The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

First source of supply is Cache, shaded blocks indicate items available thru Northern Rockies Cache. Items requiring an approved Property Loss & Damage form are in a separate list at the bottom.

Trestle Creek Complex – Safety Message

July 22, 2021

Act Deliberately, Not Urgently

- **When coming personnel to a fire, have a plan. Ensure that your plans are clearly communicated and that everyone clearly understand your intent and the hazards that are associated with your plan.**
- **Do not be afraid to say no. Refer to page 19 in the IRPG for guidelines on properly refusing risk. Do not act beyond the limits of your training or ability.**
- **Ensure that escape routes and safety zones are clearly defined and made known to all firefighters. Post lookouts and ensure that you know what radio frequency you will be using for tactics and command. Make sure LCES is in place prior to acting.**
- **Review the “8-line”, Incident within an incident plan in your IAP. Spend time during breakout briefings discussing possible scenarios involving an IWI. Know who that on-scene IC will be.**

Firefighter Fatigue: Please continue to get enough rest. Take plenty of breaks and please continue to stay hydrated by drinking plenty of water. Ensure that all firefighters meet the 2:1 work to rest ration. Watch out for signs of fatigue in other firefighters around you.

COVID-19

-Be Smart! Stay Apart! Maintain CDC social distancing guidelines when feasible.

-Practice good hygiene. Wash your hands often and avoid touching your face.

-Cover your nose and mouth with a facial covering and cough into your elbow if needed.

-Monitor your health. If you have a fever, shortness of breath, coughing, sneezing or any other COVID-19 related symptom, tell your supervisor and self-isolate.

Communication Responsibilities

All firefighters have five communication responsibilities:

1. Brief others as needed.
2. Debrief your actions.
3. Communicate hazards to others.
4. Acknowledge messages.
5. Ask if you don't know.

PREPARED:
