

Incident Action Plan

Day Operational Period

Wednesday 08/18/2021 0600 - 2100

Swing Shift Period

Wednesday 08/18/2021 1200 – Thursday 08/19/2021 0300

West Lolo Complex
MT-LNF-000893
P1N5AN (0116)

2021.westlolo.finance@firenet.gov

Incident Information

INCIDENT OBJECTIVES	1. Incident Name West Lolo Complex	2. Date Prepared 8/17/2021	3. Time Prepared 1500
	4. Operational Period DAY/SWING SHIFT Wednesday August 18, 2021 0600 - Thursday August 19, 2021 0300		
5. Leader's Intent			
<ul style="list-style-type: none"> Protect the identified values at risk utilizing full suppression strategies identified by Agency Administrators in alignment with their prioritization of specific values. Risk management tools will be used to evaluate tactics in order to provide for firefighter and public safety while implementing actions that have a high probability of success. The highest priority on this incident is to protect the safety of fire personnel and to protect human life followed by the protection of structures. Ensure LCES is known and understood by everyone, and contingencies and trigger points for disengagement are developed and followed. Maintain a positive and inclusive workplace where all employees are valued and treated with respect. 			
6. Incident Objectives			
<ul style="list-style-type: none"> Address the safety of firefighters, aviation and public through clear communication. Ensure an understanding of strategies and tactics, including a clearly defined and obtainable end state, in order to facilitate sound risk mitigation decision making. Infrastructure Values at Risk: Minimize fire threat and impacts to local communities, the Ashley Creek Municipal water supply, highway corridors, recreation improvements, commercial timberlands, BPA and Northwestern Energy transmission lines, Phillips 66 facilities, communication and SNOTEL sites, private property, and private structures. This will be achieved by coordinating suppression actions with cooperators responsible for structure protection, implementing indirect primary and contingency lines and strategic aerial ignition operations. Natural and Cultural Resource Values at Risk: Weigh potential suppression actions in consideration of heritage resources, waterways and riparian areas, and bull trout and anadromous fish habitat in order to minimize fire effects and undesirable suppression related effects to these values. Continue to develop and implement the long-term plan for fires in the complex that incorporate management actions in alignment with the protection of identified values, based on current and expected weather and fire behavior. The long-term plan will incorporate primary, alternate, contingency, and emergency plans identifying opportunities for both direct and indirect suppression actions. Maintain and strengthen relationships with the Lolo and Kootenai National Forests; MT DNRC; Sanders County Sheriff, Emergency Managers, and VFD's; community leaders; cooperators; local government and agencies; and private landowners utilizing the most effective platforms available. Provide timely, accurate, and consistent incident information through the press, community meetings, trap lines, briefings and social media. Incident information shall be coordinated between the team and Forest Service Line Officers, MT DNRC Unit Manager, and the Sanders, Missoula, and Clearwater Sheriff Offices. Continue to monitor costs and implement cost effective methods for accomplishing operational objectives. Ensure adherence to current guidance regarding COVID-19 to provide for the health and safety of all incident personnel by implementing the module-of-one concept, social distancing, and masking up as appropriate.

Fire Weather Forecast

FORECAST NO: 39
 PREDICTION FOR: Wednesday Day Shift
 SHIFT DATE: August 18, 2021
 FORECAST ISSUED: 1800 August 17, 2021

NAME OF FIRE: West Lolo Complex
 UNIT: MT-LNF / Srn. Area Gold Team
 Phone Number: (240) 778-5312
 Incident Meteorologist: Ryan Leach

WEATHER DISCUSSION: Today will be cloudy and cool with some light showers possible. Most of the rain will come in the early morning hours with cool, cloudy conditions persisting through the day. The cooler weather will continue through the end of the week.

WEATHER FORECAST TODAY (WEDNESDAY):

	Thorne (3,700 ft)	ICP (2,600 ft)
Max / Min Temp.	58-63F / 49-54F	65-70F / 47-52F
Min / Max RH	60-70% / 65-75%	45-55% / 90-100%
Winds (20 foot)	NE Winds 10-15 mph on the ridges. Down canyon in the Thompson river drainage 4-7 mph. DIV-Z variable winds 5-7 mph.	Variable winds 5-7 mph
Notes		

WEATHER: Cool, cloudy, and wet.

LAL: 1 **CWR:** 20% **HAINES:** 2

STABILITY / INVERSION: Inversion break around 1400, then mixing height up to 4,400 ft AGL.

SMOKE TRANSPORT WIND: NE 10 mph.

OUTLOOK FOR THURSDAY: Partly Cloudy. Max Temps: 68 - 73F. Min RH: 40 - 50%. Max RH: 65 - 75%. Ridge Wind: SW 9-14 mph. LAL 1. CWR 0%. Haines 2.

