

Incident Action Plan

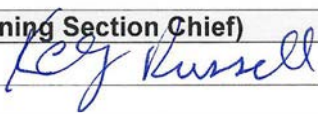

Operational Period
Monday 08/23/2021 0600 - 2100

West Lolo Complex
MT-LNF-000893
P1N5AN (0116)

2021.westlolo.finance@firenet.gov

Incident Information

INCIDENT OBJECTIVES	1. Incident Name West Lolo Complex	2. Date Prepared 8/22/2021	3. Time Prepared 1500
	4. Operational Period Monday August 23, 2021 0600 - Monday August 23, 2021 2100		
5. Leader's Intent			
<ul style="list-style-type: none"> • Protect the identified values at risk utilizing full suppression strategies identified by Agency Administrators in alignment with their prioritization of specific values. Risk management tools will be used to evaluate tactics in order to provide for firefighter and public safety while implementing actions that have a high probability of success. • The highest priority on this incident is to protect the safety of fire personnel and to protect human life followed by the protection of structures. Ensure LCES is known and understood by everyone, and contingencies and trigger points for disengagement are developed and followed. • Maintain a positive and inclusive workplace where all employees are valued and treated with respect. 			
6. Incident Objectives			
<ul style="list-style-type: none"> • Address the safety of firefighters, aviation and public through clear communication. Ensure an understanding of strategies and tactics, including a clearly defined and obtainable end state, in order to facilitate sound risk mitigation decision making. • Natural and Cultural Resource Values at Risk: Weigh potential suppression actions in consideration of heritage resources, waterways and riparian areas, and bull trout and anadromous fish habitat in order to minimize fire effects and undesirable suppression related effects to these values. • Continue to develop and implement the long-term plan for fires in the complex that incorporate management actions in alignment with the protection of identified values, based on current and expected weather and fire behavior. The long-term plan will incorporate primary, alternate, contingency, and emergency plans identifying opportunities for both direct and indirect suppression actions. • Maintain and strengthen relationships with the Lolo and Kootenai National Forests; MT DNRC; Sanders County Sheriff, Emergency Managers, and VFD's; community leaders; cooperators; local government and agencies; and private landowners utilizing the most effective platforms available. • Provide timely, accurate, and consistent incident information through the press, community meetings, trap lines, briefings and social media. Incident information shall be coordinated between the team and Forest Service Line Officers, MT DNRC Unit Manager, and the Sanders, Missoula, and Clearwater Sheriff Offices. • Continue to monitor costs and implement cost effective methods for accomplishing operational objectives. • Ensure adherence to current guidance regarding COVID-19 to provide for the health and safety of all incident personnel by implementing the module-of-one concept, social distancing, and masking up as appropriate.

Fire Weather Forecast

FORECAST NO: 44
PREDICTION FOR: Monday Day Shift
SHIFT DATE: August 23, 2021
FORECAST ISSUED: 1800 August 22, 2021

NAME OF FIRE: West Lolo Complex
UNIT: MT-LNF / Srn. Area Gold Team
Phone Number: (616) 450-5002
Incident Meteorologist: Mike Ottenweller

WEATHER DISCUSSION: A chilly start to the morning with some patchy fog will yield to temperatures once again warming into the low-mid 70s. Southwest winds will again be gusty, with gusts to 30 mph possible along the ridges. Winds will switch to NW late in the evening and start to diminish. This will set the stage for the coldest night of the season Monday into Tuesday morning. Tuesday will remain mostly sunny with less wind that will be mostly terrain driven.

WEATHER FORECAST FOR TODAY (MONDAY):

SKY/WEATHER: Partly cloudy and windy.

Max Temperature: 72-77 in valleys. 63 to 68 higher elevations.

Min RH: Lower elevations 25-35%. Ridges 35-45%.

WINDS:

-20 ft Level-WINDS

Lower Valleys/Lower Slopes: W 4-8 mph increasing to 6-10 mph. Gusts to 15 mph in the afternoon.

Upper Ridges: SW 10 to 15 mph increasing to 12-22 mph. Gusts to 30 mph.

-TRANSPORT WINDS: W 25 mph. **Mixing Height:** 8,000 ft.

Haines: 3 **LAL:** 1 **CWR:** 0

TONIGHT:

SKY/WEATHER: Mostly clear.

Min Temperature: Lower elevations 39 to 44. Ridges 38 to 43.

Max RH: Lower elevations: 70-80%. Ridges: 50-60%.

WINDS:

-20 ft Level-

Valleys/Lower Slopes: W 4-8 mph with gusts to 15 in the evening becoming light/terrain driven.

Upper Ridges: NW 10-20 mph.

TUESDAY:

SKY/WEATHER: Mostly sunny.

Max Temperature: 73-78 in valleys. 64 to 69 higher elevations.

Min RH: Lower elevations 20-30%. Ridges 28-37%.

WINDS:

-20 ft Level-WINDS

Lower Valleys/Lower Slopes: Variable/terrain driven winds 3-6 mph.

Upper Ridges: E-NE 5-10 mph.

-TRANSPORT WINDS: E 10 mph. **Mixing Height:** 7,000 ft.

Haines: 3 **LAL:** 1 **CWR:** 0%.

Outlook Wednesday through Friday: Mostly dry and seasonal weather in store for the rest of the week. Temperatures will fluctuate by a few degrees with Wednesday looking to be the warmest. Continued drying will allow minimum RHs to fall towards 15-20% and make for some cold mornings.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: #38	TYPE OF FIRE: Wildland
FIRE NAME: West Lolo Complex	OPERATIONAL PERIOD: 8/23/2021 Day Shift
DATE ISSUED: 08/22/2021	TIME ISSUED: 2000
UNT: Lolo National Forest	WRITTEN: <i>Kelly Cagle</i> - FBAN

FUEL ASSUMPTIONS: The major fuel type found on the West Lolo Complex is fuel model 10 (mixed conifer with heavy dead/down). There are also areas of TU 5 – which is timber with a shrub component underneath. Fuel arrangement may be a blend of these 2 conditions. There are areas of fuel model 2 (grass with timber overstory) in the lowest elevations.

WEATHER SUMMARY: Reference fire weather forecast for specifics: A chilly start to the morning with some patchy fog will yield to temperatures once again warming into the low-mid 70s. Southwest winds will once again be gusty, with gusts to 30 mph possible along the ridges.

General Fire Behavior Forecast: Expect minimal fire behavior today in timber. Fuels remain damp from recent precipitation. Isolated smokes are possible around the fire area today – especially during the afternoon as things begin to dry out. Heavy fuels will likely continue to smolder. An isolated torching tree is possible. Grass fuels on a sunny slope could dry to the point of carrying fire today and could spread at moderate rates during the afternoon.

Critical fire behavior thresholds:
RH below 25% Winds greater than 10 1000 hr FM less than 12% Haines 5 or 6

Specific:

Division November – Expect minimal fire behavior. Most fuels will be damp and will not carry fire. Some heavies are still consuming and may produce light smoke. Grass fuels might carry fire on a sunny slope late in the day. A torching tree might be possible.

Division Echo/Hotel/Juliet– Expect minimal fire behavior. Timber fuels will be too damp to carry fire. Grass fuels on a sunny slope could carry fire late shift. Heavies will continue to produce isolated smokes. A torching tree might be possible.

Divisions **Charlie/Papa/Zulu** – Expect minimal fire behavior. This division had the most precipitation and likely will not carry fire at all in timber. Grass fuels on a sunny slope might carry fire late shift. Heavies will continue to produce a minor amount of smoke. An isolated torching tree could be possible.

Initial Attack – Low potential for IA activity today. If IA occurs, expect minimal fire behavior in timber. Grass fuels could have moderate spread rates today in an open and sunny environment.

Fine fuel moisture today is -	8-10%	Rates of Spread in Timber- Creeping
Probability of Ignition today -	< 30%	Rates of Spread in Grass- 2 to 10 chains/hour
Max Spotting Distance Today-	300 feet	Flame Lengths- 1 to 4 feet as an average

AIR OPERATIONS :. Fog is expected early in shift. Skies are forecasted to clear by mid morning. Will be breezy.

