAFETY starts with **YOU**

We are ALL accountable for SAFE behaviors

INCIDENT: Divide Complex/American Fork Fire DATE: July 27, 2021

Major Hazards and Risks: Structure Protection, and Hydration

Structure Protection: Wildland Urban Interface (WUI): Structure firefighting is inherently dangerous because it involves indirect firefighting. Refer to page 12 of your IRPG for additional information. The primary consideration of any operation is to assure firefighter and public safety. It is a must to assess potential fire behavior, ingress/egress routes, nature of the threat, hazardous materials, and available water supplies before engaging in the protection of any structure.

Do not commit to stay and protect a structure unless a safety zone for firefighters and equipment has been identified at the structure during size-up and triage. Move to the nearest safety zone, let the fire front pass, and return as soon as conditions allow.

Hydration: Hot temperatures are predicted for today. Remember to pre-hydrate in the morning and evening hours. Drink plenty of water and mix in a sports drink throughout the day. Additionally, eating fruit will assist with staying hydrated.

6. INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Medical Incident Report (IWI)

For a non-emergency incident (green priority), work through the chain of command to provide needed care to patient.

For a medical emergency (yellow or red priority), the incident commander (IC) of the medical emergency, will contact Divide Communications by radio.

The medical incident IC will announce they have a "medical emergency".

Use the 8 Line Medical Incident Report found on the last page of the IAP (IRPG page 118) to relay your information to Divide Communications.

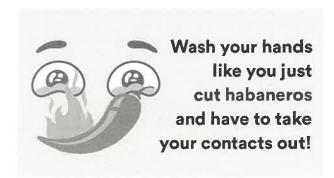

For emergencies after hours (2100 or later) contact the Helena Dispatch. (See Special Instructions in your Divisional Group Assignment list for more details).

Divide Complex / American Fork - Tuesday July 27, 2021

	Divide complex / / //	Tiericali Fork - Tuesday July 27, 2021
8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
All	Air Operations	~ Ensure positive communication with all air resources. ~ Don't plan on air resources for medical transport or resupply. ~ Follow "Aviation Watch-Out Situations" IRPG Pg 46. ~ Refer to "Directing Bucket or Retardant Drops" IRPG Pg 58. ~ Refer to "Aerial Retardant Safety" IRPG Pg57. ~ Refer to "Aircraft Mishap Response Procedure" IRPG Pg 62.
Ail	Extreme Fire Behavior	~ Share weather observations with all personnel assigned to division.
All	Fireline Hazards	~ Refer to "Fire line Location" considerations, IRPG Pg 84 ~ Do not work directly above or below personnel during firing and mop-up operations. ~ Watch for falling and rolling debris on steep slopes. ~ Alert crew personnel of rolling debris by yelling to affected individuals. ~ Position debris that could roll vertically on slope. ~ Avoid stepping over debris that could roll by walking around object. ~ Avoid radiant heat by wearing appropriate PPE correctly. ~ Flag and isolate all HAZMAT and alert all personnel working in Division. ~ Follow WUI recommendations, IRPG Pg 12.
All	Heat Related Illness (HRI)& Dehydration	~ Refer to Heat Related Illness information, IRPG Pg 109 ~ Drink Fluids throughout operational period (6-8 qts/shift). ~ Maintain water/electrolyte ratio of 3 to 1. ~ Carry extra water on line and cache water at drop points. ~ Take Frequent breaks, minimum of 10 minutes every hour. ~ Allow out of area resources time to acclimatize before expecting peak performance.
All	Hazard Trees	~ Follow "Hazard Tree Safety" guidelines, IRPG page 22. ~ Post lookouts, or use a spotter in mop-up areas with personnel. ~ Do not park vehicles or take breaks in high concentrations of hazard trees. ~ Establish trigger points for disengagement during high wind events. ~ Remember that the hazard zone extends a minimum of 2 1/2 tree heights.
All	Mop-up & Suppression Repair	Do not work above or below personnel during rehab/mop-up operations. Alert crew personnel of rolling debris by yelling to affected individuals. Position debris that could roll vertically on slope. Wear eye protection.
All	Chain Saw Operations	~ Follow "Hazard Tree Safety" guidelines, IRPG Pg 22 ~ Follow "Procedural Felling Operations" IRPG Pg 85. ~ Look up, Look down, and Look around for hazard tree indicators. ~ Only fell and buck trees within your expertise, and training. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.