THREE DAY EXTENDED (FRIDAY – SUNDAY 3,700 FT)

	<u>Max T</u>	<u>Min RH</u>	<u>Max RH</u>	<u>Ridge Winds, Afternoon</u>	<u>WX</u>
FRI	67	61%	78%	NE 9 mph gust 12	Thunderstorms
SAT	64	65%	74%	ENE 10 mph gust 14	Thunderstorms
SUN	68	42%	58%	SW 13 mph gust 22	

FIRE BEHAVIOR FORECAST										
FORECAST NUMBER: #33	TYPE OF FIRE: Wildland									
FIRE NAME: West Lolo Complex	OPERATIONAL PERIOD: 8/18/2021 Day Shift and Swing Shift									
DATE ISSUED: 08/17/2021	TIME ISSUED: 2000									
UNT: Lolo National Forest	WRITTEN: <i>Kelly Cagle</i> - FBAN									
<p>FUEL ASSUMPTIONS: The major fuel type found on the West Lolo Complex is fuel model 10 (mixed conifer with heavy dead/down). There are also areas of TU 5 – which is timber with a shrub component underneath. Fuel arrangement may be a blend of these 2 conditions. There are areas of fuel model 2 (grass with timber overstory) in the lowest elevations. Heavy fuels are very dry and are the primary driver of fire spread. Live fuels will contribute anywhere that wind and slope align.</p>										
<p>WEATHER SUMMARY: Reference fire weather forecast for specifics.</p> <p>Today will be cloudy and cool with some light showers possible. Most of the rain will come in the early morning hours with cool, cloudy conditions persisting through the day. The cooler weather will continue through the end of the week.</p>										
<p>General Fire Behavior Forecast: Expect minimal fire behavior today. Fuels are wet and will remain wet most of the day under cloudy and cool conditions. Heavy fuels may continue to smolder and consume, but little forward movement or growth will occur today. A few visible smokes possible.</p> <p>Night Shift: Fuels are wet and expected to remain wet overnight. Some smoldering in heavy fuels will be ongoing. No forward movement or growth expected.</p>										
<p>Critical fire behavior thresholds:</p> <p>RH below 25% Winds greater than 10 1000 hr FM less than 12% Haines 5 or 6</p>										
<p>Specific:</p> <p>Division November – Expect minimal fire behavior. Heavy fuels likely to continue to smolder and consume – especially along the Thompson River, but little forward movement or growth expected today. A few visible smokes possible.</p> <p>Division Echo/Hotel/Juliet– Minimal fire behavior expected today. A few smokes visible from dead/down heavies – but little to no fire spread will occur today.</p> <p>Divisions Charlie/Papa/Zulu – A few smokes may be visible. Expect heavy fuels to continue to smolder and consume. Little fire spread or growth expected today.</p> <p>Initial Attack – Low potential for IA activity today. If IA occurs, expect minimal fire behavior.</p> <p style="text-align: center;">*****</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 30%;">Fine fuel moisture today is -</td> <td style="width: 30%;">Wet</td> <td style="width: 40%;">Rates of Spread in Timber- Creeping</td> </tr> <tr> <td>Probability of Ignition today -</td> <td>Low</td> <td>Rates of Spread in Grass- 1 to 2</td> </tr> <tr> <td>Max Spotting Distance Today-</td> <td>Low</td> <td>Flame Lengths- Low</td> </tr> </table>		Fine fuel moisture today is -	Wet	Rates of Spread in Timber- Creeping	Probability of Ignition today -	Low	Rates of Spread in Grass- 1 to 2	Max Spotting Distance Today-	Low	Flame Lengths- Low
Fine fuel moisture today is -	Wet	Rates of Spread in Timber- Creeping								
Probability of Ignition today -	Low	Rates of Spread in Grass- 1 to 2								
Max Spotting Distance Today-	Low	Flame Lengths- Low								
<p>AIR OPERATIONS : Clouds and possible rain showers expected in the am hours.</p>										
<p>FIRE BEHAVIOR SAFETY: Fire behavior is not likely to be a threat to your safety today. Snags, driving or fatigue could be. Activity will be low, so get a bit of rest today, and take a moment to consider your safety.</p>

Date/Time From: 08/18/2021 0600	WED	Date/Time To: 08/19/2021 0300				THU
4. Operations Personnel						
OPERATIONS CHIEF		JEFF SCHARDT		BRANCH DIRECTOR		
DIVISION/GROUP SUPERVISOR		JASON KLAWINSKY MATT MOE (T)		AIR ATTACK SUPERVISOR		
6. Control Operations/Work Assignments:						
<p><u>TASK:</u> Coordinate aerial and ground ignitions in the Thompson Creek Corridor and Copper King areas as directed by Operations. Secure and cool fires edge as it is progressed to fireline. Utilize aircraft to slow fire spread when spotting / running potential exists. Maintain coordination and public relations with private landowners and cooperators. Monitor fire spread.</p> <p><u>PURPOSE:</u> To have control features in place that have the highest probability of success for incident resources. Maintain positive relationships with private landowners and cooperators during suppression operations.</p> <p><u>END STATE:</u> The fire is contained at the established control features with minimal impacts to private property, natural resources and values at risk. Local relationships are strengthened through timely communication, cooperation and coordination.</p>						
7. Special Instructions:						
<p>Josh Graham (Day-Field Operations Section Chief) will monitor Channel 13/Channel Name: Eddy for any initial attack needs within the Thorne Creek Fire Temporary Flight Restriction (TFR). Additionally, local USFS Duty Officer will contact Josh Graham via cell phone (501-545-3088) for any initial attack needs within or outside of the TFR. Resources pre-identified for Initial Attack response are noted with an "IA" on this 204.</p> <p>*Indicates a local lent resource. **Denotes a lend lease resource. ***Denotes a mission critical resource.</p>

3. REMARKS (Safety Notes, Hazards, Air Operations Special Equipment, etc.). Monitor 118.6750 (Thorne TFR) when operating in or near the area from Plains to the Thorne Fire!! Plains Helibase will also monitor this frequency. 1. Assess mission complexity and the Benefit vs Risk of the mission. 2. Ensure visibility and winds are adequate to safely conduct flight operations. 3. Ensure safe vertical & horizontal separation between aircraft in smoky conditions. 4. Utilize check points and call in and out of the dips. 5. If you see a UAS on your division report it up the chain of command to Air Operations, it may or may not be a friendly! 6. Smoky conditions can hamper our aviation operations adhere to visibility limitations, and DO NOT be pressured into accepting a mission that you know, or feel is unsafe! <p style="text-align: center;">21</p>		4. HEALTH AND SAFETY MESSAGE

SAFETY** starts with **YOU

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: West Lolo Complex	DATE: August 18, 2021
-----------------------------	-----------------------

Major Hazards and Risks: Driving, Fatigue

DRIVING/Walking: Road conditions will be much different after the rain. Wet roads can be the most difficult to drive on. On highways the grease and oil from cars produce a film on roads during dry conditions, and when it rains, this layer becomes extremely slippery. Drive defensively in the rain and reduce your speed to below the speed limit to prevent the chance of hydroplaning. Conditions of dirt roads may also become very muddy and slippery especially in area of heavy fire traffic. Practice defensive driving at all times.

Walking: Camp area and the fire line may also become very muddy from the rain. To prevent falls-slow down, watch footing, and use 3 points of contact when climbing on steps, equipment, etc.

FATIGUE: Monitor personnel for fatigue and complacency. Take breaks, drink plenty of water, and watch for signs of inattentiveness. Long work hours, reduced sleep, and a long hot fire season will take a toll on the body and mind. Be mindful of your condition and watch others for signs of cumulative mental and physical fatigue.

COVID 19

- **Social Distancing-** Maintain 6’ foot distance.
- **Wear a mask** – For everyone’s safety “wear a mask” when in groups or more than one riding in vehicles and social distancing not possible.
- **Wash Hands-** Wash hands frequently using soap and water or use hand sanitizer if needed.
- **Watch for symptoms-** Watch personnel for cough, headache, loss of taste or smell, temperature, shortness of breath.
- **Use Common sense-** If ill stay home and report illness. Avoid crowded locations.
- **Monitor-** CDC web site provides updated information. Local health department.