FIRE BEHAVIOR SAFETY: Most fuels are wet – however – the forecasted weather today could cause drying of grass fuels to the point of becoming available. In breezy winds, grass spread rates could surprise you.

HEALTH AND SAFETY MESSAGE

*“Be like a kite rise to higher heights when adversity encounters you.”
The Gold Team*

INCIDENT: West Lolo Complex	DATE: Monday, August 23, 2021
Major Hazards & Risks: <i>Driving, Fatigue, Mental</i>	
	
<p>Driving: The Southern Area Gold Team wants to thank everyone on the Incident for doing their part in safe operations. As we continue throughout the season, use deliberate actions when driving to and from the line such as avoiding distractions while driving, using spotters when parking-backing, and driving defensively.</p> <p>Occupancy: What is the thing that is occupying my mind during this time. Please take the time to take care of yourself. Frequent breaks, adequate rest, hydration, good eating habits and good personal hygiene practices will help mitigate the acclimated fatigue we all are facing.</p> <p>Mentality: We have had a good safety record because of your mental awareness to ALL surrounding circumstances you encounter. Your attitude does affect those you encounter and how you handle the challenge you face. Do not let complacency put you, your co-workers, or families at risk. Continue to provide awareness and mitigations for Covid-19 prevention in all our daily operations.</p>	

Thank you for your time and consideration

*West Lolo Complex Safety Officers: Paul Churchill, Buddy Kelley, Shawn Duggar,
Larry Holsomback, Barry Hogge, Steve Gray (T), and Jeff Henderson (T)*

INCIDENT SAFETY ANALYSIS 215a

West Lolo Complex - Monday, August 23, 2021

8. Location	9. Hazard	6. Control or Abatement Action (Engineering, Administrative, PPE, Avoidance, Education, etc)
Incident	Air Operations	<ul style="list-style-type: none"> ~ Avoid transfer of risk from ground to aviation resources. ~ Utilize safe and effective strategy and tactics. Involve pilot in mission planning. Conduct thorough risk assessment prior to mission. ~As of 8/15/21 flight time will be limited to Civil Twilight per Forest and Regional policy. ~ Ensure All aviation operations are integrated and coordinated into incident aviation operations ~ Build in contingencies to aircraft limitations. Extended medivac times etc. ~ Ensure positive communication with all air resources.
Fireline	Hazard Trees	<ul style="list-style-type: none"> ~ Through daily briefings remind resources about established "Hazard Tree Safety" guidelines. ~ Inform resources on shallow rooted trees in fire area. Weakened root systems from drought and fire strain are more receptive to wind fall. ~ Establish trigger points for disengagement during high wind events. ~ Limit firefighter exposure in areas with potential weakened trees. ~ Utilize heavy equipment to remove / reduce hazard tree exposure.
Fireline	Steep Terrain & Rolling Debris	<ul style="list-style-type: none"> ~ Maintain 8'-10' spacing when working & walking. ~ Avoid working above personnel when rolling material may impact those below. ~ Be on the lookout for rolling rocks, debris, or burning material. ~ Evaluate necessity to send personnel in areas with limited access. ~ Post lookouts IRPG Pg 7
Incident	Driving & Traffic	<ul style="list-style-type: none"> ~ Schedule shifts that promote travel during daylight hours to reduce driver fatigue and provide for increased reaction time. ~ Prepare drivers for fog/smokey/wet road conditions, wildlife and other unexpected hazards. ~ Establish incident tempo that reduces urgent operations and operational rush. Promote "Slow and Steady" pace. ~ Ensure drivers are with familiar vehicle operations (rental vehicles).
Fireline	Heavy Equipment Operations	<ul style="list-style-type: none"> ~ Provide daily safety briefings to remind about heavy equipment hazards. Always maintain working space. ~ Establish traffic control along roadways. Ensure communications are established with operators. ~ Identify and communicate hazards in the working area (traffic, power lines, culverts, etc) ~ Maintain awareness of specific roadway hazards for heavy equipment.
Incident	Personal Hygiene / Covid 19	<ul style="list-style-type: none"> ~ Adhere to local, agency and IMT policy and direction to prevent spread of virus. Educate incident personnel in policy and practices. ~ Ensure self assessments, social distancing, face coverings and personal hygiene. ~ Encourage anyone with potential symptoms notifies supervisor immediately. ~ Don't share personal items such as water bottles communication devices and utensils. ~ Wash hands before meals, and after use of rest room facilities. Follow with hand sanitizer.
Incident	Wildlife & Livestock	<ul style="list-style-type: none"> ~ Provide training on wildlife hazards to all fireline personnel (Moose / Bear/ Buffalo). ~ Provide daily reminders of wildlife hazards to all personnel to maintain awareness. ~ Ensure personnel are comfortable with use of bear spray (if available) and other deterrents ~ Provide guards and other precautions as conditions warrant.

INCIDENT SAFETY ANALYSIS 215a

Incident	Incident Camp	<ul style="list-style-type: none"> ~ Be aware of camp medical and evacuation plans ~ Wear closed toe footwear with acceptable support. Be aware of potential for uneven footing and loose rocks. <li style="text-align: right;">~ Wear PPE as required for assigned ~ Loading and carrying: lift with legs, not back. ~ Drive slowly. Max 5 MPH. Watch for pedestrian traffic. ~ When Backing: Use a Spotter. ~ DO NOT drive or park in sleeping areas. ~ Personal Hygiene: Wear Masks, Distance, Wash hands after toilet use and prior to eating. ~ Stay active, stretch and walk around often. ~ Be Aware there may be Snakes, Insects and other live hazards in camp. ~ Alcohol and / or Illegal drugs are prohibited in camp.
Incident	Chain Saw Operations	<ul style="list-style-type: none"> ~ Follow "Hazard Tree Safety" guidelines, IRPG Pg 22 ~ Follow "Procedural Felling Operations" IRPG Pg 85. ~ Look up, Look down, Look around for hazard tree indicators. ~ Only fell and buck trees within your expertise, and training. ~ Do not fall trees during high wind events. ~ Ensure proper use of all required PPE.
Fireline	Indirect Fireline	<ul style="list-style-type: none"> ~ Post lookouts, identify escape routes and safety zones IRPG Pg. 7 ~ Review "Strategy Direct/Indirect Attack" IRPG Pg. 82-83 ~ Refer to "Line Location" IRPG Pg 84
Incident	Bees, Ticks, Mosquitoes	<ul style="list-style-type: none"> ~ Identify personnel with known allergic reactions to stings. ~ Provide repellants and nets to prevent stings ~ Ensure crew members have medication / EPI pens if needed and others on crew are aware of storage location(s) and how to use. ~ Establish inter-crew Incident within Incident process to expedite medical response to allergic fireline personnel.
Incident	Foot Travel	<ul style="list-style-type: none"> ~ Take short steps in potentially slick or slippery areas. ~ Use caution on uneven surfaces. While traversing steep terrain on fireline move across slope when possible to travel up or down. ~ Place your full attention on walking. Focusing on cell phone while walking is unsafe. ~ If you do fall protect your head and back. Brace yourself if possible.
Incident	Firefighter & Public Smoke Exposure	<ul style="list-style-type: none"> ~ Refer to "Smoke Hazards and Mitigation" IRPG Pg 30 ~ Use warning lights and provide traffic control on roadways during smoky and night operations. ~ Rotate crews out of smoky areas during firing and mop-up operations. ~ Contact Communications when firing operations are initiated.
Incident	Fatigue & Over Exertion	<ul style="list-style-type: none"> ~ Drink 1 quart of water each hour during and after work. ~ Set a reasonable work pace and allow adequate rest breaks while on the project. ~ Stagger work crews start time to limit fatigue. ~ Use buddy system to monitor personnel of heat related and fatigue issues. ~ Follow work / rest guidelines.
Fireline	ATV/UTV use	<ul style="list-style-type: none"> ~ Ensure equipment is inspected and safe to use. ~ Restrict UTV's to max width of 50" on ATV trails due to width and severe out sloped conditions. ~ Ensure operator is trained and certified to operate. ~ Ensure operator has proper PPE according to the Redbook and/or RMA. ~ Question if it is mission critical.

COVID Mitigations and Screening Tool

Maintain Situational Awareness of The Fire Environment: 10 & 18, LCES

- Monitor each other, watch for symptoms (Firefighter Health Screening Tool).
- Never share PPE, UTV & flight helmets, radios, or other equipment
- Implement daily decontamination procedures of apparatus and equipment
- Adjust operational periods to allow for additional COVID-19 logistics.
- Plan for overnight lodging/camping/feeding scenarios that maintain separation from other fire personnel and community

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>* Take temperature with no-touch thermometer, if available *</i>

6. Special Medical Emergency Procedures:

- Identify on scene IWI commander by name and position. Announce "Medical Emergency".
- Patient or nearest responder notifies Group Supervisor who will respond to the scene and become the "incident within an incident" (IWI) commander.
- Group Supervisor will notify nearest medical responder and ICP-Communications of the incident
- **Use the "8 Line" report attached to the back of this IAP or page 118 of the IRPG.**
- Urgent Care is for non-Life-threatening medical care.

7. Prepared by (MEDL): Sherri McDougal, MEDL(t) Signature: *Sherri McDougal* Jeff Cummings, MEDL Signature: *Jeff Cummings*

8. Approved by (SOF2): Paul Churchill Signature: */s/ Paul Churchill*

ICS 206	IAP Page _____	Date/Time: 8/21/21 @ 1600
---------	----------------	---------------------------

- Aviation Response Plan
1. Evaluate patient for Code Green-Yellow-Red per Medical Incident Report 8 Line
 2. Contact Two Bears Air for hoist capable mission
 3. Move patient to extraction point for extraction
 4. If necessary, ground-transport patient off fire-line to airport in Plains Mt for intercept with LifeFlight

The convention calls for frequency lists to show four digits after the decimal place, followed by either an "N" or a "W", depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater and base stations must be programmed with the Rx and Tx reversed.

Logistics Schedule

Food

- Coffee – (0500-0900)
- Breakfast – (0600-0900)
- Lunch – Sack available
- Dinner – (1800-2100)

Shower Schedule

- 0500-1200 and 1400-2300

Laundry Options *“The Wash Tub, 202 Willis Street, Plains, MT”*

- Coin Laundry service 0700 – 2000 (406-210-8873)

Quiet Time Schedule

- 2100 – 0500 (8 hour work rest timeframe)

Ordering Process

- 0600-1900 daily

** If you are ordering Overhead, Equipment, Crews and Local Purchases make sure to submit through the Ordering Manager and if you have NFES Supply orders make sure you run those over to the supply unit to be filled or ordered.

West Lolo Finance Procedure

Finance Email: 2021.westlolo.finance@firenet.gov

Directions for emailing Documents:

<p>Contract Resources Send To: 2021.westlolo.finance@firenet.gov SUBJECT: Include Key Word: Equipment</p>	<p>Overhead, Crews, and Cooperator Resources Send To: 2021.westlolo.finance@firenet.gov SUBJECT: Include Key Word: Time</p>
--	---

DOCUMENTS TO EMAIL TO FINANCE

	<p>Overhead, Crews, and Cooperator Resources</p>	<p>Regular Government Personnel & ADs / Cooperator attachments: Check-In: Crew Manifests, MOUs, or Cooperative Agreement (if applies), AD Single Hire Sheet/RO Daily: Crew Time Report (CTR), Shift Ticket (<i>when applies</i>), receipts(fuel issues, TV receipts, etc.) @Demob: Signed OF288, Final Equipment Use Invoice (Cooperator), Demob Sheet</p>
	<p>Contract Resources</p>	<p>Private: Contractor Attachments: @Check-In: Resource Oder, Full Contract/Agreement, Certifications (<i>if required</i>), Pre-Inspection Daily: <u>SHIFT Tickets</u>, receipts (fuel issues, claims, etc.) @Demob: Contractor Evaluations, Final Shift Tickets and receipt for Addition/Deductions, Post-Inspection, Final Signed Invoices, DemobCheckout Sheet (<i>ICS 221</i>)</p>

