Safety Message

Covid is active in western Montana and all personnel are at risk. The best way to prevent illness is to avoid being exposed to the virus.

Practice social distancing – brief outside and stay separated.

Avoid congregating inside and wear masks inside and in close proximity to others.

Wash hands frequently and avoid touching eyes.

Cover coughs and sneezes.

If you are feeling unwell, stay home, or if you are in the field, notify others and keep your distance.

Conduct a daily wellness check.

Maintain ‘Module of One’ protocols – don’t mingle with other crews and resources.

Stay away from locations with known outbreaks.

If you must be in the front country, designate an individual to handle tasks such as shopping, getting gas, etc.

Keep track of dates when feeling unwell and maintain a list of contacts (and dates of contacts).

Coordinate and communicate with your supervisors regarding new protocols and instructions related to testing, vaccinations, and quarantine.

Get vaccinated.

BEAR COUNTRY

Remember that this is bear country; pick up all food and scraps and dispose of waste properly. A food storage order is in place that requires all food, beverages, garbage and any attractants (such as personal hygiene products) be stored in a bear-resistant manner anytime when unattended (within 100 feet) and during nighttime hours. Bear-resistant manner includes securing attractants in an approved bear-resistant container or a hard-sided vehicle or building.