INCIDENT SAFETY ANALYSIS 215a

West Lolo Complex - Wednesday, August 18, 2021		
8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
Incident	Air Operations	<ul style="list-style-type: none"> ~ Avoid transfer of risk from ground to aviation resources. ~ Utilize safe and effective strategy and tactics. Involve pilot in mission planning. Conduct thorough risk assessment prior to mission. ~As of 8/15/21 flight time will be limited to Civil Twilight per Forest and Regional policy. ~ Ensure All aviation operations are integrated and coordinated into incident aviation operations ~ Build in contingencies to aircraft limitations. Extended medivac times etc. ~ Ensure positive communication with all air resources.
Fireline	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> ~ Maintain 8'-10' spacing when working & walking. ~ Avoid working above personnel when rolling material may impact those below. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts IRPG Pg 7
Fireline	Hazard Trees	<ul style="list-style-type: none"> ~ Through daily briefings remind resources about established "Hazard Tree Safety" guidelines. ~ Inform resources on shallow rooted trees in fire area. Weakened root systems from drought and fire strain are more receptive to wind fall. ~ Establish trigger points for disengagement during high wind events. ~ Limit firefighter exposure in areas with potential weakened trees. ~ Utilize heavy equipment to remove / reduce hazard tree exposure.
Incident	Fatigue & Over Exertion	<ul style="list-style-type: none"> ~ Drink 1 quart of water each hour during and after work. ~ Rotate crews out of smoky areas. ~ Set a reasonable work pace and allow adequate rest breaks while on the project. ~ Stagger work crews start time to limit fatigue. ~ Use buddy system to monitor personnel of heat related and fatigue issues. ~ <u>Follow work / rest guidelines.</u>
Fireline	Firing Operations & Devices	<ul style="list-style-type: none"> ~ Only personnel trained in the use of each device will be authorized to use firing equipment. ~ Ensure all personnel are aware of firing operation that may affect them. ~ Wear appropriate PPE. ~ Ensure aerial/ground ignition plans have been developed and personnel are briefed.
Incident	Driving & Traffic	<ul style="list-style-type: none"> ~ Schedule shifts that promote travel during daylight hours to reduce driver fatigue and provide for increased reaction time. ~ Prepare drivers for fog/smokey/wet road conditions, wildlife and other unexpected hazards. ~ Establish incident tempo that reduces urgent operations and operational rush. Promote "Slow and Steady" pace. ~ Ensure driver are with familiar vehicle operations (rental vehicles).
Fireline	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Provide daily safety briefings to remind about heavy equipment hazards. Always maintain working space. ~ Establish traffic control along roadways. Ensure communications are established with operators. ~ Identify and communicate hazards in the working area (traffic, power lines, culverts, etc) ~ Maintain awareness of specific roadway hazards for heavy equipment.
Incident	Personal Hygiene / Covid 19	<ul style="list-style-type: none"> ~ Adhere to local, agency and IMT policy and direction to prevent spread of virus. Educate incident personnel in policy and practices. ~ Ensure self assessments, social distancing, face coverings and personal hygiene. ~ Encourage anyone with potential symptoms notifies supervisor immediately. ~ Don't share personal items such as water bottles communication devices and utensils. ~ Wash hands before meals, and after use of rest room facilities. Follow with hand sanitizer.
Incident	Severe Weather	<ul style="list-style-type: none"> ~Through daily safety briefings remind of "Thunderstorm Safety" guidelines ~ Establish "Trigger Points" to withdraw, and ensure all know rally site. ~ Develop strategy and tactics based on predictions to limit hazards and personnel exposure to hazard ~ Work with Logistics to find locations to stage resources to prevent exposure to elements to reduce health issues. ~ Ensure all personnel are aware of deference between Weather Watch and Warning
Div N/J	Aerial Ignition	<ul style="list-style-type: none"> ~ Follow Aerial Ignition Plan and the RMA for aerial ignition. ~ Follow "Aviation Watch-Out Situations" IRPG Pg 46.
Incident	Wildlife & Livestock	<ul style="list-style-type: none"> ~ Provide training on wildlife hazards to all fireline personnel (Moose / Bear/ Buffalo). ~ Provide daily reminders of wildlife hazards to all personnel to maintain awareness. ~ Ensure personnel are comfortable with use of bear spray (if available) and other deterrents ~ Provide guards and other precautions as conditions warrant.

INCIDENT SAFETY ANALYSIS 215a

Fireline	Night Operations	<ul style="list-style-type: none"> ~ Maintain high visibility in work area and wear vest while in roadway. ~ Use glow sticks to mark hazards. ~ Ensure personnel have a personal light (headlamp). ~ Watch for signs of fatigue. ~ Take breaks away from areas of known hazard.
Incident	Incident Camp	<ul style="list-style-type: none"> ~ Be aware of camp medical and evacuation plans ~ Wear closed toe footwear with acceptable support. Be aware of potential for uneven footing and loose rocks. <ul style="list-style-type: none"> ~ Wear PPE as required for assigned tasks. ~ Loading and carrying: lift with legs, not back. ~ Drive slowly. Max 5 MPH. Watch for pedestrian traffic. ~ When Backing: Use a Spotter. ~ DO NOT drive or park in sleeping areas. ~ Personal Hygiene: Wear Masks, Distance, Wash hands after toilet use and prior to eating. ~ Stay active, stretch and walk around often. ~ Be Aware there may be Snakes, Insects and other live hazards in camp. ~ <u>Alcohol and / or Illegal drugs are prohibited in camp.</u>
Fireline	Indirect Fireline	<ul style="list-style-type: none"> ~ Post lookouts, identify escape routes and safety zones IRPG Pg. 7 ~ Review "Strategy Direct/Indirect Attack" IRPG Pg. 82-83 ~ Refer to "Line Location" IRPG Pg 84
Incident	Bees, Ticks, Mosquitoes	<ul style="list-style-type: none"> ~ Identify personnel with known allergic reactions to stings. ~ Provide repellants and nets to prevent stings ~ Ensure crew members have medication / EPI pens if needed and others on crew are aware of storage location(s) and how to use. ~ Establish inter-crew Incident within Incident process to expedite medical response to allergic fireline personnel.
Incident	Firefighter & Public Smoke Exposure	<ul style="list-style-type: none"> ~ Refer to "Smoke Hazards and Mitigation" IRPG Pg 30 ~ Use warning lights and provide traffic control on roadways during smoky and night operations. ~ Rotate crews out of smoky areas during firing and mop-up operations. ~ <u>Contact Communications when firing operations are initiated.</u>
Fireline	Structure Protection & HAZMAT	<ul style="list-style-type: none"> ~ Review "Wildland Urban Interface Firefighting" considerations, IRPG Pg 12-16 ~ Use "Structure Assessment" checklist, IRPG Pg 13 ~ Refer to "Structure Hazard Marking System" IRPG Pg 41 ~ Follow "HAZMAT Incident Operations" IRPG Pg 36
Incident	Foot Travel	<ul style="list-style-type: none"> ~ Take short steps in potentially slick or slippery areas. ~ Use caution on uneven surfaces. While traversing steep terrain on fireline move across slope when possible to travel up or down. ~ Place your full attention on walking. Focusing on cell phone while walking is unsafe. ~ If you do fall protect your head and back. Brace yourself if possible.
Fireline	ATV/UTV use	<ul style="list-style-type: none"> ~ Ensure equipment is inspected and safe to use. ~ Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. ~ Ensure operator is trained and certified to operate. ~ Ensure operator has proper PPE according to the Redbook and/or RMA. ~ Question if it is mission critical.

COVID Mitigations and Screening Tool

Maintain Situational Awareness of The Fire Environment: 10 & 18, LCES

- Monitor each other, watch for symptoms (Firefighter Health Screening Tool).
- Never share PPE, UTV & flight helmets, radios, or other equipment
- Implement daily decontamination procedures of apparatus and equipment
- Adjust operational periods to allow for additional COVID-19 logistics.
- Plan for overnight lodging/camping/feeding scenarios that maintain separation from other fire personnel and community

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?

6. Special Medical Emergency Procedures:

- Identify on scene IWI commander by name and position. Announce "Medical Emergency".
- Patient or nearest responder notifies Group Supervisor who will respond to the scene and become the "incident within an incident" (IWI) commander.
- Group Supervisor will notify nearest medical responder and ICP-Communications of the incident
- **Use the "8 Line" report attached to the back of this IAP or page 118 of the IRPG.**
- Urgent Care is for non-Life-threatening medical care.

7. Prepared by (MEDL): Sherri McDougal, MEDL(t) Signature: *Sherri McDougal* Jeff Cummings, MEDL Signature: *Jeff Cummings*

8. Approved by (SOF2): Paul Churchill Signature: */s/ Paul Churchill*

ICS 206 IAP Page _____ Date/Time: 8/17/21 @ 1600

Aviation Response Plan

1. Evaluate patient for Code Green-Yellow-Red per Medical Incident Report 8 Line
2. Contact Two Bears Air for hoist capable mission
3. Move patient to extraction point for extraction
4. If necessary, ground-transport patient off fire-line to airport in Plains Mt for intercept with LifeFlight

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Logistics Schedule

Food

- Coffee – (0500-0900)
- Breakfast – (0600-0900)
- Lunch – Sack available
- Dinner – (1800-2100)

Shower Schedule

- 0500-1200 and 1400-2300

Laundry Options *“The Wash Tub, 202 Willis Street, Plains, MT”*

- Coin Laundry service 0700 – 2000 (406-210-8873)

Quiet Time Schedule

- 2100 – 0500 (8 hour work rest timeframe)

Ordering Process

- 0600-1900 daily

** If you are ordering Overhead, Equipment, Crews and Local Purchases make sure to submit through the Ordering Manager and if you have NFES Supply orders make sure you run those over to the supply unit to be filled or ordered.

West Lolo Finance Procedure

Finance Email: 2021.westlolo.finance@firenet.gov

Directions for emailing Documents:

<p style="text-align: center;">Contract Resources</p> <p>Send To: 2021.westlolo.finance@firenet.gov SUBJECT: Include Key Word: <i>Equipment</i></p>	<p style="text-align: center;">Overhead, Crews, and Cooperator Resources</p> <p style="text-align: center;">Send To: 2021.westlolo.finance@firenet.gov SUBJECT: Include Key Word: <i>Time</i></p>
---	--

DOCUMENTS TO EMAIL TO FINANCE

	<p>Overhead, Crews, and Cooperator Resources</p>	<p>Regular Government Personnel & ADs / Cooperator attachments: Check-In: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Single Hire Sheet/RO Daily: Crew Time Report (CTR), Shift Ticket (<i>when applies</i>), receipts (fuel issues, TV receipts, etc.) @Demob: Signed OF288, Final Equipment Use Invoice (Cooperator), Demob Sheet</p>
	<p>Contract Resources</p>	<p>Private: Contractor Attachments: @Check-In: Resource Oder, Full Contract/Agreement, Certifications (<i>if required</i>), Pre-Inspection Daily: <u>SHIFT Tickets</u>, receipts (fuel issues, claims, etc.) @Demob: Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices, Demob Checkout Sheet (<i>ICS 221</i>)</p>

FINANCE DEMOB PROCEDURES

All Resource will be sent their **DRAFT OF-288/OF-286's** via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the **FINAL DOCUMENT** for signature. They will then email the signed document back to Finance, if able. If you are unable to sign, respond to that effect and we will digitally sign on your behalf. Finance will then sign the **FINAL DOCUMENT** and email it back to the resource. This completes the process.

HUMAN RESOURCE MESSAGE

There is zero tolerance for drugs or alcohol on this fire incident.

*Always keep trying...
you may be surprised what you will
find around the next bend.*

Debby Hassel, HRSP (979) 255-5513

hrspfire@gmail.com

Training Message

Check In – If you have a position task book (PTB), scan the Master QR code to get to the training QR code. There you initiate the check in process with the Incident Training Specialist. Don't forget to email a copy of your qualification card and position task book cover to Robbie Hollingsworth at 2021.westlolo.plans@firenet.gov

Trainee Demob - In order to receive credit for your assignment, you must close out with the Incident Training Specialist prior to departure.

Close out requirements include:

1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB.
2. Obtain an Incident Performance Rating (please sign in the appropriate block at the bottom of the form)
3. Obtain an Evaluation record
4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page)
5. Close out with TNSP and email all documentation (including item #4, When appropriate) to 2021.westlolo.plans@firenet.gov

Southern Area Incident Management Gold Team Fire Information

Need something shipped to firecamp? Use the following address only:

Attention: West Lolo Complex Fire Camp
[Your Name]
83 Helterline Road
Plains, Montana 59859

Lost and Found: Turn in lost items and claim items lost at the Information Officer tent!

Photos can be texted to Public Information Officer Brook Smith at: 865-603-5217

Steps in the Demob process

- **Note of your demob date listed in the IAP, inform your incident supervisor if that date is wrong, so they can contact demob to update.**
- If you have relief operators replacing timing out operators, use the QR code below and we will adjust the demob date for that equipment.
- If you need an airline flight, USE THE QR code below, call or email demob to schedule a flight at least 3 days before your demob date. You will likely need to demob on your last work day to drive to Missoula or other departure cities to fly on your demob date.
- Return all accountable property to the Supply Unit, and/or Communications.
- Have equipment inspected at Ground Support and go through Weed Wash.
- Submit CTRs/Shift Tickets and FINALIZE your OF-288/OF-286 .
- Scan the QR code below to provide travel info if Driving. **We need you to provide your ETD/ETA, and RON city, if taking more than one day to drive home.**

West Lolo Complex Documentation Process

1. Name files in accordance with the standardized NWCG naming conventions:
{DocType}_{Version}_{Date}_{IncidentNumber}

EXAMPLE: UNIT DAILY LOGS – ICS 214

214_HowellJocelyn_20210814_000893

2. File your docs in the "eDoc Box". Pick 1 of the following methods:

A. Drop them daily into the 'eDoc Box' in the General Channel under 'INBOX for Documentation'.

B. Email them daily to jocelyn_howell@firenet.gov

All documentation will be filed electronically in TEAMS for the West Lolo Complex. There are no paper copies or paper doc boxes. If you need to scan files, there is one available in the Plans room at ICP. If you have questions about what to file or how, please reach out!

