3. GENERAL CONTROL OBJECTIVES FOR THE INCIDENT (INCLUDE ALTERNATIVES)												
Management Objectives												
<ol style="list-style-type: none"> 1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic/management objectives and incident requirements. 2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposures to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher risk tactics. 3) Maintain and strengthen relationships with the Helena-Lewis and Clark NF, Custer-Gallatin NF, private landowners, the public, cooperators and partners by providing timely and accurate information. 4) Use management actions that ensure fire personnel safety from contact with bears through compliance with the Food Storage Special Order. 5) Protect the unique attributes of impacted watersheds through actions that minimize sedimentation and invasive species movement. 6) Protect impact to cultural resources through consultation with local forest specialists. 												
Control Objectives												
Divide Complex												
<ol style="list-style-type: none"> 1) Protection of human life and safety is the first priority for all actions taken and shall override all other incident control objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success. 2) Protect Tenderfoot Experimental Forest infrastructure within the tenderfoot drainage. 3) Protect the communities of Belt Park, Deer Creek Estates, Monarch, Neihart and the Hwy 89 corridor to avoid loss or damage to private lands and critical infrastructure. 4) Use mechanized equipment to establish and improve control lines where approved to minimize risk and exposure to firefighting resources. 5) Provide initial attack resources to respond to any new ignitions within the TFR area to limit potential size and growth.

Finance Remote Processing Procedures

To the right is access to electronic Finance forms. You can access them via the QR code or the URL. On each form are four buttons PRINT, RESET, SAVE and EMAIL. You can complete these forms on your cell phone, tablet or laptop. They are Adobe PDF forms so you will need a PDF reader app on your device. The forms were created on a laptop so the commands in your cell phone and tablet do not allow for the Save and Print functions to work. You will need to use your app's functionality to Save or Print. Once you have completed the appropriate form for your resource please email to your supervisor for approval.

Supervisors can use their app to apply a signature or just type /s/ your name on the approval line. After approving please email the approved form back to the resource for their record and to the correct finance email:

2021.americanfork.finance@firenet.gov

2021.divide.finance@firenet.gov

2021.woods creek.finance@firenet.gov

Resources, please send photos or electronic copies of Casual Hire forms, contracts, Cooperative agreements, Vehicle inspection, Manifests and resource orders to the correct finance email:

General Message

HUMAN RESOURCE MESSAGE

Transition!

Doesn't anything ever stay constant on an incident? NO! The only thing that remains constant on an incident is that nothing remains constant.

The Management Team on the Incident is changing, but one expectation remains the same; to continue to run smoothly. The way to keep things running smoothly is to:

- (1) appreciate the efforts of those before you,
- (2) communicate openly in order to maintain understandings,
- (3) trust one another to always do our best.

This is the time when maintaining your composure is the most critical. Any time we experience change, we have the opportunity to lose focus on what is important. Remember you are here to deal with the incident, and keep the negative issues from happening.

Be ever watchful and take good care of yourself and those around you.

DEMOB HOURS 0700 - 2000

*****If you need a flight home, contact demob at least 72 hours before your demob day to make arrangements. *****

Three things to keep in mind about demobbing:

- 1. You need to be off shift for minimum 8 hours and rested before we can let you start travelling.**
- 2. You need to be back to your home unit by 2200 hours or you have to RON and continue travelling the next day.**
- 3. If you are taking a flight home, please shower and put clean clothes on. Your fellow passengers will be very appreciative and you won't end up on the no fly list!**

On your demob day, or last work day, you should:

1. Turn in all supplies, radios and computer equipment checked out from the incident.
2. Email all ICS-214s (Unit Logs) and evaluations Documentation at 2021.divide.docs@firenet.gov
3. Go to the Ground Support Unit for equipment and vehicle inspections.
4. Go through weed wash and obtain a receipt to verify that the equipment has been cleaned. Return that receipt to demob (this can be done virtually by emailing a picture of the receipt to: 2021.divide.demob@firenet.gov.)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented. <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.
