The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

SAFETY MESSAGE

Planning for Medical Emergencies

- Prior to each operational period be able to answer these 3 questions:
 1. **What are you going to do if someone gets hurt?**
 - Where is your closest medical personnel and ambulance?
 2. **How will we get them out of here?**
 - Can you get the injured to a road or helispot, what will it take to do that?
 3. **How long will it take to get them to a hospital?**
 - Where is the closest hospital, air or ground transport, what conditions can change or affect the transportation timeline?

MAJOR HAZARDS AND RISKS

| | | |
|---|---|--|
| STEEP TERRAIN WILDLIFE FATIGUE | ROLLING MATERIAL HEAVY EQUIPMENT DRIVING ON NARROW ROADS | POINT PROTECTION HAZARD TREES COMPLACENCY |
|---|---|--|

Be sure all elements of your safety plan are in place prior to engagement

Communication Responsibilities

All firefighters have five communication responsibilities:

- Brief others as needed.
- Debrief your actions.
- Communicate hazards to others.
- Acknowledge messages.
- Ask if you don't know or are unclear.

In addition, all leaders of firefighters have the responsibility to provide complete briefings that include a clearly stated "Leader's Intent."

- Task = What is to be done
- Purpose = Why it is to be done
- End State = How it should look when done

SNAG (Hazard Tree) SAFETY:

Size up snag hazards in work area.

Never become complacent.

Always look up.

Get weather reports.

Scout out parking, sleeping, work areas, and safety zones.

Advice co-workers of known hazards.

Face your hazard and take appropriate action.

Examine work area for other hazards.

Take extra caution around heavy equipment.

You are ultimately responsible for your own safety