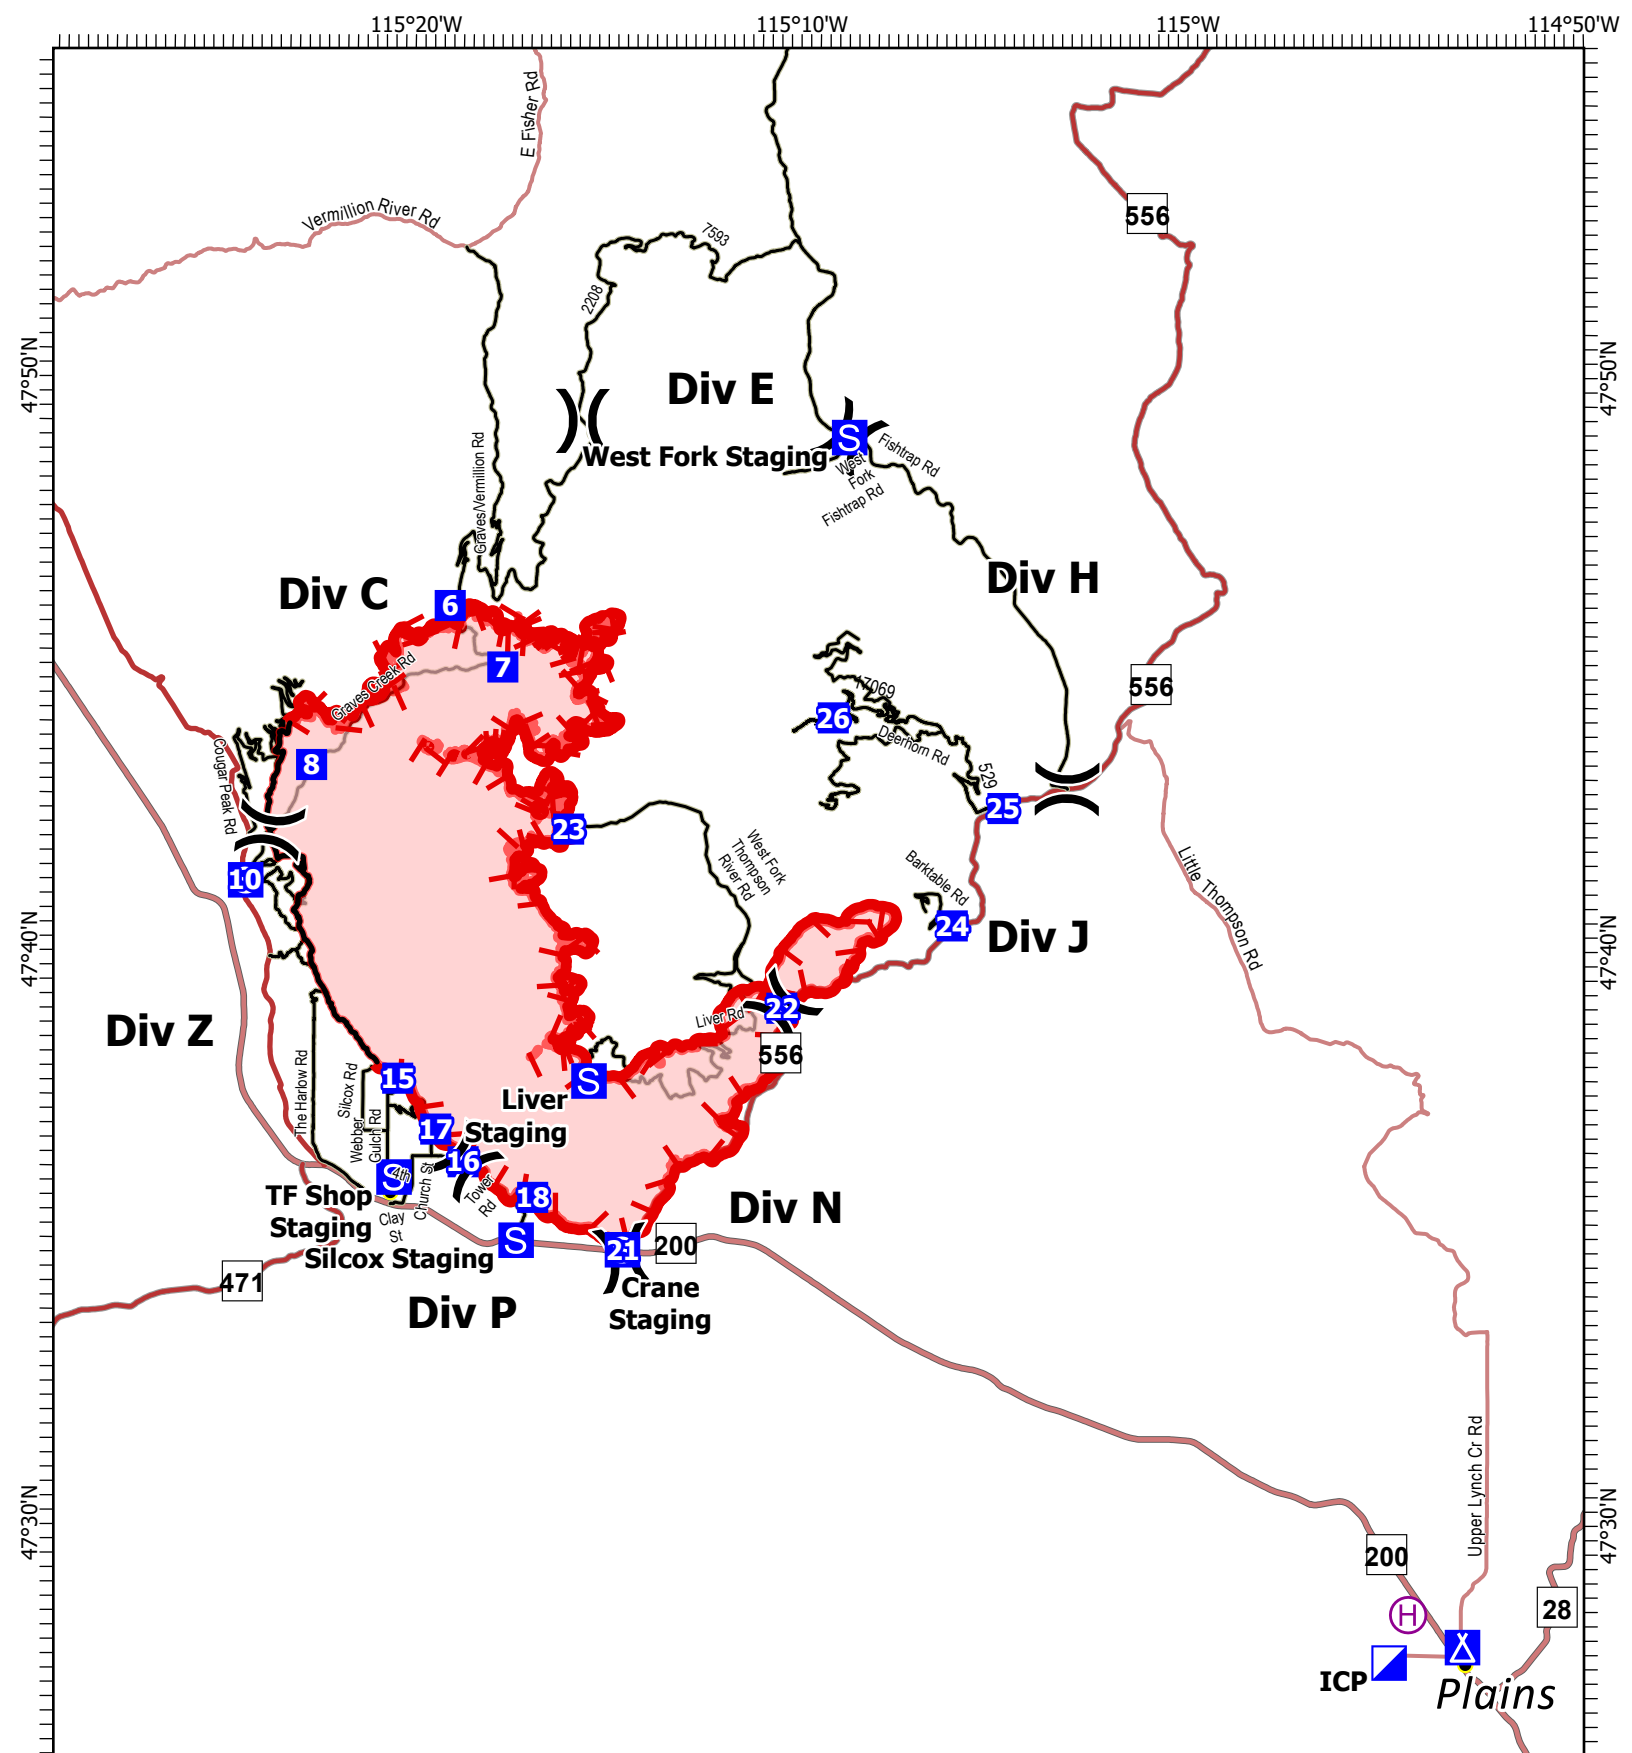

Questions about the process? Need help?

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o – 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o – 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (*if different*): (*Descriptive Location (drop point, intersection, etc.) or Lat. / Long.*) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