Ail	Heavy Equipment Operations	~ Refer to "Working with Heavy Equipment" IRPG Pg 86 ~ Ensure communications are established with operators. ~ Use hand signals if other communications are unavailable. ~ Maintain a 300 feet exclusion area around equipment and increase it to 1 1/2 times tree height when in timber. ~ Use a spotter when backing. ~ Avoid working below heavy equipment. ~ Brush Chippers: Ensure that Job Hazard Analysis are reviewed and signed by all crew members working with or around them.
All	Structure Protection & HAZMAT	 Review "Wildland Urban Interface Firefighting" checklist IRPG Pg 12-16 Use "Structure Assessment" checklist, IRPG Pg 13 Refer to "Structure Hazard Marking System" IRPG Pg 41 Follow "HAZMAT Incident Operations" IRPG Pg 36
All	Driving & Traffic	~ Practice "Defensive Driving" techniques traveling on all roads and city streets. ~ Use spotters when backing. ~ Always use headlights. ~ Yield to pedestrians, wildlife and livestock. ~ Observe posted speed limits. ~ Use the 3 second rule for following distance when driving. ~ Use chock blocks, turn wheels into hill. ~ Avoid distractions (eating, cell phones, and radio). ~ Ensure that windshields are kept clean of dust and bugs.
All	Spike Camp	~ Keep a clean camp. ~ Ensure communications are in place, ~ Review and observe "Line Spike" considerations, IRPG Pg. 95
Ali	Communications	~ Maintain communication with aviation resources, and suppression organization. ~ Ensure all know frequency and protocol for contacting resources. ~ Utilize the ICS 205. ~ Utilize human repeaters when working in dead spots.
Ail	Wildlife & Livestock	~ Watch out for wildlife & livestock inside fire area and along roadways. ~ Clean up all food and trash during each operational period. ~ Store all food in bear proof containers or in vehicles. ~ Slowly back away from any wildlife that you encounter.
Branch III	Night Operations	~ Maintain high visibility in work area and wear vest while in roadway. ~ Use glow sticks to mark hazards. ~ Ensure personnel have a personal light (headlamp). ~ Watch for signs of fatigue. ~ Take breaks away from areas of known hazard.

COVID Mitigations and Screening Tool

Maintain Situational Awareness of The Fire Environment: 10 & 18, LCES

- Monitor each other, watch for symptoms (Firefighter Health Screening Tool).
- Never share PPE, UTV & flight helmets, radios, or other equipment
- Implement daily decontamination procedures of apparatus and equipment
- Adjust operational periods to allow for additional COVID-19 logistics.
- Plan for overnight lodging/camping/feeding scenarios that maintain separation from other fire personnel and community

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

Divide Complex Overnight Medical Incidents will be relayed thru Big Baldy Channel 9 or Monument Channel 10. Please note Dispatch Response is shared overnight and will be initiated from Helena during overnight hours. Complete Medical Incident Report (8 line) per process with responding dispatch center.

American Fork overnight medical incidents will use channel 2 (sunlight repeater on Forest Service system) to Helena Dispatch or call 406-444-4242.

Controlled Unclassified Information//Basic DRAFT

Weed Wash

Mandatory when:

- Checking in
- Moving between fires
- Demob

Located 1.3 miles west of US 89 on Luppold Rd (AKA Cemetery Rd).

Finance

CTRs/Shift Ticket – Please document what fire and division you are working on in the comment section of each CTR or Shift Ticket. This will help us with cost share information on the fire.

Document reason for Hazardous Pay on CTR.

Last working day - please contact finance via email two days prior to your demob day.

Send your CTRs and Shift Tickets to the email below that correlates to fire on your resource order.

2021.divide.finance@firenet.gov

2021.americanfork.finance@firenet.gov

If you are an AD please send your casual hire form to the correct email address above. Use the email address that corresponds to the fire on your resource order.

Finance Remote

Processing Procedures

To the right is access to electronic Finance forms. You can access them via the QR code or the URL. On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop. They are Adobe PDF forms so you will need a PDF reader app on your device. The forms were created on a laptop so the commands in your cell phone and tablet do not allow for the Save and Print functions to work. You will need to use your app's functionality to Save or Print.

Once you have completed the appropriate form for your resource please email to your supervisor for approval.

Supervisors can use their app to apply a signature or just type /s/ your name on the approval line. After approving please email the approved form back to the resource for their record and to the correct finance email:

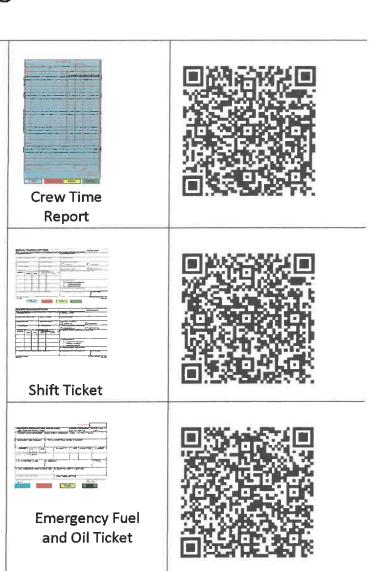

2021.americanfork.finance@firenet.gov

2021.divide.finance@firenet.gov

Resources: Please send photos or electronic copies of Casual hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to the correct finance email:

2021.americanfork.finance@firenet.gov

2021.divide.finance@firenet.gov

General Message

Human Resource Message

The mission of the Gold Team is to safely, effectively and efficiently manage the Divide Complex and American Fork Fire by maintaining a team of skilled and productive personnel. During this incident we will strive to successfully complete our mission and achieve our objectives while creating a positive, drug and alcohol free work environment for all assigned incident personnel. Consumption of drugs that alter decision making abilities, such as marijuana and alcohol, is prohibited while assigned to the incident.

The Gold Team fully supports EEO and will not tolerate sexual harassment or any form of discrimination!

All inappropriate behavior will be dealt with promptly. Disciplinary action and reporting back to an individual's home unit will be initiated as necessary.

Please report any incidents of inappropriate behavior to your supervisor, Marty Bentley or myself immediately.

Deborah Beard, Incident Commander

TRAINING MESSAGE

As of 26th e-ISuite show that there are 44 TRAINEES ordered to this Incident. However, 20 only have checked in with the Incident Training Specialist

<u>Check-in</u> – If you have a position task book (PTB), please scan the QR code or click the link below to initiate the check-in process with the Incident Training Specialist. Please complete the form in its entirety. Upon completion, at your earliest convenience, please email a copy of your qualification card and position task book cover to Al Hoke at ahoke@gfc.state.ga.us.

For your convenience, an electronic ICS-225 or ICS-226 and Evaluation Record will be sent to you after you complete the check-in process. Electronic Evaluation Records, Trainee Data Forms can also be provided.

<u>Demob</u> – In order to receive credit for your assignment, you must close out with the Incident Training Specialist prior to departure.

Close out requirements include:

- Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB;
- 2. Obtain an Incident Performance Rating (please sign in the appropriate block at the bottom of the form);
- 3. Obtain an Evaluation Record;
- 4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page);
- 5. Email all documentation (including item #4, when appropriate) to ahoke@gfc.state.ga.us;
- 6. Please scan the QR code or click the link below to complete the Incident Trainee Exit Interview with the Incident Training Specialist.

Fire Information Line: 406-272-6349 (8 a.m. -8 p.m.)

Help us tell our story by submitting photos and videos of life on the fireline.

We need your help to capture the shots that show what we're doing and how we're doing it. Please scan the code below to submit. Adding your name and location of the photo is ideal. Any extra information is appreciated, but not mandatory.

We are guests in this area. Be aware that photos posted to personnel accounts may contain sensitive information. Send all photos through Information Officer to ensure they are appropriate and represent the Gold Team and our partners well. Personal protective equipment is required in any photos that will be utilized to tell the story of the fire.

IF YOU ARE FLYING YOU MUST CONTACT DEMOB AT LEAST 3 DAYS BEFORE YOUR DEMOB DATE TO GET A FLIGHT.

On your demob day, or last work day, personnel should:

- 1. Turn in all supplies, radios and computer equipment checked out from the incident.
- 2. They should ensure that all Unit Logs and evaluations are submitted to Documentation electronically. 2021.americanfork.docs@firenet.gov
- 3. Go to the Ground Support Unit for equipment inspections.
- 4. Go through weed wash and obtain a receipt to verify that the equipment has been cleaned. Return that receipt to demob (this can be done virtually if necessary by emailing a picture of the receipt to: 2021.americanfork.demob@firenet.gov.
- 5. Go to the Time Unit to complete time and review their final OF-288 or OF-286. This may be done virtually if necessary.
- 6. Report back to the Demobilization Unit to verify travel information home, including ETD/ETA and RON locations. This can be done virtually if necessary.

Call Jeff DeMatteis, DMOB at 937-506-6181 if you have questions.