FINANCE DEMOB PROCEDURES

All Resource will be sent their **DRAFT OF-288/OF-286's** via the Finance email. 12 hours will be provided to allow the resource to review their document and reply back to Finance with the statement "No Corrections Necessary" or a description of any issues. After Finance receives the email, any discrepancies will be resolved. Next, the resource is sent the **FINAL DOCUMENT** for signature. They will then email the signed document back to Finance, if able. If you are unable to sign, respond to that effect and we will digitally sign on your behalf. Finance will then sign the **FINAL DOCUMENT** and email it back to the resource. This completes the process.

HUMAN RESOURCE MESSAGE

There is zero tolerance for drugs or alcohol on this fire incident.

**People may hear your words,
but they feel your attitude.**

John C. Maxwell

It is your choice how you project
yourself today.

Choose to be positive; it can change
your life!

Debby Hassel, HRSP (979) 255-5513

hrspfire@gmail.com

Training Message

Check In – If you have a position task book (PTB), scan the Master QR code to get to the training QR code. There you initiate the check in process with the Incident Training Specialist. Don't forget to email a copy of your qualification card and position task book cover to Robbie Hollingsworth at 2021.westlolo.plans@firenet.gov

Trainee Demob - In order to receive credit for your assignment, you must close out with the Incident Training Specialist prior to departure.

Close out requirements include:

1. Ensure your trainer(s)/evaluator(s) has/have initialed completed tasks in your PTB.
2. Obtain an Incident Performance Rating (please sign in the appropriate block at the bottom of the form)
3. Obtain an Evaluation record
4. If evaluator initialed #1 on your Evaluation Record, ensure he/she signs as final evaluator (located on the backside of your PTB cover page)
5. Close out with TNSP and email all documentation (including item #4, When appropriate) to 2021.westlolo.plans@firenet.gov

Southern Area Incident Management Gold Team Fire Information

Need something shipped to firecamp? Use the following address only:

Attention: West Lolo Complex Fire Camp
[Your Name]
83 Helterline Road
Plains, Montana 59859

Lost and Found: Turn in lost items and claim items lost at the Information Officer tent!

Photos can be texted to Public Information Officer Brook Smith at: 865-603-5217

<https://inciweb.nwcg.gov/incident/7620>

OR [scan the QR code with your phone's camera!]

Steps in the Demob process

- **Note of your demob time listed in the Demob List**
- If you are overhead, try to close out virtually by following the process on the Finance Page.
- Return all accountable property to the Supply Unit, and/or Communications.
- Have equipment inspected at Ground Support and go through Weed Wash.
- Submit CTRs/Shift Tickets and FINALIZE your OF-288/OF-286, read Finance Procedure page for more instructions.
- Scan the QR code below to provide demob info if Driving. **We need you to provide your ETD/ETA, and RON city, if taking more than one day to drive home.**

Demob Contact: Jeff DeMatteis, 720-441-8211

Email: 2021.westlolo.demob@firenet.gov

West Lolo Complex Documentation Process

1. Name files in accordance with the standardized NWCG naming conventions:

{DocType}_{Version}_{Date}_{IncidentNumber}

EXAMPLE: UNIT DAILY LOGS – ICS 214

214_HowellJocelyn_20210814_000893

2. File your docs in the "eDoc Box". Pick 1 of the following methods:

A. Drop them daily into the 'eDoc Box' in the General Channel under 'INBOX for Documentation'.

B. Email them daily to jocelyn_howell@firenet.gov

All documentation will be filed electronically in TEAMS for the West Lolo Complex. There are no paper copies or paper doc boxes. If you need to scan files, there is one available in the Plans room at ICP. If you have questions about what to file or how, please reach out!

Questions about the process? Need help?

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
